OPENING OF THE WORLD'S FAIR.

The event which the American people have been looking forward to with steadily increasing interest, and which is prominent in the attention of the people of foreign lands, is at hand.

Although the exposition will not be completed when opened and it may be a month or longer before the exhibits are in place, it is safe to say the fair will be by far the greatest of the world has seen in the extent and variety of its displays.

THE case involving the disposition of the funds arising from the refusal of the Mormon church property in Utah, now in the hands of the receiver, is not likely to be decided by the United States supreme court this term.

OMAHA and Nebraska need not distress themselves over the refusal of the railroads to sell half-price round-trip tickets to the World's fair.

ATTENTION is being directed to the new gold discoveries reported to have been made in the Taos valley, New Mexico.

THE National Conservatory of Music of America, New York, proposes to extend the sphere of its usefulness.

IT is the big monolith quarried at Prentice, Wis., for erection to the memory of James G. Blaine, ever is transported to the World's fair.

AN excuse will probably again be afforded Anthony Comstock to demonstrate his peculiar recognition of art when the New York Press club attempts to place on exhibition Rochegrosse's famous canvas, "The Fall of Babylon."

THE gratifying progress made by Omaha in providing hospital accommodations has been noted by THE BEE.

vice is designed only for those who want to save time and will not consider the cost in order to do so, for this fast travel will be expensive.

THE MANUFACTURERS EXPOSITION. The preparations for the manufacturers exposition, which will open at the Coliseum in this city May 22, are progressing most satisfactorily.

It seems necessary to suggest to the local manufacturers that if they desire to have the exposition become a permanent annual attraction for Omaha they must make every effort to render it a success.

It is quite enough to submit this suggestion without elaborating it. It cannot fail to be understood by those for whom it is intended and it is to be hoped it will receive their serious consideration.

OMAHA'S MAY FESTIVAL. The management of the Apollo club is manifesting a zeal and enterprise in behalf of musical culture in this city which ought to command a most generous support.

It is unnecessary to say that this is an immense undertaking for the club, and in order to make it financially successful, it must receive the most liberal popular support.

Comparatively little has been said about the School Book trust, which threatens to become a peculiarly vicious combination as soon as it has absorbed all its competitors.

Another victim's trust. The people of that state are wrought to the pitch of excitement over the operations of the agents of the school book monopoly, and Governor McConell properly declines to name the men who are to select books for the public schools of Idaho until the time approaches for them to act.

It is gratifying to learn that in the opinion of so substantial an authority as the Atlanta Constitution there is not likely to be any more white cap outrages in Georgia.

Two facts are pretty well established in the public mind by the events of this week, one is that the government will use its credit to any extent necessary to strengthen its gold holdings so as to meet all demands upon it.

Advocates of German in the public schools will act wisely if they do not try to distribute the decision arrived at by the Board of Education in reference to that so-called study.

Mrs. Bradley Martin expended \$60,000 on her daughter's wedding and it lasted only fifteen minutes.

justice meted out to eleven "respectable citizens of Carroll county." A few days ago they decided to get rid of some of their objectionable neighbors.

THE Transmississippi congress doubtless did not intend to be satirical when it passed this resolution referring to the interstate commerce law.

THE smallness of Governor Altgeld's action in removing the custodian of the old Lincoln home at Springfield to give the insignificant post to a political striker is in itself sufficient to excite comment.

WHEN the announcement was made that the New York legislature had enacted and Governor Flower had signed an anti-pool-room bill the people of that state at first thought it an attempt to trespass on their credibility.

A highly satisfactory trial trip of the car lighted by the new Young-Muskowitz railway electric lighting system was made over the Central railroad of Jersey from Newark to Roseland and returned with the car which was equipped with the necessary lights and machinery.

WHERE Charity should begin. St. Louis Post-Dispatch. A member of the Transmississippi congress opposes government aid to the Nicaragua canal as long as there is not money enough to improve the waterways within our own borders.

Saloon Question in South Carolina. Kansas City Journal. Prohibition states from Maine to Kansas have had a checkered experience with their efforts to shut out the liquor traffic.

Use of Government Credit. New York Times. Two facts are pretty well established in the public mind by the events of this week.

It was a loose-spoken act. Baltimore Citizen. The lieutenant governor and a number of the state senators have been on a tour up in the Rocky mountains and the Yellowstone park.

Mrs. Julia Ward Howe is making an album of photographs of woman ministers for the Columbian World's fair.

PERSONALITIES. Princess Maria of Parma is not pretty, even for a royal bride. She has a long, large countenance, disfigured by a very long and substantial nose, and it is indignantly said that her face looks like that of a horse.

used for toilet purposes. During the trial the lights were clear, white and steady, at the motion of the car in no way affected them, sufficient light being given to fully illuminate at least two such coaches.
