THE DAILY BEE NEWS FROM COUNCIL BLUFFS

COUNCIL BLUFFS.

DFFICE: NO. 12 PEARL STREET

Delivered by carrier to any part of the city H. W. TILTON, - MANAGER

TELEPHONES | Business Office...... No. 43 Night Editor..... No. 23

MINOR MENTION.

N. Y. Plumbing Co Boston Store for sun umbrellas Judson, pasturage, 929 Sixth avenue. Miltonberger is the hatter, 503 Broadway The Mayne Real Estate Co., 621 Broadway. The colored people of the city had a picnic in Fairmount park yesterday afternoon. It

was largely attended. The Friends Social club meets at Knights of Pythias hall this evening at S o'clock. A full attendance desired.

A social was given last evening by the ladies of the Second Presbyterian church at the residence of Rev. S. Alexander, 701 East Broadway.

A marriage license was issued yesterday to Peter Hendricksen and Mary Larson, both of Omaha, aged 21 and 15. They were mar-ried by Justice Fox.

Mr. and Mrs. Charles T. Officer enter-tained a party of friends last evening at their home on South Seventh street in honor of Mr. and Mrs. W. P. Officer.

C. L. Coons will preach in the Masonic temple Sunday morning and evening. The evening subject will be "From Throne to Throne," and the sermon will be illustrated by blackboard.

The Council Bluffs Rowing association will give another of its delightful parties this evening at the boat house at Manawa. These parties are free to all members of the boat club, and have become a very popular feature of summer social life.

Tomorrow evening all the Epworth league societies and Methodist pastors of this city will conduct the meeting at the Union Christian mission on Bryant street. There will be a blg meeting at the mission every Satur-day night and Mr. Delong cordially invites everybody to come.

J. R. Rice commenced a suit in the district court to collect from A. W. Hobbs and others the face of three notes aggregating \$007, which are secured by a mortgage on a lot in Curtis & Ramsey's addition. The plaintiff alleges that the mortgage is not sufficient security, and asks for the appointment of a receiver for the property.

All members of the Dodge Light Guards are hereby ordered to report in full fatigue uniform Sunday evening, July 16, at armory, at 7 o'clock sharp, for inspection and instruction in reference to camp duty. Com pany will leave armory for train at 6:45 a. m., Monday, July 17. By order of O. S.

 M. Monday, Sury II.
Williams, captain commanding.
A. B. Boren, who lives at Twenty-first
A. B. Boren, who lives at Twenty-first avenue and Seventh street, was arrested yesterday afternoon on a charge of disturbing the peace, which was preferred against him by his wife. He has been in the habit of getting drunk and abusing his family, until his wife has decided to make a change in her method of reforming him.

Frank Jackson slugged Officer Kemp last February, while in the southern part of the city, and was put at work on the chain gang. One day he made a wild break for liberty and got away, and nothing was seen of him until yesterday afternoon, when Officer Claar ran across him on the street and brought him in to serve out the balance of his sentence. His father was making strong efforts to have him released last evening. Willie Fuller, a boy employed as a messenger at the Burlington offices, was jumped upon by three other boys, Archie Walker, Willie Lindsey and Charles Ergatton, as he was going on an errand from the freight office with some papers in his possession. The three young ruffians, it is claimed, knocked him down with a club and then proceeded to hammer him with their fists in the most approved style. I. N. Parsons of the Burlington filed an information yester-day charging the three assailants with assault and battery.

The best building sand in the market by carload. Address N. Schurz, 34 Bald-win Block, Council Bluffs, Ia.

PERSONAL PARAGRAPHS.

Pottawattamie County Veterans Preparing for Their Annual Reunion. THREE DAYS WILL BE SPENJ TOGETHER Committees Have Been Appointed and Other Details of the Coming Event asked Arranged-September 19, 20 and 21 Fixed as the Date.

A number of the old soldiers of Council Bluffs went to Avoca Wednesday to attend a meeting held for the purpose of making arrangements for the annual reunion of the Pottawattamie County Veterans association. It was a meeting of the executive committee, and was called to order by G. W. Cook of this city, at the court house. It was decided to hold the reunion for three days, commencing September 19. The committee on general arrangements, as selected by on general arrangements, as selected by the executive committee, is as fol-lows: E. A. Consigney of Avoca, William Confer of Hancock, William Shilling of Avoca, W. C. Davis of Avoca, C. A. Converse of Avoca, E. Cock of Avoca, They were authorized to appoint all neces-sary and additional committees not provided for and to make such additions to the comfor and to make such additions to the committee on arrangements as they may see proper. The following committee on proproper. The following committee on pro-gram was also appointed: G.W. Cook of Council Bluffs, chairman; J. J. Steadman of Council Bluffs, I. G. Klinney of Carson, J. B. Horrod and T. J. Hetzel of Avoca, John Owens of Hancock.

KEEP COOL AND COMFORTABLE.

Leaders and Promoters of Low Prices. Fotheringham, Whitelaw & Co.

For the Cyclone Sufferers. The committee which was appointed by Mayor Lawrence to solicit subscriptions for the aid of the sufferers in the Pomeroy cyclone has been hard at work for the past two days making the rounds of the citizens. The terrible results of the cyclone had evidently touched the sympathies of everyone, for but very few declined to give such aid as was in their power. The report of the com-

ness. An old farmer came into my office not long ago, and sat down. I was putting my signature to some blank bills received in sheets, the usual form, you know, from the Treasury department. The old farmer watched me for a few moments, and asked: "What is that?" "I handed him ore of the sheets. He looked at the blank bills, and said:

"This is money?" "'Yes,' I said. "'Is that the way you make it?' he

'Yes,' said I. "'My godlemity!' he said, and walked out without another word."

MARRIED WOMEN'S RIGHTS. The New Law Passed by the Legislature of

Pennsylvania. The new married women's law passed by the late legislature is deserving of the attention of all having business with thas class of persons, says the Pittsburg Times. It was passed to meet decisions of the courts, which, pursuing their usual custom of very strict constructions on that subject, had largely neutralized the apparent intent of previous legislation, as well as to meet the demand for larger freedom over their estates by married women. The act provides that a married woman may have the same right and power as an unmarried person to acquire, use, lease and dispose of property, but she may not mortgage or convey her real estate unless her husband joins. She may also make any contract in writing or otherwise which is necessary, appropriate, convenient or advan-tageous to the exercise or enjoyment of her rights of property, but she may not become accommodation indorser, maker, guarantor or surety for another. She may sue and be sued civilly, but she may not sue her husband except for divorce or to protect or recover her separate property when deserted or re-fused support, and he may sue her for

divorce or to protect or recover his property when deserted by her, but she shall not be arrested for her torts. In suits between husband and wife both shall be competent witnesses, but cannot testify to confidential communications unless by agreement. She may dispose by will of all her property but the her property, but the husband's right as tenant by courtesy shall not be affected. The act of June 3, 1887, and all other inconsistent acts are repealed by this act, which was approved June 8 1893.

PADEREWSKI'S SORROW.

He Lost His Wife When He Was Young and Poor. Paderewski was younger once-it goes without saying; moreover he was more handsome, but less interesting. He was gay and light-hearted, and full of ambition. His wife, she was young, too, and very womanly and very sweet to look at. She had blue eyes and brown hair, and a little dimple in the left cheek. She was devoted to her husband-full of aspirations for him. She expected to see him a great man. He played to her always what he wrote, and she lay on the couch and listened and admired him. They lived in a plain, little room.

Paderewski was not great in those days, and they were very poor. Things got worse. All their plans miscarried; and the castles they built fell so quickly and in such ruins! Did he hope for an engagement-behold, the manager died! Did he arrange to play at a concert-it was never given. Had he a private

recital-a felon came on his hand. So it went on, and the wife-she was not less cheerful, but she remained on the couch for hours every day. She prew thin. She became a consumptive. It was the worst form, and you could see her change from day to day. •The doctor came and said: "Take her away from here. Go to France or Italy.

Airy Resorts Where New York's Bohemian Life Appears. tune: ONE NIGHT ON A ROOF GARDEN

Wayfarers Who Toll Not, Neither Do They Spin, but All Congregate at Open-Air

Theaters-What One Sees and Hears.

Under the sky afar, Watching some distant star, Smoking a good cigar, Asting no pardon; Fanned by soft breezes fine, Listening to strains divine, Sipping life's rosy wine On the roof garden.

It must have been a very modern and very masculine versifier that lead pencilled these lines in a dashing, devilmay-care hand across a Japanese fan which lay upon a table on one of the big roof garden theaters one night last week as we seated ourselves beneath a spreading palm tree and discreetly whispered an order to the Franco-Swiss waiter, who vanished into a grove of green like a genius disappearing in the

There were three of us-an artist, a poet and a writer-but we all ordered steins of beer, says the New York Herald. O, Tempora! O, Mores! The lights flashed about us like a thousand stars amid the walls of shrubbery; the perfume of a jacque rose mingled with the evergreen odors, and a woman's soft laugh sounded from a nearby table. where a girl with straw colored hair sat sipping a glass of wine and looking almost beautiful in the pink light which flickered from above, casting a tracery of foliage in a shadow across her face. It was a summer night's dream in New York.

Far off in the distance, it seemed, was a stage, and upon it a serpentine dancer was undulating amid fluttering drapery. Under changing lights, now red, now green, now yellow, she flashed about like a gorgeous butterfly. Mandolins sound id the music of a waltz in time to her swerving movements, and her

golden slippers twinkled about her head in rewildering succession. The poet gazed dreamily at the stars,

the artist looked at the dancer and the writer took notes. It was a new experience for him.

The roof gardens of New York during the summer season present a phase of modern life which is distinctly local and intensely American. There side by side sit the millionaire and the clerk, the opera queen and the aristocrat. In the theater the rail of the private box separates the prince and the commoner, but on the roof all are equal.

It approaches nearer to an anarchist's idea of heaven than anything on the earth below or in the waters under the earth.

"The roof garden theater." said the poet, "is the elevated stage. You can't get any higher than this without wings." Life as presented six stories in the air' takes on a different aspect to ordinary existence on terra firma. It is unreal and far away from the everyday annoyances of life. There is a sort of stage glamor over everything, and in its in-

THE GAY AND GIDDY ALOFT Glasses stopped clinking and every one bent forward to listen. "Hark!" says the poet, "to the strains of representative American melody for

which our farce-comic souls hunger and thirst.' A long, lank vocalist begins to sing in jog trot time and "Man in the Moon"

"Her brother came up to my rooms And stole all my souvenir spoons. In a red Mother Hubbard she went to the cup-

In a red Moher Hubbard she kenne from-my board To get her poor brother a bone from-my pocket. Hor season it closes in June, I hope she il get work very soon, I hope she il get work very soon. For I find it no joke, with my clothes all in soak.

I wish I was the Man in the Moon!" Bursts of applause greet this gem and

the singer bows to an encore. The poet wipes away a tear from his off eye and the artist shudders. The next performer is a man who comes upon the stage in an apologetic way and begins to talk in a rambling sort of fashion which seems to please the audience immensely. "I went down to a German wake the

other night," he says. "Now a German wake is very uncommon and I'll tell you When a German is dead he's He's at rest and that's the end of why. dead. him. But you've got to watch an Irishman for three nights and sit on his grave for about a year before you can be sure that he won't turn up again and make trouble." And after this laugh is stilled he continues :- "I'm not feeling very well at all tonight. I've been complaining for the last couple of days and I called down to see the doctor today. He didn't give me much hope. He said I had an ingrowing face and that it was chronic.

In this wise we are entertained and the hour grows late, the merry plunk of a banjo succeeds the anecdotist and familiar darky songs sound in a lively measure. Some college boys begin to sing:-

Don't you hear dem bells, Don't you hear dem bells. Dey are ringing out de glory of de M A. C.-A. C.

Don't you hear dem bells-But at this point they are promptly sat upon by a waiter. Now there is a flutter and a rush, and a clatter of voices and laughter. The theaters are out and both the audiences and the actors are being landed upon the root by the elevator full. The "well known" people do not reach the sky gardens until 11 has sounded. Then the "notapilities" arrive.

There is the man who jumped off the bridge and afterward developed into a full fledged sport, and then began to dally with philanthropy. He is talking to a bold, black-browed woman, who is attended by two broad brimmed dudes. She has just come from the stage of a near by music hall, where every night she sings sentimental songs in deep chest tones. There is a celebrated criminal lawyer with a burlesque actress who has a couple of divorce suits on her mind just now, and who likes to see her name in the papers.

Three men in evening dress enter together-a notable trio. The first, a popular little humorist, leaning on a cane, whose face is as familiar and as welcome as his jokes. His companions are the captain of a base ball nine and the son of an ex-president.

See the pale faced man who is seating himself with a thin, oldish looking woman in black. That is a champion middleweight pugilist, and the woman with him is his wife, a skirt dancer who has gained undying fame through her ability to kick backward.

It is getting late now and the early We usant to sound a note of warning to comers are taking their departure, leavthe retailers to beware of such imitaing their chairs to their late arrivals. tions and simulations of "CARTER'S LIT-TLE LIVER PILLS." When they are of-The Brooklyn girl and her broker have gone long since, the pokerites have wended their ways, and the "fashionfered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. The people of Schneidemuhl had a town pump which had supplied them with water for many years. During the cholera epidemic last summe the water fell under suspicion, which analysis seemed to confirm. It was therefore determined to go deeper and the pipes of an artesian well were put At a depth of forty-four meters down.

water-bearing strata under London. The case of Schneidemuni is perhaps the first in which this danger, which has always been theoretically recognized, has been realized to a very serious extent.

ENGLISH ARMY TO USE CORDITE. It is More Powerful Than Black Powder and is Smokeless.

The smokeless powder which has been adopted by the British government for use with the new English army rifle is known as cordite.

Cordite derives its name from its structure, the powder being made up in strings or cords of varying thickness, from about 300ths of an inch to half an inch in diameter. The thick cordite is cut in lengths of fourteen inches. The cordite used in field guns is cut in strips measuring eleven inches in length. The small-arm ammunition is made up of sixty strands to a load.

According to Colonel F. W. Burke of the British artillery, the new cordite is a combination of nitro-cellulose and nitro-glycerine. The combination is 37 per cent guncotton, 58 per cent nitroglycerine and 5 per cent vaseline, to which is added a proportion of acctone distilled from wood. The mixture takes

on a stringy form. In a magazine rifle a charge of seventy grains of black gunpowder gives a velocity of 1,830 feet a second, while thirty grains of cordite gives the same bullet a velocity of 2,000 feet. To obtain a velocity of 1,710 feet a second in a field gun requires a black powder charge of four pounds. The same velocity is obtainable from one pound and a half

ounce of cordite. Cordite, it is stated, has successfully withstood all climatic tests imposed at

the powder works at Waltham, England. Cordite samples have been exposed in an open case in an open pouch to rain, snow, and the sun, and retained their force unimpaired.

Abreast of the Times.

Detroit Tribune: The doctor placed his feet upon the operating table and laughed discordantly. He was not a handsome man, but de cidedly interesting in appearance, which is the best that can be said of

people who are not handsome. "Yes," he remarked, as he pared his finger nails with a scalpel, "I am diagnosing many cases as mere debility this year which a twelve month ago

should have called nervous prostration. The doctor pondered. "But what are you to do," he de-manded, "in times of financial stringency? Nervous prostration"-

The doctor picked his teeth reflectively with a probe, —"Means a trip abroad. Mere de-

bility means the seashore for a couple of [We have to keep our finger on days. the public pulse, you know!" And the doctor laughed discordantly some more.

CRIME IN HIGH PLACES! It is not strange that some people do wrong through ignorance, others from a failure to investigate as to the right or wrong of a matter. But it is strange, that individuals and firms, who are fully aware of the rights of others, will persist in perpetrating frauds upon them. High-toned, wealthy manufrcturing firms will offer and sell to retail merchants, articles which they know to be infringements on the rights of proprietors, and imitations of well known goods.

It Cures Colds, Coughs, Sore Threat, Croup, Infa-enza, Whooping Cough, Bronchitis and Asthma. A cettain cure for Consumption in first stayes, and a sure relief in advanced stages. Wants Perforated Pipes.

Chief Nicholson of the fire department and the members of the city council fire committee put in a part of yesterday making a test of the stand pipes in various parts of the city. Nearly all were found to work properly, and such as were defective wore quickly put in good working order, so that the ad-jacent premises are furnished adequate fire protection. The idea has been suggested of making an order compelling certain property owners where large interests are involved owners where large interests are involved to put perforated pipes in their places, so as to insure good protection. This sort of a thing is considered especially necessary in the implement houses on lower Main street. Many of them are packed with the most in-flammable materials, and if a fire should ever break out there the entire destruction of the establishment would be almost ineri-table and the loss of life york probable. By table and the loss of life very probable. By means of perforated pipes jets of water could be thrown into all parts of the building at once from the street, and the danger would be greatly lessened.

ling works, 1224 Broadway.

Fought in Jail.

William Campbell, a man who was spending a short time in the city jail, became mortally offended a day or two ago at a fellow prisoner, V. M. Harris, who accidentally spilled some coffee on him. Campbell was spilled some coffee on him. Campbell was bigger than Harris by quite a majority and would probably have annihilated his com-panion had it not been for the interference of the officers, who heard the disturbance. Yesterday the time of both men was out and Harris went before Justice Vien and filed an information charging Campbell with assault and battery. The case was tried in the afternoon and Campbell was given five days more in the county jail for his sport. more in the county jail for his sport.

"The roof garden," said the poet. "is one of the great moral levers of the age. It implants in the human breast that universal charity to all men that we are taught to believe is the foundation of religion. Have another with me." We acquiesced silently, and the waiter glided off like Hamlet's father's ghost with our three steins dangling between his finger and thumb.

The tables near to us presented an interesting field for study. The girl with the straw-colored hair leaned her elbows upon the table and talked volubly, with many gestures of her bediamonded hands. The two men with whom she conversed were stout and prosperous looking and seemed to pay little atten-tion to her words. Near them, under the shadow of a palm, sat a pale, girlish little woman, the leading ingenue at one of the fashionable theaters, and with her is a broad-shouldered English actor-the idol of the matinee girls of New York. Next to them, and forming part of the magic circle around us, are a party of men discussing a recent poker game, and touching elbows with us on the other side is a Wall street broker and his typewriter, a pretty girl with a Brooklynesque air.

rebel myself had something to do with it." esque air. Some one is singing "After the Ball," but no one seemed to heed it. Conver-sational bits break in upon the melody at every turn.

"You see it is this way," said one of "You see it is this way," said one of the poker men. "It was a jack pot and it went round three times, then I raised him ten and took three," then the straw colored girl broke in, "I'll make her prove everything she said about me! The furniture of the flat was mine and I Nebraska's People Are Promised a Variety WASHINGTON, July 13.-Forecasts for Friday: For Nebraska-Light local showers, followed by clearing weather in northeast portion; fair in southwest portion; south guess I can take it where I please. our car fare. Oh, it was cruel." "Thirty! Yes, thirty in the shade for the last five years. Don't tell me any ghost story like that. I'll take seltzer." Just then a hush fell on the audience.

up the When the artesian pipe was stopped the water forced its way up outside the pipes, bringing up with it quantities of sand. All the efforts since made to stop the flow have been useless, and as the water rises the earth sinks. The obvious inference seems to be that so long as there was no escape for it the water formed an incompressible stratum on which the upper earth rested in safety. Every hydra.lic press illustrates the enormous force water will bear and will convey when no outlet is provided for it: but let there be a vent and it yields to a touch. So with the hidden water stratum under the Posen town. It bore up the weight of fifty-four meters of solid earth so long as there was no outlet, but the artesian pipe let it loose and it rushed out from its confinement, and the soil it had
