### ALL EYES ARE ON BOSTON

Board of Directors of the Union Pacific in Important Session.

## EMPLOYES OF THE SYSTEM EXPECT A CUT

Directors Will Hear Comptroller Mink's Report and Recommendations-Barlington Officials Discuss the Reduction of Train Service.

The eyes of every Union Pacific employe from general manager down will be directed on Boston today, looking for the action of the board of directors called in extraordi-DATY Session.

Among other things the directors will consider the renewal of the \$5,166,000 sinking fund bonds which mature next month. It is understood that some of the nirectors are in favor of renewing the bonds at a lower rate of interest, the present interest-bearing rate being 8 per cent. But with the uncertainty that prevails in the centers of finance this is regarded as well nigh im-possible although some of the directors are

hopeful that this may be brought about.

But it is now known that the directors meet to talk over the report that Mr. Oliver W. Mink will make to the board, a report that may develop something of the sensational in its nature. It is a fact that all the efforts of the heads of departments to cut down expenses by discharging men have not been particularly fruitful in meeting the dis-tress that prevails in the treasury of the road, and something more radical is needed. Whether the recommendation that Mr. Mink will make will take the form of a graduated reduction in wages is something that only the heads of the departments know, and they won't tell. However, the employes have made up their minds that a reduction is coming and will cheerfully accept what is to them clearly inevitable.

May Arrange to Visit Washington. Whether the directors will also map out a plan for a congressional campaign to be car ried on in Washington this winter in secur-ing favorable legislation for the road is something past finding out, although this is hinted at by men who are in a position to

So far as the road itself is concerned, there is no improvement in the movement of freight, nor are there any prospects of improvement of the concerned at the provement at present.

An official yesterday morning, discussing the situation, said: "President Cleveland has it in his power to lift the financial pall if he will in his power to lift the financial pall if he will in his recommendations to

From a friend I understand that Mr. Dave Moffatt of Denver had an intimation that the president's message would be a surprise to the country, in that he would recommend a ratio of 20 to 1 instead of 16 to 1, as at present existing, for silver. Mr. Moffatt is represented to have said that if this should prove to be true he would put 3,000 men to work immediately. Cleveland has it within himself to brace up the country, and I have great hopes that the reports in circulation are true."

Activity prevails about Union Pacific headquarters, as several of the general agents have been called in to hear lectures upon extravagance and "sich" which they upon extravagance and "sich" which they have been practicing in their departments. With the return of Mr. E. L. Lomax Sunday from his trip west Mr. Richard Ten Broeck, general eastern agent at New York, floated in Mr. Dave Burley of Sait Lake having been informed by telegraph on Saturday that he had better tarry until the arrival of his chief. James F. Algler, general agent at St. Louis, and G. W. Luce, general agent at St. Lionis, and G. W. Luce, general agent at San Francisco, were closeted with Mr. Munroe all morning, together with Auditor Young, who had a few words to say for retrenchment.

Reduced Train Service.

General Manager Holdrege, Superintendent Calvert of Lincoln, General Passenger Agent Francis, General Manager W. C. Brown of the Kansas City, St. Joe & Council Bluffs system, Superintendent Crance of the same system and General Passenger Agent Ives of St. Louis, were in session all morning yesterday at B. & M. headquarters discussing the change in train service contemplated by the Burgington people. the Burlington people to meet the decrease in passenger earnings.

Nash, who has just returned from Chicago, says the feeling there is that Cleveland will materially depart from his views on the silver question in his message. "Things are as bad as they well can be," said Mr. Nash, "even the World's fair is feeling the stringency."

President Oakes of the Northern Pacific, in officially announcing the death of General Manager Mellen, says: "Mr. Mellen began his railroad career early in life upon the Chicago & Northwestern railroad. By successive promotions he passed through the various grades until he was made general manager of the Wisconsin Central in 1886, and of the Northern Pacific system in 1889.

A man of strong physique, a tireless worker,
he was devoted to the interests of the company, which he served with conspicuous faithfulness and ability; while by mingled firmness and consideration he won the regard of all employes. He had mastered the business of management. His death removes a valuable and useful officer, whose services to this company will long be held in services to this company will long be held in

grateful remembrance." General Manager W. B. Doddridge of the Missouri Pacific railway was recently presented with a team of high bred Kentucky horses by R. M. Galbraith, general master mechanic of the Cotton Belt road, in behalf of the officials and employes of the latter road. Mrs. Doddridge received at the same time a beautiful pair of diamond earrings as a token of esteem from the Cotton Belt employes. Mr. Doddridge is not a man of ceremony and the gift was presented and received informally. It was a sort of family affair. Mr. Doddridge was general manager of the Cotton Belt before he became general manager of the Missouri Pacific and to know, by the present to him, how much he was liked by the men who worked under him made the day one of the happiest of General Manager W. #### CAMP LOGAN.

Preparations for an Enjoyable Time Just Before Pulling Up Stakes. Arrangements for a grand observance

of the last week of the fifteenth annual reunion of the Grand Army of the Republic, Department of Nebraska, at Camp Logan, near Grand Island, have been made. The celebration will continue from August 28 to September 2.

George P. Dean, chairman of the committee of arrangements, and H. Harrison, quartermaster of the camp, were in the city yesterday. They say that an interesting program has been prepared.

The thrilling feature of last year's reunion, the balloon ascensions, will be repeated. The National guards will be secured and conceptitive gralls by the various com-

and competitive drills by the various com-panies and a sham battle between the aforementioned and the Sons of Veterans will be

additional features.

Two grand fireworks displays, fine band contests, wheelmen's contest, ladies wheel races, a competitive drill by the Sons of Veterans, a drum corps contest drum majors contest, all these are added and still ad-ditional features will be secured as additional arrangements can be perfected, and will be announced in supplemental program. Special effort is being made by the commit tee to enlist the services and secure the at-tendance of a number of the most entertaining speakers of the state and nation to add zest to the camp fires.

The camp will occupy the same beautiful

grounds occupied by Camp Sheridan last year and there will be an abundant supply of wood, straw and water and ample tent accommodations, all free.
The program for Monday, August 28, the

ppening day of the festivities, will be as fol-

#### BOARD OF HEALTH.

Expressed Determination of Dr. Somers to Remove the Dry Closet System. The Board of Health failed to secure a quorum yesterday afternoon and the regular meeting went by default. The failure of the members to respond is attributed to the laying off of Sanitary Inspector Westerdahl. Mayor Bemis, Chief Seavey and Dr. Somers were ready to meet, but Councilman Mc-Learie and Plumbing Inspector Duncan failed to appear. This left the board without a quorum, Councilman Howell being out of the city. Indications are that the board

will not meet until the latter's return.

A few weeks ago Inspector Westerdahl took a two weeks leave of absence, securing a substitute, and visited the fair. When he returned he was requested by Dr. Somers not to resume his duties until after yesterday's meeting of the board. Mr. Westerday's meeting of day's meeting of the board. Mr. Wester-dahl then handed in his resignation and has returned to Chicago. Some of the members of the board are indignant over this turn in affairs and there is talk of an investigation. The board has again served notice upon the Board of Education to remove the dry closet system from the Kellom school. Yes-terday Dr. Somers issued the orders and one was served upon each member. The order is to the effect that the system is unsanitary and is a nuisance and must be abated within thirty days from date. In case of a failure to comply with the orders the members subect themselves to arrest and fine upon con viction. Dr. Somers says that if the board fails this time to remove the closets he will emply with the orders of the Board of Health and cause the arrest of each member.

The judge sized up William's pile and remarked that he would call it square if \$5 was paid over to the court's clerk. "That will leave you enough to get home on," said will leave you enough to get home on," said the judge, "and the next time you come to town leave your fighting tools at home."

#### DR. STONE'S VIEWS.

Criticism of the Nebraska Exhibit at the World's Fair. Dr. R. M. Stone returned yesterday from

an extended visit to the World's fair. Dr. Stone said: "We have one creditable display and that is our exhibit in the Forestry building. The Nebraska exhibit in the Lib eral Arts building bears no comparison whatever to that of any other western state. The comparisons made by visitors are almost always to our discredit and in favor of the Iowa exhibit which is located next to it. Although this state is a prairie state we have an excellent display of woods native to our river lands. There are 170 different kinds of wood in this exhibit. Our display n the Dairy building is also very creditable

to this state.
"Nebraska people need no longer be afraid of extortionate rates for board and rooms Rooms which were held at \$3 per day in June can now be secured for 75 cents and \$1 and they are going begging even at that price. On one day when I was at the fair grounds there were 114,000 people on the grounds and there was no crowding or jost ling. The people seemed to be uniformly courteous and more earmestly studying all the features of the fair. It is distinctly a cosmopolitan crowd to be seen within the gates of Jackson park. People of all nations elbow each other in a good natured way in the large halls."
As a general thing the visitors belong to the more intelligent classes and thoroughly appreciate everything they see. It is certainly a grand exhibition in all its details. One noticeable thing is that in this vast disday of the resources of all nations American artisan and mechanic take the lead and can give their foreign cousins many valuable pointers."

Ella King, a colored woman, who lives in the vicinity of Ninth street and Capitol avenue, and Sam Goldsmith, son of the saloon keeper at the above corner, became involved in a quarrel last evening and as a result Ella is locked up at the police station charged with stabbing with intent to kill.

The quarrel commenced over a trivial matter and the woman alleges that Sam struck her in the face. She ran around the corner and found a friend who had a razor. She borrowed the weapon and returning to scene of the first conflict made a vicious slash at the young man with the sharp blade. It struck him on the left side of the neck, making an ugly gash and narrowly

missing the jugular volu.
The woman attempted to further injure young man but was prevented by banders. Goldsmith was turned over to surgeon and the woman was turned over to an officer, who had her locked up and charged as above. Goldsmith is not seriously injured.

GOING TO WORLD'S FAIR?

A Remarkable Hotel That It Will Pay to Visit.

#### The Beautiful Building Put Up Within the Past Few Months.

Erected by C. E. Rrown, the Well Known Chicago Merchant.

Chicago, Aug. 7.-If one goes to the World's Fair there is a substantial com-fortable hotel that it will pay him to

The proprietor Mr. C. E. Brown, is a well known successful merchant, 4658 State street.

The story of how he came to put up a hotel is interesting.

To use the words of its energetic and successful proprietor, Paine's celery compound, the remedy that makes people well, built it.

Mr. Brown, says: "Believing it to be a duty that every man should acknowledge and recom-mend that which has done him good is the cause of this statement, which to give all particulars, must go back to my boyhood days. When I was about 12 year old we moved to central Illinois,

where for three years I had'the shakes or ague, which I presume gave me what they called an ague cake or enlargement

of the spleen. "At the age of 17 years I came to Chicago and entered the old Chicago university, but my health was so poor that I could not make much progress with my studies, and from that time on until about eight years ago I was sick more or less without any one being able to tell just what was the trouble, or to

give me any relief. "Eight years ago while lying aboard my yacht in Mi waukee harbor I awoke one morning but was unable to get up or move. Dr. Adam Miller was called, and he pronounced my trouble dropsy of the heart. After about six weeks of hard fighting and my determination not to die I got up, but was not well, and had to continue taking medicine. About two years ago I lost my wife, the worst thing that could happen to a man. had a very sick spell after that. A friend then recommended Paine's celery compound, and I took six bottles of it and it out me on my feet again, and I am feeling, and have felt for the past year, the best I ever did in my life. I take no medicine at all now. A short time ago

I bought six bottles more of Paine's celery compound. Five of them I gave to friends. I have recommended it many of my customers and friends both here and at Central Falls, R. I., and I fail to hear of a single one it has not done good Even a Mrs. Yeager, who has stood out a long time from taking it, said it was

the best thing that she ever tried. "I believe that Paine's celery com pound was the means of curing me of the dropsy and making me well, so that I was able to take up the battle of life again. And I have built during the last four months a beautiful building, and have been so well that I have stood every day upon its walls fully eight hours a day, from the time of throwing the first shovel of dirt. I now have 125 rooms for World's Fair visitors, and if any of your friends are coming to the World's Fair just tell them to stop at Brown's hotel that Paine's celery compound built, and they will find it well built, no crumbling walls or fire trap, but solid and sub-

stantial, like the writer. "I am surprised at myself being able to stand as much work and the long hours from 7 a. m. to midnight, and on the jump all the time' besides confusion and asking questions which used to make me very nervous. Am feeling well, looking well, and a living example of what your compound has done, and

shall recommend it the longest day "I can refer you to Marshall, Field & Co., Kieth Bros., and many other Chicago merchants in regard to my standing, "says Mr. Brown; "or you can write to Dr. Miller, who has been my family physician for a good many years although I am glad to say that I have not been obliged to call him in for over

A table of statistics might be prepared giving testimonials from men and women rom every state in the union, of every age, the rich and the poor, and from every condition in life. There is not a city or village in the United States where Paine's celery compound is not known and prescribed. It has cured nervous diseases. brain troubles, kidney disorders, and liver complaint where everything else has failed and where the patient's life has been despaired of. It nakes people well.
