N. B. FALCONER. From the World's Fair to Washington and the East.

Do you contemplate going to the World's Fair? Of course you do—every one does. But you will not end your journey with a visit to the fair.

You will want to go back to the old home in New York, Ohio or Pennsylvania. You will, perhaps, want incidentally to go to Washington, call on the president to inquire after the "plum" crop, in fact make a swing around the whole circle, take in Cincinnati, Pittsburg, Wheeling, Washington, Baltimore and New York.

That would make a splendid trip if taken over the Baltimore & Ohio railroad. Over no other railroad route in all the east can there be found more delightful and varied scenery than over the famous B. & O. It is the only direct route from Chicago to Washington. Leaving Chicago, on the finest and fastest trains in the world, vestibuled from end to end, lighted by the famous Pintsch gas, protected by Pullman's anti-telescoping device, and a perfect block system, you are rapidly whirled over a splendid road-bed and down through the grand old states of Illinois, Indiana, Ohio, Pennsylvania and Virginia, away up among the mountain fastnesses of the Alleghenies, past hundreds of historic battlefields and places of note.

You cannot conceive of a grander trip on all the American continent. If you contemplate visiting the old home in the east you should not fail to travel by way of the Baltimore & Ohio railroad. For information as to rates, time of trains, sleeping car accommodations, etc., apply to L. S. Allen, Assistant General Passenger Agent, "Roostery," Chicago, Ill.

EXCURSIONS EAST. Via the Wabash Railroad. No. 1. For the Epworth league convention at Cleveland, O., June 29 to July 2. The Wabash, in connection with the Detroit and Cleveland Navigation company, will make a rate of \$10 for the round trip from Chicago.

OMAHA'S RESORT.

One of the Most Pleasant Spots to Be Seen. With the formal opening of the East Omaha line to Courtland Beach a summer resort has been set down at Omaha's very doors, something that has been needed for sweltering humanity ever since the metropolis took on the airs of a city.

While the element of newness is everywhere discernible Courtland Beach in a year or two will become favorably known to any summer resort in the country, for it has not only the natural advantages of a landlocked lake, but pastora scenes and stretches of green that reach to the horizon's rim.

To the gentlemen who were the guests of the East Omaha line on the opening of the beach extension Tuesday afternoon everything was one vast surprise, for many of them had their first glimpse of Courtland Beach on that day. Without any flourish of trumpets the beach company has spent \$50,000 to beautify the grounds and make it a resort for the thousands who are unable to take summer flights to mountain or shore, west or east.

The grounds have been laid out in an artistic manner, flowers are in bloom and the young trees ready to give a cooling shade to what was but a short time ago a barren waste, with the water of the lake growing stagnant in the summer sun.

No expense has been spared to make the place an ideal breathing spot for Omaha people and for Council Bluffs people as well, for while a part of Pointwattamie county, Iowa, it is on the right side of the river and in a half-hour's ride of Fourteenth and Farnam streets.

One of the most attractive features of the new resort is the opening of the lake, with here and there a touch of Greek art to add to its beauty, capable of easily accommodating 2,000 people, two stories in height, with broad verandas encircling the whole on all sides. From the second story the view is magnificent, the long bridge following the course of Ames avenue, winding tortuously through the opening of a great stretch like a carpet to the hills that lie to the westward, the still waters of the lake, now and then rippled by a cooling breeze from the water, and the distant hills at their moorings, all combine to make a picture restful to a degree.

The bathhouse at the water's edge, with a pier 80 feet long projecting into the lake, is another artistic structure, very commodious, with the band stand in the second story, where on summer nights an orchestra will perform.

These are only parts of a perfect network of buildings, the bath houses being the principal structure on the grounds, equipped with the latest improvements, capable of taking care of 400 people at a time, there being that many bathrooms in the building. Then there is the gravelly road, without which the summer resort would be greatly incomplete, and before very long the largest merry-go-round in this section of the footings will be in operation, workman already having commenced its erection.

Bathing and boating, which, of course, will be the main attractions may be had here to an endless extent. The bottom of the lake is a hard rock, covered with fine sand that makes it an ideal swimming place, and the descent is so gradual until the life line is reached that the most timid water need have no fear of getting beyond her depth if she stays on this side the line.

Cars will run every five minutes from Sixteenth and Locust streets and land passengers within the enclosure, while those who care to drive will find excellent quarters for their horses and the drive out Sherman avenue to the lake, a fine road, cast over the long bridge promises to be the most fashionable drive in the city when Courtland beach throws open its doors to the public on Saturday.

DR. SCHENCK'S

Mandrake Pills have a value as a household remedy far beyond the power of language to describe. The family can hardly be true to itself that does not keep them on hand for use in emergencies.

MANDRAKE

Is the only vegetable substitute for that dangerous mineral, MERCURY, and while its action as a curative is fully equal, it possesses none of the perilous effects.

In Constipation, Mandrake acts upon the bowels without disposing them to subsequent Costiveness. No remedy acts so directly on the liver, nothing so speedily cures Sick Headache, Sour Stomach, and Biliousness as this.
