REPORTS OF HOT WINDS IN THE NORTHWEST

Corn Opened Strong at About the Final Quotations of Saturday and Under Good Demand Some Was Sold for Outside Account.

CHICAGO, June 26 .- Crop damage to spring wheat rose superior today to 35 per cent money in New York and a demoralized silver market. There was a strong tone to all the Board of Trade markets at the close. Compared with last night, wheat is up 1%c and corn 14c. In wheat the opening was about 15c higher than Saturday's closing and with a few fluctuations advanced from 150 to 150, then eased off slightly and the closing was about 1%c higher for July and 1%c higher for September than the closing figures Saturday.

The big decrease in quantity of wheat and flour on ocean passage, together with smaller visible supply, all helped to bring about the advance. It was also noticed that there was some disposition to buy July wheat and sell for September, and the general tendency and drift of the market induced shorts to cover. There were reports of hot winds in the northwest doing damage to the crop, and in some parts the spring wheat crop was reported as looking very bad. The tight money market in the cast, the break there in stocks and a reported failure in Minneapolis seemed to have

the cast, the break there in stocks and a reported fallure in Minneapolis seemed to have little or no effect.

Corn opened strong at about the final quotations of Saturday and under good demandsome was sold for outside account and decilned, gradually worked up from Me to le, the action of wheat helping the advance. The local crowd bought freely, but at an advance of 1½ to 42½c. Some of the larger concerns commenced to sell, and room operators being long, also sold in turn, resulting in a break of from ½c to ½c. There was tery little news received that was in any way influential and prices were governed largely by the action of local traders.

There was a moderate trade in oats, with prices following wheat and corn. Prices covered a ½c range, and advanced from ½ to ½c over Saturday's closing figures, but reacted from ¾ to ½c and closed with a gain of from ½ to ½c.

The receipts of hogs were 38,000 head instead of 25,000, as estimated on Saturday. As a result provisions were weak, but toward the close the rib clique bid for some lard and ribs, which caused from 12½ to 15c loss. The clossing quotations in pork show losses of 60c in July and 45c in September, and the carrying charged is back again to \$1 per bil.

Estimated receipts for tomorrow: Wheat, 175 cars; corn, 885 cars; oats, 275 cars; hogs, 19,000 head.

The leading futures ranged as follows:

Flour Market Encouraging.

According to the Northwestern Miller, while the flour market is generally characterized by millers as quiet and not very satisfactory, exporters continue to buy and the Eupopean market outlook is encouraging. The mills ran more heavily last week and produced 178,545 barrels of flour. For the corresponding week last year, however, the output was \$10,480 barrels, but in 1891 only 125,550 barrels. The direct export shipment by the mills last week was \$6,870 barrels, against 106,490 the preceding week.

British Grain Trade Review.

LONDON, June 26.—The Mark Lane Express in its weekly review of the British grain trade says: Saturday's and Friday's rainfails benefited England, France and Germany. The rains were excessive in Hungary and Roumanis and flooded corn lands. English wheat in London has advanced to 27s 2d per quarter. The total quantity still in farmers' hands is

1,509,000 quarters. Crop reports in France vary in their estimates of yield of wheat, placing it from \$5,000,000 to 41,000,000 quarters. The prospects in southern Russia have greatly improved. In New Zealand the wheat yield will be 200,000 quarters less than last year. Large importations of American flour in sacks have made flour in London dull.

Omaha Produce Market. The week opened with the general market ujet and with no very important changes in quiet and with no very important changes in prices.

The butter market remains firm and the heavy receipts predicted for the last of the month have not materialized as yet.

Eggs are about steady. Those houses having eggs are feeling rather weak, but at the same time there are not many eggs coming and a good many are not getting any more than enough eggs to supply their local trade.

STOCKS AND BONDS.

securities Were Feverish and Unsettled Throughout the Day. New York, June 26.—The stock market was everish and unsettled throughout the day. There was one or two sharp rallies, but they falled to hold, and at the close quotations were only a fraction above the lowest. The bears were far more aggressive than of late, in consequence of the stringency in money, which holds operations for the long account in check. The brokers are indisposed to advise pur-chases so long as they see trouble ahead in regard to obtaining accommodations at the banks. The big drop in silver certificates also operated in favor of lower markets for securi-ties, and the conflicting statements concern-ing the affairs of the Reading caused more or less measures.

ties, and the conflicting statements concerning the affairs of the Reading caused more or less uneasiness.

The decline was equal to from % to 3% per cent; American Sugar perferred 3% per cent to 77%. American Sugar preferred 3% per cent to 77%, General Electric 3% per cent to 67, Missouri Pacific 3% per cent to 30%. Manhattan 2% per cent to 124%, Great Northern preferred 3 per cent to 124%, Great Northern preferred 3 per cent to 144%, St. Paul 3% per cent to 60, Chicago Gas 2 per cent to 60, Quincy 11% per cent to 84%, Big Four 1% per cent to 30%, Rock Island 1% per cent to 69%, Lackawanna 1% per cent to 144%, Delaware & Hudson 1% per cent to 120, Louisville & Nashville 1% per cent to 120, Louisville & Nashville 1% per cent to 120, Each per cent to 37, Union Pacific 1% per cent to 25% and Western Union 1 per cent to 61%. Cordage preferred sold at 40% against 30, the last previous reported sale, and Oregon Navigation at 57% against 69. Later in the

day the rate for money dropped from \$5.040 per cent to 15 per cent under offerings by the foreign bankers and the stock market railied from 4 to 8 per cent, but the improvement was short lived and speculation left off irregular and in the main weak, despite a decline in call loans to 4 per cent and a drop in steriing exchange to figures, which if continued, must lead to a renewal of the import movement of gold.

iead to a renewal of the import movement of gold.

The Post says: Boston cut a leading figure in the stock market today. The decline in prices began at the opening and was very widely distributed, but the stocks that were selling heaviest were conspicuously those known as the "Boston arbitrage shares." Sugar certificates, General Electric and Union Pacific, all of them Boston specialities, led in the downward movement. This obvious liquidation, taken along with today's hurried reversal in policy by the Boston banks on clearing house certificates, encouraged the belief that some in that city were in serious trouble. No vindication of the wisdom of our banks could be more complete than this humiliating spectacle presented in a neighbor city. Here the united banks boildly faced the situation, amounting that if acute necessity for bank accommodation should suddenly develop they proposed to be ready for the crisis. Philadelphia pradently followed their example. The Boston financiers, hilled by a false security, allowed a serious opportunity to pass. The day was marked by peculiar disturbance in many widely different security markets. Not only on the Boston Stock exchange, but in Chiz cago and London uneasiness seemed to be acute. London's markets, as a whole, were naturally affected by the sensational collapse in silver.

In New York, toward which the movement of

In New York, toward which the movement of

In New York, toward which the movement of money seemed to be converging today, there was little sither of news or rumor. Philadelphia, curiously enough, was hopeful, an evident result of some more favorable news regarding Reading's outlook. Reading was, in fact, the one center of strength in the stock market. Elsewhere declines, though irregulitr, were decided. The break in Missouri Pacific was the most pronounced.

Call money rates were bid up to an extravagant figure and sterling exchange fell again into absolute demoralization, the rates at which a few transactions were made going below the record of last week. In the hour before the close short covering caused a partial rally in prices, but the trading was duil and recoveries only moderate.

The crash in silver bullion prices, which for a week has been overhanging the market, came with full force today. The certainty of a break in silver whenever the Herschel committee report should be made public, was explained last Thursday in this column. But the action of the Indian government took the market completely by surprise. It had been supposed by the London buillon dealers that even were the stopping of Indian free colnage publicly advised in this report, the mints would not be closed until the vote of Parliament, and possibly not until our Sherman law is repealed.

With this in view, silver had actually advanced up to last week, the dealers buving

ment, and possibly not until our Sherman law is repealed.

With this in view, silver had actually advanced up to last week, the dealers buying spot silver freely in the expectation of an increased demand before free colnage ceased. Very unexpectedly the government has blocked the whole forestalling enterprise and today has announced the rejection of all further silver offers for colnage at the mint. This morning's violent collapse in silver prices was one consequence; a sharp advance in rupee paper and Indian exchange was another. A third result, less immediate in operation puts a certain end to talk of "free coinage compromise," or the repeal of the law of 1890. Free coinage, with the silver dollar market value rapidly drawing near to 50 cents, would be too absurd a proposition.

London Financial Review. [Copyrighted 1833 by James Gardon Bennett.] [Copyrighted 1833 by James Gordon Bennett.]
LONDON, June 26.—[New York Heraid Cable—Special to The Bre.]—The silver crisis is approaching fast and the chosing of Indian mints to private coinage is now laminent, and that metal in consequence fell today 1/3d per ounce or 4 per cent to 36d. On the other hand rupee paper was very firm at 76 in the belief that the value of the coin will be fixed at 18 4d. As the Heraid previously announced, it is believed many, perhaps half, the American silver mines will be forced to close, and it is feared that some railways, such as the Union Pacific and Denver lines, will suffer severely in consequence. Denver preferred closed very weak and almost unsalable at 47% and Union

Pacific finished 2 per contlower at 17. Mex-lcan railway stock-bre also extremely dull. Foreign stocks were dull. Canadian Pacific's statement for the week is \$17,000 gro as in-

OMAHA LIVE STOCK MARKETS. Cattle Very Scarce and Higher-Hogs in Lib-

erat Supply and Lower, MONDAY, June 26. Compared with last Monday receipts today

show a big decrease in cattle and a heavy in-crease as to both hogs and sheep.

There were less than fifty loads of cattle here all told, not much over half as many as were here last Monday. As receipts have been unusually light now for the past three days buyers, especially dressed beef men, were beginning to get cattle-hungry. Their wants are rather limited at present, Their wants are rather limited at present, but they must have some cattle and a thousand a day is hardly enough to go around. As a resuit there was some hustling to fill orders today and competition on desirable beef steers today and competition on desirable beef steers was active enough to advance prices 10c to 15c. Good 1,250 to 1,350-lb. steers sold at \$4.65 to \$4.85 and good to choice 1,000 to 1,200-lb. steers at from \$4.25 to \$4.70. Even the light half fat stuff sold freely at substantially stronger prices from \$4.15 down. Several loads of range cattle were received about the first of the season. They had been hayfed some and sold at from \$4.26 to \$3.80. The forenoon's trading cleared up the supply. Cow stuff was in very limited supply. The demand was fair and prices averaged a shade higher than Saturday all around. Sales of poor to very good cows and helfers were made at from \$1.50 to \$3.50, the bulk of the fair to good stock at from \$2.50 to \$3.55. Calves were in very fair demand and steady. No change in values of rough stock, poor to very good bulk, oxen and stags selling at from \$1.50 to \$3.50.

There was very little trading in feeders.

\$3.60.

There was very little trading in feeders. Offerings are still ilberal and the demand from the country on a very small scale. Prices are nominally steady. Representative sales.

4 bulls... 1327 2 15 33 bulls... 1407 2 15 2 stags... 1115 2 70 4 stags... 1115 2 70 9 feeders 1017 3 25 24 feeders 1023 8 25 Hogs—This is the time of year to look for heavy receipts, regardless of the condition of the markets. Monday is generally a light day but the supply on sale today was heavier than on any Monday for over a year or since Monday, June 6, 1892, when 5,083 head were received. Conditions were against the sellers from the start. The shipping demand was more limited than usual, offerings were considerably heavier than usual and Chicago was reported very bad. On an average prices ruled fully 15c lower than Saturday, the low point being at the close. Several choice light and butcher weight loads sold at \$5.70 and one load at \$5.75, while rough packers sold as low as \$5.55. It was practically, however, a \$5.00 to \$5.65 market, the big bulk of the hogs selling at those figures, as against \$5.75 and \$5.80 Saturday, and \$6 to \$6.05 one week ago. Representative sales: COLORADO.

80 5 75 SHEEP-Receipts were fair, all Mexican wethers. They averaged 86 ibs. and brought \$3.50. The demand is not very brisk and the market weak. Chicago Live Stock Market. Chicago Live Stock Market.
Chicago, June 26.—[Special Telegram to The Bee.]—About 12,000 cattle came in today, and of that number 4,000 were Texans. There was a strong market for all kinds, the average of prices being considerably higher than at the close of last week. Buyers of native cattle displayed more interest in the trade than they have previously shown for many days. They got into the yards early and went lainediately to work, buying right and left. There was something like the old activity, and the effect upon prices was to start them quickly upward. By the middle of the

forenoon the market closed firm at that improvement. Steers sold principally at from \$4.30 to \$5.10 and the prevailing prices for cows and buils—the supply of these was small were closed out at from \$1.50 to \$1.75 and extra cows and helfers sold around \$4. The market for Texas cattle did not show as much of an advance, but it was active and strong with the bulk of the sales at from \$2.25 to \$2.50 for cows and bulls and at from \$3 to \$3.75 for steers. By noon very little stock remained in sellers' hands and nothing had to be carried over.

selers. By noon very little stock remained in sellers hands and nothing had to be carried over.

Everybody was surprised at the receipts of bogs. The guesses for today generally ran from 20,000 to 25,000 head and upon entering the yards and being made acquainted with the fact that the total would not fall much short of 40,000 and might exceed that number a panicky feeling took possession of holders and there was a general "cutting loose." Prices immediately fell 20%30c, or to \$5,55% \$5.10 for common to choice grades. At that range buying became so brisk it occurred to sellers that they had been a little too precipitate, and they rushed to recover their lost ground. They were amazed at the case with which prices were rolled back. Before 10 o'clock almost the entire supply had been weighed and at the close most of the decline had been regained, the market closing strong at from \$6.25 to \$6.25 for choice to extra medium and heavy and at from \$6.25 to \$6.80 for light. The avidity with which the large supply was licked up augurs well for the remainder of the week. Light weights did not sell to as good advantage as recently, the proportion of such being larger than for some time past.

The market for Texas and other poorer

past.

The market for Texas and other poorer grades of native and western sheep remained dull and weak. There was a heavy supply and very little demand. It looks as though common stock would have to go still lower, feeders being unwilling to pay more than from \$3 to \$3,50 and shippers and local slaughterers not wanting the stuff even at that low range. Good choice muttons were in fair request and were about steady. The range of quotations was about from \$2 to \$4,90 for poor to choice. Choice yearlings pring a little more and spring lambs are quoted at from \$3.85 to \$6. The receipts were estimated at from \$4,000 to 15,000 head; calves, 500 head; hogs, 40,000 head; sheep, 14,000 head. The Evening Journal says:

CATTLE—Receipts, 15,500; shipments, 4,000; market active, 10215c higher; top steers, \$5.2525,50; good, \$4.8525,20; Texans, \$4.25; stockers, \$3.0023,75; native cows, \$2.75:34.25. Hogs—Receipts, \$6,000 head; shipments, 9,000 head; market opened slow, 25:300c lower; became active, closed 10215c higher than the opening. Closing prices: Packers, \$6.0026,15; prime heavy and butchers weights, \$6.1026,20; light, \$6.1036,30.

Sheep—Receipts, 13,000 head; shipments, 2,500 head; market opened slow; shipments, 2,500 head; market opened slow; shipments, 2,500 head; market, active, 10315c higher; top sheep, \$4.5065,30; top lambs, \$5.5066,50. Past.

New York Live Stock Market. New York Live Stock Market.

New York, June 26.—Bernyes-Receipts for two days, 4,800 head; fairly active for all grades and prices steady; poorest to best unive corn and meal-fed steers, \$4.75\(\pi_5.55\); Texans, \$3.75. Shipments tomorrow, 700 beeves and 2,100 quarters.

SHEEP AND LAMBS—Receipts, 2,500; firm at former prices. Piles of people have piles, but De Witt's Witch Hazel Salve will cure them.

DIAMOND THIEVES AT THE FAIR. They Are Detected While Planning to Get

Away with a Big Gem. CHICAGO, June 26.—A quartet of critical sightseers strolled into the Tiffany pavilion in the Manfactures building resterday and inspected the rare gems there displayed with all the interest and admiration that a genuine lover of the beautiful could feel. The members of the party were all men, and two of them were immaculate in silk hats and Prince Albert coats, while the two others were clad in expensive light summer clothing and wore straw hats. fine as the raiment was, Captain Mollov. who stands guard over the glittering display, recognized one of them as ar old time thief, and prevented the crook and his companions from carrying out any designs of robbery they may have

entertained. The pride of the Tiffany display is a diamond worth \$100,000, and everything goes to prove that the gang intended to steal this prize, if possible, and what-ever else they could lay their hands on. The party entered the building about 9 o'clock, and about two hours later they reached the scene of their intended operations. Mixing with the crowd, these men leisurely examined the various features of the display, and carelessly worked their way to the case containing the diamond, and for a time carefully scrutinized the case and its contents. But the time for a raid and dash was unpropitious, and they strolled into an adjoining pavilion. Shortly, however, they again appeared with an assumed air of admiration, and again took a long look at the diamonds. Still the space was too crowded for a successful attempt, and again they retired, only to return

about twenty minutes later. Their frequent visits aroused Molloy's suspicions and, placing himself where he could see and not be seen, he watched tee party, only to see them again depart as the crowd was still too great. after 2 o'clock when the watchful Molloy once more saw the same men in the pavilion. This time Molloy followed so closely behind them that one of them turned around and was immediately recognized. "Hello, Harry," said Molloy, "Doing

much business these days?" Harry never said a word and the quartet slunk away and were seen no more. The man whom Captain Molloy recognized was Harry Howarth, a Kansas City thief, who has done time in Ari-zona owing to the efforts of the detective agency of which Molloy was at one time the chief. Captain Molloy declares that the fellow is daring enough to attempt to get away with the diamond.

Piles of people have pues, but DeWitt's witchhazel salve will cure them.

A Field for Invention. Life: Tacklow-I see there is a man in Boston who claims to have invented a field glass with which you can see through fog.

Backrow—If he could succeed in invent ng an opera giass with which you could see through millinery he'd make his fortune.

It Cures Colds, Coughs. Sore Throat, Croup, Influence, Whooping Cough, Bronchitis and Asthma. A certain cure for Consumption in first stages, and a sure relief in advanced stages. Use at once. You will see the excellent effect after taking the first dose. Sold by dealers everywhere. Large bottles 50 cents and \$1.00.

SCOPE OF ILLINOIS' ANTI-TRUST LAW

The Combination Which is Keeping Up Passenger Rates to the World's Fair Can Be Proceeded Against-Attempt at a Compromise.

CHICAGO, June 26.-The Inter Ocean published this morning a review of the Berry trust law of this state which has just received the signature of the gov-ernor, and shows where it will enable the attorney general to break up the passenger and freight associations. The sections applying to the case are those which make illegal any combination of capital, skill or acts by two or more persons, firms, corporations or as-sociations of persons, or of two or more of them, for either of the following pur-"To prevent competition in manufac-

ture, making transportation, sale or purchase of merchandise, produce or commodities. "To make, or enter into, or execute,

or carry out any contract, obligation or agreement of any kind or description by which they shall bind or have bound themselves not to sell, dispose of or transport any article, or commodity, or article of trade, use, merchandise, com-merce or competition, below a common standard figure or eard or list price, or by which they shall agree in any man-ner to keep the price of such article, commodity, or transportation at a fixed or graduated figure, or by which they shall in any manner establish or settle the price of any article, or commodity, or transportation, between them or themselves and others, to preclude un-restricted competition among themselves or others in the sale or transpor tation of any such article or commodity, or by which they shall agree to pool, combine or unite any interest they may have in connection with the sale or transportation of any such article or commodity that its price might in any manner be affected

"That any corporation holding a charter under the laws of this state, which shall violate any of the provisions of this act, shall thereby forfeit its charter and franchise and its corporate existence shall cease. "Every foreign corporation violating

any of the sections of this act is hereby denied the right and prohibited from doing any business within the state, and it shall be the duty of the attorney general to enforce this provision by injunction or other proper proceedings, in any county in which such foreign corporation does business, in the name of the The Sherman anti-trust law and its

applicability to the case, and the Riner decision is also discussed, and the statement made that an organization has been perfected to call upon Attorney General Maloney and District Attorney Milchrist to at once begin injunction proceedings against the Western Passenger association, restraining the roads embraced therein from combining or agreeing to fix rates to Chicago during the World's fair. The Inter-Ocean advises, however,

that no rash measure be adopted, but that instead a delegation consisting of the executive officers of each state interested appear before the Western Passenger association, which meets to-morrow, and insist that the one rate excursion plan be adopted. It is understood that the suggestion will be acted on and that a strong delegation is being organized.

DRUNK AND LAY ON THE TRACK. One Man Killed and Two Fatally Injured

by a Wabash Train. MONTICELLO, Ill., June 26.-George Barnett and John Bartlett were run over by the Wabash Cannon Ball train one mile east of Bement early this morning. Barnett was instantly killed. Bart-

DELICATE WYOMEN Or Debilitated Women, should use BRADFIELD'S FEMALE REGULATOR.

Every ingredient possesses superb Tonic properties and exerts a wonderful influence in toning up and strengthening her system, by driving through the proper channels all impurities. Health and strength guaranteed to result from its use. "My wife, who was bedridden for oigh. teen months, after using Bradfield's Femalo Regulator for two months is getting well."

J. M. Johnson, Malvern, Ark. Baappield Regulation Co., Atlanta, Ga. Sold by Druggists at \$1.00 per bottle.

IT CATCHES THE RAILROADS | lett was terribly injured and wild die. William Bradley was probably fatally injured by the same train. Barnett's body was literally torn to pieces and three trains passed over it before it was discovered. The men had been to Bement last night and had been drinking. When they arrived at the crossing they sat down on the track and, it is thought, tell asleep. All were young men and were employed in the country near where they were found. Their homes are in Missouri.

come from healthy mothers. And mothers will cer-tainly be healthy if they'll take Dr.

if they'll take Dr. Pierce's Favorite Prescription. Nothing can equal it in building up a woman's strength, in regulating and assisting all her natural functions, and in putting in perfect order every part of the female system. It lessens the pains and burdens of child-bearing, supports and strengthens weak, numing mothers, and promotes an abundant secretion of nourishment.

It's an invigorating, restorative tonic, a soothing and bracing nervine, and a guaranteed romedy for women's ills and ailments. In every chronic "female complaint" or weakness, if it ever fails to benefit or cure, you have your money back.

Thousands of people, with worse cases of Catarrh than yours probably is, have been permanently cured by Dr. Sage's Catarrh Romedy. That is the reason why its proprietors are willing to promise you \$500 if you can't be cured.

Promote Good Health. Covered with a Tasteless & Soluble Coating. Famous the world over. Ask for Beecham's and take no others.
Of all druggists. Price 25 cents a box.
New York Depot, 368 Canal St.

Female Ailments,

Remove Disease and

A Question of Seconds. The safety of human

lives and of valuable property daily depends upon the accuracy of watches used by train-

men. They must have RUBY JEWELED the best. A difference of a few seconds is enough to either avoid or meet a collision.

Would you like to know which watch is most used on America's Greatest Raliroad? If so, write for circular 'A Question of Seconds." The Duener Watch Works, Canton, O.
