## COMMERCIAL AND FINANCIAL

Discouraging Reports Received from the Western Harvest Fields.

WHEAT AT THE OPENING WAS LOWER

Disposition to Trade Was Not General and Operators Were Inclined to Play a Waiting Game-Stocks and Bonds.

CHICAGO, July 12.—Reports today from the harvest fields were bad, and from the growing spring wheat worse than before. From Europe came reports of a wet harvest, and mainly on such news and some covering of short wheat that article recovered from %c to %c of yesterday's decline. Corn averaged easy, but closed firm at from 14c to 14c above yesterday. Prices were overweighted with the raw ma-

terial and declined heavily.

Wheat at the opening was from Mc to Mc lower for September became firm and advanced to a point 1c above the opening price, then receded %c, held fair and the closing was firm at 14c from the top. The lower opening was on the financial outlook, but there were reports of hot winds in the northwest, and rumors that a considerable quantity of gold was to be imported, and the market became stronger. Later, influenced by realizing sales and the only small decrease in stocks reported by Bradstreet's, the market again eased off, only to regain its drop on the rises of prices in Paris. There was no disposition to trade except in a moderate way and the volume of business was not large.

Corn was quiet at the start. On a decline

the demand improved and on some of the large concerns purchasing freely the early sellers concerns purchasing freely the early sellers turned buyers, resulting in a \$4c advance. The action of wheat helped the price and the full advance was fully sustained. There was a fair trade in oats and a steadler feeling, prices advancing from \$4c to \$6c. July being the atrongest. The close was at nearly the top figures with a net gain of from \$4c to \$4c. Early offerings of July were light, but after \$4c advance they increased slightly. The new crop futures were offered fairly well, but all were absorbed.

Absorbed.

Provision prices succumbed to the heavy hog receipts here and at Omaha and Kansas City. Although prices suffered a severe decline, there was no great amount of business done until near the close. Compared with last night, pork is down from 45c to 50c, lard from 22½c to 25c and ribs 32½c. During the last fifteen minutes it was gossip that Wright was unloading his long line of provisions.

Estimated receipts for tomorrow: Wheat, 54 cars; corn, 330 cars; oats, 150 cars; hogs, 28,000 head.

The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close.

Manchester Commercial Review. Manchester Commercial Review.

Manchester, July 12.—The Guardian in its commercial article says: A stronger tone prevails, which is mainly due to cotton values at Liverpool. More business was executed resterday than on July 4, notwithstanding the firmness. There are inquiries in some

quarters for low grades. The prospects of business for China are more cheerful. That coupury has been a leading buyer of silver at the low quotations and an increased inquiry for Manchester goods is expected, pending the disturbance in trade between China and India. There has been a fair inquiry from Bombay which has resulted in sales of shirtings and misceliancous goods. The inquiry for jaconets is light. The inquiry for bleaching cloths has lessened. The demand for heavy goods is mostly of a retail character. Business for South America is quiet. American yarns are firmer and more business is done in them.

Omaha Produce Market.

BUTTER—The market is steady, but there is a good demand for packing stock, and some of the buyers appear to be feeling somewhat stronger than they did a day or two ago. There is some talk of the market going back to 14c for packing stock. The receipts of butter are light, but quite a good deal is being shipped out in car lots. Fancy creamery, print, 21c; fancy creameries, solid packed, 19c; fair to good creameries, solid packed, 19c; fair to good creameries, solid packed, 18c; fair to good creameries, solid packed, 18c; fair to good creameries, solid packed, 18c; fair to good country, 15c; packing stock, fresh, 13;4c.

EGGS—The market was steady, but there appears to be a weaker feeling in some quarters that may indicate the coming of lower quotations in the near future. The bulk of the sales are still made at 11;4c.

LIVE POULTRY—There is very little poultry coming on the market, and the offerings of chickens were picked up quite readily at firm prices. Turkeys and ducks are out of season and are very slow sale. Spring chickens, per doz, \$1.75@3.50; best hens, per lb, 7@8c; mixed coops, per lb, 6c; old roosters, per lb, 4@5c; turkeys, per lb, 8c; ducks, per lb, 7@8c.

FOTATORS—There were a few cars of potatoes Omaha Produce Market.

POTATOES—There were a few cars of potatoes in, but the demand was not overly active owing to the competition of the local gardeners who are supplying some of the trade, selling direct to the retailers. New potatoes, per bu. 90c@\$1.00.

TOMATOES—The market is not very well supplied just at present, a good deal of the stock arriving in poor condition. However, the market is not any stronger, but if anything the feeling is weaker, owing to the fact that the demand is not very active. Southern, per four basket crate, \$1.250\text{i.40},

CELMRY—Small shipments are coming from both Michigan and Missouri. Celery, per doz., 45c.

PRODUCE POINTERS.

No small amount of the butter that goes east from this point is reshipped at New York and goes into consumption in Europe.

B. S. Schermerhorn, a butter and egg packer of Des Moines, stopped in the city on his way west. He reports that they have reduced the price of packing stock to 11c on track and that the receipts are light.

Complision men are not so sure of the com-PRODUCE POINTERS.

that the receipts are light.

Commission men are not so sure of the coming of a glut in the potato market as they were at the close of last week. The discouraging reports of the market that were sent out had the very natural result of cutting down the shipments, so that the anticipated oversupply was not realized. Some are now talking that the market will not go much below present quotations for some little time. Parties south are quite anxious to ship and are quoting low prices as an inducement, so that it would not take much encouragement to fill the market up full. Retail dealers report that they are buying quite a good many potatoes direct from the local growers.

St. Louis Markets.

New York Bry Goods Market,

New York Dry Goods Market.

New York. July 12.—The more recent improvement in the dry goods market is without acceleration in view of renewed financial disturbances. In fact, it seems more quiet again with cottons nearest the raw material less firm, especially prints, which tend downard in absence of any demand. Prints are quiet, but with production under control. Brown cottons of the given yarns have a fair demand for converters. Dress goods, fiannels and blankets are more active in movement than demand and are in fair shape through earlier sales. New York Dry Goods Market.

STOCKS AND BONDS.

Considerable Activity and Excitement Characterized the Trading Yesterday. NEW YORK, July 12 .- As was expected after the sensational rumors in circulation yester-day, trading on the resumption of business at the Stock exchange this morning was attended with considerable activity and excitement. There was a perfect rush to sell, the result of the continued circulation of reports affecting the standing of certain capitalists, prominent in the railway stocks. Names were bandled about, but no one was in a position to know the operations of the parties in question and could not confirm the stories put affoat. It

cannot be denied that there have been heavy liquidations, and that, too, in the best class of stocks, but at the same time a considerable proportion of the business consisted of selling for the short account.
The Vanderbilt stocks were sold largely and

piled just at present, a good deal of the stock arriving in poor condition. However, the stock arriving in the demand is not very active. Southern, and the stock arriving in the demand is not very active. Southern from the demand is not very active. Southern from the demand is not very active. Apres of the properties are considered to the properties. The most of the remainder of the remainder

London Financial Review.

[Copyrighted 1871 by James Gordon Hennett.]

London, July 12.—[New York Herald Cable—Special to The Brg.]—On the Stock exchange the failures announced were not of real importance. Some disasters are expected tomorrow, which is pay day. Rumors are still current that a big German Jewish financial house is very hard hit. Its recent losses are estimated at \$5,000,000. American rallways are fearfully flat, Milwaukees, Denver preferred, Illinois, Lake Shore, Louisville, Union Pacific and all Mexican issues being from 13 to 55 per cent down on the day.

The Financial News will say tomorrow: "The collapse in Wall street must be due to circumstances more serious than apparent. There are many adverse factors, but all combined are not more conductive to the fall than the fact that all the support on this side of the Atlantic has been withdrawn by leading houses here. Further European support is likely to be indefinitely delayed, and if the London Financial Review.

Yankees cannot respect their own stocks it is difficult to tell when the decline will end." Foreign issues generally are dutte broken up, the only exception being South African shares, which close firm. Boston Stock Quotations.

Chicago Live Stock Market.

Chicago, Live Stock Market.

Chicago, July 12.—[Special Telegram to The Bee.]—Lower prices had to be accepted on all grades of cattle. Too many were offered. The receipts were estimated at 19,000 head, making 48,000 since Saturday, of 11,000 more than for the same time last week. The offerings did not include many ripe dryfed steers, but they felt the weakness that pervaded the market for commoner kinds and were off from 5c to 10c. Common to fair natives declined from 10c to 15c and soid slowly at that. The run of Texas cattle was almost as large as for Tuesday, amounting to 7,000 head, and holders had to submit to a further decline. The average of prices was about 10c lower than yesterday and 25c lower than Monday. From \$2 to \$3.25, Sales of natives were from \$2.75 to \$3.25, Sales of natives were principally at from \$1.90 to \$2.90 for cows and at from \$3.90 to \$4.90 for steers. The calf market is holding up well. Choice medium weights are quoted at from \$5.25 to \$5.75. Stockers and feeders derived but little attention.

There were fully \$8,000 hogs in the pens today, a few of which number, about 4,000, were held over from Tuesday by speculators. The demand was not less active than before, but it would not take the stuff at yesterday's prices. At the outset the market was forced down

held over from Tuesday by speculators. The demand was not less active than before, but it would not take the stuff at yesterday's prices. At the outset the market was forced down to from 10c to 18c for heavy and medium weights, and at no subsequent time could sales be made at prices that were as satisfactory to sellers. The best sorts were quoted off to \$6.15, and it took a choice article to bring as much as \$6.10 at the close. The bulk of the business was done at from \$6.90 to \$5.95 and several at lower figures. At the ruling prices there were many trades at from \$3.90 to \$5.95 and several at lower figures. At the ruling prices there were buyers for the bulk of the offerings, packers evidently regarding the animal as cheap, as, in fact, he is. The quality, though not as cood as for Tuesday, was away above the average. Comparatively few lightweights were seen, droves averaging from 200 to 300 lbs. being the rule. The decline in lights was, therefore, less marked.

The sheep market was weaker, as was to be expected with a supply of 17,000 head. There was a good demand for fat sheep, and the offerings of that grade being moderate there was only a slight depression in values, but for anything below good the market was lower. For light, thin stuff buyers could not be found at any decent rate, and pretty fair lots were offered at from \$2.7t to \$3. Scallawags were quoted as low as from \$4.50 to \$2. and choice yearlings were salable around \$5.25. The bulk of sales was about from \$4.50 to \$2. and choice yearlings were salable around \$5.25. The bulk of sales was about from \$4.00 to \$2. and choice yearlings were salable around \$5.25. The bulk of sales was about from \$4.00 to \$2. and choice yearlings were salable around \$5.25. The bulk of sales was about from \$4.00 to \$2. and choice yearlings were salable around \$5.25. The bulk of sales was about from \$4.00 to \$2. and choice yearlings were salable around \$5.25. The bulk of sales was about from \$4.00 to \$2. and choice yearlings were \$4.900.5.40; good \$4.4.75; medium, \$4.20

3.15.

Rats and the Trolley Road.

A singular state of things has arisen in Brooklyn, L. I., where trolley lines have recently been introduced. A plague of rats is being imposed on the citizens, and trolley lines are blamed for the mischief. At first glance the connection between rats and electric pronection of street cars may not be super-

pulsion of street cars may not be appar-

ent, but it is easily made intelligible. The voracious little animals nestled and multiplied in the old horse car stables. Mary of these are now used only as storage houses for the trolley only as storage houses for the feed

cars. With only empty granaries to feed upon, the hungry rats naturally foraged abroad for sustanence, and seek the resi-dences adjacent to the stables in quest

of anything that is edible. They showed no such inclination to roam when the grain bins and sacks and feed troughs of

the horse car stables provided them with abundant supplies. In the feed

Money, steady, 7 percent.

OMAHA LIVE STOCK MARKETS. Cattle Market Still in Bad Shape-Hogs

About Steady. WEDNESDAY, July 12. Receipts today were only fair, but for the three days the supply shows an increase of about 4,000 cattle, 13,000 hogs and 2,500 sheep over receipts for the first half of last week. This comparison is hardly fair, however, as last Tuesday (Fourth of July) was observed at the yards as a holiday, very little stock being received.

Of the seventy loads of cattle received nine

were Texans from Kansas City, billed to Cudahy. The big bulk of the offerings were natives, the quality rather running to extremes of good and bad. There was little change in the market; certainly no improvement-Ripe cornfed beeves, especially if not too heavy, were in moderate demand and about steady. Commonish to choice 1,200 to about steady. Commonish to choice 1.200 to 1,468-lb. beeves sold at from \$4.40 to \$4.90, with fair to good 1.000 to 1,200-lb. steers at from \$4.10 to \$4.70. When it came to the half-fat and shipping stock it was catch as catch can. Some said prices were mean, but no lower, while others quoted a 10c-decline. At any rate they moved very slowly at from \$3.40 to \$4.05, or from 25c to 40c lower than a week ago. These common half-fat grassy natives will sell worse and worse as the receipts of range cattle increase. Dressed beef men were the principal buyers, the condition of the east-ern markets preventing any activity on the part of speculative shippers and business was on the dull and dragging order through: ut.

Alf but the best dryfed cows sold about a dime lower than Tuesday. Offerings of about twenty cars were rather more liberal than usual and buyers pounded grass stock hard. Old pelters sold as low as 75c and \$2.20 to \$2.95 bought the built for the fair to good stock. The calf market was steady to a shade easier, with common to good stock selling at from \$2 to \$5. Bulls and oven at from \$1,50 to \$3.50 were generally unchanged.

There was a moderate amount of business

to \$5. Bulls and oxen at from \$1.50 to \$3.50 wers generally unchanged.

There was a moderate amount of business transacted in stock and feeding cattle at prices stoady to a shade lower than Tuosday.

Offerings were largely of inferior stock and prices look low on paper. A lot of pretty decent westerns sold at from \$3 to \$3.25. Some commonish 388 and 482-1b. stock cattle sold as low as \$2.25 and \$2.50, while good 941-1b, feeders brought \$3.30. Representative sales:

NEBRASKA-TEXAS. 41 steers. 1042 8 00

Hous—The run was not as heavy as dealers anticipated, but there were more than 2,000 more hogs here today than a week ago, and the three days receipts amount to over 22,000 head. The quality still continues good, the hogs showing plenty of corn. With a lower market in Chicago and a liberal run here, the market was bound to go lower, and when buyers started in bidding 5c to 10c, mostly 10c, lower than yesterday they found plenty of sellers ready to meet their views. Fair to good hogs early sold at from \$5.85 to \$5.95, largely at \$5.90. As urgent orders became filled and eastern reports came bad the market weakened, and late bids and sales at \$5.80 and \$5.95 were 10c to 15c lower than the close Tuesday. The general average of the prices paid was fully 10c lower, the bulk of the sales

being at \$5.85 and \$5.90, against \$5.95 to \$6. Tuesday and \$5.95 to \$6.05 last Wednesday. equired for the 2,100 horses which have been discarded on the Brooklyn lines, there was manifestly a good margin for the depredations of a large host of rats, which are now compelled to wander into fresh fields, and it is said there never Av. When the railroad companies of the city complete their lines the area of devastation will necessarily be enlarged, and the demand for rat traps is likely to be doubled.

Balloon tonight and tomorrow night.

NOT AFTER OFFICE.

Merely Desired Cleveland's Services as a A little before 8 o'clock Saturday evening a negro man, over 6 feet in height, of some 200 pounds weight and proportionately muscular, entered the white house and demanded an interview with the president. According to the Washington Post he had something much more serious the matter with him than a thirst for office. His voice was filled with anguish as he recited how he had been employed at the executive mansion by President Grant: how while drawing his salary and accumulating fat he had been hoodooed and how this enchantment had taken the horrible form of reptiles embedded and lively under the skin.

"I had one spake in mer foot," he said,
"an' I calls him Peter; dar's anuder in
mer lef' breas' an' I calls him Moses. As fur frogs an lizzards, so many on 'em runs aroun' in mer lef' laig dat I ain't got no time to name 'em. Gin'ul Grant sent me down soul' fur to git de cha'm wucked off and de people sent me on to Spain. Pres'dent Cleveland am de only man what kin fetch 'em out'n me. Whah is he at?"

Officer Hardy, one of the metropolitan policemen regularly detailed at the white house, told the strange visitor that the president had gone out of the snake-charming business temporarily, and was not in town anyhow. The negro, who had interjected a statement that his name was John Stevens, reached out for Hardy. Officer Parker, who was standing near, took a hand, and the fun began. The negro became maniacal. The two men opposed to him are by no means children, but for a quarter of an hour he gave them all they could attend

His "wind" was remarkable, as during the entire struggle he did not cease for a moment to yell at the top of his voice and swear with a fluency and completeness that proved that he had lived in more than one country, whether Spain is on the list or not. They got him out on the portico a wild tangle of legs and arms and lungs and he got himself back inside with apparently little effort. The performance was re-peated until the officers began to think that they had died and had been sen-tenced to wrestle through all eternity with an ebon phantom filled with snakes, frogs, lizards and every other reptilian thing in creation.

The snake in his left foot seemed to

have gifted him with surprising suppleness; "Moses," who dwells in his left side, had added celiness to him, and every one of the frogs, too numerous to name, had lent him the power to hop about like an insane jumping-jack. When the contest was at its height, Secretary Thurber came down stairs and

said: "What! What! What's the matter?" The afflicted African instantly stopped his terrific yells for "Gen'ul Cleveland," and looked at the secretary in an aimless and stupid manner. The moment, how-ever, that the latter began to ascend to his room he began with redoubled ardor and the fun was once more fast and furious. In the meantime another of the employes had rung for a police wagon, supernuman efforts was loaded into it. Its only occupant, other than the driver, was Officer Gaucher. To him the man with the hoodoo transferred his attentions. They had it all of the way to the Third pre-cinct station. It took half of the force to land him in the cell, and at an early hour this morning he was still demand-ing admittance to "de only man what kin fetch 'em out'n me."

Balloon tonight and tomorrow night. Words and Their Meaning.

A Boston man who, perhaps, knows too much, and says that the woodsawyer who taked about manufacturing firewood when he meant saving and splitting it was correct because the word is derived from Latin words meaning to do by hand, adds further: "In the same way it could be said that 'electricity' is a science which has something to do with amber; that a 'villain' is a man who lives at a country seat; that an 'epicure' is an imitator of one of the most abstemious of philosophers; that 'cynical' means 'philanthropic,' and that a 'miscreant' has merely made a mistake in theology."

ANE'S MEDIGIN

PLEASANT

A thirst-quenching drink.

A drink that is popular everywhere. Delicious, Sparkling, Effervescent. A 25 cent package makes 5 gallons of this delicious beverage. Don't be deceived if a deaier, for the sake of larger profit, tells you some other kind is "just'as good"—"tis false. No imitation is as good as the genuine Higgs."

## Your Watch Stops

Seasons. It has not run down, but friction between metals at a point where there should be a jewel, is the cause. Such an accident nevercanhappen to a 17 jewel Dueber-Hampden watch.
