British Budget Shows a Deficit of a Million and a Half Sterling.

INCREASE OF THE INCOME TAX PROPOSED

Chancellor of the Exchequer Harcourt Comes Out Boidly in Advocacy of Adding to the Burdens of the Eng-Hish Taxpayer.

London, April 24.—Sir William Vernon Harcourt, chancellor of the exchequer, introduced the budget for the coming fiscal year in the House of Commons tonight. The estimated receipts for the current financial year are placed at £90,443,000 and the revenue at £89,890,000, leaving a deficit of £1.574,000, due in part to a slight decrease in revenue, but chiefly to the vast growth of expendi-tures, not created by the government, but through the demands of the country upon Parliament. The chancellor said he pre-ferred to meet the deficit by the straight-forward way of increased taxation. The government would likely reform the duties, but the government was obliged to postpone this reform for the session, as such taxes could not at once be fully realized on. They had therefore resorted to the income tax, which it was proposed to increase by a penny on the pound, which ought to add \$2,700,000 to the revenue. The chancellor said that this addition to the revenue would cover the deficit and leave a slight margin over expenditures

Hon. George J. Goschen, chancellor of the exchequer under the Salisbury administra-tion, contolled with the chancellor in having to meet rising expenditures with a falling revenue. Other comments were made, gen-

erally favorable to the budget.
Colonel C. E. Howard Vincent, conservative member of Parliament for Contral Sheffield, referring to a dubious cable dispatch to the effect that President Cleveland proposes to abrogate the reciprocity treaties concluded by the United States with certain foreign countries, asked what founda-tion there was for the report. Under For-eign Secretary Grey replied that he had no information to that effect, whereupon there was laughter.

WAR IN HONDURAS ENDED.

Nicaragua's Assistance Given the Rebels Must Be Explained.

[Copyrighted 1831 by James Gordon Bennett.] Panama, Colombia. (via Galveston, Tex.) April 24.- By Mexican Cable to the New York Herald-Special to THE BEE. |- News has reached here which indicates that the revolution in Honduras is at an end and that peace has been restored. President Ponciano Leivia has invested General Domingo Vasquez, minister of war, with the powers usually exercised by the executive. Ceneral Vasquez is really president of Honduras.

As a result of the assistance given by Nicaragua to the revolutionary leader Policaapo Bonika, war may be declared between that repiblic and Honduras at any moment. Honduras is well supplied with war material, having just received an addi-tional supply of arms. General Luir Bogran will probably be appointed minister of war. Under General Bogran's administration General Vasquez was sent out of Honduras during the president's visit to the United States. When Leivin succeeded Bogran as chief ex-ecutive he recalled Vasquez and made him minister of war. It now appears that the differences between Vasquez and Bogran were patched up by the relinquishment of the presidency by Leivia in favor of Vasquez. General Bogran, being minister of war, however, will virbeing minister of war, however, will vir-tually make him president. Together Vas-quez and Bogran will be able to defeat Nie-aragua. A war of this kind may be over in a few weeks. When it has ended there will be a new election and General Bogran will be chosen president. Positions will thus be changed, for when Bogran becomes presi-dent he will choose Vasquez as his minister

The Omaha Woman's club was attended so largely at its first meeting yesterday afternoon that the room provided for the meeting would not hold the ladies, and it was neces-sary to adjourn to the lecture room of the Young Men's Christian association. The constitution and by-laws were read and adopted after considerable discussion in which the members showed that they were in carnest in their determination to form a club which would be of mutual benefit and interest. The greatest harmony prevailed "goodfellowship" seemed to watchword round which all present rallied watchword round which all present railied in the hope of keeping on a high plane above petty differences and prejudies. > Last night the Omaha Athletic club held its annual election for officers and directors. and the interest manifested proves conclu sively that the associat on is a long ways from being dead or in any danger of dying. There was a good attendance at the session, and a free discussion of the various matters of interest to the club members was had in an informal way before the meeting got down to business. Immediately following the cailing to order of the meeting the election was held and reof the meeting the election was held and resulted; President, Charles F. Tuztle; vice president, Colonel Butter, (late) U. S. A.; trensurer, H. Y. Cook; secretary, Theodore Ringwalt; Messes, S. Franz, Prof. Butler, Ed Morgan, Dr. A. P. Gina and Selden completing the board of directors.

Although not entirely relieved of the in-diction of the seriously menaced it, the club has arranged its financial affairs in such a way that it is not now embarrassed, and the revival of interest that has followed is quite pleasing to those who have worked is quite pleasing to those who have worked so hard to prevent the dissolution of the organization. New members are coming in and many who had dropped out are coming back, now that the existence of the club is assured. The new officers, especially President Tuttle, are men who have worked hard for the club, and in whose hands the affairs will be managed conservatively. While it will be necessary to seep along pretty close to shore, they hope to have the club out of debt, or nearly so, by the opening of next winter, and will then be able to offer attractions other than the mere physical exercise

now obtainable. Tonight there will be an entertainment at the club house, musical, athletic and recita-tional, participated in by members of the club, the Sutorious Mandolin club and Little Sara, the phenomenal child actress. A good program has been prepared for this occasion. An admission fee of 50 cents will be charged.

A man named Alunni, his wife and two sons were murdered as they slept in their house in Perugia, Italy. One of the sons had recently given the police information as to the haunts of the brigands in the surrounding region. The extensive Fuente coal mines on the Maxican International railroad, just south of the Piedras Negras, have been sold to C.P. Huntington of the Southern Pacific. The price onid was \$500,000.

paid was \$500,000.

Long-needed rains fell near Havre and Bordeaux. Throughout Italy heavy losses have resulted from the unprecedented dryness of the season. The agricultural districts in southern Russia are suffering from severe frosts and occasional storms, and the crops may be a total loss. In Germany the drouth is unbroken. In Austro-Hungary It has resulted in disastrous fires in forests and small villages.

CONFUSION FOR THE SAMOSETS

Henry Voss Receives a Telegram Revoking His Appointment.

THEY THOUGHT IT WAS ALL FIXED

But Euclid Martin Took a Hand and Trumped a Trick -What Local Democrats Have to Say on the

Matter.

There was confusoin in the democratic camp last night and a lot of excited hustling on the part of certain individuals who had fondly imagined that their hustling days were ended for the present. Mr. Henry Voss received a telegram from Washington at 4:30 o'clock yesterday afternoon notifying him that his appointment as superintendent of construction of the new government building had been revoked. The dispatch was signed by Secretary of the Treasury Carlisle and contained no more information than that above stated.

in the ranks of the faithful who were entirely unprepared for such a move. The appointment of Voss was a direct recognition of the Boyd wing of the democracy and was contested at every point by the Martin faction. During the interval while the appointment was hanging fire every expedient was resorted to defeat. Voss and letters were poured in upon the department urging the alleged fact that he was wholly incompetent. alleged fact that he was wholly incompetent, and obnoxious to some democrats who ought in justice to be considered.

Nevertheless Voss was appointed and it was supposed that the squabble was ended. When it was stated that Facilid Martin was in Washington, with a knife sharpened expressly for Voss, the friends of the latter made it no cause for alarm believing that as their man had been appointed the question was settled and Martin would have his

was settled and Martin would have his was settled and Martin would have his trouble for his pains.

But according to the telegram received yesterday they had underestimated the re-sources of their opponent, and while they were rejoicing over the overthrow of Martin and his licutenants the latter were still very much in it and compassing their destruction. Immediately on receiving the telegram Mr. Voss telegraphed for further particulars or corroboration of the dismissal, but up to midnight last night had received no reply. The message was discussed by excited groups of Boyd democrats last evening, who were at a loss to account for the sudden change of heart in the appointive power. They laid it all to Martin and contended that

he had been up to some underhand work that would prove abortive as soon as the real facts were known. As the evening passed and no reply came to the dozen or more telegrams which were seat to Washington they began to believe it was a hoax after all and today it would be exposed as a piece of spite work planned by some disgruntled enemy. The local Western Union manager was seen and stated that the telegram had not been "faked" in Omaha. It had come over the wire and had been received by one of his most trusty men cho could not have been hired to manufac-

Burreporter and said that he was not at all sure that the telegram was genuine. He was aware that Martin had been in Washington doing everything in his power to defeat him, but if Secretary Carlisle had inseed reconsidered his appointment he thought that he would have recoved some confirmation of the fact in reply to the numerous telegrams that he had sent to his Judge Ogden and other prominent demo-

crats professed much surprise at the news and were not quite ready to accept it as true. If it was, why it was an outrage and everal things would drop in the immediate

Ex-Governor Boyd, when asked as to the truthfulness of the rumor, said: "Mr. Voss has received such a telegram, purporting to \$15,000 to \$20,000 per day.

The tile roof of the city hall has sprung a leak and some damage to the plastering will be worked by reason thereof. The leaks are confined to the large room in the southwest ington and may have had something to do with it. Mr. Voss has telegraphed the department for information, and asked that in ase charges have been made against him he be given an opportunity to be heard in his own behalf. His friends are now wiring Washington that the removal is an outrage, and uncalled for."

> Rheumatism Quickly Cured. Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert of New Brunswick, fil.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right today, and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once.

complaining about the back stands was re-ferred to the mayor and city council. Commissioner Hartman reported on the condition of the stables at No. 1 engine house, and said that stone floors in the stalls were needed. These will probably be put in so as to improve the sanitary condition of the house. Mr. Hartman said, however, that there were hundreds of stables in the city in worse sanitary condition, and thought that the Board of Health people had befter look after more important cases instead of mediling with stables that are kept as clean as

The fair at the Unitarian church on Seventeenth and Cass streets last night probably lid not prove to be quite as much of a success as had been anticipated, notwithstanding the efforts of the pastor, Rev. Mann. Nevertheless those present enjoyed quite a treat in the rendition of the song "Last Night" by Mrs. John Drexel, who is pos-seased of a magnificent voice, and also in Miss Mabel Shreve's "Still as the Night." Stereopticon views of Mrs. Cleveland. Wendell Phillips, President Cleveland, U. S. The Omaha city directory for 1893 was isued yesterday and in many respects is an improvement on previous editions. The voiume is arranged in much the same manner as last year, but makes a somewhat larger volume showing that the city has grown to a considerable extent during the year just passed. The type and general appearance of the new directory is very pleasing and compares favorably with the printed directories of other cities. The volume is ublished by J. M. Wolfe & Co.

Watching Bogus Advertisers. A report reached police headquarters has night that a man giving his name as C. W. Fietcher had advertised for girls to go on the stage. He gave his address as 119 North Efficiently atreet. Yesterday a von applied for a position and she was taken to a down-town notel by the would-be employer, While there it is elaimed that Fletcher stole her value and left the house. The police in-tend to not only look into this case, but they will hereafter watch all such deceptive advertisements.
