PORT HURON, Mich., July 12.-Leon A. Smith from Grand Rapids started out a few days ago to induce Michigan banks to loan him \$1,000,000 without security.

He admits that this was the exact figure he wanted. When arrested at St. Clair he was \$990,000 shortsof the amount. Of the Citizens bank and the Geneses County Savings bank of Flint he borrowed \$1,600, from the old National Bank of Grand Rapids he secured \$2,000, and from the Commercial sbank here \$400. He worked all his forgeries on Coldwater National bank paper, having had 500 blank drafts litherraghed in that institution's name by the Calvert com-pany of Detroit. Smith was well ac-quainted in the three cities known to have been worked and had no trouble in securing introductions to the Laye been worked and had no trouble in securing introductions to the various cashiers. His fondness for the society of ladies evidently prevented strict at-tention to the business of getting his million, as he was arrested while out riding with two Port Huron young ladies. His forgeries were discovered as a result of dating a draft Sandage as a result of dating a draft Sanday. Smith comes of a good family. His mother has repeatedly helped him in similar emergencies. He is in jail here.

CROPS IN TWELVE STATES.

Corn Seems to Be a Success, but Other Cereals Are Partial Failures.

CHICAGO, July 12 .- Reports have been received by the correspondents of the Farmers Review in twelve states of the condition of spring wheat, corn, oats and

potatoes. Very little spring wheat is being raised in Illinois, Indiana, Ohio, Michi-gan, Kentucky, Missouri, Kansas and Nebraska. The few counties where it is Arrives raised in the above states give a very indifferent report. Of these, Nebraska 10.25 am 9.25 am sends in the greater number of reports. There the greater number report the condition as poor. In some localities the crop was seen to be doing so badly that it was plowed up and the ground planted to corn. Some counties report a complete failure. In Iowa spring wheat is doing well, two-thirds of the correspondents reporting good and the rest fair. In Wisconsin the crop aver-5.50 an ages about fair, which means less than a 4.25 pm 8.55 am full crop. It is making rapid growth and in some countles is ready to head out. Dry weather is the cause of the low average, In Minnesota the condi-tion is poor on account of drouth. In Clay county the grain is heading, but is only ten inches high, and other counties report a similar condition. Half of the correspondents in South Dakota report the condition bad. The rest of the reports are equally divided between fair 9.25 an 9.25 an and good.

Corn is generally good in all the states reported by the correspondents. In some places the crep is estimated at 80 or 90 per cent of average, while in other counties the yield is expected to be above a full average. In Kansas and Nebraska rain is needed.

Oats are in condition about the same as corn in the states of Illinois, Indiana, Ohio, Kentucky, Michigan, Missouri, Iowa and Wisconsin. In Kansas most of the oats have been cut. In about half of the counties the yield is good. In the rest the yield is poor, having been cut short by rust in the milk stage of the oats. In Nebraska the condition is generally poor, and some fields have been

plowed up. Potatoes are promising well in Illi-nois, Indiana, Ohio, Missouri, Iowa, Wisconsin and South Dakota. In Kanwisconsin and South Dakota. In Ran-sas many of the reports are favorable. In Nebraska the reports are about evenly divided between good, fair and poor. Rain is needed for the develop-ment of crops. Potato bugs are doing some damage.

Pastures in most of the states are doing well. In Nebraska they only average fair on account of drouth. In Minnesota the grass is so dry in many townships that farmers are fearful of destructive fires being accidentally started. In nearly all of the states a few counties report pastures dried up. The general condition is, however, good.
