

THEY OPEN THIS WEEK

The Columbus Buggy Company Will Have Their Spring Opening ON THURSDAY, FRIDAY AND SATURDAY

The Columbus Buggy company now has the most commodious, best appointed and complete carriage repository in the west at 1028, 1030 and 1032 Harney street.

The large pleasant offices with all modern conveniences and appliances are located in the rear of this floor.

The second floor is reached by a massive staircase, where the light work is displayed for which this house has such a reputation.

The basement is devoted to the storage of poles, shafts, second hand work and material as well as the larger boiler room and dynamo.

The Columbus Buggy Company is incontrovertibly the largest firm of builders of elegant vehicles in the world, and having now more than 150,000 of their vehicles in use, and over 2,000 on exhibition at this repository.

The Omaha branch of this famous company is under the management of G. D. Edwards, formerly of H. J. Edwards & Sons, Chicago, who has been with the firm since they established themselves here four years ago.

That this enterprising house has full faith in the stability and solidity of Omaha's commercial basis and in her future is abundantly attested by the outlay put in in having this building erected.

After June 1 the Public Will Get a Longer Ride for Its Nickel.

Sometime ago an ordinance contemplating a new and increased system of transfers by the Omaha Street Railway company was introduced in the city council and referred to the committee on viaducts and railways.

Chairman Prince and Councilman Howell of the committee are prepared, their report upon the ordinance they recently presented that it does not pass in the council.

Careful Preparation is essential to purity of food. It is wisdom and economy to select those that are pure.

INDIAN BATHS.

The Red Men's Knowledge of the Laws of Health.

"Turkish" and "Russian" Bath of Civilization Known to the Indians—How They Do It—A Lesson From Nature which the Wise Will Heed—Kickapoo Indian Sagwa a Grand Remedy.

In this way an Indian takes a "Turkish" or a "Russian" bath. They dig a hole in the earth, into which they place a large log, and upon which they build a fire, heating the stones to red heat.

When you feel weak or faint in your joints, look out, a slight cold might develop into Rheumatic Fevry. If you have pains in your back or limbs, your liver is congested or your kidneys are not performing their work and poison is gathering in your body.

Expose to cold or contagious diseases would be fatal to you.

"Pimples, blotches, and other humors indicate that the poison is working in your blood. You feel languid, heavy, dull; you awake in the morning unrefreshed. Beware! Drive these symptoms away at once!

Kickapoo Indian Sagwa. It will cleanse your system, heal your diseased organs, purify and enrich the blood, and drive every taint of poison from your body.

Kickapoo Indian Sagwa is composed of nature's remedial, gathered and prepared by the Red Men, who depend not upon book knowledge for their cures, but upon the laws of health, the laws of the human body, and the laws of the earth by an all-wise Providence for the benefit of every living creature.

Why look at the animals! If your horse lacks its accustomed vigor you are taught to turn him out to pasture. You do so. The horse gets well.

Because there grows in every field the tender leaves of some medicinal plant which the Indian tells you to eat, and which does for the poor old lame precisely what you are seeking for in your medicine.

Kickapoo Indian Sagwa. Sold by All Druggists and Dealers. \$1.00 per Bottle, 6 Bottles for \$5.00.

BLACK CHEVIOT

Is popular—there's no denying it. Goods may come and goods may go—pattern makers may lie awake nights thinking up new patterns—dyers may die originating all sorts of new and novel colors and shades—leaders of fashion may decide that light or dark colors only shall be worn—but the hold of the black cheviot never seems to let up on popular favor.

SUITS

In our men's clothing department—piling up in separate piles—four hundred and twenty-five elegant suits of soft, unfinished, all wool, black cheviot—in sacks only—in all and any sizes from thirty-four to forty-two (and a few heavy weights who wear forty-fours can find some by playing the early bird act, cut full length, cut in style, lined with fine linings, well and properly tailored. They're the sort of suit that it usually takes a dozen dollars to own.
