

THE DAILY BEE.

E. ROSEWATER, Editor.

PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION. Daily Bee (without Sunday) One Year, \$ 8.00

OFFICES. Omaha, The Bee Building, South Omaha, corner N and 26th Streets.

CORRESPONDENCE. All communications relating to news and editorial matter should be addressed: To the Editor.

BUSINESS LETTERS. All business letters and remittances should be addressed to The Bee Publishing Company.

THE BEE PUBLISHING COMPANY.

SWORN STATEMENT OF CIRCULATION. State of Nebraska, County of Douglas.

Table with 2 columns: Date and Circulation. Rows for Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Average for the week ending May 20, 1893.

Notary Public. Sworn to before me and subscribed in my presence this 20th day of May, 1893.

Average Circulation for April, 1893, 24,981

AN encouraging indication of the wholesome condition of the republican party is that it manifests no disposition for a renaissance of some of its recent leaders.

If the figures presented by the four "retained" experts are to be relied upon, we may soon expect to hear that the state owes Bill Dorgan quite a large balance on the cell house contract.

A VISIT to the Manufacturers exposition will open the eyes of all Nebraska people who have not kept themselves fully informed as to the real extent of the development of the manufacturing industries of the state.

A FREE bridge and a market house would revolutionize the retail produce trade of Omaha, which means that the cost of living would be reduced simply by reaching out for the natural advantages that lie just outside our gates.

IT WOULD appear, to judge from all accounts, that not a single state has yet expressed satisfaction with its own exhibit at the World's fair.

The action of the city authorities in holding back the sewer bonds until the proceeds from their sale are actually needed will be commended.

MR. JOHN E. UPT, the new freight commissioner for the Omaha Commercial club, assumes the duties of his office today.

MR. PETER ILLER of the great corn-juice trust discredits the dispatch bearing news of the withdrawal of certain distilleries from the combine.

The violators of the drastic prohibitory law of Kansas, which does not prohibit the selling of intoxicants in that state, are likely to escape any very severe infliction of its penalties after all.

THE determination of the attorney general of Kansas to enforce an old, forgotten law requiring all corporations doing business in that state to file with the secretary of state annual statements of all business done has caused commotion among the foreign companies.

If it is necessary for state officials to make common cause with indicted criminals—if they must stand or fall with men who are known to be dishonest—if, in fact, they are hand in glove with a ring of conscienceless contractors who are moving heaven and earth to keep out of the penitentiary—the sooner they are removed from their offices the better for the good name of the state of Nebraska.

THE BEE has repeatedly called attention to the low assessment put upon the property of the Belt line in this county in the hope that it might be raised to a figure in keeping with the appraisements on private property.

There is another direction, however, in which retaliation may be applied with serious and even appalling consequences. This is toward the American missionaries who are laboring to extend Christianity in the Chinese empire.

CANADIAN TRADE AND RECIPROCIITY.

According to the report of the Canadian minister of finance the trade of the dominion with the United States last year declined nearly \$5,000,000 as compared with that of two years before.

Everybody who is familiar with our commercial relations with Canada must be presumed to know the history of the efforts to renew a reciprocity arrangement between the Dominion and the United States.

The Canadian minister of finance, that the government of Canada has several times, since the treaty of 1854 was abrogated twenty-seven years ago, manifested a desire to enter into another reciprocity arrangement, but it has never shown a disposition to make the concessions necessary to the accomplishment of that end.

The Canadian government has never proposed, in seeking to negotiate another treaty, to make any great departure from the old one, and so far as appears it does not now propose to do so.

The Canadian minister of finance observes that it remains to be seen how far the recent change of administration in the United States will affect Canadian interests.

Mr. John E. Upt, the new freight commissioner for the Omaha Commercial club, assumes the duties of his office today.

Mr. Peter Iller of the great corn-juice trust discredits the dispatch bearing news of the withdrawal of certain distilleries from the combine.

The determination of the attorney general of Kansas to enforce an old, forgotten law requiring all corporations doing business in that state to file with the secretary of state annual statements of all business done has caused commotion among the foreign companies.

If it is necessary for state officials to make common cause with indicted criminals—if they must stand or fall with men who are known to be dishonest—if, in fact, they are hand in glove with a ring of conscienceless contractors who are moving heaven and earth to keep out of the penitentiary—the sooner they are removed from their offices the better for the good name of the state of Nebraska.

There is another direction, however, in which retaliation may be applied with serious and even appalling consequences. This is toward the American missionaries who are laboring to extend Christianity in the Chinese empire.

to interfere for the protection of the missionaries. It is this feature of the matter which is now receiving the attention of the churches who have representatives in China, and it is proposed to unite all Protestant denominations in the earnest to secure the repeal, or at least the modification, of the Chinese exclusion act.

These considerations are likely to have influence with the administration and with congress. There is the most valid of reasons for not enforcing the law in the fact that the treasury was not given the necessary appropriation to do so, and if the law remains inoperative, as seems inevitable, until the meeting of the fifty-third congress, there is every reason to expect that it will at least be modified to the extent of doing away with the penalty of deportation.

THE organization in San Francisco of a company with a capital of \$10,000,000, the purpose of which is to undertake the work on the western section of the Nicaragua canal, promises to give a fresh impetus to that enterprise.

Chadron has concluded to celebrate the Fourth. Tobias claims to have more bicyclists than any other town of its size in the state.

THE World's fair is all right, but it will not send a dollar into Nebraska. The state manufacturers show in this city is a revelation of Nebraska's manufacturing resources.

Under the agreement between the Street Railway company and the city the sum of \$120,000 was voted last year, \$65,000 of which was percentage of gross receipts and \$55,000 mileage.

Under the agreement between the Street Railway company and the city the sum of \$120,000 was voted last year, \$65,000 of which was percentage of gross receipts and \$55,000 mileage.

THE IMPROVEMENT TRIAL.

Atkinson Graphic: The pitiful old World-Herald is trying to straddle the impeachment trial in such a manner that distinguishing its political conservatism.

These considerations are likely to have influence with the administration and with congress. FUNDS ARE RUNNING SHORT.

Reasons Why Granite May Not Be Used in Omaha's Federal Building.

CHEAP MATERIAL MAY BE REQUIRED. Supervising Architect O'Rourke Seriously Considering the Idea of Reorderizing for Bids Along This Line—Will Occasion Much Delay.

WASHINGTON BUREAU OF THE BEE, 518 FOURTEENTH STREET, C. O. WASHINGTON, D. C., May 22. Senator Manderson telegraphed Supervising Architect O'Rourke today that he would not come to Washington to advise with him in regard to bids on the Omaha building, but had already written a letter which will arrive here tomorrow.

THE DAKOTA BRONCHO.

He was little, he was wicked, and they fed him with a stick; And they took him out to water by just bringing him the crook; And they took a barn around him, and they wrote upon his board; Here's a keg of giant powder with a box of dynamite on hand; Sing hey, this little broncho owned by Jones.

They went and got a windlass, and a hawser from the ranch; And they hitched 'em to the broncho in a manner firm and staunch; Then secured two teams of horses,—made them pull like very Ned; And they pulled until they pulled that little broncho through the shed; Sing hey, this little broncho owned by Jones.

Now, this little broncho would have bolted, but they fixed him very soon— He was pulled up by telegraph and saddled by a team; Then they shocked him with a battery, and were like very Ned; For to shoot the rider on with a kind of catapult; Sing hey, this little broncho owned by Jones.

Like a horse of stone he stood there, to the wonder of the crowd; And he never moved a muscle and the people pulled like very Ned; But with suddenness he started and so quickly moved the pair; Horses and rider that they seemed a whirling shadow in the air; Sing hey, this little broncho owned by Jones.

In a trice the broncho vanished—none knows where into this day; But they gathered up his rider on a hill, ten miles away; "Here's a keg of giant powder with a box of matches stored; They turned this legend over and they wrote upon the board; 'Tis is sacred to the memory of a man who could not ride; He touched off a box of matches,—kindly see the other side; Sing hey, this little broncho owned by Jones.

WASHINGTON, D. C., May 22.—The free gold in the treasury, according to the treasurer's book, is \$2,420,000. This does not take into consideration the gold shipped from New York last Saturday. When this is subtracted, the gold reserve of \$100,000,000 will still remain intact, but the margin will be thin. The week opened today with large receipts, and it is probable that the debit statement on June 1 will make a better exhibit than the May statement.

WASHINGTON, D. C., May 22.—Upon the request of Secretary Hoke Smith the secretary of war has furnished the interior department with a list of army officers from which he recommends that selections be made for Indian agents. Secretary Smith is striving today to get in cases where the civil service agents were inefficient or for any other reason were unsatisfactory, they would be displaced by army officers. It was his purpose to appoint an army officer in charge of every agency, except those where the Indians were in an advanced state of civilization, and that within a reasonable time he would have secured at least two-thirds of the agencies under the control of army officers.

WASHINGTON, D. C., May 22.—Mr. Alfred Chaparron, minister from Switzerland to the United States, left Washington for Chicago this afternoon to investigate the arrest of P. B. Nemitz, agent of the Swiss exhibitors at the World's fair on the charge of selling a diamond brooch held in bond in the government customs office. A dispatch was received by the minister from William Perrenoud, Swiss commissioner to the World's fair, stating briefly the facts in the case and giving notice that he had dismissed Nemitz. Mr. Chaparron decided that the matter could be better investigated by himself in person, and he therefore decided to go at once to Chicago.

WASHINGTON, D. C., May 22.—The free gold in the treasury, according to the treasurer's book, is \$2,420,000. This does not take into consideration the gold shipped from New York last Saturday.
