

that the respondents were not given an opportunity to be heard.

After consultation by the members of the bench, Justice Maxwell held that the testimony taken before the committee could be introduced in evidence.

Justice Deane then read the testimony of Hastings, Humphrey and Allen as published in The Bee last Sunday morning.

E. C. Rowick was called to the witness stand and was shown a copy of The Bee of September 25, 1932.

"Is that a copy of the speech which you made in the opera house in Lincoln?" asked Mr. Webster, who had recalled the witness for cross-examination.

Mr. Webster offered the paper in evidence. Mr. Webster objected, stating that the publication was a complete copy of the testimony of the witness given until the reconvening of the court to examine the article published.

Mr. Webster contended that the paper should be considered; it would show that notwithstanding the public, the people placed enough confidence in the respondents to elect them a few weeks later.

Justice Maxwell remarked that the admission of the paper containing the speech would be considered.

Witness was then shown a copy of the World-Herald containing a report of the public meeting. That paper contained a part, but not the whole of the speech.

Mr. Webster objected, saying that the witness had no right to show a conclusion arrived at as to the number of cars which were not full within the ruling of the court as to admitting secondary evidence.

To cut off discussion, Mr. Lambertson changed the subject to the question and required the witness to give the weight of the cars as loads show.

The freight book shows that the first car billed to Lincoln weighed 38,000 pounds and billed out to the asylum by the Whitebreast Coal company at 40,000 pounds; the next car was received at 38,000 and billed out at 40,000.

Mr. Webster objected in the most vigorous manner, arguing that the respondents were being called upon to answer charges not in the specifications.

Mr. Lambertson replied that when it was shown that the account was fraudulent in one item, the whole was fraudulent. That he said, was a well defined law. There was no fraud in the quantity, but in the quality.

Mr. Webster answered such a plan would allow a man to be indicted for one crime and acquitted of another.

"What do your figures for the other months of the year show?"

At this point Mr. Lambertson stated that he would offer in evidence the tabulations for the remaining six months of the year, the months of January, February, and March, 1932.

Mr. Webster urged that he would like to have the papers until morning that he might not be able to read them.

Mr. Webster replied that it had cost time and money to secure the evidence, and he would not think it proper that Mr. Rice should allow it to go out of his hands.

Mr. Webster settled the matter by informing Mr. Webster that if he would promise to return all of the papers he could have them over night.

Mr. Rice, who was placed in these tabulations, objected to the yard checks and in the freight forward books every one of them, and those that you found on the other books went to the asylum.

Mr. Webster commenced the cross-examination, but did not continue at any length, owing to the hour of adjournment having arrived.

Mr. Webster contended that the paper should be considered; it would show that notwithstanding the public, the people placed enough confidence in the respondents to elect them a few weeks later.

Justice Maxwell remarked that the admission of the paper containing the speech would be considered.

Witness was then shown a copy of the World-Herald containing a report of the public meeting. That paper contained a part, but not the whole of the speech.

Mr. Webster objected, saying that the witness had no right to show a conclusion arrived at as to the number of cars which were not full within the ruling of the court as to admitting secondary evidence.

Mr. Lambertson replied that when it was shown that the account was fraudulent in one item, the whole was fraudulent. That he said, was a well defined law. There was no fraud in the quantity, but in the quality.

COMING SPANISH ELECTIONS

Efforts of the Government to Postpone Them Opposed by the People.

SERIOUS TROUBLE IS ANTICIPATED

Police Prevent a Popular Demonstration in Madrid—A Riot in the Cortes—Two of the Republican Newspapers Suppressed.

MADRID, May 11.—The republicans and Carlists are making a persistent and strong fight against the government bill providing for a postponement of the municipal elections until November.

Each side in the Cortes say that they are determined to sit until their opponents give up. The republicans have been protesting their objection until they gain their point.

PARIS, May 11.—Hon. James B. Easton, American ambassador, was present today at the session of the Bering sea tribunal of arbitration.

Sir Charles Russell resumed his argument, which was largely devoted to the technical features of the controversy. In alluding upon the seizure of Canadian vessels by the Americans for seal catching in Bering sea, Sir Charles insisted that the seizures had been made upon the high seas without previous diplomatic protest.

Here followed a sharp exchange of contradictions between Sir Charles and American minister, Sir Charles Russell and E. J. Phelps, engaged. Sir Charles got excited and angry and declared that the interruptions were deliberate.

Sir Charles then proceeded to review the diplomatic correspondence between Great Britain and the United States in the past few years.

Finally the difficulty was adjusted temporarily by the decision that the discussion of the question of liability be postponed.

They Take the First Step in the Coming German Election.

BRUNNEN, May 12.—The conservatives publish this morning their election manifesto, which favors in almost every line of agrarianism. While protection and binetism are avowed boldly as foremost party principles, which must be reckoned with by the government if it desires a firm alliance, anything that could be construed as a definite approval of the agrarian movement is carefully avoided.

ONE DIFFICULTY SETTLED

Thomas' Services as Musical Director of the World's Fair Have Ended.

NO LONGER USEFUL TO THE EXPOSITION

Report of the Committee Which Has Been Investigating the Bureau of Music—In the Matter of Awards—Notes of the Show.

CHICAGO, Ill., May 11.—After two weeks' hard work the committee investigating the misunderstandings in the bureau of music this evening made a report to the national commission. The report, in effect, stated that Mr. Thomas' usefulness as musical director of the fair had ended, and that harmony in that department required that his services be dispensed with.

The first matter of consequence that came up for consideration before the commission was the matter of awards. Hon. T. G. Goslin, formerly director general of the Philadelphia Centennial, addressed the commission on the subject at the special invitation of the national commission.

When he went peering around the dirt at Marysville everybody there was looking for gold.

HASTINGS, Neb., May 11.—(Special to The Bee.)—A heavy rainfall extended over all of Adams county yesterday, accompanied by a heavy storm of hail and wind.
