Suits Likely to Be Filed Against the State of Nebraska.

RESULT OF THE GARNEAU-MOORE FIGHT

Chicago Furniture Dealers Want Their Money for Material Furnished the Nebraska Building at the World's Fair-Lincoln Affairs.

LINCOLN, Aug. 30.-[Special to THE BEE.]-Commissioner General Garneau came over to Lincoln this morning and had a long audience with Governor Crounse this afternoon. With him was Edwin D. Weary, an agent of the Chicago firm of Henry Dibbiee & Co., which furnished the Nebraska building at the World's fair to the extent of nearly \$7,000. Of this amount Commissioner Garneau has heretofore paid some \$3,900, and a voucher for the remaining \$3,228 was recently held up by Auditor Moore, who is not satisfied that the itemized charges therein are not exombitant. He held them for further information. Mr. Weary was here today demanding payment and threatened to resort to the courts to compel it. No conclusion was reached in the interview between the auditor and the visitor. auditor and the visitor.

Council Clatter.

The viaduct contractors are growing impatient, and at last night's meeting of the council submitted a communication re-questing that the city find out when they are going to be able to resume work. They set forth that all the profits of the work are being eaten up by the cost of maintaining watchmen and repairing their property. That teamsters and others apparently take delight in jamming up against their timber while the city itself is in the habit of tak ing whatever dirt it wants. The matter was referred to the viaduct committee and a copy ordered sent to the railroads. Councilman O'Shee reported that he had received word from the Union Pacific railroad that a definite answer on the question of whether it would pay its share of the abutting damages would be given Monday.

Several ladies were present and addressed the council on the question of securing money to provide for a police levy. Another taxpayer came forward with a demand for more money for fire purposes, so that they could get a hook and ladder truck, while a member of the library board insisted that it would have to shut up unless they could have more money. Councilman Woods succeeded in getting 2 more mil's added to the water department and an equal amount to fire. This makes the total levy 30% mills, aside from the school levy of 9 milis, which makes it the largest in the history of the city. This is explained on the ground that while the expenses of the city have been increasing year by year, the assessed valua-tion is returned at about the same figures, and this year was less than the previous one. Considerable debate ensued on the matter of allowing a balance of a claim for the Gaynor fire alarm system to be incorporated in the judgment fund levy, and after adopting it once the council reconsidered it twice, and finally refused to do so.

Woods introduced a resolution directing the appointment of a committee to confer with the viaduct contractors to arrange terms for the cancellation of the contract as at present, so that the work may be begun under the Oakiey law, but it was lost.

Irving A. Benton is a man with a peculiar grievance. Some two months ago he pur-chased a barber shop from C. T. Neville, paying \$1.575 for the shop, tools and the good-will, and in selling it Benton claims Neville agreed that he would not engage in the business again in this city, neither would he work for any one else here. A few weeks ago, however, Neville and Mr-Mahon started another shop within a half block of the old shop, and now comes Benton into court and claims that such is the personal magnetism of Neville that his cus-tomers follow him to this new place, and leave Mr. Benton sad and lonely. He therefore asks, in view of the fact that Neville has violated his agreement, for an order restraining Neville from managing or operat-ing any shop and to prevent him from working at his trade from this time henceforth in

City in Brief.

The citizens of North Lincoln believe they have a grizvance of goodly proportions against the Board of Education, and have called a meeting to be held at McMurray's store room temorrow evening for the purpose of taking some action thereon. They have been passed over in the matter of new buildings and their petition for the retention of their old principal ignored. Harry Sullivan, the youthful house

ADAMS COUNTY PICNIC. Eighteen Hundred Sunday School Children

in Line at Hastings. Hastings, Aug. 30 .- [Special Telegram to THE BEE]-What was probably the largest Sunday school picnic in the history of the state was held in Hastings today. The rally had long been planned and the compiete success of the celebration shows that the arrangements were well made. Almost without exception every school in the county without exception every school in the county took part. At 11 o'clock a large parade passed through the city to Cole's park, nearly 1,800 scholars and officials being in line. About 300 were on foot and the remainder on horseback and ingayly decorated wagons, omnibuses and carriages. Some of the floats evidenced a great deal of taste. One from Prosser was completely covered with sunflowers and contained pletely covered with sunflowers and contained sixty children. Biaine Center, Rosedale and Hansen also had fine decorations. At the park, after an old-fashioned basket dinner, a lengthy program was rendered, participated in by nearly all the schools. The banner awarded for the Hastings school having the largest percentage of its scholars in line was given to the United Brethren, who mus-tered seventy-nine out of a total of eighty. For the similar banner given to the country schools Bethel Union and Rosedaie tied with an even 100 per cent in line. Another banner will, therefore, be made.

TO ACT INDEPENDENTLY.

Colorado Republicans Talking of Starting Party of Their Own.

DENVER, Aug. 80. - The talk of independent political action continues to be very general rmong leading republicans, and has led to a call being made for a mass meeting to be held here September 16 for the purpose of preliminary organization. Among the gentlemen identified with the proposed new party, and one of the most active workers in its behalf, is J. Cook, jr., a prominent mining and real estate man. Accompanying the call is a platform suggested for consideration, which was framed by Mr. Cook. Among the principles embodied in it is the free coinge of silver at a ratio of 16 to 1, the giving to jaboring near an icanitalists reagiving to laboring men and capitalists reaanable rights and the correction of wrongs

by a vote of the people.

The platform continues that lawyers or agents should not be elected to public office, as they are generally influenced by corporations. ations. It is opnosed to the purchase or use of foreign goods of any description, excepting actual necessities. Government ownership of railroads, etc., is denounced. It opposes the nomination of men because of nationality, sect or membership in societies. Professional politicians are warned that they are not desired at primaries.

The names of either "Colorado" or "Silver" is suggested as most applicable to the new party. Recruits from the democratic repubhean and populist parties will be welcomed, but they must throw their old principles overboard and accept those of the proposed ow organization.

Mr. Cook is a conservative man and gained

some notoriety during the recent silver con-vention by deprecating the remarks of Gov-ernor Waite, when he made his famous speech of "Blood to the Bridles." For 40 years Cook's Imperial Champagne

(Extra Dry) has been on the market. Once used never discarded.

Life at Camp Logan Enjoyed by the Veterans and the Visitors.

From 15,000 to 20,000 People, it is Estimated, Throng the Grounds-Yesterday's Program of Exercises Some of Yesterday's Features.

CAMP LOGAN, GRAND ISLAND, Aug. 30. Special to THE BEE. |- The third day of life in camp has been most successful and enjoyable. The number of people here today is estimated from 15,000 to 20,000, and they are constantly streaming in. This may be attributed to the excellent entertainment provided and the perfect weather for camp life that the weather man is providing. The sun is shedding its brightest rays, the temperature is delightful, with a cool southern breeze floating over the camp.

Although 200 more tents are provided than last year, yet they are all occupied, and not a vacant one is to be had. The people are coming in droves, on steam cars and by wagon. Last night wagon load after wagon load of veterans, with their families, came into camp and were assigned quarters. The committee has found it necessary to double up in many instances, and in this way the visltors are being taken care of. All day long the camp has held a sea of humanity, and the estimate is that there are many more here today than on the corresponding third days of previous gatherings.

Drew the Line on Politics.

The only unpleasant occurrence was at the camp fire at a late hour last night. A gentle-man who formerly hailed from Missouri and is now connected with a jag establishment at Kearney, wanted to make a speech and he was given the privilege. He warmed up to his task and then undertook to give the vet-orans a hypodomic intesting of manicipal his task and then undertook to give the vetcrans a hypodermic injection of beople's
partyism and Weaverism. It didn't go, and
in less time than he could wink
he was shut off. His allusion
to General Weaver as the grand old
man, did not evoke applause, but aroused
the veteran wrath. Commander Church had
just stepped on the platform and he announced that politics were not to be discussed. The only question in that line to be
considered is pensions and he thought it per-

cussed. The only question in that line to be considered is pensions and he thought it perfectly proper that the veterans should be permitted to air their views on that subject. The commander's little speech had the de-sired effect and cooled the blood of those

who were in an angry mood.

The registration of the veterans at the various headquarters continues and by night will be fully up to that of last year, if not somewhat increased. Tomorrow morning at 9:30 o'clock the state associations will hold their annual meetings, at which will occur the election of officers.

Work for the National Guards.

The National guards are now settled in camp and are partaking of field life. Colonel Bills is giving the boys plenty to do in the way of brushing up on tactics. This morning guard mount was the feature.

Tomorrow will be the big day in point of numbers in attendance. The program for tomorrow is also interesting. Governor Crounse is expected to be present and ad-dress the campfire, as is also Chancellor Canfield of the Nebraska university and General Dilworth. General Dilworth.
At 11 o'clock will occur the competitive

drill by the National guards, the winning company to receive a fine flag; at 2 o'clock the balloon ascension; at 3, the band contest; at 4, competitive drill of Sons of Veterans; at 7:30, fire department parade in city, followed by sham fire, alarm and run to the fire; 8, the campfire. At 7 o'clock occurred the parade of the

guards, Sons of Veterans and veterans. It was several blocks in length and one of the best ever witnessed at a Nebraska encampment. The column moved from the grounds to the central portion of the city, and then disbanded. Commander Church and staff and Mayor Geddes reviewed the column. This was followed in the city by a grand display of frequency. display of fireworks.

Didn't Talk Politics.

The evening camp fire was presided over by Major Clarkson, who came in during the day. He introduced Mrs. Mary C. Harris, president of the Nebraska Women's Relief corps, who presented, on behalf of the organization, to W. J. Bronson a handsome slik flag. The flag was a token of appreciation of valuable services rendered the corps by the young man, who belongs to the Sons of Veterans. He responded in a lengthy Rev. J. G. Tate was the next speaker.

He evoked a vast amount of enthusiasm. He said that while he was warned not to talk politics, yet so much had been said talk politics, yet so much had been said about a certain person going fishing that he could not refrain from calling the attention of the veterans to the fact that such was necessary on the part of the fisherman, "for," said the speaker, "we know that the reason he goes fishing is because he needs brain food, and if we needed it as badly as he we would go fishing too."

Rev. Mr. Tate was followed in short talks sured, and the companies which were carry-by Mrs. Buella C. Davis of Lincoln, president ing the risk will institute an investigation.

SERIOUS TROUBLE LIKELY TO ENSUE

Recent Reports from There Indicate that Bloodshed is Likely to Follow the Opening Rush for Choice Locations-Cherokee Allotments.

ARRANSAS CITY, Kan., Aug. 30.-There is ikely to be trouble over the Cherokee allotments after the Strip opens. When the alotments were made the Cherokees picked them near projected county seats. The location of county seats was then changed by the department to circumvent them. The proclamation states that the allotments shall be made only on lands on which permanent improvements have been made, with the exception of Chief Bushyhead, who was permitted to pick his allotment where he chose. The allotments already amount to over seventy and there are still other claimants who will have to go into court to settle their rights. The allotments have not been made on lands on which there are perma-nent improvements, and as they will interfere seriously with a number of townsite schemes, they will be contested. The state of affairs on the Strip in reference to allotments, registering and sooners is in bad shape and is going to cause no end of trouble in the land offices after the Strip is opened.

Schemes of the Sooners. The sooner question is very serious. A cattleman who rode through the Strip yescattleman who rode through the Strip yesterday from Oklahoma says there are thousands of sooners all along the eastern border. He saw hundreds of them who did not try to hide and he saw their hiding places out on the open prairie. They have gopher holes on many of the townsites. These are holes covered with boards, over which sods are nailed, and finished with a breathing hole. The draws and woods are full of them. He states that the cavalry would not be able to discover them. There is a body of men organized here who have exhausted their rights to enter and lands, who openly declare that they will enter the who openly declare that they will enter the Strip, locate and demand relinquishment money from the contending settlers. The somer question is more serious than at the Oklahoma opening, and as the honest settlers are very determined to have their rights bloodshed is sure to ensue.

Kitted Walle Training. Last evening a party of young men were training their horses on the Arkansas river road when a large horse ridden by a young man from Indiana by the name of Morgan collided with another horse. He was thrown down, and six other horses and riders com-

Two horses in the lot had broken legs and were shot, There will only be four postoffices on the Strip at the time of opening, one at each of the land offices, but others at county seats and new towns will be needed immediately and will have to be established, as in most of the towns business will commence fifteen minutes after settlement.

KICKAPOO INDIAN SAGWA

Why it is The Safest Liver and Stomach Remedy Known.

Indians Have No Knowledge of Mineral Drugs and Poisons-They Cure With Roots and Herbs of the Field and Forest.

Kickapoo Indian Sagwa is a remedy that many claim will almost raise the

this is the fact Kickapoo Indian Woman that Indian known to be at least 108 years Sagwa cannot old-from her photograph. possibly contain ___possibly contain anything harmful, no mercury, no strychnine, no bismuth, noarsenic; nothing but the leaves, barks, berries and roots of the field and forest which the Indian has learned to use.

Indians know nothing of those harmful drugs, and could not use them if they would.

This fact is important. The medicine you take into your system should be to strengthen and build it up, not merely to stimulate it, and add the fuel of poison to the consuming flames of

disease. Indians don't have Dyspepsia, yet they eat anything and everything, at all times and under all conditions.

Indians don't have Malaria, yet they sleep out of doors, exposed to night air, live in damp places, and frequent changes are quite common to their mode of life. Yet both these ailments and many others that the red men never have are frequent-

ly found among white people.

How is it with the Indian? Knowing the value of Kickapoo Indian Sagwa he keeps it constantly with him and when his system feels run down, needs toning up as we say, the Indian akes a few doses of Bagwa. He keeps well!

He don't wait until danger overtakes

him, but craftily watches for its approach and wards off the attack. Here is a lesson to profit by. Kickapoo Indian Sagwa, made by the Indians from roots, barks and herbs of their own gathering and curing, is obtainable

f any druggist, at one dollar per bottle; six bot tles for five dollars. All the Kickapoo Remedies are Sold by Druggists Everywhere.
