press. The attitude taken by many of the

local newspapers toward the foreign corre-

wonderful exposition. The idea seems to be

that all the objectionable features incident

to an enterprise so magnificent should be

totally suppressed. The truth about this is

the local newspapers have from time to time

allowed the actual state of things to be shown up through their columns. They do not concede to outside newspapers the same

privilege, but assail the correspondents who would assume this prerogative in an un-

is complete! It is no easy question. The man who can go to his town after spending the whole term here and say, "I have seen absolutely everything at Chicago" will be worth preserving for exhibition at the next

universal exposition. He will be a wonder indeed. When it is contemplated that it takes three days to look through the state

takes three days to look through the state buildings that are complete—and a third are unfinished—you can imagine just how much there is to see. When they are complete a week will not be time enough. Two hours in the Pennsylvania building tells you more history than a dense volume. Its walls are covered with interesting records of the days before freedom was conceived. So it is with the quaint old John Hancock house, where Massachusetts exhibits the Markawer.

Wealthy Mohammedans Contemplating

Moving to This Country. CHICAGO, Ill., May 28 - Special to THE New York, May 28.-It transpired that Ber |- Mayor Gilroy of New York has said Alexander Russell Webb, the United States Chicago comes near being a nest of thieves. consul, who four years ago embraced the "It is certainly the most inhospitable city in religion of Mohammed, and who represents the world," adds the Gotham mayor with the Mohammedans in the United States has stinging emphasis. Set that down as a New returned to this country for other reasons than those he has already. His dignified presentation of tenets of his stated new religion has attracted much attention. Many will now be surprised, who have heard him say that his only mission here is the propagation to that religion, to learn that he is also the agent of rich worshipers; of Mahomet. In an interview today, Mr. Webb confirmed this statement, while regretting that it must become public before certain negotiations with land owners had been completed. Mr. Webb states that a large number of Mohammedans are planning to emigrate from India to the returned to this countrylfor other reasons York opinion, launched forth from a mind tainted with something of envy. Don't believe it entirely baseless, for there is a slight element of truth in what Mayor Gilroy has said. Chicago has some thieves and Chicago's hospitality to fair visitors, excepting Grover Cleveland and Vera-¿ua, hasn't been noticeably oppressive. Hotels continue to charge all they can get, and at Jackson park there are many cases of exorbitant assessment upon sightseers. Nobody pretends to deny that there has been are planning to emigrate from India to the United States, and that they will probably form colonies in several of the southern extortion. It cannot be wholly checked, if strong efforts have been made to check it. Still it is not as bad as it was durstates. For some weeks Mr. Webb has been n communication with large property holders in the south, notably in Georgia and ing the early portion of this month. As I have asserted before, there is not the faint-Florida. He has secured figures on large strips of land and has already reported these est reason why a cautious visitor should suffer extortion. All he needs to do is to exprices to a syndicate of Mohammedans who ereise ordinary discrimination and he may are, from religious and financial motives, in-terested in the movement.

Mr. Webb has no doubt that the colonies spend the whole summer at the fair without

will actually be established. During his life among the Mohammedans be has found, he says, that they are extravagant admirers of the United States, and the majority would, he thinks, be glad to become American citizens. The only reason immigration has been prevented is because there is no established The idea of the wealthier and more promi-ent Mohammedans was, said Mr. Webb. to

nent Mohammedans was, said Mr. Webb, to form in every yown and city of the United States circles to study the Mohammedan religion. The primary purpose is not, however, to secure converts, but to soften the prejudice of Christians in America against the great religion of the East. Already three of these circles have been established, two in New York City and one in Woodbridge, N. J., and it is believed that many more circles will be shortly in operation. The kindly reception of the religion is the reason for hastening immigration, and the reason for hastening immigration, and the contemplated purchases of land is simply taking time by the forelock.

Mr. Webb said today: "Americans will not find the Mohammedans to be beggars

not find the Monanimedans the contrary, nor charity seekers, but on the contrary, valuable workmen in many industries. Our plans have gone so far as the preparation of plans for the laying out of towns and farms, "You may be sure that the Mohammedans will earn their own living in America. They will depend principally upon the products of the soil. Committees will be sent from In-dia to inspect the lands here, and then the bargains will be closed. Another syndicate of Monammedans is negotiating to run a line of steamers between Bombay and New York, and in this way the transportation of Mohammedans to the United States will be greatly facilitated.

"It is, of course, impossible to say at this time how many Mohammedans will come here at first. I believe that within five years there will be about 5,000 active, ablebodied Musselmans settled in the first colony. It is difficult at this time to fix a definite date for the arrival of the first colony, but I think that will be settled immediately after the land is purchased. The actual expenditures for lands for the first colony will be about \$100,000, but, of course, there will be other large sums for all kinds of necessaries of life."

RARE, RIPE OLD WHISKY. Limited Stock of the Finest in the World.

S. H. Ford has opened a wholesale liquor store at No. If Pearl street. Council Bluffs, and has put in a large and well selected stock of wines, brandles, whilskies, etc. It is a fact worthy of mention that Mr. Ford is the fortunate possessor of nearly forty barrens of the finest whisky in the United State. In 1880 he bought seventy-five barrens of Kentucky C. F. C. Taylor whisky, and it was not until about three years ago that he placed the goods on the C. F. C. Tsylor whisky, and it was not until about three years ago that he placed the goods on the market. Of this stock he has left about forty barrols, and experts all pronounce it absolutely the fluest whisky in the country: He sells it mainly to families for medicinal use, as it is too costly for the regular trade. It is worth over \$10 per gallon. There is not another brand of such whisky in the U. S. His stock of brandles and wines comes from the famous Leland Stanford vineyards in California and have a high reputation for excellence and purity.
