

ATTACKED BY THE STRIKERS

Guards and Rioters Engage in a Pithed Battle at Weir City, Kan.

REPULSE OF THE ATTACKING FORCE

Brave Defense of the Property Under Their Care Made by the Deputy Sheriff—Over 100 Shots Exchanged—Casualties Unlamentable.

Weir City, Kan., July 24.—11:30 p. m.—The guards on shift No. 2 had a pithed battle with the mob of strikers at 10:30 o'clock tonight. The mob approached the mine quietly and fired into the shaft. Deputy Sheriff Grant, who was on patrol guard, returned the fire and calling the other guards defended the mine against the mob. Over a hundred shots were fired, but none of the deputies injured. When the mob was repulsed the guards were standing their ground they fired. It was not known how many, if any, of the mob were shot.

Shaft No. 47 of the Kansas & Texas company started up under armed guards with a full force of men. A large crowd of strikers and women gathered in the vicinity of the shaft and were planning to make a raid upon the mine. The sheriff's men appeared upon the scene. He addressed the crowd, telling them that although his sympathies were with them he was bound to do his duty. He and his armed guards then moved the mine and had ordered them to protect the property and the men at work upon them. If the mob did not disperse the sheriff's men were powerless to guard the property in the county and the lives of its citizens he would so inform the governor and the executive could not get out of the ground in three hours. It was useless to attack the men at work, he said, and he ordered the mob to disperse. The sheriff's men obeyed the order and there was no disturbance.

WILL RESIST THE STRIKERS.

Kansas Mine Owners Declare that They Will Resist the Strikers. The Central and Coke company and the Kansas & Texas Coal company intend to bring an end to the strike in their mines in southeastern Kansas in the next few days. The Central and Coke company has nearly finished the building of stockades around the mines at Weir City and Scammon, and has built houses for the workmen in the walls, and this morning President R. H. Keith told a reporter that the mines at both places would be operated before the end of the week.

"What day will you begin work?" he asked. "I don't know. That has not been decided definitely. It will be when the men who will work in them to come from."

Easy Enough to Get Men. "Some of our old men will be given a chance to go to work again if they feel so disposed. The strikers, however, have given us most of the trouble, we don't want and we won't have. Then there are some coming from Colorado and some men coming from the south. It is easy enough to get the men."

"Are the men who come from the south negroes?" "I guess they are. Negroes make good miners and what we want is men who will dig the coal."

Will they be furnished with the arms that are stacked at Springfield and elsewhere?" "They are not going to put men into our mines to be shot down like cattle. There is no use trying to disguise the facts. We have no reason to believe that they will be protected by the state. The strikers are the state and county officers has been such that we can expect little from them. We must do something for ourselves. Fully and it would be crushed on our part, but the strikers in those mines without protection. When the miners go inside of the stockades they are prepared to defend themselves against attack."

The Kansas & Texas company is preparing for work, too. The manager company will tell them what will be done. The manager of the Kansas & Texas company is there until matters are settled. It is expected they will take some decided action during the next two or three days.

Governor Lewelling Takes Action.

Topeka, Kan., July 24.—Governor Lewelling received a number of telegrams this morning from Weir City as the result of a protracted conference of the state officers. He sent a telegram to the sheriff at Weir City to notify the striking miners that under no circumstances would the state permit violence, trespass or any assault on the United States deputies or the destruction of property. The governor declines to state the substance of the telegrams received. He has sent for Lieutenant Governor Daniels, now at Weir City, and it is believed that a state militia will be sent to Weir City. Trouble is believed to be quiet at hand in Cherokee county.

TURKS BEAT A MISSIONARY.

Rough Treatment Accorded Miss Melton, an American Woman, in Turkey. New York, July 24.—Letters received by the Presbyterian board of foreign missions of this city contain news of an unprovoked attack upon Miss Melton, an American missionary who was stationed at the time of the outrage at a little village among the Nestorian mountains in Turkey. Miss Melton escaped with her life, but was mercilessly beaten and bruised by her assailants. On the night of her arrival she pitched her tent on the roof of a house in the village as is the custom in that country. In the middle of the night she was awakened by a man armed with a heavy stick with which he beat her severely. In some way she broke away from her assailant and ran bleeding from the tent. She was cut severely and her clothing torn. She was taken to a nearby inn where she was treated. A Turkish inquiry was instituted by the authorities, but little was accomplished. The matter has been referred to the attention of the State department at Washington.

Had a Hilarious Time.

Huntington, Ind., July 24.—Hugh Harvey and Homer Hansholder, "just for the fun of the thing," shot through a window of Schaefer's powder magazine near here this afternoon. Houses in the neighborhood were riddled by flying bricks and windows were broken all over the city. Andrew Herzog and John Geyer were badly injured by flying bricks.

NEBRASKA'S LATEST PRODUCTION.

Active Volcano Said to Have Been Discovered in Lincoln and Clark Counties.

REPULSE OF THE ATTACKING FORCE

Active Volcano Said to Have Been Discovered in Lincoln and Clark Counties. Sioux City, July 24.—[Special Telegram to The Bee.]—A genuine volcano is the latest product of Nebraska. It is about four miles south of Ponca and was discovered by a party of bicyclists last week. From a fissure in the bluffs a blast of hot air is issuing with force sufficient to carry twigs and bits of paper a distance of several feet. The air is said to be of a temperature sufficient to keep investigators at a respectful distance. The crater of an extinct volcano about twelve miles from Ponca was noted in the account of Lewis and Clark expedition and the spot has been frequently visited since. The river in the neighborhood has been flowing in the same direction for many years, and it is thought the water has reached a deposit of limestone and produced the heat.

The old crater has now almost disappeared but it was undoubtedly in a state of great activity in early days, and deposits of lava and scoria are now being carried down in considerable quantities. The new freak of nature is situated in the bluffs just above the river and the party which discovered it was at a loss to understand the noise made by the escaping air until one of them felt the breath of a blustering wind. There was no peculiarity of odor and no foreign substance has been thrown out, but there is no doubt of the existence of some disturbance underground which is sending to the surface a continuous current of intensely heated air. The phenomenon has been called to the attention of the geologists and geologists who will make an investigation.

Great Damage Done at the Red Hill Cattle Range.

Buffalo, Wyo., July 24.—[Special Telegram to The Bee.]—A fire broke out Friday about two miles from here, on the Buffalo side of the old T. W. ranch in the red hills, where E. J. Daley has a cow camp. The fire was caused. The news was brought in by some wool freighters from the camp, in the afternoon, and just about sundown the flames were plainly visible on the divide. As the darkness increased the burning prairie presented a beautiful, but terrible appearance. The fire extended for about ten or twelve miles from south to north, and was seen to be advancing with great rapidity, while every moment great troops of sheep were being prepared to defend themselves against attack.

Utah Pioneers Celebrated.

T., July 24.—[Special Telegram to The Bee.]—The forty-sixth anniversary of the entrance of the pioneers to the great Salt Lake valley was generally celebrated throughout the territory today. The celebration was a grand one and was enjoyed by all present.

MARTIN'S FEARS.

What the Kansas Senator Has to Say on the Future of Democracy. Topeka, Kan., July 24.—United States Senator John Martin who left for Washington this afternoon said that he expected the extra session of congress to run into the regular session. He would vote for the repeal of the Sherman act only upon the condition that the repealing act should include better silver legislation than the Sherman act. He regards the Sherman law as an inquiry and a crime, which was put upon the country by the gold standard men for the purpose of discrediting silver money. But he would not consent to a repeal of the Sherman act unless it included a tariff and money question. He believes the president will see the impossibility of forcing an absolute repeal through congress and accept a compromise.
