from 51,40 to 57.45. The average decline was about 1G.
 About 12,000 sheep arrived today. The official receipts for last week wore 66,139 head and the silpments 13,681 head. The market was strong: poor and common grades did not sell materially higher, but anything answering to the description of "good" was saleable at 100 advance. The demand was active, much more so than was to be expected in view of the heavy supply for last week, and most of the heavy supply for last week, and most of the staff was ut of sellers' hands before noon. Sales were on a basis of from \$3.50 to \$5.65 for natives and westerns. Yearlings were strong at from \$4.75 to \$5.60 for poor to extra and spring lambs were quiet at from \$4.50 to \$7.50. The latter are lower than at the middle of last week.

AMERICA'S DEBT TO ROME.

RAPID CITY, S. D., May 27 .- To the Editor of THE BEE: We had an election of school teachers here last week and the American Protective association men threw all the Catholic teachers out, although they were the best qualified teachers in the Black Hills. I have read the oath that these men have to take and I have no doubt it would disqualify them from voting if they were prosecuted. Mr. James A. Woods, demoprosecuted. Mr. James A. Woods, demo-cratic national committeeman, is one, and he will not endorse any Catholnes. is not this a nice state of things? The constitution of this country calls for life, liberty and pursuit of happiness, allowing every man to worship God as his conscience dictates with no restraint, but those laws which are the same to all and no distinction which are the same to all and no distinction, but that which his, his merit may originate. Who can deny that the existence of such laws if upheld presents a subject for human congratulation. Were we to recur to first principles, and observe the progress of the Christian religion in the first stages of its propagation, we should perceive that no vice, evil or detriment have ever sprung from toleration. Persecution had always been a fertile source of much evil, perfidy, crueity and murder had often been the conse-quence of intolerant principles. The massacres at Paris, the martyrdom of Smithfield, and the executions of the in-question were among the horrid and detest-able crimes which had at different times originated solely from persecution. To sup-pose a man wicked or immoral, merely on account of any difference of religious opinion was a false as it was absurd yet this is the which are the same to all and no distinction

The suit on which the injunction was to do it.

granted was filed by Clingman several weeks ago as a stockholder in the exposition, and as a citizen. This proceeding is in state court and is entirely distinct from the action begun Saturday by the United States district attorney in the federal court. Judge Stein held that congress has made no law compelling Sunday closing. The point on which the injunction was granted was Clingman's claim as a citizen and taxpayer. The court held that as the park was set apart for the recreation of the public forever, the park commis Judge Macon, attornoy for the prison signed the bond and Graves walked out the court, it is not expected that the seco trial will ever be called. sioners had no power to grant the privilege nor the exposition management to exercise it of closing the gates on Sunday.

Bowed with Grief When He Hears of His

Son's Suicide. JACKSONVILLE, Ill., May 29.—At a late hour last night the famous blind preacher, Rev. W. H. Milburn, chaplain of the national house of representatives, was informed of the suicide of his son Fletcher at Chicago. The grief of the aged, sightless father was pitiful, as he exclaimed: "Poor boy! It's too bad !"

Mr. Milburn, 70 years old, sat up in bed to receive the news. He said Fletcher had led a wayward life several years, and was addicted to drink, but had recently taken the gold cure at Denver. He was for a time a hotel clerk at Denver, but, becoming dissatisfied, applied to his father to secure him a Ising a project to his fatter to sold. It is position. The son was 50 years old. British Grain Trade Review. LONDON, May 29.—The Mark Lane Express, in its weekly review of the British grain trade, says: English wheat averages 27s a quarter in the country and 27s 5d in London. The sales at 196 market towns amounted the past week to 61,789 quarters. It is believed that the farmers are selling too freely and would do well to hold their grain until July. Foreign wheat has receded 6d since Whitsuntide. The arrivals of wheat include 105,000 quarters of California, 5,000 quarters of Australian and 1,000 quarters of Argentine. Cotton Market.

Securities Opened Comparatively Firm and Leading Shares Advanced.

NEW YORK, May 29 .- The stock market opened comparatively firm and the leading shores made fractional advances on the final quotations of yesterday, while Consolidated Gas jumped 2 per cent to 181. Advices from London that the first day of the fortnightly settlement had passed without any serious emsettlement had passed without any serious em-barrassments had the effect of imparting a firmer tone to the dealings, but the bears soon started on another raid to catch stop-loss orders, and in a short time some stocks scored material losses. General Electric was the principal sufferer,

Week Starts with Light Receipts and Weak to Lower Prices.

MONDAY, May 29. Receipts of all kinds of stock were comparatively light, considerably lighter in fact than a week ago. There were 1,500 fewer cattle today than on last Monday and prices on an av-erage ruled 10c to 15c lower than Saturday. After advancing steadily for over a week until the highest notches of the year were reached it is but natural that there should be slight reaction. Supplies were light here a slight reaction. Supplies were light here and not exceptionally heavy at other mar-kets, but buyers all set out to make their purchases lower and so they were in no pressing need of supplies on account of lib-eral buying last week, sellers generally had to accept their terms. Trading was slow and mostly done by the dressed beef men as spec-ulative shippers were cautious on account of the indifferent tone to eastern advices. A couple of choice 1,665-1b, beeves topped the market at \$5.30, but aside from this sale good to choice 1,200 to 1,350-1b, steers sold at from \$4.70 to \$5.10. Fair to good 1,000 to 1,200-1b, steers sold at from \$4.80 to \$4.85 with fair to poor light stuff and odds and ends at from \$4.30 down. Business was rather slow through-out, but there were not a great many cattle unsold in the pens at the close. There was a moderately active cow market, with prices generally a shade easier than Sat-urday. A founch of choice 644-1b, heifers brough \$4.25, and an old shelly cow of about the same weight sold for \$1.25. Fair to good butchers' cows sold very largely at from \$3 to and not exceptionally heavy at other mar-

Chicago Live Stock Market.

Chicago Live Stock Market. Chicago, Ill., May 29.–[Special Telegram to THE BEE.] - Today's receipts of cattle were about 1,000 head; the official recents for last week 48,749 head and the shipments 14,885 head. A majority of the local operators had looked for a large run of cattle and were pre-pared to see this market case up a little. They were not disappointed in either particular. Thanks to the existence of an active general demand, the supply did not prove so excessive as to cause any serious derangement of values. There was weakness everywhere, but no grade showed a decline of more than 10c. Fat, light and medium weight fiberry were less weak than the heavier sorts, the demand running principally to steers weighing from 1,000 to 1,300 lbs. Butchers' and chinese' stock was over abun-dant and sold nearly as well as at the close of issued over. There were about 3,000 of them. Quotations ranged from \$2 to \$4.30 for poor to choice cows and helfers, from \$2.55 to \$4 for plan steers were in demand at from \$2.50 to \$6.55. Sales were a demand at from \$2.50 to \$6.55. Steers went over the scales at from \$4.50 to \$5.25. Receipts of hogs were estimated at 18,000 against 18,396 last Monday and 35,966 for the cerpts for last week were 114,198 and the ship-ments 34,207. The market did not meet the expectations of those who held hogs over from Saturday. The demand did not develop the activity that was anticipated and the advance that the "boom" in provisions seemed to fore-shadow falled to materialize. Lard specula-tors hought a few loads at quite as good prices as were paid on Saturday, but the regular buyers could not touch the stuff on that basis, packers having orders to "buy at Friday"s "The was more of a cut than salesmen would the plane. account of any difference of religious opinio was as false as it was absurd, yet this is the principle which the American Protective ssociation wants to instill into our local government. Who were the true friends of the country in her troubles? Were they not Catholics? I desire to inform and prove to these men that the Rev. Dr. Carroll of Baltimore (afterwards made archbishop partly through the influence of Benjamin Franklin), was the next man in importance to George Washington in the war of the revolution.

I want to prove to these men who are wont to dilate upon Catholics in connection with the administration of this country that it was Father Carroll who was mainly instance. was Father Carroll who was mainly instru-mental in getting the papal nunclo to the king of France to get him to send aid to the Americans, and that it was mainly through the influence of this Catholic divine the German Catholic generals, Baron Steuben and De Kalb and the Catholic Pulaski, joined the revolutionists. To those who ar joined the revolutionists. To those who are conversant with the history of that period, it was a well known fagt that the mission of Mr. Benjamin Franklin to seek aid from France was about given up as a failure. While sitting in a despondent mood waiting for an audience with the king, he received a letter from Washington saying: "If France does not send over her army the cause must fail for the treore are army, the cause must fail, for the troops are commencing to mutiny and I cannot raise funds to pay them. They have no rations and their feet are on the ground, cut and bleeding from the snow." While Franklin was brooding over what looked like an im-pending doom to the American cause, he was aroused by a voice calling:

aroused by a voice caring: "Mr. Franklin; oh Mr. Franklin." It was the pope's nuncio. "I have good news for you," said he. "I have just secured the consent of the king to send over a French army and navy to aid your country-

men. Franklin bewildered and astonished, threw

himself on his knees, clasped the hand of the nuncio and kissing it said: "Oh, Rome has saved my country. Amer-

220 icans will never forget it." "Mr. Franklin, you must thank Rev. Dr. Carroll, for it was he who induced the pope to send me here in the interest of the Americans. His letters in your behalf were laid by me before the French king and his enburgt and as encourse has cabinet, and so success has crowned his efforts in your behalf." 220

Washington himself afterwards said: "Of all the men whose influence was the most potent in securing the success of the

most potent in securing the success of the revolution, Dr. Carroll was the man." Catholic names like Carroll, Moylan, Barry, Mcade, Lafayette, De Grasse, De Kalb, Rochambeau, Kosciusko and Pulaski, will be side by side with those of Washing-ton, Jefferson, Franklin, Adams, Henry and Hancock in the immortal story of the revolution, long after the memory of the American Protective association bigots who American Protective association bigots, who seek to deprive them of the glory of their deeds, or tarnish their memory, shall have perished in oblivion.
