## COMMERCIAL AND FINANCIAL Prospects of Delay in Financial Legislation Made Business Dull.

WHEAT OPENED AT THURSDAY'S FIGURES

#### After Rapid Fluctuations that Cereal Closed a Fraction from the Bottom-Corn Quiet and Easy-Stocks and Ronds.

Chicago, Aug. 18 .- The prospect of delay In financial legislation seemed to put the Board of Trade in the dumps to lay. The decline in wheat since last night amounts to 1c, and corn and oats are each 16c lower. Provisions lost from 30c to 40c in pork, 10c to 121ge in lard and from 15c to 271ge in ribs.

Wheat at the opening was about the same as yesterday's close, eased off 1, c, then ruled firm and prices were advanced 14c, became weak, and this time declined 14c for September and 1%c for December, then ruled steady for some time, became firmer and the closing was life from the bottom. An early report made the clearances from Baltimore 850,000 bu., which made a little temporary strength, but later advices cast doubt on the authenticity of this report and the result was to weaken prices. A statement wired from Washington was that the last national bank statement showed a decrease of \$193 .-000,000 in deposits and \$197,000,000 in loans.

Trade was light. Most of the business was in the way of changing September into December. Cables were of an unfavorable tenor and helped to depress values, but the chief cause for the weakness was the lack of There was rather more disposition to sell than buy. It was reported that Gormany was sending money here to carry wheat, and it was also rumored that \$4,000. 000 more gold had been withdrawn from the Bank of England for this country. Wheat does not appear to move out of Chi cago as it should, and there is some talk of the bulk of it staying here all winter.

the bulk of it staying here all winter. Corn was quiet and easy on more rain in the interior and the weakness in wheat. The offerings, while not very liberal or urgent, exceeded the demand. The close

was steady at inside prices. In oats a little more pressure to sell was blserved, and prices receded 3ge, the mar-ket closing weak at about the inside.

The provisions market weakened under the receipts of 30,000 hors. Pork and lard closed at the lowest point of the day's range, but September ribs recovered 10c from bot tom prices. Armour and the American Pack-Ing company bid up ribs toward the close. Estimated receipts for tomorrow: Wheat, 80 cars; corn, 360 cars; oats, 235 cars; hogs,

of town demands which render so uncer-tain the condition of the clearing house bank reserve. Nobody except, perhaps, in the case of savings banks, bids a premium for gold unless he foresees the certainty of re-imbursing himself. At ruling rates for time consect of the back is sudd out by hear for loans of all kinds, it would not be hard for owners of gold to find such profit, and it is possible that our banks are using their own gold for purchases privately for the accom-modation of local borrowers. This has been openly done with Chicago's direct gold im-ports. And it was openly done here last week with part of the gold shipped against the deposit abroad of our own securities. But the question nevertheless remains whether the out-of-town demands on our city

movement is establishing credits here for interior institutions, and that these directly or indirectly, are certain to be drawn upop.

heavy hogs could be bought any time after 9 o'clock at from \$5 10 to \$5.15, and the choicest of the light weights fell to from \$5.75 to \$5.80. This is a decline from Wednesday's quotations of 45c in light and 50c in heavy weights.
