ESTABLISHED JUNE 19, 1871.

OMAHA, THURSDAY MORNING, JULY 13, 1893.

SINGLE COPY FIVE CENTS.

They State Their Case to the Country and Plead it Vigorously.

APPEAL OF THE SILVER MEN

DANGERS WHICH, THEY SAY, THREATEN

Poverty and Distress Will Be the Portion of the Mining States Should Further Unfavorable Legislation Be Enacted-Their Argument.

DESVER, July 12 .- The interest in the silver convention had not in the least abated from yesterday, and when it was called to order this morning, standing room was not to be had. After the appointment of delegates to the St. Louis and Chicago silver conventions and to the "goldbug" gathering at St. Paul, the committee on resolutions presented the following report, which was unanimously adopted:

Resolutions Committee's Report.

"TO THE PEOPLE OF THE UNITED STATES: The people of Colorado, standing in the gloom of impending disaster, and representing in condition and sentiment the people of Montana, Idaho, Wyoming, Nevada, South Dakota, Utan, Arizona and New Mexico, with reverence for the constitution and unswerving loyalty to the general government, ask for your calm and candid consideration of the following facts before you give yor approval to the destruction of silver as money and to the final establishment in this country of a single gold standard of values and, thus, at one stroke, change all debts to gold debts, and inaugurate a never-ending rise of gold and a continued corresponding fall in the price of every commodity.

"Congress has been called to meet in extra session on August 7. Preceding that call, the classes which have struggled for twenty years to overthrow the bimetallic money standard provided by the constitution inaugurated a panic which they truthfully charged to the existing silver law, ignoring the facts that there were \$300,000,000 of outstanding legal tender notes, commonly called 'greenbacks,' that were equally available with the treasury notes, issued in payment for silver, to draw gold from the treasury; that the balance of our foreign trade had turned against us, rendering settlement abroad with American gold a necessity, and that the bankers of Europe were purchasing gold with which to change the money stand-ard of Austria and to fill the treasury vaults of other monarchical countries. The evident purpose was to create prejudice against what is known as the silver purchase act and under pressure secure its unconditional repeal.

Means to Gain Their Ends.

"The success of this scheme was only Venal presidential patronage, supplementing facts and incendiary utterances by the gold press, aggravated by daily cir-cular assaults upon the law by eastern money brokers, sent to every commercial body and banking corporation in the four quarters of the country, had possibly won "If the silver mines shall remain closed, over the house of representatives to it, but even the president admitted that in the one-half of the American output of lead must be lost. The greatest bulk of the lead pro-duced is taken from silver-bearing ores. It senate there was a staunch majority against it. When suddenly, like a fire bell in the night, the news flashed beneath the oceans that free coinage in India had been suspended, and that the market price of owners.

silver had fallen within forly-eight hours fully 20 cents per ounce. This startling action, forced upon hours This the Indian government without a moment's warning, the step held in secret contempla-tion by the British government for months, to be taken at a critical and opportune time, when the construction it must create, it was hoped, would stampede the last phalans of bimetallism's defenders, must have had as one of its chief aims, the intimidation of the senate to bring it in line with the subservient lower house. "Immediately the wires were burdened

metallists do ask, and all they ask, is that the law relating to coinage as it was for seventy-five years of the country's greatest glory, shall be restored without the greatest glory, shall be restored without the addition or expunging of a syllable. If that law is re-enacted and a fair trial of it had, and sliver shall not, without the purchase of an ounce of metal by the government, re-sume its former relative value with gold, bimetallists will cheerfully submit to any legislation that experience suggests as necessary to make any dollar equal in in-trinsic value to every other dollar bearing its stamp. They urge the old law, with supreme confidence borne of the unassailable truths of history, that it will immediately place every coined American dollar upon a place every coined American dollar upon a par value, both as coin and bullion, restore the bonds of weakened love and confidence and set in happy motion the wheels of all the country's magnificent industries.

Effects of Repeal on the West. "Will you listen to us while we speak in words of sober earnestness of the local effects the unconditional repeal of the silver law will have?

"The silver mining states and territories, embracing 1,000,000 square miles of the con-tinent, with 2,000,000 Americans inhabiting them, depend peculiarly upon sliver mining for their prosperity. That industry is the yery heart from which nearly every other industry receives support. Agriculture will not thrive without artificial irrigation; its mines of coal, iron, stone and clay, while magnificent, are worked with such dear labor and are so remote from other local markets that their movement would be feeble and their operation disastrous with-out the stimulus the mining industry affords. out the stimulus the mining industry alfords. It supports our foundries, operates our machine shops, supplies our rail-roads with freights, stimulates travel, keeps bright the fires of the smelters and sends customers to the shops of our merchants. It has invoked in the valleys and upon mountain sides magnificent cities and thrifty towns and villages. Great manufactories of paper, cotton, leather, iron, steel and clays distribute their finished products and support thousands of prosperous and happy families. But because agriculture is so limited in area, confined to narrow strips along our few and scanty streams, our labor so high and its handiwork so remote from other than the local markets, the coal is mined, the coke is burned, the rail is rolled, the grain is grown, the fruit is gathered in

the main for the owners and workers in silver mines and smelters, and the proprie-tors and workmen of the industries and callings dependent upon them.

Pictures of Awful Distress.

"The reduction of the price of silver to "The reduction of the price of silver to about 70 cents has shut down 90 per cent of the silver mines of the country and the smelters must soon follow their example. There are in Colorado today 15,000 idle miners, who know not where to turn if work is not resumed. There will soon be added to this Idle army of labor 40,000 men from the smelters. The Stone quarries are nearly all shut down the radius companies are all shut down, the railway companies are laying off train crews by the score, the foundries are nearly all out of orders, the farmers and fruit growers will be tarely paid for the cost of saving their crops, the merchants are countermanding their orders, the traveling men for eastern houses seek almost in vain for customers. This is no exaggeration. The destruction of the silver industry will devastate the country, as if swept by a cyclone, reaching transfer British possessions to the Mexican border line. This sorrowful picture of Colorado, line. This sorrowful picture destroyed, but repwith its mining industry destroyed, but rep-resents the condition of the other mining states and territories with the same calamity

WALL STREET IN TURMOIL Wild Rumors Cause a Sudden Decline in Many Securities. EXCITEMENT FOR A TIME RUNS HIGH

Bears Take Advantage of the Flurry and

Work the Market Hard-A Better Outlook for the Financial Situation Now Apparent.

NEW YORK, July 12 .- Stocks opened with enormous business and weak, with losses of from one-half of 1 to 2 per cent. Chicago, Mitwaukee & St. Paul and Sugar were the weakest. Excitement ran high and the street was flooded with unfavorable rumors. The downward movement continued after the opening. Cotton oil declined 234 to 28, preferred 614 to 60; General Electric, 314 to 3814 ; Sugar, 254 to 76, preferred 2 to 78 ; Lead, preferred, 4 to 63; Union Pacific, 214 to 1934;

St. Paul, 2% to 58%. Rumors were again put a affoat regarding the financial standing of leading capitalists and a prominent Broadway Trust company was said to have sold a block of securities, chiefly Vanderbilt stocks and general electric. Other unfavorable reports were started but could be traced to no authentic source.

When it was found the rumors could not be ratified a more hopeful feeling developed and a sharp rally ensued. Northwestern jumped to par, General Electric to 62, St. Paul to 59%, and Sugar to 78%. At 11 the market was quiet and steadier.

At noon money on call was stringent at 10@20. After 11 stocks weakened again, declining 1/2@2. Sugar and General Electric were prominent in the declines. Near midday the pressure let up some and the market became steadier. At noon the market was feverish. One Cause of the Excitement.

One of the chief items contributing to the

excitement and weakness was a rumor that one of the Vanderbilts had been compelled to market a lot of his securities. Inquiry, however, developed the fact that a well known trader, in no way connected with Vanderbilt, was forced to throw over some 40,000 shares of high priced Vanderbilts and 40,000 shares of high priced Vanderbilts and the bears took advantage of the fact to pound the market. The general opinion is that there is nothing in the situation to warrant yesterday's and today's breaks. On the contrary among banks and in financial circles a better state of affairs is reported.

In the afternoon call money fell to 6@7 and stocks became calmer, assisted by rumors of the taking of \$4,000,000 in gold for import from London. About 2, however, there was renewed selling on a large scale. Burlington broke to \$1%; St Paul to 57%; Rock Island to 61% at 215. Market was heavy.

heavy. Notwithstanding the flurry in the stock market today, bank presidents and others occupying positions familiarizing them with current conditions, unanimously agree that the general situation has improved and continues to do so.

At several of the larger banks it was said today that a considerable amount of cur-rency had been received yesterday and this

morning. Currency from the Country.

requires the one metal, supplemented by the other, to remunerate the lead-silver mine Many of the country banks are remitting currency here and getting back some of their bills receivable, which they had redis-counted here three or four weels ago, taking "Not less than 55 per cent of the gold

bank failures, reported to Judge Walber last evening. Notwithstanding the order of secrecy, it was learned that among the per-sons, indicted are Frank A. Lappen, F. T. Day and William Plankhuton. There are others, but their names cannot be learned. The charge against Messrs. Day and Plan-kinton is illeral banking and available. STOPPED THE NEWS CIRCUIT kinton is illegal banking, and against Lappen of obtaining money under false pretenses. The indicted bank officials were subse-quently arrested and gave bail.

EXCITEMENT ON LONDON 'CHANGE.

merican Railway Securities Greatly Depressed-Lying Cables from New York. LONDON, July 12 .- Stocks were flat, and there was considerable excitement. American railroad securities declined 14 to 514 per cent, the latter Chicago, Milwaukee & St. Paul. This weakness affected the whole market. It is stated that several brokers are in a critical situation. largely due to baseless rumors telegraphed from New York

yesterday concerning the soundness of a number of large English houses, of the solidity of which no doubt is entertained here. Other American railroad securities exceedingly depressed were: Union Pacific, 314; Santa Fe, 2; Central Pacific, 114. Bar. silver, 33 pence.

Will Vote for Free Coinage.

SAN DIEGO, Cal., July 12 .- Congressman Bowers, in a public speech last night, declared his purpose to vote for free coinage of silver. He contended that unless silver be restored to the position held prior to the year of 1873 the hardest times ever known would be experienced within a year. He contended further that if the present con-test against silver had not been made the price of wheat would be\$1 instead of 60 cents a bushel, which fact he ascribed to the action of this country, in concert with Great Britain, to demonetize silver.

Will Close Down Their Factories,

CLEVELAND, July 12 .- The Machine Bolt association, a national organization of nut and bolt manufacturers, met in this city today, and while not taking any formal action, the members, twenty-five in number, de-cided to shut down their factories for a time, owing to the dullness of trade and the stringency of the money market.

Receiver for a Beatrice Bank.

WASHINGTON, July 12 .- [Special Telegram to THE BEE]-E. R. Forg was appointed receiver today of the failed Nebraska National bank at Beatrice. He was for-merly receiver of the land office at Beatrice. Comptroller Eckles says he appointed him because of his high business endorsements. There were several applicants.

Threatens to Cut Coal Prices. NEW YORK, July 12 .- Bumors are current that President Harris of the Reading, intends to call the other great anthracite coal companies to account for not restricting re-duction. A Philadelphia dispatch declares that if Mr. Harris' demands are not complied with the road will make a cut in coal prices at once.

Milling Firm Falis.

JACKSONVILLE, III., July 12 .- The great nilling firm of Yaeger Bros. of Waverly has confessed judgment in favor of the Bank of Waverly and has given possession to the creditors. Until now the mill has been doing a good business, but the hard times were too much for it.

New York Will Act. New YORK, July 12 .- The Chamber of Commerce committee for the repeal of the Sherman act had another meeting today. It will

advise members of the chamber to use their influence with their correspondents throughout the country to induce a general agitation

kolk Began His Bombardment -Situation at Rio de Janeiro Thought to Be Serlous.

[Copyrighted 1893 by James Gordon Bennett] VALPARAISO, Chill (via Galveston, Tex.) uly 12 .- By Mexican Cable to the New York Herald-Special to THE BEE.]-It is lifficult to get accurate news of the war in Rio Grande do Sul. Telegrams are delayed on account of the interference of the government officers. It is generally believed in Montevideo that the squadron under Aumiral Wandelkolk began bombarding the town of Rio Grande do Sul without warning the citizens, although many of

them became alarmed early and fled from propriation of money made exclusively for some service not mentioned in the schedule the place. Nothing else has been learned regarding the result of the bombardment. There is great anxiety at Montevideo in regard to the situation in Rio de Janerio,

some service not mentioned in the schedule of the act covering the imperial liabilities, expenditures and miscellaneous revenues. By the withdrawal of this sub-section the eighty Irish members to be retained in the Imperial Parliament will have rights fully equal to those given to the British members. Thomas Sexton, anti-Parnellite leader, sus-pended yesterday, is determined, if possible, to be set right in the matter. In the House today he asked Speaker Peel if he could ob-tain the judgment of the House on the con-duct of Chairman Mellor. The speaker said Sexton had the right to give notice of a motion questioning the con-duct of Mellor. where grave trouble has been feared for some weeks. No news of any kind is being received in Montevideo from the Brazilian capital. Even the news from the commercial exchanges has been stopped.

Officials and merchants in Buenos Ayres also are excited about the situation in Rio de Janeiro. The Herald's correspondent there telegraphs that a dispatch has been received Sexton thereupon gave notice that he would move the adoption of a resolution de-claring that the chairman of the committee of the whole misused the powers of his office in Buenos Ayres from Rio de Janeiro announcing that the Brazilian government has proclaimed a censorship of the wires and ordered that no news be sent out relating to the political situation either in the capital or Gavin B. Clark supported Sexton and also gave notice that he would introduce a motion to reduce by £1,000 the amount of salary paid to the chnirman. Rio Grande do Sul.

Vasquez is a Vigorous Despot.

PANAMA, Colombia (via Gaiveston, Tex.). July 12 .- [By Mexican Cable to the New York Herald-Special to THE BEE.]- The Herald's correspondent in Chinandega, Nicaragua, writes that refugees who have arrived there from Honduras tell sickening stories of the brutalities inflicted in the name of and by the order of General Vasquez, the acting president. According to the stories they tell the mothers and wives of officers from Coma Gagua, Tegucigalpa and Chuhuteca, who fought with Policarpo Bonilla during the recent revolution, were imprisoned in Tegucigaloa when Vasquez entered that city. These women have been released from prison, but are still annoyed by constant police surveillance.

gives the following figures: Podolia, 310 new cases; 100 deaths. Besarabia, 35 new cases; 15 deaths. Orel, 32 new cases; 12 deaths. Khaerson, 43 new cases; 9 deaths. Vasquez is exercising a strict censorship of the press and mails. Foreign corresponddeaths. Khaerson, 43 new cases; 9 deaths. Tould, 8 new cases; 3 deaths. There is doubt ence is being constantly interfered with. No newspaper is permitted to exist about the genuineness of the cases reported in Moscow except the personal organs of the Vasquez acting president. General SUPPORTING THE GOVERNMENT. proposes to hold a special election for president to perfect his title to fill out Leiva's Brazil's Representative at Paris Says Oulet unexpired term. Leiva has protested against PARIS, July 12 .- Senor Guanabara, the this ending of his official life, but has agreed Brazilian delegate to Europe, has made pubto abide by the result of the election if Bolic an official telegram from Rio Grande do nilla's friends will join him in proclaiming ex-President Bogran as their cannidate ii, Brazil, saying that no conflict has take place there since the defeated insurgents took refuge in Uruguay. The dispatch also against Vasquez. Should the proposed combination be effected and Bogran accept the says that the passengers on the steamer Jupiter were revolutionists. On the arrival of that vessel at Rio Grande do Sul, the capcall to lead the united opposition against Vasquez, the dictator's fate would be settain of the war ship Rio Grande threatened to open fire, whereupon the Jupiter with-drew and recrossed the bar. SOUTH DAKOTA'S BUILDING Formal Dedication of the State's Home at the Fair Observed Yesterday.

BUFFALO BILL OPENS THE PROGRAM

Governor Sheldon, in Taking the Keys, Asks All the World to Call There-What

the Women of the State Have Done in the Matter.

CHICAGO, July 12 .- [Special Telegram to THE BER.]-Flags draping South Dakota's building, Indians loitering about its balconies and broad verandas, strains of patriotic airs sounding in its halls gave intimation to those who approached it today that something unusual was going on. It was the dedicating of the structure that has, since the opening of the exposition, been welcoming guests from South Dakota, but had not yet been formally made a part of the exposition.

Before 11 o'clock, Colonel William F. Cody, attended by several Indians and his cowboy band, made his appearance at the building. He was the first guest. Others were not long in assembling, and at the hour appointed for the exercises as many people were sitting in the various rooms as could comfortably be accommodated. To the cowboys was accorded the privilege of playing the opening number on the program. They were followed by the Second Regiment band and then Rev. Dr. Newhouse of Huron offered a prayer. With an appropriate speech, Thomas H. Brown presented the keys of the house to Governor C. H. Sheldon. The governor responded with a long ad-dress, which touched upon the history and resources of the state of South Dakota, and at the end of which he decreed the building dedicated to the uses for which it was in-tended. He said: "It is the home of such of our people as shall visit this Columbian exposition. To it all others are invited in the hope that acquaintance with the sons and daughters of our great young state will speak the praise of South Dakota." In the course of his remarks the governor turned to Colonel Cody, who was seated next him on the star landing from which all speeches were delivered. He grasped him by the hand, and greated him as one who knew every inch of South Dakota and was there with the original inhabitants of the state. Mrs. W. D. Haynie, president of the state board of hady managers, next introduced Mrs. Helen M. Barker of Hurse. were followed by the Second Regiment band

board of lady managers, next introduced Mrs. Helen M. Barker of Huron. Before Mrs. Helen M. Barker of Huron. Before Mrs. Barker had an opportunity to deliver her address Mrs. Isabella Beecher Hooker jumped up and said pleasant things, not only about Mrs. Barker's ability, but of the state of South Dakota and its representa-tives. Mrs. Barker then talked for a short time upon the work that the women of the state have done in connection with the ex-position. As she completed her address, Prof. H. W. Dubae, director of music of the University of South Da-kota played the plano and Judge C. S. Palmer then delivered the oration of the day. The last address was made by ex-United States district attorney general for Dakota. William B. Stirling of Huron, who spoke of the fair and of South Dakota's part in it. part in it.

At the conclusion of the exercises the governor held an informal reception after which he visited the South Dakota exhibit in the agricultural building.

with appeals to the president from banks and banking houses, and commercial bodies dominated by them, for an extra session, and to senators to repeal the Sherman law, which, it was claimed, was responsible for all the disaster.

Reason for the Early Call of Congress.

"The call was made. The time for the session to commence is early; so early, indeed, that may it not have been the hope of the president that the panic would not subside and the measure of repeal be forced through before reason resumed its sway and truth and logic could dominate the congress. 'The enemies of bimetallism-and the now fairly number all those who oppose free coinage of silver alike with gold, as it was before the demonstration of silver in 1873 openly declare that they will be contend be content with nothing less than the unconditional rerowed dollar. peal for the silver purchasing clause of the Sherman law. It is for that they struggle it was to secure that the ranie was created and free coinage in India suspended. "Unconditional repeal. That means strik-

ing from the laws the last remnant of legis-lation that secures coinage for silver. It fixes the United States firmly in the ranks of the single standard nations. It is the consummation of the conspiracy organized at the close of the Franco-Prussian war to destroy as money one-half of the coined money of the world-leaving the other half to bear alone the vast mountain of credit upon which the world's business is conducted -inviting more frequent panies and render ing them more destructive and enduring.

Great Britain's Power.

Great Britain's Power. "It is idie to hope that reducing the value of silver to the lowest stage will force Great Britain to seek international seclusion from the dilemma. The single standard power is in its hands. Members of her cabinet have fully anticipated the low degree to which silver will descend. They have discounted its disturbance of her Indian trade and steeled their hearts against the crime, it will be against her Indian subjects. The power that could plot for seventy-seven years; that could force its yoke upon Ger-many, the Latin union. Austria and the United States; that could gain to its aid the many, the Latin union, Austria and the United States; that could gain to its aid the daily press of the country; that could con-trol for twenty years the national conven-tions of the great American political parties -granting in their platforms professi bimetallism, but always securing presidential candidates unalterably opposed to it; that could change an overwhelming sentiment among the people for bimetallism to a feeling of enmity or indifference, can never be induced to relent, for it has counted the cost and has learned its power.

"The Sherman law is not the work of "silver-producing states. It was forced upon the country against their will. Their con-stant domand has been that of the agri-cultural states of the west and south and of the working mass of the whole country. They have never sought to impose upon the country some new financial nostrum, but have asked simply for the restoration of the have asked simply for the restoration of the coinage laws as they were from the first year of the federal constitution until the furtive ropeal of 1873. The Sherman law was the trick by which that restoration was de-feated. It was accepted by bimetallists fis a pledge that the old laws should, at some during time, by restored, and they now defuture time, be restored, and they now de-mand, not that the Sherman law shall be retained, but that the hostage shall be re-deemed by the re-enactment in its stead of the coinage laws under which the country grew and prospered for more than three-quarters of a century.

What the Silverites Demand,

"The charge that the bimetallists demand that '0 cents shall be made \$1 is a lie. It was the trick of the single standard conapirators that lessened the value of silver Had gold been demonstized instead of silver -retaining for silver its greatest use and -retaining for silver its greatest use and oblefest function, and depriving gold of its greatest and chiefest function, gold would not today be worth \$20 per ounce, and silver's value and purchasing power would be increased largely above its former highest figure. What bi-

depends upon the advantage, of course, of the rebate in the discount of the unexpired time. At all the maintenance of the silver industry. The placer or creek washings, the earliest and most prolific sources of our gold suppy, are large banks today it was said that the de-mands from out of town customers for acpractically exhausted.

Confident in Their Cause.

[CONTINUED ON SECOND PAGE.]

But,

"Those who contend for the gold single standard willfully misload you as to the cost of producing silver. We say to you in the most solemn and truthful manner that rerency going into the country had a ver, stimulating effect on shipments to this city iable statistics prove that, including The subtreasury was debtor for several hundred thousands of dollars to the clearing egitimate items in the account, the silver of Colorado costs by the time it is on the mar house this morning for the first time in the last week, which showed that the steps ket not less than \$1.29 per ounce. Like gold, some silver is produced for much less than taken by the subtreasury officials to compel the bankers to present their government its market value, but the average cost of silver is fully the highest price it ever brought in market. "All of the mining states and territories are a debtor class. Stop and consider, men

checks for payment through the clearing house, instead of over the treasury counter for cash, had the desired effect. Two or three cases were reported today of country banks, mostly in Pennsylvania, coming into this market as buyers of comof the east, how many millions of your money are invested with us. The funds of estates of widows and orphans have been mercial paper in a small way, tempted thereto by the high rates and the fact that loaned on our lands and have built our edifices. Colorado has been a favorite field for such investments. Have the people of they had money to their credit with their correspondents here. The amount of such purchases in the aggregate is not large, but it is said to indicate an easier monetary condition in the such as the any state ever proved more punctilious in prompt repayment? The legislature has en-acted laws cruel to its own people and un-rivaled in liberty to the creditor that no condition in certain sections of the counnan might shirk or escape payment of a bor-

try. Note brokers today reported some buying "There are held throughout the east hun-dreds of millions in railroad stocks and bonds; of commercial paper by three or four of the large banks, but not to any great extent; the banks, outside of one or two well known leaders in that class of business, are still in municipal securities; in trusts and mort in municipal securities; in trusts and mort-gages, the payment of the greatest body of which depends upon the prosperity of the silver mining country. We of Colorado pride ourselves on our commercial and financial integrity. No calamity can induce us to remostly confining their dealings to their own ustomers.

Conditions in Philadelphia.

pudiate one dollar of an honest debt. All of our assets are at the will of our creditors for their reimbursement. The condition of the banks in Philadelphia The condition of the banks in Philadelphia was reported to be practically unchanged and New York exchange is only obtainable in that city at a high premium, averaging about \$2.50 per \$1,000. New York merchants are suffering because of their inability to great industry of the section around which all others cluster for vigor and profit, the collect drafts on Philadelphia, except after great delay. Some of the largest banks in values or our properties will shrink, our business will be destroyed, our towns and cities will be largely depopulated and the this city are only receiving drafts on Phila-delphia for collection and it takes many days to get back the money for them. railroads traversing the western half of the continent will be sent into bankruptcy. Words of Cheer from Denver.

Colorado has aided with her vote to build the tariff wall between this country and Mexico and the silver producing and using republics of the southern continent. As Senator Teller, one of the staunchest sup-porters of this exclusive policy, declared but two years ago in the United States senate, it was not in Colorado's interest to vote for such isolation, but Colorado', thinking more of her sister states than herself, had patriof her sister states than herself, had patriotically sacrificed her own interest for

Words of Cheer from Denver. The second secon "In the south Colorado appeals with more with sinking hearts and paling lips the en-actment of a law that threatened to deprive you of self-povernment and to turn your slection booths over to the tender mercles of federal bayonetis on election day. To save you from the outrages of the federal force bill. Colorado's two senators --republicans--defied the edicts of their party caucus and defeated what was to you the certain humiliation and the horrors of subjection to the electoral will of your former slaves. We saved you then. You can save us now. With us now it is more of a death struggle than it was then Advices from Panama under date of June

GOVERNOR JONES DEFIANT.

He Declares that the Condemned Choctaw Induans Must He Executed.

KANSAS CITY, July 12.- A correspondent of the Kansas City Times went to the home of Governor Joses of the Choetaw nation and interviewed the governor as to his purpose regarding the execution of sentence upon the nine Choctawa convicted of several political murders and sentenced to be shot. The governor said the prisoners were now enjoying a respite granted by the trial judge to permit of his hearing arguments for a new trial. If the judge declined to grant a rehearing the prisoners would be shot according to the sentences. If they are granted a new trial they will be found guilty. So they would be shot anyway.

The governor was asked what course he would pursue in the event of the Locke faction or the United States taking a stand in opposition to the execution of the sen-

tence. The governor replied: "As the chief szeculive I will call out every memoer of the minitia and all the sheriffs and and light-horse men in the na-tion to see that the men are executed. You can say they will be executed. You can say they will be executed, as I am going to see that every officer does his duty in this matter. When one refuses to act 1 shall let him out and put in a man who will do his duty."

When he was swung up the rope broke, and the negro again adjusted it, this time securely. ing to Leon from Granada and Managua to suppress the revolt.

To Invade Venezuela.

News has just been received that an expedition has started from Martinique for the purpose of invading Venezuela. The leaders of the expedition declare that they propose to overthrow General Crespo, who has recently been chosen president for the short from the officers and hanged today. The preliminary trial developed positive proof against the negro. After hanging him the mob riddled his body with bullets. term. The expedition cleared for Barranquila, Colombia, but this was only a "blind" to conceal their real purpose.

Captured the President.

MANAGUA, Nicaragua (via Galveston, Tex.) July 12.—[By Mexican Cable to the New York Herald-Special to THE BEE.]-Civil war has again broken out in Nicaragua. The citizens of Leon are in arms against the government established when Sacaza was overthrown. More important still is the fact that the president, Don Salvador Machado, and General Avilez, commander-in-chief of the army, are held prisoners by the revoluyielded without opposition. Besides taking possession of the barracks the revolutionists seized three steamers on Lake Managua. These will be used in transporting their troops. News of the outbreak reached Managua this afternoon. It is not known how strong the revolutionists are, but it is feared that they are being supported by the republic of San Salvador.

Arrangements were completed yesterday by the royal commissioner of Norway, Christopher Raven, for the reception of the vessel and her crow. The day opened clear and hot at the World's fair grounds, but later a refreshing breeze from the lake sprang up. refreshing breeze from the lake sprang up. The turnstiles were kept busy regis-tering admissions. During the morning a gal-lant fleet put out to meet the Viking ship bearing city and World's fair officials and prominent citizens. The Viking was sighted off Evanston and the United States vessels fired a salute and joined in the procession to the fair grounds. Of Van Buren street Mayor Harrison went on board the Viking and presented the captain and crew with the freedom of the city. Then, amid cheers upon cheers, the blowing of whistles and the booming of cannon, the fleet proceeded to the park, and on arrival the visitors were escorted to the Administration building, where they were welcomed by the exposition of-

ficials. Captain Anderson refused to allow the boat to be towed. She has had no difficulty on the water, making the trip from Norway to the coast of Newfoundiand in less than to the coast of Newfoldmann in less than twenty-seven days. On her triumphal trip across the great lakes she astonished the fresh water skippers by her speed. The Andrew Johnson is the United States govarument's escort for the Viking.

At the meeting of the national commission today a memorial protesting against Sunday opening, to which 4,000 names of Ohio people

vere signed, was presented. It is estimated by the bureau of admis-sions that the paid admissions today will un above 125,000. The total of yesterday was 140,782

The exhibit of Johore was opened today

and the bust of its sultan was unveiled. Several lights of Asia arrived today, among them the nawab of Rampur. The prince is a young man and is attended by a large reti-nue. He will stop in Chicago several wocks. President Palmer has written a letter to George W. Childs of Philadelphia, advocating the raising of a subscription in aid of the duke of Veragua.

ADDING TO THE DEATH ROLL.

Body of Another Victim of the Cold Storage

Warehouse Recovered. CHICAGO, July 12.-The list of victims of the World's fair holocaust still increases. This afternoon another body was recovered; swelling the death roll to fifteen, with a large area of debris still unexplored. The Drummond, constructing engineer of the Cold Storage company.

It is known that at least three, and possibly half a dozen, more bodies mus; be yet in the ruins, as the Michigan brewer, the clevator boy and a Columbias guard are still missing.

It appears probable that the families of the victims of the fire will not want for ne-cossities. Up to this afternoon \$12,285 had been subscribed and subscriptions are rap-idly coming in. It is hoped the total may be swelled to \$100,000.

Will Contribute Sunday's Receipts.

The World's fair directory today decided to donate to the families of the firemen killed in Monday's fire the entire gate re-ceipts of Sunday, July 16. Several wealthy men have agreed to pay large sums for their tickets and it is believed that fully \$50,000 will be realized.

Levying on Rairoad Equipments.

MANSFIELD, O., July 12 .- Shoriff Guthrie of Richland county is in the city levying on rolling stock belonging to the Pennsylvania company to satisfy a judgment for \$347,100 issued from the circuit court in the cele-brated Coldwater case. He has levied upon seven locomotives, eight freight cars and other property, agyregating \$75,000, and pro-poses to continue until the entire judgment is satisfied.

stopping a day or two in St. Paul and Minne-apoils for the purpose of inspecting the eleva-tors and flour mills. Then the commis-sioners will go through North and South Dakota, witnessing the harvest-ing and threshing of the wheat crop. The commissioners are particularly desirous of making the trip specify with rise tionists. The president and general were paying a visit to Leon. Their presence there probably caused the rebels to open their fight at a time when the desirous of making the trip since it will give president and commander of the arm them an opportunity to see any number of emigrants from their own country and ascercould be easily got under their control.
