

COMMERCIAL AND FINANCIAL

Short Sellers Attempted to Raid this Wheat Market.

CORN WAS VERY FIRM AND CLOSED HIGHER

Provisions Closed with Moderate Reaction from Monday's Last Quotations—Wheat Opened Slightly Higher but Was Not Firm.

CHICAGO, Aug. 29.—During the general protraction of wires today chronic short sellers sought the chance to raid the wheat market, Partridge leading. Wheat recovered 1/2c of the loss caused by the attack, but was firm, with no convincing evidence of a decline for December than on the day before as the market closed. Corn was very firm and gained 1/4c. Provisions closed with considerable reductions from yesterday's resting prices.

Wheat at the opening was about 1/2c to 1/4c higher than the closing figures yesterday, but the market was weak and prices declined 1/2c for September and 1/4c for December, then became stronger, advancing 1/4c for the former and 1/2c for the latter future, eased off some, and closed about 1/4c lower for September and 1/2c lower for December than the closing figures yesterday.

The opening, which was strong, could perhaps not be called firm, for the offerings were large, many parties feeling disposed to realize and take profits on the purchases they had made yesterday at the lower prices. Cables were not so convincing as they might have been.

The good cash demand and the smaller arrivals for tomorrow, together with the lower temperatures on the weather map, appeared to be the principal factors in stimulating corn. Opening trades were not slight advances, and after selling off from 1/2c to 1/4c, showing the market was well rallied, advanced from 1/2c to 1/4c, reacted fully 1/2c, went steady, and the close gained 1/4c to 1/2c.

There was a fair trade in oats and an irregular feeling, prices fluctuating within 1/4c range, and closing at about the same as yesterday to a slight advance. There were no special features.

Provisions were easier on receipts of hogs. Trade was quiet with few differences in the intervals between trades. Hog receipts here were 22,000; at Omaha 9,000, and Kansas City 15,000. Estimates for tomorrow's receipts here are 22,000 to 25,000.

Estimated receipts for tomorrow: Wheat, 60 cars; corn, 300 cars; oats, 100 cars; hogs, 10,000 head.

Table with columns: Article, Open, High, Low, Close. Rows include Wheat, Corn, Oats, Hogs, etc.

On the Produce exchange today the latter market was quiet with few differences in the intervals between trades.

OMAHA PRODUCE MARKET. The receipts of butter good enough for the city to retail were very light, heavy creamery, 140,000 lbs. Fair to good country butter, 140,000 lbs.
