A petition has been started on its rounds among the citizens by the Merchants and Manufacturers association, asking for bet-

ter train service for this city and Omaha. from the Rock Island, Milwaukee and Kansas City roads. What is a wanted is a train put on each of those roads to arrive in Council Bluffs about 9 o'clock in the morning and to leave about 5 in the afternoon, thus giving the poople living in the neighboring towns, for a distance of sixty or seventy five miles, a chance to come to Council Bluffs to do their trading, and go back home again the same day. For several months past the people of the outlying towns have been de-prived of these privileges, but the officials of the Merchants as sociation announce their in tention of securing the advantages desired or knowing the reason why. High Winds Make Things Lively Throughout the City.

NOT QUITE A CYCLONE, BUT VERY NEAR ONE

Windows Blown In. Smokestacks Torn Down and Loose Articles Carried Out of the Country-A Lively Time Generally Experienced,

A high wind raged in the city all day yesterday, and although it did not attain the proportions of a cyclone, it did very well for starter, and managed to keep things stirred up all day by playing freaks on such unfortunate people as had to be out of doors. The streets were almost deserted all day. and business was about at a standstill. The smoke stack of the canning factory was blown down by a sudden gust of wind, and lies along the roof of a neighboring building. A large piece of plate glass was blown out of the front of the bulking occupied by Miss Ragsdale on middle Broadway. The flagnote on Myers' funiture store was nearly blown off, and left in such a dangerous position that the members of the fire department had to pull at down to precent it from doing some damage to passers by. Some serious damage was very narrowly escaped at the Broadway Methodist church. One of the large windows on the north side of the church was blown part way in and was hanging just ready to fall when some of the firemen noticed it and hastened to fix it. It would have undoubtedly fallen to the ground in a few minutes, more in which event the

eil Bluffs, Ia. Henry Delong and His Work. The report which Rev. Henry Delong, manager of the Union Christian mission, has just issued makes a flattering showing for the work of the mission. It covers the eighteen months since it was started, and in that time 259 persons have professed conversion and many of them have joined one of version and many of them have joined one of the city churches. Clothing has been fur-nished 1,422 persons and food to several hundred more. The expenses of the mission have all been paid up to May 1, and enough pledges have been secured to pay the rent until the first of next January. During the eighteen months Mr. Delong has received, above ex-penses, \$218 for his work, a small enough pittance, when the magnitude of the work he has done is taken into consideration, and the noble efforts he and his wife are making to case the burdens of poverty from the to case the burdens of poverty from the shoulders of so many people, and to prevent the boys and girls of poor families from growing up in the shiftlessness and worse, which their surroundings, in many cases,

would force upon them.

The school board held a special meeting last evening at which they selected a size for the new school house in the western part of the city, and took steps toward putting up the building. C. E. Bell, A. C. Schmook and Woodward G. Se. Bell, A. C. Schmoor and Woodward Bros. were there and presented the plans they had drawn up for the building. Schmook's plan was for a building which woult cost \$8,500, while Bell's was about \$200 less than that amount and Woodwards' \$300 more. Each one seemed to have its particular advantages, and, after half an hour or more spent in discussing, the board was no better pressured to make a selection was no better prepared to make a selection than before the meeting was called to order. It was accordingly decided to refer the plans to the committee of the whole, in order that a fuller examination might be given them. FOR SWEET CHARITY.

The "Living Whist" Entertainment Proves a Most Delightful Success. Whist, played with men and women as the pack, is doubly interesting, and the first presentation of this eastern fad in Omaha last night was one of the delightful successes of the season. Pretty girls appeared in lovely costumes appropriate to the denominations of the cards represented, while young men arrayed like Solomon in all his glory gave a rich setting to a scene of brilliancy that has not been rivaled in the west. The groupings of the "living cards" and the attractive and well executed dances, which are necessarily a part of the play, were executed with artistic excellence and the audience, which had braved a most capricious and fickle night, received more than a fair return for the mite donated to the Creche, one of the most deserving charities of the metropolis, for whose benefit "Living Whist" was given. Thirteen tricks were played and as many fancy dances were given by the fifty-two ladies and gentlemen who devoted a week to rehearsals for "sweet charity." The dances were: l'Equerre, le Circuit, la Chasse, Aurora, Hornpipe, Fling, Harvard Gavotte, Horn-pipe Polka, Oxford Minuel, Sadowa, Lone Fisherman, Athalia Polka and la Commande The play was conducted by Messrs. Millard Funkhouser, W. S. Curtis, Dick Berlin and George Mercer, who showed a fine apprecia-tion of the possibilities of this game by play-

and Curtis winning the odd trick and the Play was begun at 9 o'clock, the "cards" marching about the square representing the table with the four denominations, hearts, clubs, spades and diamonds chalked in the corners. After the march the body wheeled, countermarched and became decidedly mixed when the shuffle began. Then Mr. Mercer cut the cards, the deal followed, and the cards were arranged in long and short suits after Mr. Cavendish's rules. Mr. Berlin dealt, and the manner in which he executed this feature of the per-formance, showed that he could manipulate eards with quite as much ability as the illustrious prestidigigateur, Mr. Her-Mr. Funkhouser led and played a heart from a long suit, but met on the threshold of the game by a beautiful

finesse, which completely upset Mr. Funkhouser's deep laid plans.

The third dance is Chasse, danced by Miss Standish, Miss Fritza Barnard, Mr. Palmer and Mr. Arter representing the third trick, was a fine bit of terpsichorean art, especially on the part of Miss Barnard, who made a pretty and piquante three of hearts. Trick No. 6, the fling won a recall. The Howard Gayotte, trick No. 7, was a stately dance executed with charming grace and beauty. But this might be said of all the dances for were all features of a really meritorious

performance. After the termination of the came and Me Cortis and Mr. Berlin had been declared the victors, the audience and performers enjoyed the balance of the evening in cancing.

The participants in the game of living

So general was the praise given the per-formance that the ladies of the Creche have decided to repeat the entertainment on Monday evening, when it is hoped the weather will not interfere with a really meritorious entertainment.

May Succeed in Having the Street Commissioner Ordinance Repealed. Street Commissioner Winspear scored a point in the council last night, and an ordinance repealing the existing ordinance creating the office of street commissioner was hustled off to the committee on judiciary with a rush. Mr. Hascall introduced the ordinance by request, and in doing so he said he did not commit himself one way or the other regarding the legal aspect of the case. He simply desired to have the conflict of authority decided.

As soon as the ordinance had been read a half dozen members were on their feet. Mr. Munro secured recognition and moved that the ordinance be laid upon the table, which motion was seconded by Jacobsen. Mr. Munro said he did so for the reason that other papers bearing upon the same cree had

go to the committee on judiciary, and there it went without a dissenting vote. Mr. Steel followed with another ordinance repealing the ordinance empowering the Board of Public Works and city engineer to appoint an inspector of sidewalks. It also

was referred to the judiciary committee A little later in the proceedings the mem bers refused to recognize the existence of a street commissioner. Mr. McLearie offered a resolution, which he said had been handed a resolution, which he said had been handed bins by a member of the Board of Public Works, and he introduced it, but believed it was incorrectly worded and should be changed. The resolution simply instructed the sewer commissioner to put in sewer in-lets on Izard street. In an instant Mr. Murro moved that the Board of Public Works and engineer be substituted for sewer commissioner. Half a dozen members sec-onded and the amendment prevailed.

Routine Proceedings.

The protest of Gibson citizens against the dumping of offal into the river at that point was referred to the Board of Health. The comptroller was instructed by resolu-tion to accept the propositions of the Hart-ford Steam Boder Inspection and Insurance company, the Fidelity and Casualty com-pany, and the American Casualty Insurance

and Security company, taking insurance policies in each company for \$20,000 at a cost not to exceed \$500.

After wrangling for nearly one hour a resolution was adopted appropriating \$15 per month each for horse hire for the two assistances. sistants in the office of the building in-spector, for a period of six months. A reso-lution followed this reducing the amounts allowed to all employes for horse hire to \$15 per month. It was referred to a special committee composed of Steel, Back and Hascall.

The protest of the property owners against repaying Cuming street and asking that the payement be repaired was referred to the city engineer, to report to the next meeting. Chairman Prince of the committee on viaducts and railways reported favorably upon the ordinance vacating portions of West street and giving to the Omaha Helt railway permission to fill up its trestle now occupying said street, and recommen led that the ordinance pass. The other mex-bers of the committee were aggrieved at not being permitted to sign the report and it was recommitted to the committee An amending ordinance was introduced providing that it shall be unlawful for any person, company or corporation to engage in

the removal of garbige, manure or ashe-uetil a permit has been secured for doing such work. Ordinances were passed providing for the issuance of district grading bonds amount-

ing to \$97,400. The council will meet again Monday even-ing in committee of the whole to approve of specifications and plans for sewers to be constructed during the present year. World's Fair Notes.
