Armour Bought About Three Million Bushels of Wheat Yesterday.

THIS CAUSED AN ADVANCE OF ONE CENT

Discovery of a Blunder in the Chicago Grain Inspector's Report on Wheat Stocks Caused a Sharp Decline.

CHICAGO, Ill , June 8 .- P. D. Armour bought wheat today, probably as much as 3,000,000 bu. An advance of over 1c a bushel resulted. The advance was interrupted temporarily by a sharp break, during which the record for low prices in this market was again broken. The temporary slump, amounting to 1 %c for July, was caused by the discovery of a blunder In the Chicago grain inspector's report on wheat stocks, necessitating a correction in

the visible supply figures.

Instead of 508,000 bu, decrease in Chicago wheat, as given out by the inspection bureau yesterday, there was an increase. The correction added something like 800,000 bu. more to the visible supply and raised the small increase of yesterday to over 1,000,000 bu Increase. After the temporary bewilderment the trade recovered its nerve and there was good buying, during which prices quickly

The feeling was greatly Improved the last hour. There were no disturbing rumors, and a number of big professional bears like Linn, number of big professional bears like Linn, Wright, Brosseau, turned buyers. Yesterday the bears could afford to sit quietly on their hunches licking their chops, while the rest of the speculators were having their feelings harrowed up by the decay of credit, which they could witness from the windows of the half. Today the bears were made uneasy at finding that the run upon the banks of the city was confined to the savings bank depositors, and even among them that the crowds were composed largely of women.

The opening was slightly under the closing of yesterday to be above and prices were advanced by then declined 1 be for July and 1 be for September, again became stronger and prices were advanced 1 be for July and 1 be for September, held rather steady, and the closing was firm, about be higher for July and 1 be higher for September han yesterday.

Corn at the opening was the same, both closing a trifle under the final figures of yesterday, the large receipts and the liberal increase in local stocks of a contract last week having for the moment a depressing tendency. Good buying, however, by parties supposed to be representing prominent traders put the price up from be to be. At the advance the offerings were increased, the local crowd realizing, after which the market railled be more and at the close had gained from be for and although the buying was not considered heavy, it proved sufficient to absorb the offerings and advance prices from beceive to sell, and although the buying was not considered heavy, it proved sufficient to absorb the offerings and advance prices from beceive to sell, and although the buying was not considered heavy, it proved sufficient to absorb the offerings and advance prices from beceive the offerings and advance prices from beceive to sell, and although the buying was not considered heavy, it proved sufficient to absorb the offerings and feel of the figure of the sufficient to absorb the offerings and advance prices from beceive and at the close heing steady at alout the top.

The Wright, Brosseau, turned buyers. Yesterday

STOCKS AND BONDS. On the Exchange Prices Ruled Bigher-

Foreign Buying a Feature. NEW YORK, June 6.-President Cleveland's pronunciamento on the financial situation and an extra session of congress was the principal factor in Wall street and was about the sole topic of discussion in financial circles. At the Stock exchange prices ruled higher, and the bulls were assisted by buying orders from London, estimated at upwards of 15,000 shares. Baltimore & Ohlo rose 414 per cent to 7114; Lake Shore, 2 per cent to 123%, and Western Union, 1% per cent to 83%. The improvement in the remainder of the list was 1/4 to 11/4 yer cent, and at intervals the transactions were

The easy rate for foreign exchange and the engagements of only \$300.000 gold for Thursday's steamer stimulated purchases. The upward movement, however, was checked during the afternoon by a sudden advance in the rates for call money from 3 to 6 per cent, and by the knowledge that Chicago and other western cities were making heavy drafts upon our banks for currency. This caused the traders to change front and they not only disposed of what they had bought early in the day but put out moderate short lines as well. The result was a decline of 2 per cent in Lake Shore and Missourl Pacific and 1/20½ in Sugar, Baltimore & Ohio, General Electric and Western Union. General Electric finally railled ½ per cent and other stocks recovered fractionally. The market closed rather weak in tone. The Post says: London buying, chiefly on arbitrage account, sustained the market of the forenoon against domestic sales. It cannot, of course, be assumed that the president's announcement has materially changed the situation. So far as it dispels uncertainty, which in the present circumstances favors lower prices, it serves to steady market values and it undoubtedly brings new factors to the foreground in the gossip and "rumor" of Wall street. One noticeable incident of the day was the heavy shipment of banking funds to Chicago. engagements of only \$300,000 gold for Thurs-

Hous—The market averaged fully 50c lower than Monday, making this the biggest drop in prices the trade hits over experienced. Chicago and Kansas City went off about that much Monday, while on account of light receipts and good shipping orders prices here were firmly held. The situation was reversed today. Receipts were liberal, shipping orders light and buyers forced prices down in spite of more favorable reports from other markets. The feeling was weak on all sides and as sellers were generally ready to take their medicine the movement was rather active at the decline. Good to choice butcher weight and heavy hogs Good to choice butcher weight and heavy hogs sold at \$6.20 to \$6.25, with fair to good grades largely at \$6.15 and poor weight and mixed stuff down to \$6. The pens were practically empty by the middle of the forenoon, the big bulk of the offerings having changed hands at \$6.15 and \$6.20 as against \$6.70 Monday and \$6.80 to \$6.90 on last Tuesday. Chicago Live Stock Market.

Chicago, Ill., June 6.—[Special Telegram to The Bee.]—If the cattle market was stronger than on yesterday, and it was, the change was not brought about by any increase in the demand. Trade was, as dull as it well could be, the wants of the local trade being limited and eastern and export orders calling for very few cattle, but with receipts confined to 3,500 head there was no excuse for any further sagging of prices. They were slightly higher for natives of good quality. The receipts consisted of about 1,500 natives and 2,000 fexans. The latter were weak, owing to the probability of a heavy run for tomorrow. Sales were principally at from \$2.50 to \$3.60 for native cows and bulls, and at from \$4.25 to \$5 for native steers. The bulk of the Texans sold at prices ranging downward from \$3.75, few fed Texans being offered. discount.

CHICAGO, Ill., June 6.—Clearings, \$17,538,-895. New York exchange dull. Sterling exchange dull; stxty days, \$4,865; demand, \$4.884. Money closed at 7 per cent.

New York, June 6.—[Special Telegram to Transpare] New York, June 6.—[Special Telegram to THE BEE.]—Exchange was quoted as follows today: Chicago, no market: Boston, 25c to 20c discount; St. Louis, le discount. Receipts Continue Light-Hogs Drop Fifty Again today receipts were exceptionally light, the two days supply compared with the same two days last week showing a falling off of about 3,000 cattle and 3,500 hogs. Sheep

and bulls, and at from \$4.25 to \$5 for native steers. The bulk of the Texans sold at prices ranging downward from \$3.75, few fed Texans being offered.

Only about \$,000 hogs arrived today, making 29,000 since Saturday, as against 24,517 for the same time last week. During the first six days of this month the arrivals have been about \$1,000 head, as against 191,000 hast year. There was a less excited feeling today, and the tone of the market was sensibly firmer. Compared with the lowest time yesterday sales indicated a gain of \$5 to 10c per 100 lbs., but buyers did not take hold with avidity at the slightly advanced prices, and although the fresh and hold-over receipts combined did not amount to 15,000 head, some hogs were allowed to remain in s.11-rs' hands. The choicest of the offerings fetched from \$6.75 to \$6.85. From those figures there was trading all along down to from \$5.35 to \$6.40 for poor lots of fight and light mixed, and to from \$4 to \$6.25 for culls and little pigs. It took good hogs to bring \$6.70, and there was very little trading at better figures. From \$5.05.70 were the popular prices.

The sheep market was quiet again today but, at yesterday's decline had a fairly steady tone. Although the fresh arrivals were of moderate proportions there were enough stale lots to make the supply more than ample to meet all wants. The builk of the offerings were from Texas, though there was a fair sprinkling of westerns and a few natives, From \$5 to \$3.25 for poor stuff quotations ranged upward to \$5.25 for choice grades. Extra natives and westerns were saleable at an advance on that figure. Yearlings were graded at from \$4.50 to \$6.25, and there was inquiry for spring lambs at from \$4.50 to \$7.25.

The lien of a mortgage on real estate taken while a building is in process of crection thereon, is subject to the claims of material, men and laborers for material already and thereafter furnished, and for labor already and thereafter performed in the crection of such building, when the commencement of such furnishing of material or the commencement of the performance of such labor was prior to the record of said mortgage.

6. Under the Nebraska statute there are no priorities amongst liens for material furnished or labor performed; but this rule of equity applies only to those lienors who commenced the furnishing of material or commenced the performance of labor on the faith of the same estate; as if A, B and C commence the furnishing of material for an improvement on certain real estate, and afterwards the owner mortgages to D, and thereafter E, F and G commence the performance of labor on the improvements; here the liens of A, B and C are prior to D's mortgage and pro rate amongst themselves, being of the same class and attaching to the same estate; while the liens of E, F and G would be subject to D's mortgage, but would pro rate amongs themselves, being of the same class and attaching to the same class and attach and attaching to the same casste: while the liens of E. F and G would be subject to D's mortgage, but would pro rate amongs themselves, being of the same class and attaching to the same estate.

7. The oath attached to the "account of the items" for material furnished, and for which a lien was claimed, was as follows: "J. A. B., being first duly sworn, " " says " " is a " correct " of material furnished by this affiant " Signed: Capital City Planing Mills, per J. A. B., secretary." The account of the items was headed: "M. I. B. to Capital City Planing Mills, dr." Held, to show that the lien was claimed by the Capital City Planing mills and not by J. A. B., and a substantial compliance with the statute.

8. The oath required by section 3, chapter liv, of Compiled Statutes may be made by the agent of the claimant of a lien, whether a person or corporation.

9. When more than four months intervens between items of an account for material furnished a mechanic's lien will not attach for the Items preceding the hiatus, unless it is made to appear by competent evidence that all the items were furnished pursuant to one contract; and the affidavit attached to the "account of the items" is not competent evidence to prove that fact.

10. A vendor of an elevator, furnished for and put up in a hotel in process of erection, by contract with the owner retained in himself the title until the fixture should be paid for, and reserved the right to retake possession thereof if default should be made in the payment for the same. Held, not a walver of the vendor's right to a material man's lien on the hotel and the land occupied by it.

11. The assignee of a mechanic's lien is subrogated to all the rights of his assigner; and the taking of a mortgage by the assignee.

on the property affected by the lien, the consideration of which mortgage was used in the purchase of the lien, will not merge the latter in the mortgage, unless it appears such was the intention of the parties and justice requires it. That intention may be established not only from the acts and declarations of the assignee, but from a view of the situation as affecting his interests.

12. Where the agent of the obligee in an indemnity bond against mechanic's liens presented the obligation to H. and D. and requested them to sign it as surcites, promising them that A. S. and one Hughes, whose names were printed in the body of the bond as sureties would also sign it. H. and D. signed on the agreement with the agent that if the others named as sureties did not sign, the bond should be "invalid." None of the others named as sureties did not sign, the bond should be "invalid." None of the others named as sureties agend. The agent, without the knowledge of H. or D. erased the other sureties hames by drawing an ink line across them and delivered the bond in this condition to her principal. Held, the delivery of the bond was unauthorized, and H. and D were not liable thereon; and held further, that H. and D. by afterwards taking security to protect themselves from loss their green ignorant of the fact that the other sureties had not signed did not thereby ratify the delivery of the bond as the knowledge of the existence of a right or defense, and the intention to relinquish it must concur in order to estop a party by waiver.

Help for Inspector Frank. The prospect of the appointment of an additional food inspector has caused a rush of applicants to the powers that be in the Board of Health. Some of the members of board believe that during the summer months there should be an additional inspector to assist Inspector Frank and as soon as the busy season is over his services could be dispensed
