THREE PROMINENT FIRMS SUSPENDED

It Was a Wild Opening and Sales During the First Few Minutes Covered a Wide Hange Stocks and Bonds.

Carcago, Aug. 2.-Prices boomed today on the Board of Trade in the face of three fresh failures. Excitement for a time was at fever heat. One collapse was that of the most prominent grain carrier in Chicago, if not in the entire country &C. B. Eggleston & Co. Two other firms suspended were George G. Parker & Co. and Thomas Greig. The new failures, however, including that of Eggleston, grew out of the collapse in pork and lard corners yesterday. When these were out of the way and the other houses passed the clearing house there began a good feeling

Wheat took the lead with a bound of 41/c In September price to 62%c, with the close at 62%c. Corn closed 1%c higher, after selling nearly 2c over last night. Oats gained ic. In provisions the packers were covering their short sales and quotations rose \$1.10 for pork, 50c for land and 821/c for

It was a wild opening and sales during the first few minutes covered a range of 1%c for September, prices varying widely in different parts of the crowd, though all sales were at least 156c above the final figures of yester-

The announcement of the failure of Parker & Co. and Greig was almost unnoticed, so far as any effect on prices was concerned being regarded as the logical sequel of yesterday's downfall of the provision clique. There was a decidedly different aspect to affairs when the trades of Eggleston & Co. affairs when the trades of Eggleston & Co. were publicly ordered closed, as they were known to be carrying a large quantity of cash wheat. Their suspension created a panicky feeling for a few minutes, during which the price dropped to 58%c. At this point it was discovered that there was no wheat to be sold out for the suspended firm, P. D. Armour & Co. having, it is said, assumed their boldings of short wheat That assumed their holdings of short wheat. That left no trades to be closed for them except the wheat they had sold short against the cash stuff. That being the case, the market quickly recovered to 61c, and for some time it fluctuated between 60c and 50% in

a nervous way.

When it became apparent that no more failures were imminent the boom commenced in earnest. With export clearances aggregating 6,000,000 bu., and gold being imported in large amounts the timidity of buyers rapidly disappeared. N. B. Ream led the purchasers. Commission houses began to get buying orders from outside as the session advanced, and in the final half hour the de-

advanced, and in the final half hour the demand was fast and furious.

C. B. Eggleston, or "Sandy," as he is almost universally known, was one of the leading figures in the Kershaw failure that resulted in the collapse of Harper six years ago. On that occasion he lost \$864,000 in cash trying to save a \$25,000 special partner—shu in the Kershaw concern. He had some ship in the Kershaw concern. He had some money left, however, and a wife worth \$1,500,000. Being one of the best posted men in the trade and the intricacies of the grain and provision carrying business, and having the confidence of the banks, he went into that line of business on a very extensive scale, and is supposed to have made back nearly all he lost through Kershaw and

Harper. Eggleston himself refuses to make any statement of his affairs for publication, but it is generally thought by his friends that he has put about \$500,000 into the game and that D. Eggleston may be in the gap for \$500,000, spread out all over the floor. How much of that is protected by margins cannot be ascertained to a certainty for several days. D. Eggleston & Co. acted as a clearing house for a dozen or more brokers who did not have the means to swing their trades. The failure leaves them high and dry and may embarrass them considerably. Parker & Co. had nearly \$500,000 in cash in the business, and the house was regarded as one of the soundest on the Board of Trade.

"I do not know how I stand," said George Parker. "I only know I got caught in the gap for more money than I could raise and I had to lie down. I considered myself as sound as the Bank of England yesterday, today I am broke. I had a big line of pro-visions on my books, and my principals were unable to respond to margin calls That left me to stand the racket alone, and I was not strong enough for it. Were your principals Cudahy, Fairbank

'All of them." Thomas Greig is a Scotchman but he never had any great trade. He was long on pork at high figures. The liabilities of the Cudany-Fairbank-Wright combination as represented by closed-out trades on 'Change today are estimated at \$1,000,000 to \$1,500,000 and above their margin deposits.

The Cudahy Packing company, it seems, is not involved in the failure of John Cudahy and it is given out as one of the trade-half secrets that he sacrificed his interest in the company and also in the Cudahy Packing company of Milwaukee to raise money to carry on his speculations, his brothers buy-

A feature of the day was the open buying of everything on the list by Armour's brokers. His purchases were on a prodigous scale. Buying in the other pits, how ever, was dwarfed alongside wheat. Corn opened excited, with sales a fraction

above and below the final figures of yesterabove and below the final figures of vester-day and under a good demand, one concern buying freely, sold up 1%c, afterwards work-ing back %c, changed some, ruled steady and at the close had gained from 1%c to 1%c. Oats again advanced from 1/c to 5/c; out-side figures were maintained at the close, but the gain was established. The strength came from corn and also from wheat. There was also a liberal demand from shorts

arki less pressure to sell except on the bulge.

The provision market, after its severe sickness of the day before, opened quite convalescent, Besides Armour & Co., Nelson Morris & Co., Swift & Co., the Anglo-Ameri can Packing company and other big concern which have been absentees during the Cud-ahy regime all took a hand in the transac-tions. They came in as buyers, for the most

There was a large business done in lard for export, 5,000 tierces being reported taken England and 6,000 tierces for Germany Following so promptly on the collapse of th price it is not impossible that these foreign shipments are going forward on Chicago ac-count. Lard and other commodities, it is said, can be carried much more cheaply abroad than they can here at present. Closing prices were at the top of the day.

Freights were dull; the inability of shippers to sell exchange, checking business. Rates were 1½c and 1½c for wheat and 1c for corn to Buffalo.

Estimated recents for topographs.

Estimated receipts for tomorrow: Wheat,

110 cars; corn, 350 cars; oats, 242 cars; hogs. The leading futures ranged as follows

The following were the receipts and ship-ments for today: ARTICLES RECEIPTS. SHIPMENTS

On the Produce exchange today butter was in good demand; creamery, 17220c; dairy, 143217c. Eggs, steady; fresh, northern, 17c. Omaha Produce Market. BUTTER—Fancy creamery, print, 21c; fancy creamerles, solid packed, 19c; fair to good creamerles, solid packed, 16219c; choice to fancy country, 15218c; fair to good country, 14c; packing stock, fresh, 11212c.

EGOS—Sales are being made largely at 102

POTATOES On orders from the country pota-

Egos—Sales are being made largely at 10@ 11c.

POTATOES—On orders from the country potatoes are bringing as high as 70c.

MELONS—It was only a short time ago that watermelons were so plenty and so cheap that commission men were refusing them on the ground that they could not get freight out of them. Now they are selling quickly at \$25 per 100. Cantaloupes are more plenty than they were a few days ago. Cantaloupes, per basket, \$1.25±1.50.

CABBAGE—There is a pretty good demand for cabbage from the country and a considerable amount is being shipped from this point. The local growers are keeping the market well supplied. Choice home grown on orders from the country, 2c per lb.

CELERY—Stray shipments are arriving and the quality of the stock is pronounced good for this season of the year. Celery, per doz. bunches, \$5c.

ONIONS—Home grown stock is plenty, though there are a few shipments being received from points farther south. Arkansas ontons, per 48-lb. box, 90c@\$1.00; home grown, per lb., 2c.

TOMATOES—The market is still full of tomatoes and prices are low. Large receipts are anticipated for the next few days. Southern, per 4-basket crate, 75c@\$1.00; per '5-bu. box, 50c.

BERRIES—The market was very lightly supplied with berries and prices were firm. Blackberries, which have been coming in for a week past in large quantities, were scarcer, and about the only supply was to be found in the hands of local growers. The raspberry season 8 about over. There were a few blueberries in the market, but they have been so high at the points where grown that there has not been much inducement to ship to this market so far this season. Blackberries, home grown, per '4-qt. case, \$2.75c@3.00; black raspberries, per 24-qt. case, \$2.75c@3.

TROPICAL FRUITS.

TROPICAL FRUITS.

Lemons—The steady warm weather produces a very fair demand for lemons and all houses are doing a good steady business in them. Messinas, extra fancy, \$5.00\(\frac{2}{2}6.50\).

Messinas, per box, choice to fancy, \$5.00\(\frac{2}{2}6.50\).

Bananas—Prices remain about steady. Per bunch, large, \$2.25\(\frac{2}{2}2.75\); per bunch, small to medium, \$2.00\(\frac{2}{2}6.2.50\).

ORANGE—While the supply of oranges is not large there are occasional cars arriving that keep stocks up to the point required by the demand. Riverside Mediterranean sweets, \$3.50\(\frac{2}{2}3.75\); brights, \$2.75\(\frac{2}{2}3.00\); Riverside seedlings, \$3.00\(\frac{2}{2}3.25\).

New York Dry Goods Market

New York, Aug. 2.—The dry goods market
continues quiet, but there appears to be a
rather better feeling. The financial tone is
better. The Wamsutta colors and the Utlea
noupareli bleached have been reduced, but
this is the first reduction on these goods this
year—a late drop lato line with the reductions
made in other cottons. A few other changes
of the same kind may follow. The following
are those already made: Utlea nonpareli 4-4
bleached to 10c; Wamsutta OXX to 10c; Grinnell shirting 4-4, 12c; Wamsutta jeans, 10½c;
Victoria long ciota, 12½c; Burleigh cloth
XXC, Wamsutta cambrie, 10c; S. F. sheeting
5-4, 4½c; 9-4, 10c; twilled sheeting 27½c for
8-4; New Bedford sheeting 9-4, 30c; Wamsutta
brown, 9½c. The intermediate grades on
same basis on a decline of about 2½c on 10-4
goods. New York Dry Goods Market

Liverpool Markets.

Liverpool, Aug. 2.—Wheat — Steady; demand moderate; holders offer freely; No. 1 California, 5s 94@5s 10d per cental; red western spring, 5s 7d@5s 8d; No. 2 red winter, 5s 7d@5s 8d; Cons.—Steady; demand moderate; mixed wostern, 4s 3d per cental.

Bacon—Long and short clear, 55 lbs., 50s 6d per cwt; Lard, prime western, 35s per cwt. Liverpool Markets. st. Chezze American finest white, 46s per cwt. merican finest colored 47s per cwt.

Manchester Commercial Review. MANCHESTER, Aug. 2.—The Guardian, in its commercial article, says: The market is

quiet, though not inactive. All goods, the production of which is well engaged, are decidedly frm. Some business has been accepted at a trifling teduction owing to easier prices for yarns. Producers of narrow shirtings of the lower qualities are in want of orders. Good makes of entrings are strong. A slight improvement in exchange has encouraged offers from Calcutta. There is also some inquiry from China. Firmness prevails in business. American yarns show a weaker tendency.

Financial Notes. KANSAS CITY, Aug. 2.—Clearings, \$709,875. HAYANA, Aug. 2.—Exchange quiet; on Lon-ion, \$20 20:221.00. PARIS. Aug. 2.—Three per cent rentes, 98f ONARA, Aug. 2.—Clearings, \$609,232; same day last week, \$738,632. New YORK, Aug. 2.—Clearings, \$115,175,-147; balances, \$4,666,108.

STOCKS AND BONDS.

Improvement at the Exchange Made for ther Progress Yesterday. New York, Aug. 2.—The improvement which set in yesterday at the Stock exchange made further progress today. The heavy importation of gold has relieved the strain in financial circles and is mainly responsible for the recovery in both the stock and bond market. The rise today was assisted by the purchases for the account of leading operators, who saw the opportunity of making a profitable turn at the expense of the shorts. The fact that the bears experienced difficulty in making prompt deliveries and that when the demand to cover became urgent the supply of stocks was

found to be scarce, also had a marked in-The rise suffered no particular interruption until after midday, when some of the smaller bulls realized profits and prices yielded 1 to 3% per cent. The bears at once started to put out a fresh line of short contracts, but after a brief spell of weakness the market again met with effective support, and as a rule the best figures of the day were at-

The largest advances were 9% per cent in Chicago Gas, 9 per cent in Lackawanna, 8½ per cent in General Electric, 8½ per cent in Burlington, 6½ per cent in Western Union and 8½ per cent in St. Paul. There was a difference of anywhere from 1 to 2½ per cent between the sales at intervals, so great was the demand to cover. Shortly before the close another reaction of 14 to 2 per cent occurred, but this was succeeded by another recovery of 14 to 2 per cent and speculation left off strong in tone.

There was an improved demand for bonds today and the tone was strong throughout. American Cotton Oil rose 254 per cent to 1031/4 and Atchison 4s 1/4 per cent to 1031/4. The Post says: Whoever thought yesterday that the failures in the Chicago produce the says would upon regiving confidences. day that the failures in the Chicago produce markets would upset reviving confidences were speedily disabused today. From the wheat pit to the bond room the single senti-ment voiced among the New York financiers was that of intense relief. For one thing it was that of intense relief. For one thing it was at once discovered that the strong boxes of bankrupt western packers had been aiready emptied. Their private hoards no less than those of the Milwaukee bank, secured the mass of gilt edged railroad securities, which went out at so violent a rate. This morning's few further Chicago failures were learned of without a sign of real apprehension, the banks seeming to have escaped intact. From London came the news of \$3,000,000 more gold taken for export from the bank. Coincidentally the swelling price of American coin at the bank was raised, and the rate for London time loans advanced to the bank's own figure for absolute a received to the bank's own don time loans advanced to the bank's own figure, foreshadowing a probable advance in

business tomorrow. But the continuously heavy shipments of grain, accurities and produce gave ground for believing that the movement of gold would not yet be checked. The following are the closing quotations on the leading stocks on the New York exchange today. 144 Nor. Pacific prf'd.

Gold for America. New York, Aug. 2.—The London special cable dispatch to the Post says: Six hundred and twenty-eight tousand pounds in eagles and bar gold were sold today by the Bank of England for the United States. Ninety thousand sovereigns were received from Egypt and 11,000 fro a Portugal. The market rate of dis-000 fro a Portugal. The market rate of discount was firm on a possibility of, a reduced bank rate tomorrow. Gold was in strong demand in the open market today at 78s per ounce. About £200,000 stering were taken today for America: the market is now bare. Silver has risen to 32½d and is firm. Rupee paper has fallen to 68½d, owing to lower exchanges from India. The stock markets were idle today, but prices were buoyant in all departments, especially in Americans, which left off at about the best.

Bottom Completely Knocked Out of Price -Worst Slump in History.

WEDNESDAY, Aug. 2. Receipts of all kinds were only moderate, but this was a regular "Black Friday" in all branches of the trade. Receipts for the three days foot up 8,231 cattle, 10,205 hogs and 1,785 sheep, against 4,644 cattle, 17,881 hogs and 792 sheep the first half of last week. The cattle market was in very bad

shape, and the close found nearly twothirds of the cattle unsold. Offerings were rather liberal and very largely westerns. Chicago advices were of the most bearish character, and the demand here re duced to almost pere at all. Cudahy was out of the market, and Swift and Hammond only wanted a few butcher cattle. They had no trouble in getting these, and when that was done the market was over. A few loads of good fat steers sold at from \$3.80 to \$4.15, and grassy and balf fat natives brought \$2.90 and \$3.10. After this was don the buyers left the gards. As far as it went the market was 25c to 50c, mostly the latter, lower than Tuesday. There were fully 1,500 cattle, mostly westerns, or one-half the receipts, still in the pens at the close. It was the same way in cows. The few that local houses had to have they easily that local houses had to have bought a quarter lower than Tuesday, and bought a quarter lower than any price. Calf would not look at the rest at any price. Calf stock was dull and lower and the same was stock was dull and speed acrally.
true as to rough stock generally.
Offerings were excessive, out of all proportion to the demand and prices declined 15c to 25c on all grades. DRWSSED BEEF.

Buyers took off all of a dollar, and while the bulk of the hogs sold on Tuesday around \$5, the popular price today was \$4. around \$5, the popular price today was \$4. The immediate cause was the bursting of the highly-inflated provision balloon Tuesday and the consequent failure of several more or less important packing concerns. Receipts were not at all heavy, less than 4,300 head, but they were heavy enough for all purposes. A few urgent shipping and fresh meat orders for light and butcherweight hogs were filled early at from \$4.10 to \$4.50, but packers started in bidding \$4 and said they would buy hogs there or not buy at all A Chicago packer was on the market trying they would buy hogs there or not buy at ail. A Chicago packer was on the market trying to get hogs for \$3.75, but did not succeed. Aside from the early trading in light and butcher grades, there was practically no market at over \$4. The close found over half the hogs still in first hands. As far as it went trading was largely around \$4, against \$5 yesterday and \$5.25 to \$5.50 on last Wednesday. Representative sales:

Chicago Live Stock Market. CHICAGO, Aug. 2.—ISpecial Telegram to THE BEE. |—Probably never before since ground was broken for the Union stock yards was there such utter stagnation in the live stock markets as was experienced today. Sellers markets as was experienced today. Sellers and buyers alike appeared to be "at sea." the former not knowing how much to ask and the latter how little to offer. There was an awful chasm between their views of values. Their differences were irreconcilable and consequently trading was at a standstill. There were plenty of anxious sellers at any reasonable concession, but buyers seemed to be bereft of their reason. Their bilds were simply outlandish. The offered from \$4 to \$4.25 for a grade of hogs that looked cheap to them yesterday morning at from \$5.40 to \$5.50 and there was a little trading on the basis. Cattle and hogs were off correspondingly and, taken all in all, it was a market day of which the annals of the live stock trade do not furnish a counterpart.

Receipts were heavy all around, being estimated at 19,000 cattle, 27,000 hogs and 17,000 sheep. Only a small part of the offerings found takers and the close was inconceivably bad.

It was a touch day for sellers of cattle, bowed.

It was a tough day for sellers of cattle; how-tough only those countrymen who were so unfortunate as to have stock here can have any adequate realization. It was well along toward noon before buyers would make any bids. Then holders were complacently informed that if they were prepared to negotiate on a basis of from 40c to 50c off from Tuesday's prices some business might be done. As there was not the smallest ray of hope for a better state of things tom rrow, salesmen reluctantly came down. But even so great a reduction did not lead to active trading. Exporters took a fair number, and there was some trading for eastern and local accounts, but the sounding of the 2 o'clock whistle, which announces a suspension of trading, found several thousand unsold cattle in the yards. The receipts were estimated at 19,000 head, of which 6,000 were from Texas. Natives sold very slowly and largely below \$4.50, or at from \$3.25 to \$4.40 for common to good steers, and at from \$1.50 to \$2.50 for common to choice cows and bulls. The deciline in Texas cattle was less severe than that noted in natives, but they sold materially lower than on Tuesday.

With hogs selling at recent low prices, a deciline of from 75c to \$1 per 100 lbs. In the space of one day is something altogether unprecedented, but that is what happened within an hour or two after the opening of business this morning. Such grades as were freely taken yesterday morning at from \$5.40 to \$5.50 were oad. It was a tough day for sellers of cattle; how-

hour or two after the opening of business this morning. Such grades as were freely taken yesterday morning at from \$5.40 to \$5.50 were not wanted today at over \$4.40 to \$4.50 and the fancy light sorts that were then saiable at from \$5.95 to \$5.20. There seemed to be few buyers who had the nerve to touch the hogs even on that low basis, and although salesmenworked hard, they were abe to make but little impression on the supply of \$3.000 head that the nens held. With the market in such a shape trustworthy quotations are out of the question. At the wind-up it is doubtful that more than \$4.50 could have been obtained for neavyweights, and it is certain that \$5.15 was the extreme top for light. Judging from the temper of buyers tomorrow is not likely to see any satisfying improvement in the demand or in prices.

isfying improvement in the demand or in prices.

If one branch of the live stock trade was more thoroughly lifeless than another it was that in sheep. It was almost impossible to call out a bid sad the market was as limp as a rag. Good to choice muttons were urged on the market at from \$3.75 to \$4.25, but no one would touch them at these figures. As to the poorer grades, they simply were unsalable. Sympathizing with cattle and hogs, the market must have ruled considerably lower under average supplies, but with from 17,000 to 18,000 head on hand sellers were absolutely at the mercy of buyers. They forced a decline of from 50c to 75c per 100 lbs, pushing prices down to from \$1 to \$2 for poor to common and from \$3 to \$4.25 for fair to choice qualities. Lambs did not suffer less. They went off to from \$5.25 to \$2.75, according to quality. Only an insignificant part of the supply was disposed

Balloon, tonight, Courtland beach. ANOTHER SILVER ORDER.

Director Preston Issues One Which Will Cause Opposition to His Confirmation. WASHINGTON, Aug. 2.-If Mr Preston, acting superintendent of the mint. desires to be appointed director of the mint, as seems probable, and is the choice of the secretary of the treasury for that place, it would have been more agreeable to him if he had been appointed when the senate was in session in March. The silver senators will most certainly make a desperate effort to defeat his confirmation if he should be nominated. Another order has just been made at his instance which will make it still more difficult for the silver men to get rid of their silver, and which the friends of silver in congress will unquestionably claim is another illustration of the hostility of the treasury to the use of silver in the currency. The order is that hereafter all bullion purchased by the treasury under the silver purchase act must be delivered in five days. present limit is ten days. There are many in congress who do not approve of Secretary Carlisle's policy in reference to the purchase of the 4,500,000 ounces provided by the statute when the price, at the discretion of the secretary of the treasury, is not the market price. Some of the most earnest opponents of free coinage maintain that this interpreta-tion of the law is technical and a manifest nullification of the spirit of the law. They doubt the wisdom of such an attempt to defeat the law by construction in the present irritated condition of the public mind. They fear that such a manifestation of hostility to sliver by strained construction will have an unfavorable reaction upon the cause of sound currency.

This interpretation, as well as the

order of today limiting the delivery period of the bullion to five days, is the work of Mr. Preston, who is extremely

Nickel Watches.

The jeweling of watches, especially nickel watches, in the center, is one of the greatest steps forward in the history of watch making. No matter now well oiled or what oil is used, nickel will stick and cut the pivot. Nickel 17-jewel watches are made only at the Dueber Watch Works.

If your dealer does not keep our watches, mail us your address and we will send you the name of a dealer who does. THE DUEBER WATCH WONKS CARDON.O. zealous, apparently, in opposition to silver and who has thus far succeeded in

securing the approval of the secretary

of the treasury to all his recommenda-

It has become evident from the talk with the southern members who are coming in that the people in that section are more concerned in preserving bi-metallism than they are in maintaining the present ratio between gold and silver for coinage purposes. It is quite evident that there is a determination among the southern members not to permit the demonetization of silver, for the reason that they believe that both silver and gold are needed as the basis of a national currency, but they appear to have very little interest in favo the mine owners' point of view, and they have as a rule no objection to a considerable increase in the ratio upon which the free coinage of gold and silver should be established. What they want, apparently, is the free coinage of silver, on the theory that it will give more money, but they are perfectly willing that the silver dollar should be placed

on a parity with gold by increasing the amount of silver in the coin. The rally

seems to be around the proposition to

repeal the Sherman law, repeal the

state bank tax and coin silver at about

Boating, Courtland beach.

Want the Sherman Law Repealed. TACOMA, Wash., Aug. 2.-The Chamber of Commerce last evening adopted a resolution favoring the immediate repeal of the Sherman purchasing act, declaring that the widespread disaster and distress at present prevailing are largely the direct outcome of the threatene overturning of the protective policy of the country, and requesting the senate and house of representatives to adopt a joint resolution to the effect that no legislation shall during the next four years be effected on this subject nor in any way affecting the duties levied on imports of merchandise. The amendment offered by Nelson Bennett to the latter clause was adopted as follows: "Excepting that these articles, including silver, which are not now on the protected list shall have equitable protection with all others."
