cision and the arrangement with the lowa folks we have had to cut it down to \$75 feet." "Do you consider the cost of construction a proper basis on which to estimate the present value of the bridge!" "I think so. I don't know of any way in which it would be possible to arrive at a better estimate of its value. Take the Burlington bridges in this state—the west half of the Nebraska City bridge is assessed

half of the Nebraska City bridge is assessed at \$50,000, the westhalf of the Plattsmouth bridge at \$40,000 and the west half of the

Rulo bridge at \$42,500." "Do you think that one bridge is as valu-able as another?"

able as another?" Mr. Scribner very smoothly evaded the question by declaring that if it would be profitable for any more bridges at certain points they would be built, and the reason that other bridges were not built was be-cause present structures were not making any too much out of the capital invested. "Why," he declared, "the Nebraska Central and other companies have franchises here, and other companies have franchises here, and other don't build. They would if it was profitable. The Union Pacific bridge don't pay what it used to. The new motor bridge cut off everything from Council Bluffs, and the way freight charges are now cuts nell, Council Bluffs, Ia. Price 50c per copy. the way freight charges are now cuts into the bridge earnings, as charges are the same east from here as from the Bluffs, any the same west from the Bluffs as from here, so that nothing is made from hauling here, so that nothing is made from hauling over the bridge. They used to charge \$10 a car for hauling over the bridge, but they don't do it any more," and the tax commis-sioner turned away that the members of the board might not see him shed a tear or two for the good old days that had gone. After recovering his self-control, he insisted that there was a big discrepancy betw-en whit the B, & M, bridges were assessed and what the Union Pacific was willing to have go
