Big Capture by a Detective.

Trade in Every Section Has Been Benefited by Rumors of Decided Action by Congress on Currency Matters-Reports from Cities.

New York, June 9 .- R. G. Dun & Co.'s weekly review of trade says: The severe depression of a week ago, which culminated in very tight money and numerous failures, has been followed by some recovery. Reports that definite action by congress on the money question has been assured have done much to cause the petter feeling. But the stringency at Chicago and elsewhere has forced realizing on the unprecedented stocks of wheat, so that the lowest prices ever known have been made here and at the west. This has helped exports, and, in other respects, monetary conditions are distinctly more favorable. Though no radical change in underlying conditions has occurred, there is more hopefulness and some recovery from

the extreme contraction of credit. At Philadelphia banks are holding money authorsty. There is rather more business

in iron, but at very low prices.
At Cleveland trade is fairly good, but At Cincinnati trade improves, and money
1s active, but collections dull.
At Indianapolis the grocery trade is better
and at Detroit trade is only fair and banks

And at Detroit trade is only fair and banks
Are calling in many loans.

Chicago reports trade orders satisfactory.

Banks are considered safe, but are pursuing
a very conservative policy. Receipts increase, compared with last year, 4 per cent
in cattle, 10 in hides, 24 in butter, 55 in
sheep, 30 in oats, 100 in wheat and 170 in
corn, but decreased 18 per cent in flour, 30
in barley and dressed beef, 22 in rye, 45 in
cheese, 60 in hogs and lard, 70 in pork and
seed and 90 in cured meats.

Excitement is subsiding in Milwaukee.

Trade at Minneapolis and St. Paul is fairly

Trade at Minneapolis and St. Paul is fairly active and the lumber trade strong with crop prospects fair.

At St. Louis banks are calling in loans, but jobbing trade is satisfactory with south

much improved. Omaha's Trade Good.

At Omaha trade is good.

At St. Joe good, and at Kansas City trade is fairly healthy; their receipts of grain and Trade at Denver is fair, but at Little Roel light and at Louisville restricted, with money very close

At Memphis trade is very quiet and a Nashville fair. At Knoxville slow, with money close.
At Atlanta, Macon and Augusta similar conditions exist.

At Galveston trade is fair, but collection At New Orleans money is in active de mand, collections slow and business good excessive rains making crop prospects

Wheat has gone below 71 cents here an to 63 cents at Chicago, receipts being 400,000 bushels daily and exports 200,000 bushels. Corn has fallen 2 cents, with large receipts Oats, 1 cent; pork, \$1.75 per barrel; lard, 6 cents, and hors 10 cents per 100 pounds. Of is 5% cents stronger and coffee unchanged Cotton is % cent higher on better foreign buying. Tin is stronger on the surface, bu buying. The is stronger on the surface, but lead is lower at \$3.75 on a saie of 1,000,000 pounds. Lake copper is at 11 cents. Iron is very dull at New York and Philadelphia. and sales are reported at astonishingly lov prices at Buffalo. Dealings in bar show great anxiety for orders. Structural from it dull, and while plate mills are well em ployed, all prices are low and trade dis heartened. In wool sales are remarkable small with a lower tendency. In low gradcottons there has been some advance.

Foreign Trade.

The financial outlook is not helped as ye by foreign trade, imports continue heavy, while exports are still below last year's. The depression in stocks brought in some foreign buyers and prices have recovered of an average of \$1.50 per share since a wee ago, with railroad earnings continuing large Foreign payments for securities have helped exchange downward, and also bills against several million bushels of wheat taken f export, so that some bankers believe the rest of the summer may pass without a re newal of gold exports The failures for the week have been 32 in number in the United States, against 16 for the same week last year, and 25 in Can ada, against 24 last year. Last week the

total number of failures was 259.

WALL STREET FOR A WEEK.

Events of the Past Week Favorable for th

Market. New York, June 9 .- Bradstreet's weekly Wall street review will tomorrow say Apart from the financial disturbance at Chicago, the events of the past week have been favorable to the market, which was reflected in the increased tone of strength which it exhibits. The improvement has been in all cases moderate, and, at times, duliness was less marked than in the past, while the bear party continued to furnish more of the buying power, and was at the same time able to create several temporary depressions. The alternation of sentiment depressions. The alternation of sentiment was, however, marked, and dates from the announcement by the president that the purpose of an extra session of congress to be called early in September will be to secure the repeal of the Sherman act. The general conclusion was that such a statement would not be made on the part of the administration. not be made on the part of the administra tion unless it was confident that the object lesson about the operation of the law had been effective and that the majority in favor of its repeal was practically assured. view, it seems, produced an even greater im pression abroad, the revival of confidence in our financial position leading to revived buy-ing of our stocks for London account. These facts appear to have neutralized the effects of the runs on the Chicago savings banks and the heavy movement of currency from this city to the west which it occasioned, while the break down of wheat prices and the resulting heavy foreign buying of cereals had very significant results. The appearance in the exchange market of a large amount of bills drawn against wheat purchased for export broke down exchange rather early in the week, so that the \$1,000,000 of gold shipped to London on Tues-day seems to be the last of the specie outflow for the present. The foreign buying of stocks here and the reduction of the Bank of England discount rates, accompanied by increased case in the London unoney market, aided in demoralizing exchange rates at the close of the week and supplemented the other favorable influences. There was some manipulation in money on the outflow to the west. The increased freedom with which foreign funds were offered and the prompt subsidence of the troubles at Chicago checked any decided manifestations of this

BRADSTREET'S REVIEW OF TRADE. Business Conditions Showing a Slight Im-

New York, June 9.—Bradstreet's review of the state of trade will tomorrow say: The feeling in New York and Chicago financial circles has improved. Chicago banks have drawn enermous sums from the east and the increased strength is followed by a report that they may soon begin discounting more freely. New York bank officials report an easier feeling in the local market, following checked gold exports and lower exchange On the other hand, Boston and Providence, New Orieans and Detroit bankers are quoting higher rates of discount, in some instances with a corresponding influence on trade. The south appears to be feeling the results of the extreme and widespread stringency, relatively, least, and the west and northwest most. New York City appears to have foreacen and prepared for the financial storm to a large extent and hapks there recent the sile.

DUN'S REVIEW OF THE WEEK

for a speedy reversal of existing trade conditions and the tendency of staple prices continues downward, wheat quotations having gone below all records, which is not remarkable, when, as shown by Bradstreet's all available home stocks in June equaled 100,000,000 bushels, in or than three times the aggregate a year ago. Stocks of wheat in America and Europe and affoat for Europe were 167,000,000 bushels, or 40 per cent heavier than last year. Wheat crop damage here has been overestimated, and an unprecedented total of not less than 90,000,000 bushels of wheat will be carried over July 1, bushels of wheat will be carried over July 1, or enough to make good a reduced yield this

Exports of Wheat.

Wheat exports this week (flour included), both coasts and from Montreal, equal 3,610,-000 bushels, against 3,000,000 in the week year ago, and a little more than one-third as much in like weeks in three preceding years. Wheat is off 1 to 2 cents, besides which pork. lard, corn, hides, pig iron, cotton and lumber are all off. The iron and steel industries are working to order and actual prices are fre-

working to order and actual prices are frequently on the basis of 'private terms."

The gleam of sunshine in the week's report is an increase of nearly 9 per cent in gross railway earnings for May, Grangers leading with a gain of 17 per cent, and other groups, except Pacifics which report a decrease, with increases of from 7 to 10 per cent. For five months gross earnings are only 3.6 per cent more than in 1892.

The business failures this week include two with more than \$1,000,000 capital, two others with more than \$200,000 and eleven

two with more than \$1,000,000 capital, two others with more than \$500,000 and eleven with a capital stock each between \$100,000 and \$500,000. There are 17 per cent with capital in excess of \$5,000 each.

There is a slight improvement in the distribution of dry goods from Toronto, induced by fine weather. Crop prospects in the province of Ontario are good and there are transition for wheat for expert caused by inquiries for wheat for export, caused by

At the city of Quebec the retail trade has been interefered with by the wet weather and the shoe and leather industries are dull. Quebec's timber trade is very dull, owing to the falling off in the demand from England. General wholesale business in Montreal has improved. Dispatches from Halifax report some gain in trade with nore favorable weather, thus stimulating

#### STIRRED UP THE FAITHFUL

Faction of the Alliance Disturbed Over Charges of Disloyalty.

DECLARES HIS POSITION

Not at His Request Were Details of the Trial Kept Secret Jay Thinks Himself Strong with the In-

dependents.

LINCOLN. Neb., June 9 .- [Special to THE BEE. |- The announcement in THE BEE that the Thorton-Burrows-Thompson fight had reached alliance executive headquarters has stirred the faithful up to still greater incrimination and recrimination. Mr. Burrows' denial that the injunction of secreey was at his request is well taken. The request made by Mr. Burrows was that he be given thirty days to answer the charges that Thornton had prepared and filed against him, and this

was acceded to. Mr. Thompson had asked for an immediate hearing of those against him, but the com-mittee finally decided to allow the whole matter to come up at the state meeting on July 7. This is the story told by Mr. Thorn-

ton and his friends.

On the other hand, Mr. Burrows declares that the committee had partially heard the testimony, and while he was not at liberty to disclose the verdict, he was not at all nervous over the result. He will not, howover, disclose the nature of the charges against him, but it is said they are simply a reiteration of those Thornton has frequently made in his newspaper, and embrace peal, business and personal acts of his. cal, business and personal acts of his. The charges against Thompson are more serious, as they charge him with misappropriation of funds of the alliance in that he charged the organization with the entire rental of the building, a portion of which was occupied by the farmers alliance publication office and composing rooms, and that he had charged the alliance higher twices for low work than he raid or it. higher prices for job work than he paid or it could have been procured elsewhere. Mr. Burrows, it is said, had an editorial broadside in type ready to fire at Thornton and his paper, but did not use it at the request of the executive committee, which evinced a disinclination to decide which of the two throw it all onto the shoulders of the state alliance general meeting.

Viaduct Injunction.

Judges Strode and Tibbetts have been en gaged all day in hearing the injunction case brought by the owners of property adjacent to the new O street viaduct to re-strain the city, the railroad companies and the contractor from proceeding with the work. The principal point dwelt upon by the plaintiffs' attorneys was that the proposition of the railway companies, embodied in the contract with the city anticipated that their property should be relieved of the payment of any taxes for the repair or main-tenance of the structure in the future; that is, that should the structure be wrecked by a high wind or otherwise damaged that the railroad companies could not be compelled to pay any proportion of the cost of making it as good as new.

Mr. Marquette for the Burlington vigor-

ously contended that no such proposition or clause was contained therein. Other points made by the plaintiff were that they were the owners in fee of the paving in front of their property, but that it was being torn up and destroyed without the proffer of any damages; that in vacating O street and giving it over to the use of the railroads the council exceeded its authority; that the city has no right to incur the expense of constructing the viaduct when they made no provision in the annual levy for that purpose, while the ordinance is attacked on technical grounds and the board of appraisers on the ground that the council had no authority in law to appoint them.

The judges will probably render a decision tomorrow. The attorneys for the plaintiffs are confident of success, and claim that the statute under which the council acted when it passed the orninance and entered into the

contract, had previously been repealed. Midsummer Railies,

SPLIT ON RELIGION.

Kearney Democrats All Torn Up Over the Postoffice Fight, KEARNEY, Nob., June 9 .- [Special to The

BEE. |-About three weeks ago word was received here that John F. Crocker had been appointed postmaster at Kearney. Mr. Crocker is a democrat of the deepest dye, a strong Morton man and an alleged member of the A. P. A. These last two facts are sufficient to make him very unpopular with a certain portion of the Kearney democrats, and Juan Boyle went to Washington for the purpose of preventing Mr. Crocker's confirmation and urging John Thompson's appointment. So successfully did he present his claims that the confirmation has been withheld and Kearney democrats have been on the rack. Republicans are not taking any hand in the battle, as it has resolved itself down to a Catholic vs. anti-Catholic fight within the democratic party, and the fellow having the longest pole will get the persim-

mons.
Yestorday a petition signed by over 400 citizens in and around Kearney was forwarded to the postmaster general in favor of Mr. Crocker, and the democratic party in Kearney is on the verge of a yawning chasm, as both parties are doing all they can to carry their point.

Imperial News Items. IMPERIAL, Neb., June 9 .- [Special to THE Bee. ]-Imperial has arranged for a grand celebration on the Fourth.

For the past week heavy rains have fallen almost daily and now the ground is thoroughly soaked and farmers report crop pros-pects as good as they were at this time in 1891, when the immense crop was raised. Several parties from Lee county, Illinois, were here this week and invested in \$10 per

The teachers institute for Chase county will be held here, commencing July 1 and continues for two weeks. Prof. Scott, superintendent of Osceola, Ia., schools, has been secured to conduct it.

Numerous business and residence buildings have been erected this spring, and al-most daily new buildings are begun.

The preliminary steps are being taken looking to the erection of a new five-room brick school building, and the prospect is good for its completion about November 1.

Nothing as yet has been heard from Frank Craft, the farmer who so mys-teriously disappeared last Saturday night. Search is still in progress, however. Some little damage to crops in this locality is reported being done by the Texan fly or false chinchbug, otherwise everything is doing splendidly, the ground being in excellent condition.

A. O. U. W. Piente. REPUBLICAN CITY, Neb., June 9 .- [Special to THE BEE |-The second annual picnic of the Ancient Order of United Workmen was held here yesterday. The business houses were decorated in honor of the occasion. All the morning trains were loaded with people to take part in the exercises. Bands from Red Cloud, Bloomington and Hopanee were present. Hon. D. C. Gillespie and Grand Master Tate of Nebraska City delivered addresses.
The star lodge team of Bloomington gave

a fine uniformed drill. The estimated num-ber of people present was 3,000. Still the day was one of the worst for wind and dust of the season. "The Ancient Order of Her-cules" was rendered to a crowded house in the evening.

DECISION DENOUNCED.

New York Papers Unantmous in Declaring Against the Sunday Closing Verdict. New York, June 9.—Sentiment in New York is strongly against the decision of the federal court closing the World's fair on Sunday. The Morning Journal characterizes it as a "victory for projudice." It says: "The workingmen will be justified in a very vigorous expression of discontent at this decision. Meantime some ilberal western employers aunounce that they will run their factories on Sundays, so that their workmen may have Mondays at the fair. Possibly this movement may become the pretext for another series of injunctious.

The World says: "Bigotry is triumphant. It is a decision which will gratify the bigotry that seeks to enforce its scruples upon the consciences of others. It will enrich the salooukcepers, the proprietors of disorderly houses and the keepers of the variegated hells along the approaches to the exposition grounds. It will grieve all judicious minds whose concern is for the substance rather

than the shadow of good."

The Press says: "It is in the interest of public morality that the Press supports the Sunday opening of the fair, and the principle involved is not in the slightest degree affected by a judicial opinion, based on a

The Times says: "The decision of the United States court at Chicago on the ques-tion of closing the World's fair on Sunday is very surprising, and it is doubtful if it can stand. If the national government had au-thority to require the fair to be closed, independent of the pecuniary contract, no doubt it would be entitled to an injunction, but it is hard to find any ground for such author-

President Higinbotham Proposes to Obey the Mandate of the Court. CHICAGO, Ill., June 9.-A local paper credits President Higiabotham of the local directory

with the following: "Yes, the World's fair will be closed "Yes, the World's fair will be closed next Sunday. We can do no more than obey the law. We have done our duty and taken every reasonable step to secure an open fair for the people, whom we have believed would be benefited thereby. It is too bad, but the directory can certainly not be blamed and our people should account the decision with good will can certainly not be blamed and our people should accept the decision with good will. I have never advocated Sunday opening for any other reason than that I thought it a duty we owed to those who would be unable adequately to see the fair otherwise. We have never intended to break any law, but we had a right to show what the law was. Good law-vers different in opinion as to our legal rights. yers differed in opinion as to our legal rights in the matter. There was nothing left for us to do but test the case in the courts and the opinions of the opposing attorneys and the opinion of the dissenting judge show that there were two sides to the question. Now it is settled and we shall act accordingly. As to the in-Junction of the state court, restraining us from closing the gates, it cuts little figure. It is swallowed up in the decision of the United States court."

ALLOWED TO APPEAL.

Sunday Closing Can Be Carried Up, but a

Supersedens Denled. Citicago, Ill., June 9.-Judge Woods, in the United States circuit court, this morning decided to allow the World's Columbian exposition to appeal from yesterday's Sunday closing decision. The time and place of hearing the appeal will be fixed by Chief Justice Fuller. The application for a super-sedeas, which would suspend the injunction until the decision and allow of the gates

being opened next Sunday, was refused and the order for the injunction entered. Later it was agreed that the attorneys for the fair might ask Chief Justice Fuller for a suspension of judgment. On his decision will depend whether or not the fair will be

open on Sunday.
Attorney General Maloney of Illinois took a hand in the fight today by filing a bill for a mandamus in the state court to compel the commissioners to open the gates of the fair on Sunday.

Rush to the Fair Begun, Cuicago, Ill., June 9 .- The officials estimate that the paid attendance at the World's fair yesterday was over 150,000. The weather continues beautiful today and the attendance will again be large, judging by numbers arriving early. It was evident this morning that the most of those in the grounds were strangers. Inquiry at the hotels by the fair officials leads to the estimate that 75,000

100,000 strangers are in the city for the pur-pose of visiting the fair and advices from the outside indicate that the number will be tripled in a short time.

Another Appeal. Card from Secretary James of the Associated Charities. To the public: The Associated Charities feels compelled to make another appeal to the public for outgrown and discarded clothing for the poor. A call was made through the schools in February which met with a generous response, but this stock is now exhausted. There are daily applications for relief. If those who have anything to spare will send it to the public schools it will find its way to the families that are in urgent need. It should be borne in mind that women's and

children's garments are most needed and difficult to obtain.

While making this collection it is thought best to gather up as many glass bottles as is possible. These are usually an encumbrance at home, and in large quantities they can always be sold to advantage. If our friends will send all the useless empty bottles that are crowding their upper pantry shelves to the nearest school house they will find a market for them that will put a nice sum sum into our treasury. The teachers are generous enough to undertake the custody of these donations and will forward them to the office of the Associated Charities. H. M. James, Acting Secretary.

Fire to a Frat. Clouds of dense black smoke rewarded the

sightseers who gathered opposite the two story brick building at 507-511 South Thirteenth street last evening. A flooded flat and a large scare fell to the lot of the occupants of the second floor, where the explosion of a gasoline stove caused all the trouble. The southern rooms in the flat are occupie by H. Troby, who is the principal loser by the damage by smoke and water. Mrs. Troby had just lighted the stove and was turning away when the ex-plosion occurred. Neither she nor anyone else was hurt, however. The occupants of the building at once hurried out, taking with them, as they went, whatever articles they could. The slarm was turned in and promptly responded to.

promptly responded to.

It took only a few minutes to drown the blaze, and it was then found that but little damage was done to the building, but that that the household effects of the Trobys were pretty badly damaged by smoke and water. Water also leaked into the tinshop down stairs, doing but slight damage, however.

The loss of the Trobys and John I. Red-dick, who owns the building, is about \$300. The damage to the building is insignificant. Reputsed the Mob. HUNTINGTON, W. Va., June 9 .- Two men who were in jail at Cattlettsburg, Ky., for

safe keeping were being returned to Pike county for trial yesterday, when, at Richardson, Ky., they were attacked by a mob, who endeavored to take the priseners away from the officers. The officers opened fire on the mob, killing two men.

AMUSEMENTS.

Balfe's sublime opera "The Bohemian Girl," was the attraction at the Farnam

Street theater last evening. Its interpretation by the Calhoun Opera company seemed to meet the hearty approval of the large audience present.

Mr. Pennell, musically speaking, made an acceptable Count Arnheim, He was in excellent voice, and re-ceived an evation from his friends in the audience, especially when he sang "The Heart Bowed Down." Mr. Pennell, as an amateur, dismantles the guns of adverse criticism, which might otherwise be turned criticism, which might otherwise be turned upon his acting. As a singer he compared most favorably with a professional. As an actor, he displays a lack of feeling, especially in the second act, where he recognizes in Arline his lost daughter. Mr. Fennell's modesty asserted itself in the embraces. Miss Laura Millard as Arline and Miss Carrie Godfrey as Queen of the Gypsies, were prime favorites with the audience, while Mr. Douglas Flint as Devilshoof was in the bloom of popular favor.

The choruses were all well rendered. The same bill will be repeated tonight.

TRIUMPHANT ROYALTY.

Rumors that Blount Will Restore Hawaii's

Queen to Power. San Francisco, Cal., June 9.—The next steamer from Honolulu will bring news of great interest, unless the New York correspondents there are greatly mistaken. Said J. D. spreckles in an interview: "Advices received from Honolulu are to the effect that within a few days Minister Blount will an-nounce the wishes of the United States and the next steamer will bring us the news that the queen has been restored to power. There will be no trouble, but the United States will restore the queen to the rights it aided in taking from her.

Speaker Gaffin Talks. Hon. J. N. Gaffin of Colon, speaker of the

house of representatives, was in the city a short time yesterday on his way home from the World's fair. He said that aithough the great exposition was far from being complete there was enough there to keep visi-turs busy in sightseeing for weeks. When asked about the Burrows-Thompson row at Lincoln he said that he know nothing about it except what he saw in the morning papers. but he was satisfied that it was nothing that would affect the independent party of the state. It was a personal row and the interested parties could go ahead with it to their hearts' content without any outside interference. Touching the outcome of the impeach ment cases, he said it was something of a disappointment to him and he thought that it was the same to the people generally. He was satisfied that the legislature had not unearthed half of the corruption and rottenness that existed. As to the effect that the result of the trial would have, he said that he believed that it would be of some benefit to the people's party, but he would be as great a sufferer as it would have been if representatives of that party in the legislature had not voted for the impeachment. The impeachment was not the work of any one party, and it would have been impossible for a single party, unaided by either of the others, to have brought it about, and it was therefore impossible for any one of them to take all the credit for it. He believed that the dose would prove a wholesome one, and that it would have a good effect, not only on the present officials but on those who shall come after them. As to just what effect the impeachment would have in the next campaign, and what figure it would cut, he would not venture a prediction He said he was satisfied that the machine end of the republican party would attempt to encompass the defeat of Judge Maxwell for renomination, but said if nominated he would certainly be elected.
