For the next six weeks we will offer to the public at less than the wholesale cost. We have only space for a few items, but desire you to understand that prices are as low on everything in the stock as on the lines which we quote herewith.

We offer the entire line at the ridiculously low price of 98¢ a yard, although there are \$1.50, \$1.75 and \$2.00 qualities in the lot. Remember we guarantee these to be absolutely every thread silk, and only 98¢ a yard.

LIBRARY BUILDING.

Slow Progress in Its Construction and What Causes the Delay.

Slow progress is being made on the library building on Harney street. The delay is charged to the sandstone quarryman in South Dakota. One of the contractors on the building said that the quarry was situated about four miles from the railroad and the wagon roads are reported to have been heavy making transportation of the heavy stones well-nigh impossible. From here it is learned that the quarryman will not put it in force of men sufficient to get out the supply that will keep work going on the library building.

Secretary William S. Curtis was seen at his office yesterday afternoon and stated that work had been delayed on account of the inability of the stone contractor to deliver material rapidly enough, but that there is now a good supply on hand, and that work will be pushed from now on.

Fire and Police Commissioners. Nothing was done at the meeting of the Board of Fire and Police Commissioners yesterday afternoon on account of the absence of Mayor Bemis and Commissioner Smith.

The principal matter for consideration is a communication from the Courtland Beach association asking for fire protection for the property and offering to purchase one of the city's old fire engines. This will be taken up by the board when it meets today at 9 o'clock.

The members of the board are in receipt of copies of an elegant 208-page souvenir book from the Kansas City fire department, illustrated with portraits of leading members and ex-members of that department, city officials and the leading features of the city on the Kaw.

Police Whistle. George King, an 18-year-old newsboy, tried to explain to Judge Berka why he got mixed up in a fight Tuesday.

PRISONERS REBEL. County Jailers Charges Refuse to Eat of Spoiled Meat.

The prisoners in the county jail struck at noon yesterday, but there was no walk-out. The cause of the rebellion was the serving of a lot of spoiled meat for dinner, and the strike was on as soon as the foul stuff was taken into the corridors.

The situation was called to the attention of Sheriff Bennett, who examined the meat and immediately pronounced it unfit to eat. He told the men that it was not his intention to have them eat meat that was not suitable for the table, and at once ordered another dinner prepared for all the prisoners in the jail.

It is stated that considerable difficulty has been experienced of late in the same manner. The meat for the jail is supplied by a local market, and several of the deliveries have been wholly unfit for use. On a number of occasions the meat has been sent back, and one day last week it was necessary to send it back twice, as the second lot that was sent was worse, if anything, than the first. Both the jailer and the sheriff have intercepted deliveries, but today the men went on their gauntlet successfully and the meat was in the pot without having passed inspection.

On former occasions the cook has interfered with the company, but it is bright and sunny this time and was sent into the corridors, where it came near causing the asphyxiation of some of the men who came in close contact with it.

The trouble was short lived, as the action of the sheriff in condemning the obnoxious meat and ordering a new lot was perfectly satisfactory to what had for a few minutes promised to develop into a savage lot of malcontents.

CHICAGO'S COLOSSAL SHOW.

Postmaster Clarkson Returns Somewhat Enraptured with the World's Fair.

Postmaster Clarkson has returned from the World's fair. He is very enthusiastic over the great exposition and says that anybody who will visit the fair and complain about the facilities for sight seeing, transportation to and from the grounds or the charges made by hotels must either be a crank or a person who is a stricken pessimist who has nothing at home.

"The magnificence of the whole affair and the superb system by which it is regulated and managed are matters of the most profound astonishment. One thing in particular struck me as being wonderful and gratifying to English speaking people, said the postmaster, was the fact that everybody about the exhibits talked English. Exhibitors from all parts of the civilized world are there and when you step up to make inquiry about the wares, thinking perhaps that the foreigners who have charge of them will scarcely be able to make out what you say to them, you will be delighted to find that they can speak English quite as well as the average American and some of them a good deal better. I asked a little Japanese girl how she learned to speak English and she said in a mission school in her native land. There is only one thing that I found to be somewhat disagreeable in the thing, and that was the magnitude of the thing. It is too large for any mortal man to take in, but aside from that there can be no question about this being the greatest event of the kind that has ever taken place in any country ever saw."

Speaking of the ruling prices for accommodations and for meals and transportation Mr. Clarkson said: "There is absolutely no foundation for complaint about extortionate rates and charges. The Illinois Central railroad has the most admirable and expeditious way of transporting the people from the city to the fair grounds and the fare is only 10 cents. Inside the grounds you can get a meal all the way from 25 cents to \$2, just as you want your pocketbook feel inclined about the matter. The crowd is the most orderly and good natured that I have ever seen. I was on the grounds one day when the 30,000 people were present, yet nobody was crowded. The grounds are so large that there is no danger of being inconvenienced by a crush."

Piles of people have piles, but De Witt's Witch Hazel Salve will cure them.
