Hoos—The supply was fairly liberal for a Tuesday, and the quality as a rule good. There was an active demand from shippers early and the light and medium weight hors opened about 5c higher than Monday with sales largely at \$6.50 and \$6.55, and a few prime sorts at \$6.65. All grades were stronger early, with the trading mostly at \$6.45 and \$6.50. Later, after urgent orders had been filled and Chicago was reported lower, the market broke and packers bought hogs 5c to 10c lower than the early market at from \$6.35 to \$6.45, largely at \$6.40. The market closed up weak, but with nearly everything out of first hands. The big bulk of the hogs sold at \$6.40 and \$6.50, as against \$6.45 Monday and \$6.15 and \$6.50, as against \$6.45 Monday and \$6.15 and \$6.20 on last Tuesday. Representative sales:

Chicago Live Stock Market.

COMMERCIAL AND FINANCIAL

Wheat Reacted Nearly Two Cents to the Surprise of the Trade.

SOME OF THE FACTORS IN THE DEAL

There Was Good Buying with Little on Sale and Prices Quickly Turned-Evident Hesitation on the Part

CHICAGO, June 13 .- Just as the talent had concluded that wheat was a sale for another decline, it reacted today nearly 2c per bu., advancing from 65%c to 67%c for July. The poor condition of the French wheat crop, the estimate that Italy will have to import 24,-000,000 bu, and reports from the northwest that hot winds are destroying the previous

good prospects for spring wheat created a bullish sentiment which refused to be downed by reported troubles of western banks. The information concerning the jeopardy of the spring wheat crop was the cruelest cut of all. The panacea for short reports in Europe and 100,000,000 bu, shortage in the winter crop here, were supposed by the bears to be in process of growth in the great northwest and with that resource becoming small by degrees, they were reaching out today with both hands for their short wheat. Cash wheat

west and with that resource becoming small by degrees, they were reaching out today with both hands for their short wheat. Cash wheat sold on June 7 at 2½c under July and today the difference was narrowed from %c to 1c. This was pointed out as proof of the improvement in the local financial situation. At the close July was back to from 66%c to 64%c, or from %c to %c gain since yesterday.

The opening in wheat was weak at ½c decline on easier calles and rumors of some additional bank failures elsewhere. There was good buying with little on sale and prices quickly turned. There was evident hesitation on the part of sellers.

A private cable giving what purported to be the substance of a French wheat crop report from the London Times showed the condition of the French winter wheat crop to range from 40 to 71 per cent and spring from 25 to 72 per cent. The area of winter wheat was given about the same as last year, but the area of spring was 20 per cent less. For a time this report had a decelledly stre-gthening influence and prices made quite a buige, but It was noticed it had little or no effect in foreign markets and on inquiry its genuineness was doubted. A later investigation led to the belief that it was old news reliashed from the London Times of June 3, and since discredited. Here the market lost some of the buige. The largest decrease in the visible supply helped to firm the market some. The market at the opening was from 4c to 4c lower than the closing figures yesterday, then advanced from 1½c to 1%c, ensed off slightly and the close was about %c higher than yesterday.

There was rustling and hustling among the corn shorts today. The scramble did not start for about fifteen minutes after the opening, but when it did begin there was a long continuance of it. Opening trades were at from ½c to ½c decline, but a better demand was soon developed and the price was advanced ½c, the statement of 30,000 bu. decrease in the visible supply and continued talk of smaller movements having some influence. Then the car l

ere was a fair trade in oats and a strong

There was a fair trade in oats and a strong feeling, due to sympathy with wheat andcorn, to moderate offerings and to fair purchases of the near futures, and prices advanced from \$20 to \$6 and September \$90, and closed steady at about thetop. The visible supply statement was buillish.

The provision market was firm, but still lacked animation in the speculative trading. The receipts of hogs numbered only 12,000 head and the shipments of meats in the past twenty-four hours amounted to the heavy total of over 2,500,000 lbs. These facts and the advance in wheat and corn caused the firmer tone, which is reflected in an advance of 5e in lard and 15e in ribs. Pork was neglected and unchanged. be in lard and loc in ribs. Fork was neglected and unchanged. Estimated receipts for tomorrow: Wheat, 82 cars; corn, 275 cars; oats, 120 cars; hogs, 19,000 head. The leading futures ranged as follows:

STOCKS AND BONDS.

Security Market Was Even Duller than

Usual Yesterday. NEW YORK, June 13 .- The stock market was even duller than usual today. The dealings were almost entirely professional, and, as the feeling among the traders on the board is still bearish, a further decline in prices was recovered. The advices from the west of additional bank failures and troubles in the mercantile world aided the bears materially in their operations. The continued shipments of currency and consequent firmness of the rates for time money also had an influence upon specu-lation. Under the circumstances the declina in the share list was by no means heavy, ranging from 14 to 1% per cent, the latter in Gen

ing from ½ to 1½ per cent, the latter in General Electric, which sold down to 70%.

The principal drives were against this stock Chicage Gas, Sugar, Atchison, Western Union, Reading, Northern Pacific preferred and the grangers. During the afternoon the supply of money on call increased and the rate declined from 10 to 3 per cent. On this the smaller shorts attempted to cover and prices improved ½ to 1½ per cent.

A feature of the raily was the comparatively light offerings as the advance made progress. Taken altogether it was an uncommonly quiet and featureless session. The market closed firm in tone.

and featureless session. The market closed firm in tone.

The Post says: Many people are accustomed to base their judgment of the financial situation solely on the course of New York Stock exchange prices, and the present market weakness, due primarily to the tight money market, has changed the views of even the most hopeful observers.

A significant factor is the future price of grain. Were wheat to recover suddenly from its present low price a real danger would arise in the inducement offered foreign holders of options to sell their contracts here and rea p a double profit by covering the recent sales of

weak. Receipts were fair and there was a good demand from both dressed beef houses and shippers, but as the offerings were ample

exchange. But while prices do not rally, it is at least reasonable to look for a depression in grain similar to that which has so long prevailed in securities. As for the westward money shipments, there is this much to be said; that the funds have left the New York banks to seek a locality where they are far more vitally needed. Moreover there are shipments which will presently seek New York again as surely as water finds its level. Of this there can be no dispute. The present movement of money, in short, is exactly what this market regularly expects in March and September. The currency entanglements have placed New York in a position less competent than usual to meet interfor demands, but all this might have been anticipated.

The following are the closing quotations on the leading stocks on the New York Stock exchange today:

London Financial Review.

[Conyrighted 1893 by Jam's Gordon Bennett.]
LONDON, June 13 — [New York Herald Cable — Special to The Bee.]—The settlement on the Stock Exchange so far has gone off very easily. There was one failure—W. L. Webb &, Co.—a small, old fashloned firm of no Importance. The continuation of rates, as expected, were extremely light, only about 4 per cent per annum being generally paid. American rallways were apparently sound and there was a disposition to look for higher prices, although business will probably be quiet for some weeks ahead. Conditions are now the reverse of a month ago. Then leading brokers saw cart loads of stock but no money, now there are no stocks and heaps of money. Big houses, Rothschild, etc., think well of the future. Yankee railways, and South African shares especially, are likely to advance. The former closed dull today after being firm upon New York prices, but no more long stocks are to be shaken out and the Stock exchange is looking for fun when Wall street bears begin to cover. Foreign stocks were good, owing to the satisfactory Argentine settlement. There was no other feature, but everything generally was firm. The Grand Trunk weekly traffic statement shows £5,500 gross increase. No gold received at bank. Silver was firm at 38/3d. (Copyrighted 1893 by Jam's Gordon Bennett.)

OMAHA LIVE STOCK MARKETS. Cattle Trade Still Weak-Hogs Open Strong and Close Weak with All Sold.

TUESDAY, June 13. Receipts of both cattle and hogs while by no means heavy show up better than a week ago and the two days supply compared with the same two days last week shows an increase of about 1,500 cattle and 1,500 hogs. In shoop there has been a slight falling off. The general cattle market was slow and

Chicago Live Stock Market.

Chicago, June 12.—iSpecial Telegram to The Bee | There was again a small supply of native cattle, but again ald the market refuse to go up. About 2,000 head comprised the supply of natives, the remainder of the 5,000 head on sale being contributed by Texas. The tone of the market was fairly firm and a continuance of the present light runs must soon result in better prices being paid, but the very best that sellers could do today was to hold the market steady. Exceedingly few prime steers were offered, and the market for that class, therefore, was to a certain extent nominal. Within the last week nothing has changed hands at a higher figure than \$5.70, and it would have to be an extraordinarily choice bunch of steers for which an outside quotation—\$5.90—could be reached. Most of the trading for dressed beef and shipping sorts was at from \$4.40 to \$5.10, while cows and buils were traded in principally at from \$2 to \$3.25. Very little was done in stockers and feeders. Calves were dull and lower.

The hog market remained firm. Poor and common stock did not show much strength, but for good to prime grades the average of sales was a fraction higher than for Monday. The best of the heavyweights sold as high as

87.15 and there was a sale on two of lancy assorted light at \$7.20. Those, however, were outside figures and should not be considered in estimating market values. The prevailing prices were from \$6.30 to \$7.10 for light. There were a number of sales of heavy and medium and from \$6.30 to \$7.10 for light at \$7.15. Of hogs weighing under 200 lbs, there were not enough to meet the demand.

There was he noteworthy change in the sheep market. Receipts were about the same as for Monday and so was the character of the demand and the range of values. From \$5.30 to \$5.40 for choice natives and western nuttons sales ranged all along down to from \$3.25 to \$3.50 for poor stuff. Few sales were noted at better than \$5.25 and it was an exceedingly poor article that had to sell below \$3.50. From \$3.75 to \$4 bought most of the stock. Spring lambs were salable at from \$4.50 to \$7. Texans were quoted at from \$3.25 to \$4.90 and natives and westerns at from \$3.55 to \$4.90 and natives and westerns at from \$3.50 to \$5.40.

Receipts: Cattle, 5.500 head; caives, 1,500 head; hogs, 13,000 head; sheep, 10,000 head. The Evening Journal reports:

CATTLE—Receipts, 5,000 head; shipments, 3,000 head; the market on prime heavy was weak; brime light strong; mixed and packers, \$5.5026.90; prime heavy and butchers' weights, \$7.0027.15; light, \$7.108.7.20.

Sheep—Receipts, 8,000 head; shipments, 1,000 head; market steady; natives, \$4.0034.05 (\$5.50. Exans, \$3.506.75; needing steeps and Disposition of Stock. and eastern advices none too favorable buyers will able to cheapen up a little all around. The tidy fat light and medium weight catile were wanted by all and showed very little if any decline, while steers that were not well fatted, of that were heavy and coarse, buyers found it difficult to move at a 5c to 10c decline in many cases. Good to choice beeves welching from 1,200 to 1450 lbs, sold at from \$4.70 to \$5.15, while there were sales of fough 1,200 and 1,300 lb steers at from \$4.25 to \$4.60. Fair to very good 950 to 1,100-lb steers sold at from \$4.25 to \$4.60. There were a good many common half fat and green cattle here, and sales were at from \$3.90 to \$4.20. Business was on the dull and diragging order all morning but a very fair clearance was effected.

There was a very limited supply of cows on hand, but as packers are beginning to buy cheap Texas cattle in Kansas City, buyers were bearish on everything grading under fair. Good to choice stock was firm at from \$3.65 to \$4.20, with common and canning grades dull and easier at from \$1.25 to \$2.75. The buik of the fair to good stock sold at from \$2.55 to \$3.65. Common to good calves changed hands at from \$2.50 to \$4.50. Rough stock of all kinds was in fair demand and firm at from \$2.35 to \$4 for poor to prime buils, oven and stags.

A Chicago Man Buys West Virginia Land Which Does Not Exist.

CHICAGO, June 13.-James A. Bergen and Horace McKay were arraigned before Justice Scully yesterday, charged with conspiracy and forgery. Mr. Wheeler, who caused their arrest, alleges that they were instrumental in defrauding him out of \$6,000 worth of real estate. He stated that he met the two men in September, 1892, and that he consummated a deal with them in which he traded three houses and lots in Kansas City for a tract of land consisting of 2,400 acres in West Virginia. A short time after the ex-change Mr. Wheeler went to West Virginia to look after his property, but was unable to locate it. He returned to Chicago and immediately swore out warrants for the arrest of the two men. The cases against them were continued until June 22, in \$1,000 bonds.

Wants Dr. Grave Set Free. DENVER, June 13 .- After the continuance

of Dr. Graves' trial until the September term of court and the continuance of the bail of \$30,000 by Judge Burns yesterday afternoon, Judge Macon stated that he should not rest satisfied with the decision, and so a formal application for Dr. Graves' discharge from custody was made before Judge Burns by Judge Macon. The reason alleged for the discharge is

The reason alleged for the discharge is that both the January and April terms of the district court here have passed without Dr. Graves being tried, which is contrary to law. The court designates no day upon which the motion for discharge might be heard. It is stated that if Jukge Burns refuses the application then an effort will be made to have the doctor released on a writ of habeas corrus and so have the case carof habeas corpus, and so have the case car ried to the supreme court on that point.

Seized an American Fishing Vessel. HAIFAX, N. S., June 13.—Captain Knowlton of the Canadian fishing

cruiser Valiant seized an American fishing vessel yesterday. He found the Lewis H. Giles several miles from the northeast shore of Cape Breton, preparing to shoot her mackerel seine. Captain Knowlton was in the lookout for some time and was ready to pounce on his victim and captured the craft with thirty barrels of mackerel. The vessel was towed into North Sydney, part of the American crew previously having been transferred to the cruiser. The American vessel Grampus is at North Sydney watching in behalf of the United States fishermen.

IT SAVORS OF FOUL PLAY Short

Suspicious Circumstances Surrounding the Drowning of Two Women.

STRANGE STORY OF THEIR ESCORTS

Mrs. Martin and Mrs. Durham of Chicago Go for a Sail with Joseph Caul and Peter Zanker-Only the Men Return.

CHICAGO, June 13 .- Two women were rowned in Lake Michigan at the twomile crib off Fourteenth street last night, and pending the result of the investigation, which was commerced today by the institution of a search for the podies, their escorts are locked up at the Cottage Grove avenue station. The drowned are Mrs. Martin, a widow, and Mrs. Durham. The men under arrest are Joseph Caul and Peter Zanker. The four were well acquainted and it is said had often been out together. Last evening they engaged a boat and rowed out to the Fourteenth street crib. The men were accustomed to the use of oars and there seemed to be no danger, as the

lake was not rough.

When the crib was reached, all left the boat, remaining an hour. It was then decided to return to the city and Caul untied the boat. He and Zanker assisted Mrs. Durham to her seat, but as Mrs. Martin was ready to step in, the boat began to drift away. The woman became excited and started to jump into the boat, but was stopped by the men, who told her to wait a moment.

who told her to wait a moment.

"We'll get closer," said Caul, as he was making an effort to bring the boat around. But Mrs. Martin did not heed the admonition. "I will try anyway," she said as she stepped back a few feet from the edge of the crib and made a running jump. Her feet struck the side of the boat and it instantly capsized. All four wars thrown into the sized. All four were thrown into the water. Both Caul and Zanker are good swim-

mers, but before they could reach the women they sank. The men made every effort to save their lives, but could not, so they say. They were hampered by the darkness, and as soon as they could, righted the boat. A search was then made for the bodies, which they thought might be floating, but after an hour's fruitless work they rowed back to shore.

Upon their arrival they went at once

to the Cottage Grove avenue station. Lieutenant Healey heard their story and concluded to detain them until a further investigation can be made. Carried His Guns in Sight.

SHELBYVILLE, Ind., June 13.—"Babe" Hawkins came to this city yesterday and demanded that his bond be reduced, his lawyer, Judge T. B. Adams, claiming

that it was excessive. Mr. Adams advised him to carry his weapons openly, and all day he went about carrying two revolvers in his hands. Late in the evening his father came in in a spring wagon and "Babe" got in with him. When he mounted the seat he placed his revolvers on the seat in front and took pains to exhibit them. Justice Craycraft refused to reduce the bond, application for which seemed sus Hawkins is a desperado of the picious. worst character and has terrorized the county for years. He is under bond for
