Faxton's Pair Pull Off Their Class Baces in Good Form-Fashionable Crowd of Omaha People Watch a Spiendid Speed Program.

The stands were filled with something like 8,000 people, while several hundred more occupied haadsome turnouts in the quarter strotch, investing the park with an aspect of life and enthusiasm that was refreshing indeed. The weather was as if made to order, with an Italian sky overhead and a delightful breeze that rendered the situation pleasant and enjoyable to a superlative degree. There was a large number of ladies present and their beaming faces and gay raiment lent an additional charm to the afternoon's sport. The Seventh Ward Military band was at its best, and between heats kept the air resonant with its inspiring and beautiful strains.

The judges were: James Culbertson of Abilene, Kan.; Colonel L. H. North of Co-Jumbus, and W. H. McCord. Timers: Hon.

A rather amusing feature of this battle of the youngsters was that the three competitors belonged to three prominent members of the association, Gaskel to President Kesterson, Consolator to Secretary Briggs and Phoenau to W. A. Paxton, jr. On the third trial the little fellows were given the word by Starter Swigert and got away on a line, with Consolator holding the pole, Gaskel second and Phoenam on the outside. Consolator pulled away from his comrades in an encouraging way on the first quarter, and Gaskel, making a bad jump up, falling to the rear. Just be fore rounding into the stretch Phoenam started after Consolator, and catching him coming down, passed him handily and crossed the scratch a winner by three lengths, Gaskel managing to beat Consojust two seconds and three-quarters. DUN'S REVIEW OF THE WEEK

Recent Events Have Not Brought the Improvement Looked For.

BUSINESS REMAINS AT A STANDSTILL

Large Imports of Gold and an Increase in National Bank Circulation Tending to Inspire Confidence-Fasts in the Present Situation.

NEW YORK, Aug. 11.-R. G. Dun & Co's weekly review of trade says: The long desired meeting of congress, the president's message and the arrival of \$13,280,000 in gold from Europe, with \$10,000,000 more on the

way, have not brought the improvement anticipated. Yet there is a more hopeful spirit, though the nation looks to Washington with some impatience where the senate seems disposed to rival the mills in working short time.

The machinery of exchange has almost stopped. When \$30 per \$1,000 is paid for New York exchange at Chicago and \$15 to \$25 at other western cities, settlements between the east and west, which ordinarily amount to \$3,200,000,000 in a year, become extremely difficult. The root of the trouble is that, according to the reports of July 12 to the comptroller, over \$131,000,000 of deposits had been withdrawn in two months from a part of the national banks, and probably \$177,000,000 from all, besides unknown sums from savings, state and private banks. and during the month, since July 12, the withdrawal and hoarding must have been relatively even greater.

In the Great Industries.

The arrest of industry goes so far that a third of the iron production ceased in the month of July and the consumption of iron In manufacture diminished 46 per cent from May 1 to July 1. Not even this shrinkage stimulates demand enough to support prices, which remain the lowest on record, and which remain the lowest on reduced the weekly output below 100,000 tons. Copper has declined to $9\frac{1}{24}$ and lead to $3\frac{1}{24}$, with narrow trade. Shoe shops are looking in vain for further orders. At Fall River alone 7,000 spindles stopped on Saturday and the whole number of active spindles in the southern states is said to be less than the number now idle in New England. Even more than lack of orders, want of confidence in the integrity of orders troubles the textile mills, for cancellations multiply. If only confidence in the future could be

restored the monetary troubles might be relieved. But at present want of cash, it is said, accounts for the retarded movement of wheat from farms to western markets, and

exports have not met expectations of late so that prices of grain have somewhat declined. Pork products were sold more largely for export this week, but cotton has yielded is stocks of 380,000 bales here and 1,885,000, American, abroad being too heavy when many of the mills are stopping. Coal is dull and the output is much restricted by the difficulty of getting money for wages. The movement of animals is less affected, cattle receipts at Chicago are fairly maintained and hog packing has been nearly as large as

last year. Railroad Earnings.

Railroad earnings show a decrease of about S per cent compared with those of last year, but the clearing house returns at the principal cities show a decrease in settlements cipal cities show a decrease in settlements of 25 per cent. Appeals to the treasury for some relief are frequent, but its cash bal-ance has been reduced so low that the gold reserve may have to be used in part for current expenses. But \$13,000,000 in bank notes will quickly be added to the circulation through use of the bonds purchased from savings banks, and \$23,000,000 in gold from Europe, in spite of the advance in the Bauk of England's rate to 4 per cent. of England's rate to 4 per cent. This may be contrasted with a falling off in the total value of imports and exports pillow and a comfort, cigars and a box of candy to comfort her young hopeful, who is during the facal year of nearly 4 per cent, explained by the decrease in values of ex-ports, of which wheat, corn and oats formed about 18 years of age.

Glennan, in spite of the financial situation and the uncertainty which attends the outcome of legislation of the silver question. For this result credit must be given in the main to the exaggerated operations of the bear party during the last two months and to the heavy absorption of stocks for investment account which followed the excessive depression in values. The market was oversold by the bears, who permitted the investing public to absorb the fleating supply before they real-ized the danger. The present condition of the market is the outcome of this factor. Apart from this the market has been narrowed professionally in character and very nervous in tone.

Closed Its Doors.

BLOOMINGTON, Ill., Aug. 11.-The Mansfield bank of Mansfield, Ill., closed its doors this morning. The president, W. W. Beaty, made an assignment of all his property to A. J. Sangley, who will close up the business. The suspension is a severe shock to the com-munity, as thousands of dollars were deposited there by merchants of that town and farmers of that vicinity.

WIPED OUT A VERY BAD GANG

Citizens of Alabama Rid the Country of a Crowd of Holy Terrors.

MADE AN END OF THE MEACHAMITES

Five Hundred Armed Men Visit the Haund of the Outlaws and Exterminate All They Could Find-Some of Their Exploits.

JACKSON, Als., Aug. 11.-The counties of Clark, Cherokee, Wilcox and Marengo are greatly excited over the murderous doings of the notorious Meachamites and between 400 and 500 heavily armed men are at Meachambel for the avowed purpose of wiping out every member of the gang.

From a resident of Jackson, who is well acquainted with the operations of the gang, this story was had, "The Meachamites number between thirty-five and fifty men, and the point of operation is Meachambel, six miles from CoTeyville and seventeen miles from Thompsonville. Five years ago when the settlement was founded, these men plied their vocation as farmers. The county is prohibition, but one day last year a sign was displayed in the village that whisky could be obtained on certain nights each week by applying at a certain store. Customers were plentifol. When they en-tered the store they were met by masked men, who dealt them out whisky in such quantities as desired. This violation of the law led to crimes

being committed. The best citizens expressed themselves freely and several were threatened with death if they took any action. Finally John Hare had his barn and house burned and on going into the yard to fight the flames he was shot at. Joseph Anderson was another victim. He was shot down while walking through his field and died instantly His assassin was never arrested, although t was well known who committed the deed. First Lieutenant Tredwell W. Moore, Twenty-second infantry, is, at his own re-quest, relieved from duty at the University of Alabama, Tuscaloosa, to take effect Sep-tember 1, and he will join his company. A few months later a thrifty old man was killed while at work in his mill. At this time the colony was widening and taking in more men. Many joined the gang through fear, to protect themselves. In December last Ernest McCorquodale's death followed. This assassination occurred on Christinas night in the presence of the victim's family, worked up the entire community, and his assassin was finally located. He was 30 is graniced Captain Edwin P. House was shot down while at work in the field near Coffeyville for an alleged assault on a white woman. Two weeks later Sam House, a brother of Willis, was killed in like manner. Subsequent developments showed there was no attempt to out rage the woman, and the affair was a ruse to get a chance to dispose of the House brothers, who were ensuines of the gang. A posse has been searching for the gang for two days. Tooch Bedsoe, one of the Meach-amite gang, was captured tonight after a hard chase. He confessed that the gang committed all the crimes with which were charged. The posse riddled Bedsoe with bullets.

Kirk James was located an hour later and shot to death. Other members of the gang are located in the swamps and the posso proposes to kill them all by tomorrow night. One man named Norris, who was taken today, was in so pitiable a condition that the posse turned him over to the sheriff in-

The second event was a hone;cooler, being the 2:22 pace, purse \$500, with the following entries:

Hastings Boy, b. h., by Abe Downing, A. H. Cramer, Hastings; Smith, b. h., by Peoria, J. W. Page, Beatrice: Ontonian, b. h., by Shade-land Onward, W. H. Bowman, Fullerton: Bastion, b. h., by Tean Wilkes, H. Chamber-lain, Kearney; Cebron, b. h., by Belvoir, Fred A. Young, Colorado Springs; Prince T, r. g., by Climont, A. Thompson, Council Bluffs.

The positions were drawn as follows: Hastings Boy, 1; Cebron, 2; Prince T, 3; Smith, 4; Ontonian, 5; Bastion drawn. While not remarkable for any extra great speed, the first heat was very interesting, the phenomenal Ontonian going the mile at family, Hon. Brad Staughter and party, Superintendent Gray of the New York Life,

an easy jog without a skip, with Hastings Boy struggling gamely at his heels. The heat could not be considered much more "workout" for the great son of Shade land Onward.

The horses went away on the third scoring with Hastings Boy showing the way and Ontonian last. The Boy maintained his position to the quarter, Prince T, who had been going strong, maxing a bad break and falling to the tall end. Ontonian made a little play on the second quarter, easily over-took Hastings Boy and passed him on the stretch. At the half Ontonian was going as he pleased, Chandler looking as cool as an iceberg. Hastings Boy was driven hard by Mallory, yet was unable to push Outonian, and he finished the journey as he begun it, on a beautiful and easy gait. Hastings came in second, two lengths behind the leader, Smith third, Cebron fourth and Prince T the tailender. Time: 2:231

They are off for the second on equal terms with the gallant Ontonian keeping just enough in front of the bunch to make his place safe without question, where he remained to the end of the mile. Hastings Boy also kept his position, second, also to the wire, while it was a race for third place between Cebron and Prince I. Smith having falten back to last place by reason of a jump up. On rounding into the stretch in both the half and the mile, Cebron, who was coming strong and swift, broke badly, and thus ruined his chances for second place. Old Adam Thompson drove Prince T hard, but the old yet wasn't equal to the pace, yet he was awarded third place by Cebron's being relegated to last for running. The finish was full of excitement, as the five horses were well bunched, but in a position as per the summary. Time

Ontonian's Heat and Race.

The third and last heat was another bute, Ontonian running in exactly the manner Contonian rounding in exactly the manner that marked the first two boats, just as easy as the itch. At the quarter Ontonian, Hastings Boy and Cebron were in a line, with Prince T in a cloud of dust a length or two behind, and Dick Tilden with Smith struggling gamely for tail and honors. Dick made a light way often the honor but it way made a slight roar after the heat, but it was hardly called for, as Smith was mischievous all through the race and did the best that was in him, for this race, anyway. Coming down home Cobron beat out Hastings Boy, who, having second money cinched, was not urged. Cebron, however, was placed last for interforence. Time: 2:199/, Summary:

Was a Drifting Match. NEWFORT, R. I., Aug. 11.-The trial race between the yachts Pilgrim, Jubilee, Vigi-

lant and Colonia, to decide which one of them is to defend America's cup against Lord Dunraven's fleet cutter, Valkyris, took place today. It was more of a drifting match

than a race, as there was scarcely a breeze The fog was so dense that nothing definite is known, though it believed the Vigilant passed over the line first. She may not prove the winner, however, when the time allowance is worked out. The course was thirty-eight miles. There were races be-tween sloops and schooners, also.

BRADSTREET'S REVIEW OF TRADE.

Hoarding of Currency Has Restricted Tradhog Everywhere. New York, Aug. 11.—Bradstreet's review

of trade will tomorrow have this story: The irrational, but widespread hoarding of currency has compelled manufacturers in many instances to do business more nearly than ever on a cash basis, which has resulted in a further restriction of trade throughout the country. This was accompinied by such signs of aggravation as the increased difficulty of disposing of commer-cial paper; a still greater scarcity of cur-rency at larger centers and a shutdown imminent among industrial establishments. The gross railroad earnings for July amount to \$41,000,000, a decrease of about 4 per cent as compared with July last year, although the larger proportion of gain in earlier months of the year

B. & M. Train. Pat Woods, a B. & M. section hand, was seriously injured early last evening by a freight train. Woods was walking along on the tracks at the Sixth street crossing. He heard a train coming in on the track he was traversing. He stepped in front of an approaching train on another track, not noticing it. The train was teo close for the trainmen to warn him and the cars struck him. His left arm was so badly crushed that amputation above the elbow may be necessary. His face and head were badly cut and bruised and it is feared that he is internally injured.

The officers of the railway company had him taken to the St. Joseph hospital, where he was given surgical attention and was 10.5 resting easy at midnight.
