LINCOLN. Neb., May 2 - Special to THE gg. |-The Board of Education is very anxus to interview one J. M. Anderson of Des ines, the contractor who built the Clinton shool house on North Twenty-eighth street. e building was faultily constructed, and aving been a source of considerable expense or repairs, the board has not paid Anderson full for his work. He now has a suit pendng in the United States courts for the balnce due him. Recently he came to the ity, and with several members of he board inspected the school house. fe was allowed the use of the dans during the visit to discover if possie whether he or the architect was at fault. fter he had gone the plans could not be ind, and it is said that he took them way with him for use in his suit. Anderson quoted as claiming that the plans are the operty of the architect, Mr. Parsons, and hat he represents him in retaining them. The board has submitted the question to the city attorney, and if it is found that the blans belong to the board, they pronose instituting proceedings to regain possession of them.

Raised the Salaries.

So many of Lincoln's best teachers having resigned in order to accept better salaried situations elsewhere, the Board of Educa-tion, at its meeting last night, decided to alse salaries all around. Superintendent Strong, who came here a year ago from St. Joseph, has been hired for three years, the Joseph, has been hired for three years, the first at \$2.500 and the succeeding two years at \$3.000 a year. Hereafter the maximum salary of principles of two to four-room schools will receive \$75 a menth; or five to eight-room buildings, \$15; from nine to-twelve-room buildings, \$100; maximum for assistant principals, \$70 for full time and \$10 for half time. The salaries of teachers, except for principals and kindergarten, shall be \$45 for the first year, \$50 for the second, \$55 for the third year, \$60 for the fourth, \$65 for the fifth year, with a maximum. the second. \$55 for the third year, \$49 for the fourth. \$55 for the fifth year, with a maximum of \$70 to be given by a two-thirds vote of the board and for special merit. It was also decided to offer the city council space on the High school grounds for a city library building, to be built in connection with the new High school structure. Beat His Daughter.

There was trouble, deep and dire, over in the Russian quarter this morning. The clans of Dreihorn and Kossbau have been at outs for some time, and this morning when Drei-horn exercised his paternal authority and lammed his daughter Kossbau ran for the police station, where he detailed the affair in harrowing accents to the court. A warrant for Dreihorn's arrest was swornout, and the entire settlement went over to see that Justice was done. Dreihorn claimed that he had given her simply an ordinary, every-day humping, and his daughter corroborated kim. Other witnesses, however, testified to the extreme crucity used, and the court held him to the district court in the sum of \$500 He was locked up, being unable to furnish the amount.

Personnel of the Jury.

The grand jury as finally selected is composed of the following representative men: M. H. Westcott, Malcolm; William Hartz, Roca; Joseph Rocke, Princeton; Robert Dill, Cheney; O. S. Hazelton, Panama, and N. C. Brock, I. M. Raymond, A. K. Griffith, C. D. Emerson, Daniel Kelley, C. T. Boggs, Charles Hammond, O. W. Webster, Henry Wittmann, A. D. Kitchen, R. C. Manley, Lincoln, The grand jury began work this morning and issued a number of subpomas for witnesses. It will cover the same ground as the previous jury, which is thought to have been illegally called, but it is thought more parties will be caught in the judicial drag net. City in Brief.

Displeased with Strickler. OMAHA, May 2.—To the Editor of THE BEE: The appointment of V. O. Strickler as a member of the Board of Fire and Police is certainly a surprise to the people of this that at least one member shall be appointed rom the ranks of the independent party But as a matter of fact there is no indepen dent party in this county or state today That party was absorbed by the new party called the people's party, which was named the people's party, which was hamed at the national convention held in this city the 4th day of July last. But, conceding the party name under the circumstances was Mr Strickler the proper party to ap-point on the board? The overwhelming sentiment of this community will say not.

Governor Crounse vertainly could not have been ignorant of the provisions of sections 754 and 1.755 of the Revised Statutes of the United States which give preference to honorably discharged soldiers and sailors of the late war in appointments to office, and this was his opportunity to manifest his regard for a deserving union veteran.

UNSATISFACTORY TREATIES

Talk of Abandoning the Reciprocity Arrangements with Spain and Brazil.

What that Country Has Done to Make the Treaty an Unprofitable One to the United States - In the Case of Brazil.

WASHINGTON, D. C., May 2 .- An afternoon paper has this: Abundant reason for the abandonment of the policy of reciprocity under the McKinley bill exists in the complaints received by the State department regarding the evasions of the treaty by the officials in Cuba. government was forced into by the diplomacy of because of the fear Blaine. that if the Cuban sugar growers were deprived of their market in the United States through reciprocity arrangements with other sugar-growing countries, they would rise in revolt against Spain. The government apparently intends to make the treaty so un popular that it will fall to the ground of its own weight, and has imposed an excise tax nearly equal to the duties remitted by the McKinley bill. The Spanish minister gave the assurance when the negotiations were in progress that no export or import duty, national or provincial should be im-posed on exports which the United States admitted free of duty, but the new excise tax, although levied on sugar for domestic consumption, practically accomplishes the purpose of an export duty.

Protests from the United States.

Our government will either protest strongly against this tax or wipe out the whole treaty and leave the Cuoan growers to face a possible import duty under our new tariff. The Spanish government has also shown its nelination to make trouble by its action regarding the schedules of articles on which duties were reduced by the treaty. Such Spanish minister here and the State department, but Spain has twice protested against schedules of her own making, and Secretary schedules of her own making, and Secretary
Foster sent a strong protest last summer to
Madrid against this violation of the treaty.
The Brazilian government is also making
trouble over the treaty with that country,
but is not apparently violating the traty so
flagrantly as the government of Spain. It
was understood when the schedules of discrimination in favor of the United States
were made, that the general scale of
Brazilian export duties might be raised. The
discriminations in favor of this country were
based upon reductions of 25 per cent in based upon reductions of 25 per cent in duties levied on imports from other coun-tries, whatever these might be. Brazil took advantage of this arrangement to raise her dutiable schedules as soon as the reciprocity dutiable schedules as soon as the reciprority arrangement was made, and she was obliged to do so in order to obtain sufficient revenue for carrying on the federal government. The result has been a very small net gain to American merchants, while the people of Brazil are complaining of the increased schedules against other countries and the complications arising from the discriminations in tions arising from the discriminations in favor of the United States. The reciprocity arrangements with both Spain and Brazil would probably be wiped out at once, but for the desire of the administration to proceed deliberately, and to make our policy toward the southern countries dependent upon a revision of our entire fiscal system.

GOLD IN THE TREASURY.

Slow Increase in the Store of Yellow Metal -Washington Notes.

WASHINGTON, D. C., May 2 .- The gold in the treasury is increasing slowly and the situation is regarded as satisfactory. It is hoped by the department officials that Secre tary Carlisle has made arrangements with Chicago bankers for a large addition to the treasury gold. There has been some criticism over the fact that the Chicago national banks held more gold than those of New city. It is true that the charter provides | York. The last official report on this subject showed that the Chicago national banks held over \$2,000,000 more gold coin than the ew York banks.

Orders have been issued to the treasury officers, special agents, internal revenue agents and others not to arrest unregistered Chinamen after May 5. On that date the Geary Chinese law provides that all un-registered Chinese in the United States may be arrested. Mr. Theodore Roosevelt will continue to serve as a member of the Civil Service com-mission. Immediately after President Cleve-land's inauguration, Mr. Roosevelt sent him his resignation, but the president has now requested Mr. Roosevelt to withdraw it, and continue in his place on the commission, which he will do.

The State department is ignorant officially of the reported insurrectionary movement in Cuba. Nothing bearing on the subject has been received by the department from the Spanish legation in Washington for several months, and no recent communications con cerning the matter have come from United States consular or diplomatic offices. Assistant Secretary Adee believes the move-ment is nothing more than a renewal of the banditti system, which offers many oppor tunities in the wild and unsettled portions of the island. The six car loads of exhibits sent by the

National museum to the Madrid exposition have just been returned, and will be shipped to Chicago at once. The exhibit appears to have suffered by the return trip, but the damage can be easily remedied.

CHARGED TOO HIGH A DUTY.

Wool Importers Benefited by a Ruling of the Treasury Department. WASHINGTON, D. C., May 2 .- An important uling as affecting the duties on wool is empodied in instructions addressed by Acting Secretary Hamlin of the Treasury department to the collector of customs at New York today. The collector is directed to refund to certain importers the excess of duty exacted at his port on third-class wool, in accordance with the devision of the circuit court of appeals at New York. The merchandise consisted of white, York. gray and yellow wash wools. The white wool was assessed at the rate of 100 per cent ad valorem and the gray and yellow wools at the rate of 64 per cent ad valorem, under the "restriction" clause of the wool schedule and the court decided that the white wool was dutiable at the rate only of 50 per cent ad valorem, and the gray and cilow wools at the rate of 32 per cent ad valorem, the result being that one the duty exacted will be refunded.

instructions will be applied generally to all pending cases, and will form a rule for the future guidance of collectors. Clevetand Arrives in Washington. Washington, D. Postoffice at the World's Fair.

Postmaster General Bissell has adopted a scheme in connection with the World's fair that will certainly meet with general approval. He has notified all the postmasters over the country that there will be a post office located at the World's fair grounds. It will be called the World's fair station, and will be practically a branch of the Chicago postoffice. Mail boxes will be located at various points within the exposition grounds from which the mail will be regularly collected several times a day. There will be money order and registry departments connected with the station, and all postoffice business can be attended to there just as well as at the main office in Chicago.

People visiting the exposition can have their mail addressed to the World's fair station, Chicago, and be relieved of the trouble of going to the general postoffice after it.

All Remedies Fail. Tries Cuticura, First Application Relieves. Complete Cure in 3 Weeks.

Two years ago I was poisoned in my hands. Then I took Tetter. Then Erysipelas went to my head, face, ears and neck. My ears were swolien and running from the inside and outside. I could be only on my back. My neck was covered with glandmar swellings—Scrofula. I suffered terribly. I began to use Cutricura Rimmpries. The first application relieved me very much, and in three weeks my ears, head, and face were well. Cutricura Rimmpries cured me when all other remedies failed, and that despaired of ever being any better. I cannot be without them now, and shall recommend them to my suffering friends, for I do say that they are the most pleasant and best remedies for skin diseases I over saw.
