Panic in New York Did Not Affect Chicago Speculation.

GOOD SUPPORT GIVEN EVERYTHING

This State of Affairs Was Partly Due to Bad Weather for the Crops, Both at Home and Abroad

CHICAGO, Ill., May 5 .- Notwithstanding the panicky condition of the New York stock market everything on 'change here had good support. This state of affairs was partly due to bad weather for the crops at home and

Wheat started from Mc to Mc higher and closed about %c higher for July and 1s for September. Corn opened at from %c to be advance, closing from %c to be over yesterday. Onto were from 4c to 4c higher at the opening, and the close showed a net gain of from %c to %c. Pork and lard closed 5c higher and ribs 714c higher.

Wheat opened firm, though trading was somewhat restricted because of the New York Stock exchange flurry. In view of the very uncertain feeling in New York the tone might be called strong. There was pretty good buy ing, and some of the principals who were con-nected with the May deal were reported a buyers for the July and September deflyerles. While the financial news from New York was unfavorable, operators did not seem disposed to sell much wheat on the strength of it and the offerings were of a moderate character. Cables were higher, and the crop advices in this country continue unaviorable, creating a somewhat bullish sentiment.

There were heavy cold rains in the Dakotas and dry weather in Kansas, while the weather

and dry weather in Kansas, while the weather in surope was reported as none too favorable. The lot of 1,000,000 bu, which the Cudabys took from the crowd during the first few minutes was also a strong lever to assist prices upward. At first, flash the Wall street market appeared to be ready for a recovery from the crash of yesterday.

On this the wheat market started about 40 higher than last night. When the wires a few minutes later showed the panic renewed with more severity than before and told of the failure of S. V. White and others there was a temporary setback. When this occurred the good beying began elsewitors appeared to be giving the market support. Mitchell bought heavily, Logan and other ing commission houses were taking wheat and Parker and others, thought to be acting for Cudaby, were free buyers of July wheat.

The buying did not have the appearance of being a support for sentimental effect on the trade, but was based on natural and buillish influences. The market started for July at 75 act touched 754c and 75 ac on the early trades and advanced straight to 754c. There was a dip to 754c later. September sold from 77%c to Tive.

Trive.

In corn another active day was witnessed with a good general trade, though prices kept within Ic range. Everything considered, the corn market was the strongest on the floor. It is safe to say that where the advance was 1c, it night easily have been double that but for the panic in Wall street, which made every-lody cautious. The receipts were light at 133 cars. The withdrawals were literal at nearly 800,000 bu.

The weather over the corn belt was favorable for plowing or seeding. Cold rains pre-

The weather over the corn but was tavorable for plowing or seeding. Cold rains prevalled to prevent seasonaple growth where the seed is in the ground. As a result of all this and because of a remarkable shipping demand, cash corn was strong and higher. The best prices of the day were made near the close. July rose to 444-ye and September to 464c, closing prices being at the highest point of the day's range, July 454c and September 404c.

Another active session was experienced by traders in oats, that market ruling stronger with the other cereals and closing at from '5c to le higher. At the opening, May was offered rather freely but with few layers, most of the business then being in June and July. Later, the attention of the crowd was turned to May. Hog products were slightly higher early on improved pieces and active buying of live hogs at the varies and some covering by those who at the yards and some covering by those who sold short yesterday. The offerings were a little in excess of the wants of the crowd, how-

ever, and the market eased off some, only to become firmer again on good buying orders and then the feeling was firmer. and then the feeling was firmer.
For pork, the opening sales were 5c higher, the market improving 17½c on orders to buy and strong grain markets and then declining to the opening price of the day and closing stendy. Changes were made from May to September at 75c premium for the latter. Lard was rather dull. The market opened 5c better and improved 7½c, then declined 10c, but reacted and closed 5c above yesterday. Ribs reacted and closed 5c above yesterday. Ribs were quiet, but strong. The opening was 10c higher, declined 5c, advanced 122;c, fell off 5c and closed steady. Estimated receipts for tomorrow: Wheat, 235 cars; corn, 145 cars; oats, 160 cars; hogs, 50000 band.

Black Friday troubles and all the financial upneavals since then, there never has been a time when the Stock exchange house; were so completely demoralized, as was the case to-day. The situ tion resolved itself into a matter of selling for practically any price obtainable. The enormous shrinkage shows plainly how acute the panic had become. The drop in quotations over last night was equal to from 1 to 24 points, and had the pressure to self continued a short time longer, there is little doubt that others would have been forced to the wall. w Ouleans, La. May 5.—Clearings, 6,000. New York exchange, commercial, per \$1,000 premium; bank, \$1.50 per \$1,956,000, New \$1.50 per \$1,000 \$1,000 premium. As it was London turned up as a heavy buyer and according to competent authority took upwards of 100,000 shares, and at the same time home investors who have not put in appearance in Wall street for years back took round amounts of both the railrond and industrial stocks. The buying thus exhibited turned the tide, aut not until American Sugar had dropped 24 points, the preferred 17, General Electric 22, Cotton OH 8, Chicago Gas 44, Edison Illuminating 64, Manhattan Elevated 194, National Cordage preferred 25, National Lead 7, preferred 7, Omaha preferred 6, Rubber 64, Wheeling & Lake Eric preferred 64 and Big Four 64. The drop in other stocks was from 1 to 4 points.

The activity in the money market accelerated the selling movement, but later funds became declatedly easier, the foreign exchanges declined sharply thus removing the possibility of gold experts and firms which had been reported in close quarters pulled through Brisk and Higher.
FRIDAY, May 5.
So far this week, compared with last, receipts show a falling off of about 3,500 cattle, 2,000 hogs and 1,300 sheep. The light supply of cattle was rather a dis-

appointment to the trade, but owing to the searish tone to eastern advices and the consequent lack of activity on the part of speculative shippers, the lightness of the receipts falled to have a stimulating effect on the trade In fact, the market was slow, and on all but the most desirable beef grades a shade easier. The panicky condition of the money market has taken a good deal of the aggressive spirit out of dealers, both east and west, although this is probably on y temporary. At any rate killers have been very conservative buyers for we or three days. The market today was slow, the very ordinary quality of the offerings

slow, the very ordinary quality of the offerings undoubtedly being in a measure accountable for this. Both dressed beef men and shippers were after the good beavy cattle, and 1.250 to 1.450-lb, beeves brought from \$4.80 to \$5.10. Fair to good 1.050 to 1.250-lb, steers sold at from \$4.40 to \$4.75, while the ordinary run of half fat and underweight stuff sold at from \$4.45 away to \$3.50. The market was rather on the dull and dragging order throughout, but with no encouragement from the east sellers generally finally took their medicine and at the close practically everything was out of first hands.

With cows it was somewhat different. There were not over 15 loads on sale all told. In addition to the usual good local demand buyers were on the ground with good orders from eastern butchers, and the offerings changed hands in short order at prices strong to a dimehigher than Thursday. Sales included oid cows at from \$2 to \$2.75, with fair to good butchers' stock at from \$3 to \$3.75, while as high as \$4.35 was paid for some prime fat neifers. Calves were about steady, common large to choice veal stock selling at from \$3 to \$5.50. There was a good demand for all kinds of rough stock and prices ruled firm at from \$2.50 to \$4.25 for common to choice bulls, oven and stags.

Nothing much was doing in the stocker and ind stags. Nothing much was doing in the stocker and

feeder line, but this was on account of light supplies and an indifferent country demand. Prices were not quotably lower, in fact really choice stock will sell about as high as ever. DRESSED BEEF.

The Post says of the Wall street situation: It was only natural that the climax of this excitement and despite the London buying even the standard rallway shares should have broken violently. The blidling up of money rates to 40 per cont—though the rate within an hour fell again to 9 per cent—aggravated the situation. Not only did Manhattan Elevated, whose fallen trader has long been the recognized manipulator, collapse at the decline of the industrials, but stocks such as the anthractic and granger specialties lost from 2 points upward. But the turn came very suddenly. Started by the persistent London buying and checked for a space by the announcement of another fallors, the huge short interest finally began to cover on the most extensive scale.

As considence returned, such of the traders as were left unhurt joined in the buying for the rise. Investment purchases in heavy sharle blocks again supplied their part. In the last hour the belief in a reaction spread, the movement grew into one of those stampedes always familiar after a temporary panie, and in a few of the best known stocks prices rose far above yesterday's closing prices. "Buil rumors" of the most curious description took the piace of the equally wild "hear starles" of yesterday and the day before, another illustration, happler than that which preceded it, of Wall street's mercurial disposition.

Hous. The hog market was somewhat mixed, and rather in the nature of a surprise to both myers and sellers. Receipts were not heavy ind the general quality of the offerings was about the same as usual of late. There was a inited demand from either shippers or speculators, and buyers all started in hidding prices. limited demand from either shippers or speculators, and brigers all started in bidding prices steady to a nickel lower than Thursday's weak close or \$7.20 and \$7.25 for fair to good hogs of all weights. A few hogs sold that way, some light stuff selling as low as \$7.12\gamma_1\$ Favorable reports from Chicago stiffened seller's backbones somewhat, and for the same reason buyers were anxious for the hogs at stronger prices, and good to choice mediam weight and heavy hogs sold at \$7.25 and \$7.30. The tradebecame very brisk and the close was strong at the highest point of the day. Everything was out of first hands before 10 o'clock, the bulk of the sales at from \$7.20 to \$7.30 as against \$7.20 to \$7.25 Thursday and \$7.40 to \$7.45 one week ago. Representative sales: week ago. Representative sales;

Shippers and feeders.

Chleago Live Stock Market. Chicago Live Stock Market.

Chicago, Ill., May 5.—[Special Telegram to The Brell—There was a weaker feeling in the cattle market. All goods were in fair demand, but all showed a lack of firmness. Shi ppers and dressed beef firms were buyers on a basis of from \$4.35 to \$6.25 for common light to heavy steers of extra quality and the canners and butchers picked up cows and heifers at from \$2 to \$4.50. It was a miserably poor lot of caws that could not be sold at better than \$2.50, and sales of steers at less than \$4.60 were few. There was a continued fair inquity for stockers and feeders at from \$2.25 to \$5.15.

There was an abrunt turn in the hog market.

tinued fair inquiry for stockers and feeders at from \$3 to \$4.75, and Texas cattle were steady at from \$2.25 to \$5.15.

There was an abring turn in the hog market. At the close of business yesterday buyers would not bid more than \$7.45 for anything in the shape of a hog, while today they did not hesitate to pay from \$7.60 to \$7.65 for the best of the offerings and there was at least one sale at \$7.70. The advance in common grades was not less marked, very few of the twenty odd thousand on sale selling below \$7.40. Shippers wanted some stock today, and it was the increased demand from that quarter that started prices skyward. The close was firm at from \$7.15 to \$7.45 for poor to orime light and at from \$7.25 to \$7.65 for medium and heavy. This is an advance on yesterday's prices of from foc to 15c.

The flood of sheep and inmbs is unchecked. This week's supply is only a little less than for the previous week and the total for the last two weeks is several thousand head larger than for any previous two consecutive weeks. The pressure was greater than the market could withstand, prices inling back from 20c to 50c per 100 lbs. Considering the magnitude of the supply it must be admitted this is a much less severe shrinkage than sellers had reasen to expect, Of the last week's supply Texas contributed a large part of the better average quality than in any past year. They soid principally at from \$4.65 to \$5.25, with from \$5.50 to \$5.75, though there were a few trades found \$6.25. Liambs are off to from \$5.50 to \$7.20 according to quality. The trade today was lifelies and prices very weak.

Receipts: Cattle, 8,000 head; shipments, \$7.400,65.30; others, \$4.300,600; medium, \$4.906,500; others, \$4.300,600; medium, \$4.906,500; others, \$4.300,600; medium, \$4.906,500; others, \$4.300,600; medium, \$4.906,500; others, \$4.300,600; head; shipments, \$6.000 head; market opened slow, steady to 10c lower; top prices native over a few trades found packers \$7.2007,400; pigs, \$5.5000,000; head; market opened slow, steady to 10c lower;

\$3.9080.75.
SHEEP—Receipts, 10,000 head: shipments, 2,500 head; market dull, weak and irregular.

Moses Price Cured of Rheumatism. The many cases of rheumatism cured by Champeriain's Pain Balm during the pas w months have given the people great con idence in its curative properties, and have depended upon for that painful and ag graving disease. Honaker Bros. Lorain O. say: 'Mr. Moses Price of this place was say: "Mr. Moses Price of this place was troubled with rheumatism for a long time Chamberlain's Pain Balm has cured him. He says that the Balm has no equal."

The Building Record.

Building Inspector Titly has Just prepared his report showing the operations of the department of building for the month of April. During the month 231 permits were issued. representing an outlay in building of \$137,490. The record is a very good one, and compares very favorably with the same month of former years. This brings the total building operations since the 1st of January to \$332,235. In January forty-two permits were issued representing \$23,430. February, fortyeight, representing \$12,490, and March 140, representing \$152,825.
