July for the First Time is No Longer the Under Dog.

MAY WHEAT HAS BROKEN THREE CENTS

Poor Prospects for the Next Winter Wheat Crop Did Not Improve Yesterday and Now Traders Are tions erally Alarmed.

CHICAGO, Ill., April 20.-May wheat broke 3c today and July for the first time is no longer the under dog. Armour was a seller, and though he bought 25,000 but of May, later on the famous near-by month was at 1c decline from July at the close, the market leaving off strong for July at about %c gained for the day. while May was firm at &c below the price it closed at yesterday.

The very poor prospect of the next winter wheat crop did not improve and nowalarm begins to spread into that great stronghold of the bears—the far-stretching spring wheat-regions of the northwest. Reports were that country was deep under snow and seeding already ton days behind.

Corn was a trifle steadler, but no material change occurred in values. The principal feature was the changing, selling May and buying July at from 15c to 2c difference, about the only demand for May being from sharts.

shorts.

Provisions were strong throughout, except at intervals, last prices being the highest reached. The firmness was due to packers reporting an excellent and increasing demand, while hog receipts fell below the estimate and expectations for tomorrow are small. The gains since yesterday amount to from 2749-15 of the increasing demand, and since yesterday amount to from 2749-15 of the increase receipts for tomorrow. Wheat, 265 ours; coun, 170 cars; outs, 210 cars; hogs, 14,000 head.

Omaha Produce Market.

With the wind blowing a gale, and with every one remaining indoors that was not absolutely forced to be out, it could hardly be expected that there would be very much activity in the produce district. In addition to the blindrance from unfavorable weather is the fact that the quantity of butter, eggs and poultry coming to market is very light. Taking everything into consideration the market could not very well be otherwise than duil.

Butter is becoming almost an unknown article in this market, especially good butter. It the season between huy and grass, and until grass comes there is not much prospect of an increase in the receipts or a decrease in the price. Reports from the country indicate that the grass is commencing to start, and that it will not be long before new butter will commence to arrive.

while to arrive.

The egg situation is, to say the least, peculiar. The market in the country has been advancing and track buyers have been strong buyers. In the meanwhile the market here has remained stationary. Chicago buyers have been picking up a good many eggs in Nebraska and have had much to do with keeping up the market in the country. The market in Chicago, however, is not so strong as it was a short time ago. nort time ago.

Poultry is also very scarce and high but the

arrival.

There were no fresh receipts of strawberries to speak of. The first shipment of berries from Arkansas is expected in on Friday. The general fruit market is quiet owing to the absence of warm weather which is necessary to stimulate the demand. No one wants to eat fruit with mittens on. PRILITS.

STOCKS AND BONDS.

Speculation in Securities Was Feverish and Unsettled Again Yesterday. New York, April 20.—The stock speculation was feverish and unsettled again today by the same causes which have operated against the market for weeks past. The uncertainty in regard to the treasury policy, the strength of sterling exchange, the talk of heavy gold engagements and the signs of increased strin-

gency in money all tended to unsettle the views of holders of stocks. At the same time the bears were emboldened to make a more vigorous attack upon such stocks as they knew to be unprotected.

Taken althrephase the bears as they knew vigorous attack upon such stocks as they knew to be unprotected.

Taken altogether the losses were by no means heavy. Missourl Pacific fell off a percent, National Cordage preferred 3 per cent. Lake Shore 2% per cent, Manbattan 2% percent. General Electric 13, percent and Western Union 1% percent. The remainder of the list yielded 4.0% percent. A number of shares advanced 4.01 per cent during the morning, but later on in sympathy with stocks just named railied. Just previous to the close there was a recovery of from 3 to % percent from the lowest ourreports, which proved to be well founded, that Secretary Carlisle would come out with an official statement in regard to his policy this evening. In a majority of instances the net declines today were 4 percent. This is explained by the low prices and were buyers on all the reactions. Among the specialities, Tennessee Coal & Iron preferred broke 18 points, Edison Illuminating 4% percent to 29. Later Edison Illuminating railied 2% percent. The market closed steadler in tone.

OMAHA LIVE STOCK MARKETS. Extremely Light Run of Cattle-Hogs Take a Wild Jump.

THURSDAY, April 20. The receipts of cattle numbered only 840 head of all kinds. There were a few fair to head of all kinds. There were a few fair to good beeves in the pens, but hardly enough to make a good market. Prices were somewhat uneven, but, in the main, strong to a dimenigher on anything wanted at all. Trade was fairly brisk throughout.

The supply of cow stuff was decidedly small, and as the denand was fairly good, the pens were soon cleared, prices ruling steady to strong.

WORLD'S PAIR NOTES.

Among the English exhibits at Chicago will be Grace Darling's lifeboat. Paderewski participates in the concerts in Music hall on the 2d and 3d of May.

The expenses of the exposition company to date amount to \$18,000,000, and still the treasury is not empty. Nebraska's day at the fair is June 15 (Utah, July 24; Kansas, August 15; Montana, Sep-tember 20; Iowa, September 21.

The hotels of Chicago are filling up and the premonitory swell is felt of the great tidal wave of humanity that will pour litself into the city during the coming months If the Arab contingent at the World's fair persists in looking for gore every time it loads up with beer and sausage the United States will become involved in serious inter-

nat Anal complications. England will show at the fair the largest lump of coal ever mined. It is a mouste specimen of the Lancashire diamond. It is what the English call a cob of cannel coal and weighs eleven English tons and fourteen hundredweight. It contains 350 cubic feet and would yield 182,344 cubic feet of gas, equal to 25,469 pounds of sperm. L. E. Wolfe, state superintendent of public

schools in Kansas, is having a big educa-tional map of the state prepared for the state exhibit at the World's fair. The map, which is ten feet square, will show the exact location of every one of the 10,000 school houses of the state as well as the State university, normal schools, colleges and other nstitutions of learning. Bretros Effendi Helweh, the famous oriental decorator, has arrived in Chicago from Paris with forty large boxes, containing the parts of a wonderful work which is to be displayed at the World's fair. It is to rep-resent the luxurious splendor of a room of an easter sultan. It is made of 2,000,000 pieces of mosaic and took ten years of Ef-

fendi Helweh's life to make it. The Catholic temperance congress assembles in the Congress building June 8 and con-tinues in session three days. Each general union is entitled to ten delegates-at-large and one additional delegate for every 5,000 members. State and local unions, individevery university, college and seminary are entitled to representation. The program of the congress can be had by addressing Walter J. Gibbons, secretary, 27 North Clark

"A source of financial aid for us this year," says the St. Louis Globe-Democrat, "which has not been mentioned, but which is worth considering, is the approaching Columbian fair. American tourists spend in Europe every year from \$60.000,000 to \$100,000,000, without any material offset from expenditures by European tourists here. This year the fair will keep thousands of Americans at home who would otherwise go abroad, and send tens of thousands of Europeans her who under ordinary conditions would stay away. These changes will tell in our favor in the movement of money to and fro be-tween the United States and Europe."

The 40,000 souvenir quarter-dollars which congress authorized to be minted for the Board of Lady Managers of the World's Fair will be issued, it is expected, by May 1 These coins are of peculiar interest for sev-eral reasons. In some respects the Isabella quarter is a much greater novelty than the Columbian half-dollar, as the coins bearing the Spanish queen's portrait are much more limited in number. One of the special features of the new coin is that it is the first issued by this government to bear the por-trait of a woman. Other coins pear ideal-ized representations of the fair sex, but this is the first to be honored by an authentic re-production of a particular feminine face. Samples of the admission tickets to the

World's fair have just been struck off by the American Bank Note company, which has a contract to furnish 5,000,000 of them next contract to furnish 5,000,000 of them next summer. The tickets are well executed and about the size of the old 25-cent "shin-plasters." There are four tickets, each of which calls for a single admission at any time during the World's fair. Different colors are used in each variety. One bears a handsome vignette of Washington; another of Abraham Lincoln: the third an ideal head of an Indian, and the fourth a portrait of Columbus. The vignettes are on the left side of the tickets, while on the right is en-graved "World's Columbian Exposition, Chicago. Admit the bearer 1st May to 30th Octo-

That British journalism cannot be charged with any lack of public spirit it is well known, and the latest exemplification of the fact is as interesting as it is gigantic. The proprietors of the Dundee Weekly News, impressed with an idea of the advantages which might be derived from a better knowledge by British working men of the social and physicial conditions of life in America, and conceiving that not a little could be d me in this direction to raise the quality of skilled labor, have arranged to send out an expedition of working incu to the World's fair. The proprietors of the News bear the whole cost of what they call "A Tour of Observation in America," and the composi-tion of the expedition is in the hands of the working classes of Great Britain.

In an address to the public the officials of In an address to the public the officials of the fair announce, among other taings, that the exposition will open May 1; that an abundance of pure drinking water will be furnished free to all; that ample provision for seating will be made free of charge; that about 1,500 closets and toilet rooms will be located at convenient points on the grounds and in the buildings, and an equal number of lavatories, a charge of 5 cents being made for the use of the latter: that an admission for the use of the latter; that an admission fee of 50 cents will entitle the visitor to see and inspect everything within the exposi-tion grounds except the Esquimaux village; that imposition or extortion will not be tolerated; that free medical and emergency

The royal jewels of Germany will be ex-hibited in Germany's building. Aside from their intriusic value, which is enormous, they possess great historical value, and were they lost, money could not replace them. They are the collections of many years, and are loaned officially to the German exhibit at the fair by the present emperor. Besides the lewels of state, there are large quanti-ties from firms and private citizens. The ornaments are of gold and sliver, studded

About three years ago, the city council appropriated \$50 per mouth to be used as a 1 fund for the detection of infringements of the law by liquor dealers. It was provided, however, that no part of this should be spent in buying drinks or in any way inducing the dealers to break the law. Recently the police commissioners requested the council to strike off the proviso, in order that the money might be used in detecting saloon men violating the Sunday and closing laws. The council failed to see it in that light, and adopted without a dissenting vote the police committee's recommendation that the resolution stand in its original form.

first session and many more are expected by tomorrow morning. President North of Nevada was absent, and Acquilla Nebeker was chosen chairman. Committees on credentials and resolutions were appointed. Intrais and resolutions were appointed. In-terest in the association seemed much in-creased since the first meeting and organiza-tion in this last April. In view of the prob-able establishment here of stock yards, said to be backed by Omaha parties, questions to be brought up are expected to prove of vital interest to cattle growers and shippers.

AFTER THE APPRAISERS.

City Council Will Materially Reduce Their Claims for Little Work. Some of the appraisers who have been drawing pay from the city for a week while doing a day's work will soon receive a setback. It has dawned upon a majority of the councilmen that the fees are outrageously large, and steps will be taken to correct the evil.

At the last meeting three items were stricken from the appropriation ordinance in favor of appraisers. One item was for \$83, \$15 for the chairman and \$9 each for the other two. The chairman worked three days and the other two appraisers three days each in determining the damages arising by reason of widening Nineteenth street from Bancroft to Castellar, a distance of three blocks. Also on grading Hickory street from Fifth to Sixth streets, one block, the bill of the appraisers amounted to \$15, three days work for the chairman and two or each of the other two.

or each of the other two.

A claim that caused Councilman Manro to
protest was for determining the damages
rising by reason of opening Locust street
from Twentieth to Twenty-first street, one lock, which required the chairman to labor for seven days and the other two for four days. The appraisers' bills amounted to \$45, \$31 for the chairman and \$12 each for the other two members. The Fifth ward coun-cilman could not see how it was possible for three appraisers to put in a week in deter-mining the damages arising by reason of pening up a street for a distance of one

Another instance was widening Bancroft treet from Tenth to Eleventh, and the others two days each at \$100 per day for looking over one block and agreeing upon damages. While the councilmen were discussing the matter it was suggested that the fees received by the appraisers were getting to be a very profitable source of in-come, and that it was time to call a halt, which was done by repudiating the three last claims for fees that were presented. For his shrunk shank; and his big manly Turning again toward childish treble, pipes And whistles in his sound.

Extract. Dr. Oschitz and Dr. Kaiser, Imperial Hospital Physicians, of Garrison Hospital, Agram, Austria, write:

"We have employed JOHANN HOFF'S EXTRACT OF MALT in convalescence and for catarrh and pulmonary diseases and impaired digestion with very satisfactory results. As a dietetic, nutriant and tonic it is beyond doubt the remedy par excellence."

Purchasers are warned against imposition and disappointment. Insist upon the Genuine, which must have the signature of "JOHANN HOFF" on the neck label.
