Many Things Combined to Demoralize Prices on that Cereal, the Leading Factor Being the Selling Attributed to the Cudahy Clique,

WHEAT TOOK A TWO-CENT TUMBLE

CHICAGO, Ill., May 17.-There was a costly surprise in the shape of a bad break in prices the last hour today on change. Wheat tum-bled to 74%c for July and left off rather weak at 74%c, or 2c under last night's close. Corn was quiet with a loss of 14c. Provisions showed declines of 30c in pork, 25c in lard and from 20c to 22%c in ribs.

In wheat many things combined to create a weak-kneed feeling. The Washington wheat crop bulletins were more bearish than any time since the crop scare in the early spring. The foreign markets all showed weakness New York reported nervousness over further Australian bank troubles. A bank at Minneapolls failed and the fact was magnified ten

apolis failed and the fact was magnified ten times by the trade.

But by more than all these influences, the trade was very demoralized by the suspicion that the Cudnhy built clique had a number of houses selling all the wheat possible. Pardridge had covered not less than 3,000,000 but since Monday morning, and he was not in a hurry to take wheat even on the break. In addition to this, Armour and N. R. Ream were apparently squarely against the market. They are sellers, it was said, on the theory that 20,000,000 bm. of wheat here must be carried and must be sold again. Cables were lower and rains were reported in Germany. The opening was from the toise lower than yesterday's closing, and with some fluctuations prices further declined from 13c to 13c lower than yesterday. A private cable purporting to come from Buda-Pesti was circulated among the traders reporting great excitement there with an advance of 8c per bu, in wheat, owing to damage from drouth in Hungary. But as other foreign markets did not seem to be affected by it, the trade here voted it a canard.

from drouth in Hungary. But as other foreign markets did not seem to be affected by it, the trade here voted it a canard.

Corn was firm and sold at a shade over yesterday's closing prices at the opening. The market was crushed by the weight of offerings when wheat declined. The close was within lac of inside prices. Advices from the country were that farmers were resuming the hauling of corn to market and that shipments would be much heavier next week.

Oats opened firm and remained so until about noon. The receipts were ten cars short of the estimate and there was a good many buying orders reported. The line weather and weakness in wheat and corn caused a decline in the market toward the end and values dropped from 14c to 14c, closed at 14c decline.

The provision market was weak, but on a light trade. The slump in grain and the considerable amount of uneasiness on account of the financial situation were weakening factors and the market received very little support from the built clique.

Estimated receipts for tomorrow: Wheat, 110 cars: corn 220 cars: page 190 cars: box. Estimated receipts for tomorrow: Wheat, 110 cars; corn, 220 cars; oats, 190 cars; hogs, 22,000 head. The leading futures ranged as follows: ARTICLES, OPEN . | HIGH. | LOW. |CLOSE. | YES'Y

Manchester Commercial Review.

Manchester, May 17.—The Guardian in its commercial article, says: The weakness in cotton and the uneasy feeling in regard to

financial affairs have made buyers more cau-tious. A moderate business has been executed, however. Some low priced business is a wait-ing arrangement under falling prices and a pressure to sell. India is sending orders for small quantities to meet the probable wants of the Poolah season. Heavy goods have sold sparingly. A prolonged stoppage of looms is being planned to go into effect at Whitsuntide. A small miscellaneous business is doing in printing and finishing cloths. Yarns are flat.

[Copyrightet 1833 by James Gordon Bennett.]

LOSDON, May 17.—[New York Herald Cable—Special to The Bee.]—Except just for the first hour this was again a very uncomfortable day on the Stock exchange. Although the tendency at the close shows some signs of improving, holders of most classes of securities again suffered rather severely. Consols have given way from 5 1-6 to 5% per cent. Foreign government securities have shown considerable depression, especially South American stocks. Argenthe customs have fallen from 1 to 114 per cent, Peruvian debenture 3 per cent, Peruvian preferred 2 per cent, Mexican 6s 124 per cent. Home railways were largely sold in connection with the outstanding accounts at 1 per cent. Flatness was very pronounced, but the tendency was rather better at the close and final prices, were not the worse. Americans, soon after the opening, became flat on heavy realizations, but during the afternoon have shown more strength, Northern Pacific preferences show a rise of 234 per cent; Norfolk & Western, preferences and Atchison income bonds, 2 per cent, Atchision ordinary, 2 per cent, and most others, 3 to 4 per cent. Canadians were rather better than they have been, but Canadian Pacific still shows a fall of 114 per cent, Money was in goed demand. Short loans were charged 3 to 4 per cent. The discount market was very firm. Three months bills were granted at from 4 to 44 per cent. (Copyrighted 1893 by James Gordon Bennett.)

STOCKS AND BONDS.

Prices Declined at the Opening but a Rally Occurred Later.

New York, May 17.—There was a decidedly better feeling in stock circles today. At the start prices ran off from 14 to 114 per cent in sympathy with a break in London, but it soon became evident that the decline was due to manipulation from this side and a rally promptly ensued. There was good buying of stocks generally and the Vanderbilts were credited with liberal purchases of their specialties. After the market had enjoyed a sub-stantial advance, the bears began to hammer the list and a reaction of 14 to 1 per cent en-sued, but the decline had the effect of check-

On the other hand, as soon as the market on the other hand, as soon as the market started on the upward track again speculation became lively and after delivery hours was characterized by a positively buoyant tone. The short interest was considerably alarmed and final quotations were anywhere from it to 4% per cent above last night's finals. When the demand became greater, the floating supply had been materially reduced by recent purchases for investment. The borrowing demand was active and the market was full of stop-loss orders placed by the bears, who wished to limit their losses.

The announcement that arrangements had been made for funding the floating and other debts of the Northern Pacific through the instrumentality of the Rockefellers and other wealthy capitalists, had a marked influence, as also the statements that the financial condition of the National Cordage company is much better than had been supposed a week or so ago. The market closed strong with an advancing tendency.

In its review of the stock market, the Post says: Here and there it was evident that organized shorts were operating for the rise. This was true of Northern Pacific preferred of Distilling certificates, and especially of National Cordage. With the last named stock some of the speculators who dabbled in it in the 70's seemed once more to be directstarted on the unward track again specula-

Ing operations—not an altogether encouraging sign. Northern Pacific stock ran up a point or more on heavy trading, the room trader contingent learning today what everybody else knew a fortnight ago, that the organization of a strong collateral trust note syndicate had been practically assured.

Gloomy London Exchange.

LONDON, May 17.—A cable received this morning announced the suspension of the Royal Bank of Queensland, limited. Although the suspension was expected, the announce-Reyal Bank of Queensland, limited. Although the suspension was expected, the announcement of the event increased the gloom on the Stock exchange and generated numerous rumors probably groundless. The real cause of the depression was that needy holders were forced to make liquidations.

After the official close of the Stock exchange, American rallroad stocks strengthened and became distinctly firm on the street with a strong upward tendency. Northern Pacific rose 24 per cent, Wabash, St. Louis & Pacific ordinary, preferred, and Atchison income rose ½ per cent, and most others from ½ to ½ per cent. Foreign securities, and especially South Americans, were much depressed, and all Australian securities were lower and hardly saleable.

OMAHA LIVE STOCK MARKETS.

Cattle Trade Still Demoralized in Every Aspect-Hogs Extremely Uncertain. WEDNESDAY, May 17. Receipts of all kinds were again light today, the three days' supply compared with receipts for the first three days of last week showing a falling off of about 2,000 cattle, 8,300 hogs and

1,200 sheep. There was no improvement in the cattle market; in fact, prices were anywhere from weak to a dime lower than Tuesday. This makes a decline this week of fully 25c. since the early part of last week of fully half a gollar. The trade is practically demoralized. Apparently no one wants demoralized. Apparently no one wants any cattle, while the offerings are liberal enough to supply a fairly vigorous demand. Shippers did rather more trading than on the two preceding days, but it took low prices to make them buy. The demand from dressed beef houses was as usual, indifferent, and sellers had little choice. Pretty good 1,351-lb, cattle sold as low as 44.15, and 54.60 was the top for choice cattle of about the same weight. Good to choice 940 to 1,175-lb, steers sold at from \$4.10 to \$4.50, while fair to poor light grades sold at from \$3.75 to \$4.10. It was a dull, mean market from start to finish, and the supply was by no means exhausted at the close.

Buyers hit the cow market hard today. They had the advantage of unusually liberal offer-

lngs, about a third of the entire receipts, and succeeded whout much difficulty in taking off from 10t to 25c. The good fat cows and helfers were not so much lower as the yearlings, but as the latter constituted the bulk of the offerings, selects reported a very unsatisfactory trade. Sales included poor to prime cows and theirers at from \$2.05 \$4.10, with the bulk of the fair to good butchers stock at from \$2.75 to \$3.50. There was an easier feeling in the market for rough stock of all kinds, fair fochoice bulls, exen and stags selling at from \$2.50 to \$4.10. The calf market was steady, spod to choice veals selling at from \$4.25 to \$5.25, with common large stock as low as \$2.15, \$1.50.

There was more activity and a better tone to the stocker and feeder trade. The low prices prevailing the past few days have resulted in speculators supplies being pretty well cleaned up. A fair number of fresh cattle were received joday and the regular dealers bought them freely at rather firmer prices. Sales were mostly at from \$3.50 to \$4. Representative sales.

Hoos—The run was comparatively light, but
68 cars, and the quality only fair. The market was simply a case of disappointed hopes.
On very bullish news from Chicago, a good
shipping and speculative demand and rather
limited supplies, the market opened up very
brash with prices 5c to 10c higher than Tuesday. Good hogs of all weights sold at 87.35
and \$7.40, with one light load at \$7.45. Common light grades and rough heavy and mixed
hogs sold largely at \$7.30 and \$7.35. News of
the decline in hogs and provisions at Chicago
soon changed the aspect of affairs, buyers declared all early bids off and bought good hogs
at \$7.25 and \$7.30, or hardly as high as Tuesday. The close was flat and fully 1,000 hogs
were left in the pens on which bids were from
\$7.15 to \$7.25. The big bulk of the hogs soid
at from \$7.30 to \$7.40, as against \$7.25 and
\$7.35 on Tuesday and \$7.45 and \$7.55 one week
ago today. Representative sales;
No. Av. Sh. Pr. No. Av. Sh. Pr.

SHEEP—There was no change in the situation today. Eastern markets are still more or less demoralized, and with the houses all full, kll-lers are in no hurry to buy except at rather low figures. The one load received today did not seil, as buyers' bids were too low to meet the seller's views. Quotations are nominally as follows: Fair to good natives, \$4.50@5.50; fair to good westerns, \$4.00@5.50; common and stock sheep \$2.50%4.00; good to choice 40 to 100-lb. lambs, \$5.00@6.25.

Chicago Live Stock Market.

Chicago, Ili., May 17.—(Special Telegram to The Bee.) - Receipts of cattle continued light. There were less than 14,000 of all grades and more than 11,000 natives, but there were enough—more than enough. That such was the case is evident from the fact that the pens could not be emptied at the prices current earlier in the week. Buyers were slow in getting to work, and it was well along toward noon before trading was fairly under way. So far as competition was concerned there was none of it, and holders had to accept lower prices or carry their stock over. There was a decline of 10c to 15c in most descriptions, and there were cattle for which buyers could not be found at that reduction. Quotations ranged at \$1.50 to \$4.60 for buils. \$4 to \$6 for dressed beef and shipping steers and \$1.65 to \$4.50 for Texas cattle. About 3,000 Texans were included in the receipts.

Opening prices for hogs were a little better

than for Tuesday, but the early firmness only vanished, and before 5 o'clock the market had receded to a point 5c below that day's prices. Closing quotations were \$7.25 to \$7.60 for poor to prime light, and \$7.85 to \$7.60 for medium and heavy. There were three sales at \$7.75 and as low as from \$4.50 to \$6.75 was accepted for enlis and little pigs. From \$7.50 to \$7.60 was paid for the bulk of the hogs, the quality averaging good.

There was a good demand for sheep and lambs and both markets averaged a triffe higher. Poor to extra sheep were quoted at from \$3 to \$6, and sales of lambs were on a basis of from \$5.75 to \$7.40 for poor to extra wooled.

ANOTHER MILK ORDINANCE.

Law-Proof License Plan.

Health concluded that the wisest policy was to bide its time and incorporate into the charter a few needed changes. This was

done and the powers of the city in licensing and regulating the sale of milk were in-creased so as to cover all of the points at

license fee. Every milk or cream vender shall pay the sum of \$10, and when more

than one wagon is required, \$10 for each ad-

tured exclusively in cheese or butter \$10.

meanor, and fined not less than \$5 nor more

than \$100. Livenses shall only be issued in the names of the applicants therefor and are

A provision of the ordinance that if en-forced will bring joy to the heart of the housewife is that any vender who shall sell milk from which the cream or any part

that any dealer shall be deemed guilty of a misdemeanor who sells or offers for sale any

milk or cream that is unclean, diluted, impure,

milk or cream that is unclean, diluted, impure, unhealthy, diseased, unwholesome, adulterated or not of the standard quality, or to which water or any other foreign substance has been added. No milk shall be sold or offered for sale if it contains

more than 88 per cent of watery fluids or less than 12 per cent of total solids, of which

total solids 3 of the per cent shall be butter fat and the cream solid shall not contain less than 16 per cent of butter fat.

Nothing in the ordinance shall be con-strued to prevent the sale of sour milk or

buttermilk, provided the same is pure and wholesome and shall be sold as such.

Any member of the Board of Health or

milk inspector or any other employe of the board may inspect milk, cows, wagons, cans, stables, yards, pastures and surroundings, and require samples of milk to be furnished for analysis. The ordinance pro-

vides for the appointment of a milk inspector, who shall inspect the milk of each vendor at least once a month or oftener if
