LONGS WERE ALMOST DESPERATE

That Cereal Could Not Be Sold and the Price Declined Several Fractions-Later Traders Had a Breathing Spell.

CHICAGO, Ill., June 1.-There was a howling crowd in the wheat pit today. For a moment at the opening the trade thought they had a buil market on their hands, but within an hour the bottom dropped out. There was a break of nearly Sc. The next thing to a panic ensued among the longs, who could not get the wheat off their hands fast enough. The mar-ket started with a bulge of from be to be to 71%c for July and 74%c for September. When the floor gave way and dropped the bulls into the basement it left July at 68%c and September at 72%c.

The strong opening was on higher Liverpool cables and some bull enthusiasm left over from last night. The decline was like a toboggan trip-slow at first-but with a great dash b fore the end of the slide was reached. New York reported no foreign business.

The Price Current wired that farmers were

sol ng out their old wheat freely because they had grown discouraged. Liverpool stocks were cabled as nearly double those of a year ago. This blue news started the whole trading to selling. When the July price got to the exago. This blue news started the whole trains, to selling. When the July price got to the ex-treme low uoint of vesterday morning the buils gave it up. Cudahy put all the brokers he could command into the pit to let wheat go. He had a great quantity sold when Wright and Partridge undertook to follow the lead and the market went to 70c in a minute. Mitchell, who is the last bull in the trade to run, dumped fully 500,000 bu of wheat and the commission house brokers dug down in their pockets for cards containing stop loss orders. There was a host of them placed to sell at 70c and this started a merry chase. What could not be sold and the price went to 69%. Then came a breathing spell and %c ally followed by the sensational news that the Plankinton bank at Milwaukee hand failed. This brought on a fresh storm and the price went to 67% in a minute. Better export news light receipts promised for the near future, a statement that the Milwaukee hank had not failed but had gone into liquidation and would any dollar for dollar, and the market got a tally from light to for the Plankinton bank at solve the trade queted.

pay doilar for doilar, and the market got a faily of from 1/2 to 1c, when the trade quieted and y of from 1/2 to 1c, when the trade quieted and y of from 1/2 to 1c, when the trade quieted and the failure of the Plankinton bank was prokers had the first heavy selling orders, which resulted in the break from 71% to easily the opening to 0/9/c about an hour later. It is an an until after the break from 71% to 1c, when the trade quieted to the opening to 0/9/c about an hour later. It is an an until after the break from 71% to 1/2 the opening was a trillo stronger than the closing figure of yesterday, first sales being from 1/2 to 1/

New York Dry Goods Market.

New York Dry Goods Market. NEW YORK, June 1.—Business in dry goods disclosed no new feature. The market, how-ever, is in improved condition and tone through recent operations, especially in staple cottons. Lower prices will probably be made on some staples and fancies. The combination of table oil cloth manufacturers is broken and prices have gone off a fraction, but business is checked by the announcement of an auction sale on Monday.

Cotton Market.

Baltimore Grain Market.

during the Philadelphia fair of 1876 uncarthed some singular statistics. There, too, at the start, complaints that, so far as concerned the rallways, the fair was a failure were heard on all sides. The great increase in traffic did not come until midsummer and curiously enough it continued no less than two months after the exposition closed. Circumstances necessarily alter cases and there were no organs of public opnion in 1576 to cry down maliciously the prospects of the fair. The 1,000 miles inter-vening between Chicago and the east bring up another qualifying factor. Nevertheless it is altogether possible that this year's gloomy prospects, like their prototypes in the centen-nial year, may find their judgment a triffe premature. Chicago Live Stock Market.

Chicago Live Stock Market. CHICAGO, Ill., June 1. –[Special Telegram to THE BRE1–The cattle market looked better today. Not as many arrived as had been ex-pected and there are indications of a very light supply for the remainder of this week. There-fore there was a recovery of confidence and a general stiffening of prices. While no descrip-tion was salable at any very decided advance, it was possible to get a shade better price than prevailed yesterday for nearly all kinds. Texans were especially very strong. They sold from 5c to 10c higher than yester-day and were snapped up quick at that ad-against nearly 2.290 head arrived today as a gainst nearly 5.000 head yesterday, and as the receipts for tomorrow and Saturday are critain to be light the tendency was quite de-cidedly upward. Sales of native cattle were principally at from \$2.75 to \$5.25 and from \$3 to \$4 took the builk of the Texans. Receipts were estimated at 10,000 head, making 47,500 for the expired part of this week. The at-land the same time last week were 41,-200 head.

rivals for the same time last week were 41,-200 head. There was a slight reaction today in the hog market. At the opening of business buyers made a bluff at lower prices, but the meager proportions of the receipts and the prospect of light arrivals for the remainder of the week gave holders confidence, and they not only prevented any further decline, but before the close they had secured an advance on the best prices of the day before of 10c. Buyers were slow to pay the stronger prices, but they paid them, the market closing strong at from 96.68 to 87.20 for common to prime light, and at from \$6.90 to \$7.20 for medium and heavy weights. Most of the hogs were weighed at from \$6.50. The demand for sheep was active. Local buyers wanted a good many sheep and there

*6.50.
 The demand for sheep was active. Local buyers wanted a good many sheep and there were also liberal orders for eastern account. The demand was strong enough to absorb the supply at an advance of 10c per 100 lbs. Natives and westerns were salable at from \$3.60 to \$5.60 for poor to extra good, with the bulk of the trading at from \$4.50 to \$5.25. Texans were wanted at from \$4.50 to \$5.25. Texans were wanted at from \$4.50 to \$5.26 for the same time last weak.

Springs who are wealthy, public spirited and clear headed. They are making a solid stone city here and developing a FIGURING health and pleasure resort which will be an everlasting monument to their industry enterprise and foresight. There is Fred T. Evans, the richest and most energetic of them cil. Ho has built a hotel here which I wish was in Omaha so we could boast of it there. It is of pink sandstone, six stories high, complete in every particular and would be a credit to a city of 500,000 people. He has built a \$30,000 swimming bath which is positively the loveliest plunge in the country, barring none. It is 50x200 feet and varies from four and one-half to eight feet in dopth. The water is clear as crystal fed by sprifigs from the bottom and constantly changed. The temperature is just right not to shock a bather, and one can splash and dive and swim for two hours and then leave regretfully and not much wearied. He and others have lighted the town with electricity.

built water works and stimulated the build ing of cozy cottages, business blocks and a or more bath houses dozen fine half houses and hotels The streets are graded, sidewalked and the The streets are graded, sidewalked and the purest sparkling warm and cold spring water is everywhere. The county court house is a beautiful pink sandstone building. A Methodist college of gray sandstone crowns one of the hills in the domain of Mr. Evans' rival in energy, persistence and enterprise, an oid Nebraskan, Dr. A. S. Stewart. Back to the wort of the will no is the South to the west of the village is the South Dakota Soldiers Home, an imposing gray saudstone pile which houses and feeds 100 veterans.

Midway between the old or Stewart town and the new, or Evans town, a handsome stone city hall is fast approaching completion. A joint pink sandstone union depot of very pretty architecture stands right at the door of the Evans hotel.

door of the Evans hotel. Nature provided the nucleus for all this evidence of means and enterprise in the medicinal waters of the place, the piney groves and spurling streams, but man has made them not only available, but wonder-fully attractive. The work is only begun. The ornamentation is all to come, except so far as buildings are concerned. Little parks are planted and lawns begin to peep out of the cosy nooks here and there, and five years more will render this poot doubly attractive. more will render this spot doubly attractive. The springs are warm and hot. The facil-ities for bathing are ample for thousands, and the stories of cures of rhoumatism and other chronic troubles one hears and can verify hereabouts convince the most skepti-cal of the permanent merit of these invest-ments and this resort. Curiously enough, the springs on one side of Fall rive are warm and those on the other cold The steam never freezes and the warm vapors of the water modify the winter temperature so appreciably that it is always ifteen or more degrees warmer here than in adjreent sections. Hence, the winter busi-ness is growing, and away up here in the northwest, beyond the blizzards and this side of the polar cold of Montana, is an all

the year health resort. Wind cave, Cascade springs, Battle moun tain and a score of unnamed scenic attrac-tions are at hand. Good roads invite driv-ing. Trout streams up in the mountains attract anglers, and farther, toward the snow-capped peaks, are deer, wild cats, bear and other noble game to stir the ambition of hunters. In short, this is a model situation for the purpose of the promoters of the town. It is so accessible too. The Elkhorn Valley railroad runs a through Wagner sleeper from Omaha, leaving on the 9 o'clock train and arriving at the Springs early the following morning. The courtcous passenger officials, who are so well known that it would be surplusage to name them, have so ar-ranged the schedule of trains that passen gers arrive in the morning very early and sleep till breakfast time. The train returns in the evening after supper and thus the casual visitor who must count his time by hours, can run into the Springs, enjoy its privileges of cuisine and bath for a day and speed away again, using the night for travel. There is much of art at the Springs. It is

chiefly developed in architecture, but across the river from the Evans is a monument to the American chisel which deserves to be named the "Venus of Minnekahta." It possesses the characteristic of that goddess of course, being nude, but nobody eise ever attempted to work a Venus out of flesh colored sand-stone. She stands over a medicinal spring stone. She stands over a medicinal spring guarding a stone booth and though a bit under size looks very well without drapery. Omaha should be grateful to the Hot Springs capitalists for providing so enjoya-ble a pleasure and health resort within twenty hours ride by rail and to the Fre-mont, Elkhorn & Missouri Vrlley Railroad company for the ample and luvarious facil. company for the ample and luxurious facilities provided for reaching the attractions. For a three-day trip or a month's vacation T. W. B. Hot Springs is all right.

Plans to Elect a Republican President Are Already Being Laid. LINCOLN AND M'KINLEY A STRONG TICKET That's the Way Some of the Politica Prophets Size Up the Situation, Re-

gardtess of Which is Head and Which is Tail.

WASHINGTON, D. C., June 1.-Robert Lincoln has been in the country hardly a week, yet he is honored by th papers here with an able-bodied presi-dential boomlet. It is stated that many republican leaders look upon Mr. Lincoln as the man to bring back Illinois to the republican fold.

According to the story, the republican leaders are casting about for some plan of reorganization which will give them new leaders on new lines. They are anxious to strengthen themselves in Indiana, Illinois and Ohio. The loss of the first two states and the narrow escape of the other last fall indicated the locality of their weakness. They hope to redeem thomselves at the next ensuing state elections. They count on the disappointments growing out of the distribution of marshals, fourth-class postoflices and

other patronage to weaken the demo-crats in the next local elections, and thus they expect to excite the party to activ

ity. They are looking with a great deal of interest to the election of governor in Ohio. They expect to elect McKinley governor, possibly over Campbell, and out of this some of them let their imaginations draw a picture of a presi dential campaign to come with McKinley and Robert Lincoln on their ticket to hold Ohio and Illinois, and possibly through the dissatisfied policy among democrats in Indiana to

give a republican victory in Indiana. Whether the ticket should read Mc Kinley and Lincoln or Lincoln and Me-Kinley is said to make no material difference, as either way will make the ticket strong. It is being suggested also by the local wiseacres that the possibilities of an Illinois man coming on first or second place on the democratic ticket adds to the availability of Mr. Lincoln. At all events the Lincoln boom has been started on its round by the Washington prophets and it will likely be a source of

prolific comment.

WILL RENOMINATE M'KINLEY.

The Apostle of Protection Will Lead Ohlo Republicans Once More.

CHICAGO, Ill., June 1.-A special from Cincinnati says: The republicans of Dhio will hold their state convention in Columbus June 7 and 8. There is no doubt of the renomination of Governor McKinley, as well as of the other officers whose terms expire. The only thing that can change this is some unforseen contingency. There have been persons who, while admitting the probability of McKinley's renomination, have at the same time hoped against it. They have had a personal desire to see him retire. They have done a good deal of talking about the danger of putting him before the people again with his tariff record. The figures of the election last fall have been a bugbear to them and to them it has seemed as though the tidal wave of democracy that swept over the country last November would be more likely to be repeated this fall if McKinley is renominated than if some other man is put in his

FOR NINETY-SIX place. They have been watchful for flaws in the administration and have been pleased to magnify the incidents seeming to reflect on its integrity.

It is said that a democratic literary 'ureau has been established in the in-terest of Congressman Outhwalte for governor. One of the congressman's friends said:

"I believe Joe is the best man the democrats can put up. There has been some talk of Campbell, but he is not in the race. Only last week he told two intimate friends that, much as he would like to try conclusions again with Me-Kinley, his business interests were in such condition that he must give them his undivided attention. I know he was in earnest. Larry Neal is a good man, but he has weakened him-self by his repeated candidacies. Congressman Harter feels he can do more good in congress than in Columbus, and so does Tom Johnson. Judge Sam Hunt is popular, but too poor to make the Outhwaite has not been identified race with any faction and has no persona enemies. He is the friend, social and political, of Cleveland, Campbell, Thur, man and Brice, and besides he can com mand the financial support necessary to make the canvass, while his election would not risk a seat in congress, for his district is reliably democratic. Outhwalte is the man, and there is nothing against Walter Ritchie, whose name seems to be in the people' mouths."

Allison and the President.

DUBUQUE, Ia., June 1.-Senator Alli son returned from Washington las night and was interviewed concerning the story that he had visited Washing ton by invitation of the president and that their protracted discussion of the financial situation had left the president determined to call an extra session of congress before August, with a view of

relieving the stringency. The senator said: "This is the first that I have heard of the story. It is not true that I went to Washington at the president's request, but while I was there I called upon the president-a very proper thing for a gentleman to do. There was nothing in the interview which concerned the public especially. I found the impression prevailing in Washington that congress would not meet earlier than September."

There are three things worth saving— Time, Trouble and money—and De Witt's, Little Early Risers will save them for you, These little pills will save you time, as they act promptly. They will save you trouble as, they cause no pain. They will save you they cause no pain. They will save you money as they economize doctor's bills.

CUBANS WANT TO BE SOLD.

They Are Anxious for the United States to Purchase the Island.

NEW ORLEANS, La., June 1.-Speaking of the situation in Cuba. Senor Jose Martinez, a prominent member of the revolutionary party in this city, said that a movement was on foot among his countrymen to induce the United States to buy Cuba and that a good portion of the money would be furnished by the oppressed Cubans.

oppressed Cubans. Said he: "Let the United States offer to buy the island. I believe the owners of land and the business people of Cuba would be willing to pay one-half of the cost of purchase by the United States themselves. The people are desperate. They are too feeble without the assistance of a powerful people to work out their liberty by war and their situation is such that ruin is sure to follow the present system. Were this country to buy the island the sugar problem would at once be solved, while the United States would acquire territory that would prove of great value in other respects.'

Like water off a Duck's Back -so dirt leaves, when Pearline gets after it. No matter where it is, the easiest, safest, quickest and cheapest way to get rid of it is with Pearline. Washing clothes is Pearline's most most important work. That's because it saves so much wear and tear, as well as labor, by doing away with the **rub**, **rub**, **rub**. But don't lose sight of the

STOCKS AND BONDS.

Tendency of Securities Was Upward in the Early Trading. New YORK, June 1.-The tendency of the stock market was upward in the early trad-ing. Outside of General Electric, which, after falling from 73% to 73, rose to 75% and Sugar, which sold up from 88 to 89%, the improvement in prices was from 4 to 1 per cent, con-sequently a marked change in the speculative temper occurred, owing to the failure of the Plankinton bank in Milwaukee. This was the most unfavorable intelligence of the day

and served to inspire the bears with fresh courage, and they hammered the market with such vigor that they succeeded in dislodging considerable amounts of long stock during the such vigor that they succeeded in dislodging considerable amounts of long stock during the aftermoon and were successful in beating prices down all around. General Electric fell 6 points to 69%, New England declined 3% per cent, Hilmols Central and Sugar § per cent. Missouri Pacific 2% per cent, Northern Pacific preferred 2% per cent, Mahattan and Chicago Gas 2% per cent, and Cotton Oli 2 por cent. The general fist yield % to 1% per cent. New England was idversely influenced by reports that the directors will make a new issue of securities to provide for the floating debt and by forced sales by weak holdors. The announcement that President Greenhait had invited bids for \$1,000,000 Whisky trust bonds, had only a slight influence on the stock. The only important recovery at the close was in General Electric. The market left off steadier in tone. The Post says: If the railway profits antic-present complaints of light attendance might serve as a legitimate factor for the declines. As a matter of fact, however, there has been no such advance. Predictions that the rail-ways would make nothing from the fair were even more humerous two months ago than they are today. † asked. * bid. OMAHA LIVE STOCK MARKET. All Grades Firm Up Considerably Under Unusually Light Supplies. THURSDAY, June 1.

The month starts out with light receipts of all klids of stock, but 84 cars in all. So far this week compared with last there has been a falling off of about 1,000 cattle, 5,700 hogs and 300 sheep. There were somewhat less than 1,000 cattle

on sale today, or only about half as many as were received on last Thursday. The declining market of the early part of the week had a good deal to do with the light sup-ply, but the run never is very heavy on a Thursday, as country shippers have learned to be shy of a day when there is generally no speculative competition among buyers. There was none today to speak of but really none was needed, as the limited supply was not enough to satisfy the demand from the dressed beef men. These were all active buyers at prices right around 10c higher than Wednesday. There were no right choice cattle here, but very good 1,200 to 1,450-lb steers sold freely at from \$4.75 to \$5, and fair to good 900 to 1,175-lb steers sold it sold at from \$4.30 to \$4.90. There was a liberal showing of boor to fair light stuff and it sold at from \$3.85 to \$4.25. Trade was lively from start to finish and it was practically over before noon. Less than a dozen loads of cows were received and local houses picked them up quickly at prices that were fully steady all around. Sales included poor to choice cows and heifers at from \$2.50 to \$4, and poor to choice veal calves at from \$2.0 \$5.50.

\$2 to \$5.50. A very meager trade was reported in stockers and feeders. Country buyers were scarce and fresh receipts were most too light to interest the regular dealers. They did about all the buying, however, and on the basis of fully steady prices. Representative sales: DURAND AUTOR DURAND AUTOR AUTOR DURAND AUTOR

WILD AND ROMANTIC.

Attractions to Be Found at flot Springs, South Dakota.

Hor SPRINGS, S. D., May 30.-[Correspondence of THE BEE.]-If the average American were a little more sensible about naming his discoveries and his townsites our geographical nomenclature would be spared a great many barbarous inflictions and poetry would have a better chance to flourish. Who is to blame for it i do not know, but he deserves to suffer who discarded the pretty Indian to suffer who discarded the pretty Indian name of Minnekahta for the vulgar one of Hot Springs. Some day when these rough ravines and uncanny graded thorough fares have been beautified and made charming a sentiment will grow up here favorable to a change of name and possibly the railway station, which has adopted the Indian name, will be persuaded to exchange for Junction City or some other designation of the abor-iginal word for hot spring, and this promis-ing place will again be correctly called. Forgiving the founders of the city for their etymological iconoclasm however, and giving them credit for their better deeds it is proper to say Hot Springs is a surprise, a sensation

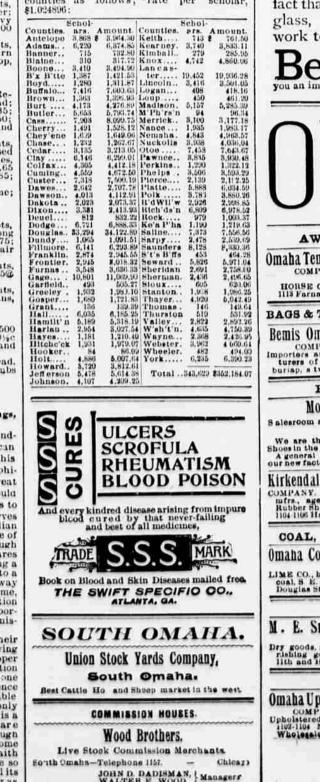

them credit for their better deeds it is proper to say Hot Springs is a surprise, a sensation and a luxury. It is a surprise because no one would imagine such comfort, conventience and elegance of architecture were possible in the midst of these far away hills, only two years or so accessible by rail. It is a sensation because in its citizenship are citizens with money and nerve enough to compelja doubting outside world to come here and pay tribute to enterprise, faith and conviction. It is a luxury because so accessible by rail, so complete in all its appointments and so absolutely satisfying as a recreation or r at. a recreation or rest. There are three or four men in Hot
