Jobbers Report Goods Moving in Very Fair Volume.

BANK CLEARINGS SHOW A STEADY INCREASE

Country Merchants Complain that the Demand for Goods is Light-Buyers Place Conservative Orders, but, Still Anticipate a Prosperous Year.

· The past week has generally been very satisfactory to the jobbers, who are reporting a good healthy business. There is no rush, but just a good steady demand for goods of all kinds. As a matter of fact a good many merchants are inclined to be very conservative in the matter of placing orders. preferzing to file new orders if trade should prove better than anticipated rather than run the risk of loading their shelves with goods for which there might be no demand. Just at the present time trade in the country is dull. The farmers are busy and do not appear to be buying anything except the bare necessities of life. Some retail merchants report that they have never seen business in their towns any more quiet than business in their towns any more quiet than it is at the present time. At the same time there is a large amount of produce still in the hands of farmers which is still to be marketed, and which will insure a fair supply of money in the country. On the top of this is a very good prospect of a large corn crop for this fall, the recent rains having removed the fears of a drouth. A merchant remarked with everything up to A merchant remarked with everything up to date in good shape and with future prospects encouraging there was nothing in the present situation to complain about.

#### Country Produce.

The produce market of the past week has been rather slow for some reason not easily explained. Butter has been in light supply to what would naturally be expected for this season of the year, but at the same time prices have not been very firm. The great bulk of the stock received is too poor to be sold direct to the city trade, but has to be disposeds of to the packers and at packers'

Eggs are coming in very freely, but the market has been without other noteworthy feature. Some eggs are being shipped and some are being put in cold storage, but there is a tendency on the part of stocks to accumulate.

The receipts of chickens have been light. and the market has been firmer on old hens. Receipts have met with quite ready sale, and the market has been very satisfactory so far as prices are concerned,

There has been a fair trade in green veg-etables but the local gardeners are com-mencing to supply the trade in a good many lines which shut off the commission business to a certain extent.

. The supply of strawberries has been rather uneven and prices have shown a wide range. The only car lots that have been on the market came from Arkansas, but Mis souri berries are commencing to arrive in small lots. The latter stock has been very choice and has commanded good prices,

#### Bank Clearings.

The bank clearings for the past week show a total very close to that of the pre-vious week. If the bank clearings are any indication of the condition of business there would seem to be very little cause for com-plaint as there is a gain over the corresponding time last year amounting to over 12 per cent.

The following will show the clearings for

each day of the past week, together with the totals for previous weeks:

	Monday.         \$1,048,125,51           Tuesday.         1,181,511,03           Wednesday.         927,738,90           Thursday.         1,063,759,51           Friday.         973,481,12           Saturday.         1,121,354,01
	Total \$6.315.965.08

## IN DUN'S ESTIMATION.

How the Situation is Weighed by an Expert in the Business.

Mr. W. H. Roberson, Omaha manager of R. G. Dun & Co., speaking of trade during

past week says: "The weather has again interfered with local retail trade and to some extent

has effected sales in the wholesale district. In financial circles the feeling is easier, though there is still apprehension. Banks are making no loans to speak of and are requiring many customers to reduce their lines. This is causing some distress, as country collections are not quite up to the standard. The financial stress is felt in every line of trade to a greater or less degree; in some more than in others. Bankers in discussing the situation take two views of conditions One line of thought is that there can be no elief without some legislation which will restore confidence throughout the country. Some of our best financiers insist that the silver situation is the main cause of trouble and they argue that nothing but a repeal of the Sherman bill will give relief. Other bankers equally skilled and equally repeal of the Sherman bill will give relief. Other bankers equally skilled and equally well informed think the silver sentiment is merely an incident and that the real trouble lies in the fact that we have suddenly come to the point where the boom institutions are compelled to liquidate and that this causes the present financial distress. The old-time conservative banks are unharmed by the collapses which have been recorded. The conservative banks are unnarmed by the collapses which have been recorded. The general condition of the country could not be better, and if people were only convinced of this fact deposits, which have increased

of this fact deposits, weich have would con-somewhat during the past week, would con-tinue to improve and the normal condition of affairs be restored. Very little money as been withdrawn from deposits in this city except what has gone to the country banks. These have apparently considered the situation grave enough to warrant them in bringing home their resources so as to have them available in the event of any financial emergency.
"The Manufacturers and Consumers exposition has had a hard week for its opening, but the exhibit is better than that of a

ing, but the exhibit is better than that of a year ago and shows that manufacturers are more deeply interested than ever in the campaign of home industry. During the coming week the merchants and business men from the interior who will be the guests of the Commercial club will at the guests of the Commercial club will at tend, and there is every reason to expect that from this time forward the exhibit will draw larger crowds and be more interesting than ever. Our merchants do not half ap-preciate the exhibition and it would pay every business man in this city to invite neighbor to go merely to educate that neighbor to the importrace of the manu-

neighbor to the importrace of the manufacturing industries of the state.

"Local trade among retail dealers has been rocky, and many of the merchants are considerably discouraged over the immediate prospects. Those who have been in business here for a long period, however, are complacent enough, as they understand that this period of depression is certain to pass away and be followed by good times. I was talking with one of the oldest retail grocers in this city the other day who was complaining of cellections. I asked him about what his average losses were in his business during the nineteen years and he about what his average losses were in his business during the nincteen years and he surprised me by saying one-half of 1 per cent. I had supposed his losses would exceed 134 per cent because he has generally been liberal in extending credit and carried a great many people who were touched with the boom. This, taken in connection with the experience of one of our leading dry goods houses, which lost but \$2,500 in ten years, speaks well for the general honesty of the community."

Taking Exercises. Cleveland Plain Dealer: Wild Man-Whoo-o-pee I'm the winged and unlasseed terror of the chaparral, the double-headed

CONDITION OF OMAHA'S TRADE dragon of the swamps, the superheated aerolite of the Sierras ricocheting through space at my own sweet will; I breathe the cyclone, drink the waterspout, and dine on cyclone, drink the waterspout, and dine on the blizzard. Whoo o.p.! Nervous Citizen— Officer, why don't you arrest and confine that dangerous lunatic? He'll hurt some-body. Officer—Thathan't no lunatic. That's the governor of Oregon takin' exercise.

### CHURCH DIRECTORY.

Unless otherwise stated, services are held in the various churches at 10:30 a. m. and 7:30

ADVENTISTS. Seventh Day Adventists—Eighteenth and Cuming streets. Services Saturday. Sabbath school at 2 p. m. Regular services at 3:15 p. m. Prayer meeting Thursday evening at 8 p. m. P. M. Buchanan, missionary in charge. BAPTIST.

BAPTIST.

First Church—Corner Fifteenth and Davenport streets. Rev. W. P. Hellings, pastor.

Beth-Eden—Park avenue, near Leavenworth
street. Rev. E. N. Harris, pastor.
Calvary—Corner of Seward and Twentysixth streets. Rev. Thomas Anderson, pastor.
Clifton Hill Baptist Mission—Forty-fourth
and Grant streets. No evening service.
Immanuel—North Twenty-fourth and Binney streets, Kountze Place.

CHRISTIAN.

Cynthia—4318 Nicholas street. Rev K.
Reid, pastor.

Grant Street—Corner Grant and Twenty-sixth streets. Charles E. Taylor, pastor.

First Church—Corner Capitol avenue and Twentieth street. Rev. T. E. Cramblet, pastor. CONGREGATIONAL.

COMMERCIAL AND FINANCIAL

Bearish Cast Given to the Grain Markets Yesterday.

WHEAT OPENED ONE-HALF CENT LOWER

There Was Good Baying Later on the Decline-Russian Crop News Was More Favorable Through Some Sources and Bad Through Others.

CHICAGO, Ill., May 27 .- A decrease of not over 500,000 bu. Is expected Monday in the visible supply of wheat. This fact coupled with the increasing receipts and the better weather gave a bearish cast to the grain market today Compared with last night, wheat is 14c off: corn from %c to %c and oats %c. The clique permitted pork to drop back 55c. Other hog products are about unchanged.

Wheat opened about 14c lower, then followed with from 14c to 14c advance, again became weaker and prices declined %c and the closing was easy. The weak and low opening was somewhat due to the break in railroad stocks ogether with dull and easier cables. There was good buying at the decline, Duluth send-ing in some buying orders and St. Louis also bought fairly, the latter buying on the strength of export demand for winter wheat on French account. As soon as the buying ceased the market again eased off under free offerings. Russian crop news was more favorable through

Russian crop news was more favorable through some sources and bad through others.

Corn at the start was weaker and opening trades were at \(\frac{1}{2}\) decline. Then a steadler tone was manifested, but the market again ruled weaker and at the close had lost from \(\frac{1}{2}\) cto \(\frac{1}{2}\) of the same grading—and for Monday 775 cars are estimated.

The feature of the oats market was selling of May and June by shippers who had some lots.

The hogs were short at 4,500 and gave the market a little buige at the opening. On this buige Wright began selling pork and kept on while there was any demand, disposing of about 3,000 bbls. Lard and ribs were stagmant. The close was at about inside prices.

Estimated receipts for Monday: Wheat, 265 cars; corn, 775 cars; oats, 445 cars; hogs, 15,000 head.

The leading futures ranged as follows:

STOCKS AND BONDS.

Speculation at the Exchange Opened Weak

on Lower Cables.

New York, May 27.—Speculation at the Stock exchange opened weak under the influence of lower cables from London and in the first ten minutes of business prices declined from 4 to 4 per cent right through the list. Distilling and Cattlefeeding, however, cut away and moved gradually to 19% against 18% at the opening. The general market at this time showed some disposition to rally and the early losses were recovered in most instances. The improved feeling did not last long, however, for General Electric displayed

marked weakness and broke from 714 to 65. This sharp decline affected the whole list adversely which even the favorable bank statement with its increase in surplus reserve failed to check. The depression of General Electric is attracting attention and no satisfactory reason has as yet been given for the shrinkage in the prices. Assurances are given that the rate of dividends will be continued and the street is in daily receipt of what purports to be semi-official statements of the favorable condition of the company. In the meantime the bear crowd is hammering the securities of the concern, and today its debentures dropped 5 per cent to 84.

In the general list interior Conduit and Insolation company declined 2 per cent to 45. Cordage preferred 3 per cent to 45 and Consolidated Gas 2 per cent to 129, ex-dividend. The decline otherwise was equal to from \( \frac{1}{2} \) for each to 16 per cent. At the close prices were at or near the lowest of the day. In the final trading the market was weakened by the continued strength of sterling exchange, rates having been at about the opening and by the announcement that \( \frac{1}{2} \) 1,000,000 gold had already been engaged for export to Europe for Tuesday or Wednesday next. The market closed generally weak.

The Post says: The specific reason assigned dversely which even the favorable bank

been engaged for export to Europe for Tuesday or Wednesday next. The market closed generally weak.

The Post says: The specific reason assigned for the weakness in Wall street today was the news of further gold engagements for next week apparently on purely commercial transactions, which, indeed, as noted yesterday, are still justified by the current rates for sterling. The statement of the bank reserves, too, although showing material gains, was not as heavy as the more hopeful element in Wall street had predicted. Reading stock was among the special points of weakness at the last, the delay in issuing the reorganization plan being the alleged cause. But Wall street is perfectly well aware that, in a market such as this, every day's postponement of a necessary call for cash subscriptions is a gain.

London Financial Review. [Copyrighted 1893 by James Gordon Bennett.]

[Congrighted 1833 by James Gordon Bennett.]

London, May 27.—[New York Herald Cable—Special to The Bee.]—Owing to the close proximity of the settlement new business on the Stock exchange was almost at a standstill, while the attendance was small even for Saturday, and as a result of the absence of support, the leading markets presented a somewhat dull appearance. Consols improved and prices of colonal government bonds and other high class investment securities were well maintained. Foreign government securities were somewhat weak. Home railways were more or less dull. Sales were made to avoid higher rates Monday and several instances a decline of from 'a to 'a per cent was notleeable, but Great Western and Northeastern improved a fraction. Dealings in Americans were on a very limited scale.

Prices simply adapted themselves. New York Prices simply adapted themselves. New York recovered towards the close, however, but a decline, of 114 per cent is still marked in Philadelphia Reading first income bonds, 4 per cent in Central Facific. Lake Shore and Atchisonlincome bonds and 4 to 5 per cent in several others. Canadians were little dealt in, but in sympathy with Americans leave off dull. Mexican and Argentine lines were comparatively steady. Australian banking shares were well maintained. Money was only in moderate demand. Short loans were obtained at 3 to 3% per cent.

New York Money Market. NEW YORK, May 27.—MONEY ON CALL— Easy at 24 to 3 per cent.
PRIME MERCANTILE PAPER—628 per cent.
STERLING EXCHANGE—Strong, with actual business in bankers bills at \$4.85% for sixty days and \$4.89% for demand.
GOVERNMENT BONDS—Easier. State bonds dull.

OMARIA LIVE STOCK MARKETS.

Cattle Trade Shows Great Improvement for the Week-Hogs Close Weak.

SATURDAY, May 27. Receipts of all kinds show a substantial increase over last week, but do not compare as favorably with supplies for the same week a year ago, The figures are as follows:

Cattle. Hogs. Receipts this week . . 14,700 29,070 Receipts last week.. 10,029 22,181 1,741 Same week last year, 13,482 35,030 The cattle market has been in very good shape all week and very few traces of the demoralization existing two weeks ago remain. Cool weather has improved the demand for dressed beef, supplies have been light at all the leading centers, European markets have improved considerably and the better tone to the financial situation all have combined to make business lively and advance prices. In general on beef cattle the advance

bined to make business lively and advance prices. In general on beef cattle the advance nas been from 25c to 35c, the good heavy grades showing rather imore improvement than the light and medium grades on account of the better export demand. The good cattle have been coming forward quite freely, and the week closes with the situation decidedly favorable to the cattle owners.

Receipts today were unusually liberal for a Saturday, and the offerings included a larger than usual proportion of good cattle of all weights. There was a good active demand from all sources, and the market was as active as any one could wish, although prices were hardly quotably higher than on Friday. It was possible, however, to realize good, strong prices for most anything at all useful in the beef steer line. A bunch of choice 1,476-lb, steers topped the market, bringing \$5.37%, and there were over twenty loads that weighed over 1,200 lbs, that sold at from \$5 to \$5.25. Fair to good 1,200 to 1,400-lb, steers sold at from \$4.70 to \$4.95, with 1,000 to 1,150-lb, steers at from \$4.40 to \$4.50. Fair to poor light grades and odds and ends sold at from \$4.35 down. Everything sold in good season, the market closing up strong.

There was little change in the cow market. Receipts were, as usual, light, not over fifteen loads, and they changed hands freely at fully steady prices, sales including poor to prime cows and heifers at from \$2 to \$4.40, with the big bulk of the sales at from \$3 to \$4. Rough stock was in fair demand and firm at from \$2 to \$4. Only a few veal calves were on sale, but they sold freely at good, steady figures, from \$4 to \$5.25 for fair to choice stock.

Business in stockers and feeders was necessarily limited on account of the light supplies both fresh and stale. There was a good demand both from regular dealers and prospective country buyers and prices are quotably strong on all suitable grades. Representative sales:

13....1183 20...1176 67...1142 63cwf. 1211 84...1263 MIXED COWS BEIFERS 780 941 CALVES. 310 1..... 170 BULLS. STAGS. 1.....1380 4 00 STOCKERS AND FEEDERS 2 00 8 25 3 60 3 70 12....795 3 75 1....1170 3 75 2....925 4 00 22...1014 4 05

1... 060 8 25 1...1170 3 75
1... 490 3 60 2... 925 4 00
11... 618 3 70 22... 1014 4 05
Hogs—The market for the week started out rather favorably, and on Monday and Tuesday prices advanced about 15c. Wednesday's run was the heaviest in over ten months, and the market experienced the worst break in the history of the yards. Prices went off 26c to 40c, and on Thursday there was a further break of 15c to 20c, making a 50c to 60c drop in two days. Since then, with light supplies, some of this decline has been regalized, but the week closes with prices fully 25c lower than a week ago. There is no indication of increased marketings of hogs, although underfavorable circumstances there may be an occasional excessive run as was the case on Wednesday. Everything points to continued moderate, not to say light, supplies for some time, and under the circumstances a permanently bad market need not be expected for some monts. On this subject the Price Current remarks: "It is quite likely that the light receipts are in some neasure due to the fact that farmers have been especially busy the past week, under the favorable weather generally prevailing. But the evidence of positive shortage in the supply in the country is too plain to admit of the view that the current small movement is to be followed by an especially liberal supply at any time for months to come. With this is the increased confidence in the maintenace of prices for hogs, which will tend to prevent undue hurrying of stock into market."

The market today was active and generally all of a dime higher than Friday on all grades. Supplies were considerably lighter than anticipated—fully 2,000 lighter than a week ago. Including over 1,000 cattle held over from Friday, there were close onto 4,000 logs on sale, the quality about up to the recent average. There was a good shipping demand, which took one-half of the fresh offerings, and fresh meat men were fair buyers. Packers were very slow to pay the advance, and bought, very sparingly. The best hogs weighing all the way f

SHEP-None were received. The demand is good for both muttons and lambs at fully steady prices. Moderate supplies both here and elsewhere have improved the demand from killers, but there is little if any quotable improvement in prices. Fair to good provement in prices. Fair to good natives, \$4.50\%.5.50; fair to good westerns, \$4.00\%.5.50; common and stock sheep, \$2.50\%.4.00; good to choice 40 to 100-lb. lambs, \$5.00\%.5.50

Chicago Live Stock Market.

Chicago, Ill., May 27.—[Special Telegram to The Bre.]—The cattle market was quiet, the small supply restricting trading, but there was enough inquiry to impart a firm feeling. Sales of native cattle were on a basis of from \$2 to \$4.40 for poor to choice cows and heifers, from \$2 to \$4.25 for buils, from \$3 to \$4.75 for stockers and feeders and from \$4.35 to \$6.15 for shipping steers. Texas cattle were quoted at from \$2.25 to \$3.25 for cows, and at from \$3.25 to \$5 for steers. Local operators are looking for large receipts for Monday and a softening of prices.

Frices for hogs were much higher than for yesterday, holders insisting upon an advance of from 15c to 25c per 100 lbs. Those who were willing to part with their hogs at 15c advance found ready buyers for the same, but neither shippers nor packers were inclined to humor those who were not willing to trade on that basis. A number of commission firms refused to sell, preferring to hold their hogs till Monday, when they are confident there will be another buige. Common to prime light hogs sold at from \$6.95 to \$7.35 and from \$7.05 to \$7.45 was paid for averages of 200 lbs. and upward. Most of the business was done within a range of from \$7.10 to \$7.35. There were hogs here that have been held since Thursday.

The sheep market was quiet and nominally steady. A majority of the regular trade had all the sheep they require this week, and were indifferent. Some sheep were left in sellers' hands. Quotations were from \$3.05 to \$6.40 for yearlings.

Receipts: Cattle, 1,800 head; calves, 400 head; hogs, 4,000 head; sheep, 2,500 head.

SHEEF—Receipts, none; shipments, 800 head; market steady.

New York Live Stock Market.

New York, May 27.—The early Saturday closing for the summer months began in the dry goods market today. There was little

doing, although several large buyers put in their appearance for the first time. Wide in-digo blue prints were selling more freely and there was a reduction in prices of American P/s and C's to 9c and 8c respectively.

#### NOSE BLEED.

Frenchman's Plan for Stopping it Said to Be Successful.

Nose bleed, which is quite unusual in old age, is frequently observed during the years of puberty. It may be brought on by a variety of causes, and appear after a sunstroke or a sudden change in the temperature or atmospheric pres-sure, or by a blow in the region of the nose. It can also appear at the beginning of typhoid fever or measles or during an attack of articular rheumatism. Diseases characterized by an alteration of the blood render the patients particularly liable to nose bleed; this is the case with diseases of the liver, spleen and kidneys. The preventive treatment of bleeding at the nose consists in the medication of the complaint under the dependence of which it appears; but to check the hemorrhage itself when it has once appeared, the simplest means are the application of cold cloths to the face or injections of hot water in the nasal fossie. In more tenacious cases it is well to resort to direct pressure by introducing the finger as far as possible into the nostril, or else to plug the nasal fossa as accurately as can be done.

It may happen, however, that these different methods fail, and that the abundance and persistency of the bleeding constitute an actual danger. Under these circumstances it will be advisable to use antipyrine, which, according to a writer in the New York Herald, has succeeded in the hands of M. Guenot of Laroche-en-Breuil in the most unexpected manner. This method, which he has used for over two years now, has never failed. It consists in sniffing up or injecting into the nose a solution of antipyrine, one in five. With grown persons it is easy enough, but with young and fractious children it is necessary to have the head held tightly and bent forward while the solution is injected into the nose, the mouth being kept open. When this is done the nostrils should be closed with the fingers to prevent the liquid coming back at once This method is extremely simple and if it turns out to be as efficacious as Mr. Guenot claims it to be it will soon be the regular treatment of noses.

"Ten minutes work," ejaculated the successful prize fighter. "I s'pose you fergit that I had to make no less'n 487 speeches in the last t'ree months, besides all the noospaper fellors I've had to talk the last tree months. the last tree months, besides all the noos-paper fellers I've had to talk to. I guess you think us pugilists has got a puddin

Arrives Omaha

Worked His Mouth. Indianapolis Journal: "Well, old man, \$4,000 for ten minutes' work is not so bad."

Reddink, the bookkeeper—I can't see how you made \$0,000,000 in three years just work-ing at your trade! Threebaggers, the hustler —Easy enough; my father was a wise man and taught me three trades. I am a plumber all winter, a paperhanger in the spring and an ice man in summer. A First-Honor Dunce.

"That's why he translates those dialect stories so well."

Harvard Lampson: Visitor—What name are you going to give the baby?

Mother—I don't know. I have been trying to decide all day which of the many its father bestowed on it last night would be most suitable.

Notice. Scaled proposals will be received by the State Printing Board at the office of the secretary of state at any time before Monday, May 29, 1893, at 4 o'clock p.m., for printing and binding 6,000 copies of the session laws of 1893, including 500, separately printed and bound in paper proof sheet, copies of the "Newberry Bill."
