Wheat Buled Two Cents a Bushel in One Hour Yesterday.

CONSIDERABLE BUSINESS IN CORN

Heavy Buying Was Led by a Shipping Concern, Followed Closely by the Leading Elevator Interests—Stocks and Bonds.

Chicago, Aug. 31.—Wheat bulged a bit in just one hour today. The market closed firm at the top price. Ordinarily on the eve of delivery day, with 10,000,000 bu. of wheat in store, some related prices might be expected to be pressing September wheat for sale to avoid having it delivered to them on the following morning. The reverse happened to the case. Elevator men everywhere sought their chance of securing the carrying of the wheat in their houses, waiting for heavier carrying charges, and their competition to get it today first at 6c spread and, falling in that, at 5 1/2c, brought about the liveliest rally which has been seen in Chicago since last May.

There was an actual famine of September and December wheat, and the starring shorts fought for it like tigers until the bell announced that the day's business was at an end. Until noon the market was decidedly dull. The opening was 1/4c higher. Fluctuations up to midday were confined to a range of 1/4c to 1/2c. Then there was a slight clearing from New York and Chicago. Bidders were made known, and then a report of earnest through the bodies of shorts and they began to grasp for the limited offerings which came out.

Corn got some help from the advance in wheat and closed at 1/2c advance. Considerable business was transacted in the way of changing and receiving and shippers all were buying the near futures. The market was led by a large shipping concern, followed closely by one of the leading elevator interests taking September and October and receipts were again larger than looked for.

Estimated receipts for tomorrow: Wheat, 118 cars; corn, 615 cars; oats, 360 cars; hogs, 20,000 head.

Table with columns: Articles, Open, High, Low, Close. Rows include Wheat, Corn, Oats, Hogs, etc.

On the Produce exchange today the butter market was dull; dairy 17 1/2c; creamery, 19 1/2c. Eggs, 16c; fresh, 14c.

ALTEGELD ON ANARCHISTS. Unbounded Confidence Expressed in the Probability of Continued Good Order.

HE TRIES TO REASSURE THE TIMOROUS. The Governor Asserts that All the Talk About Renewed Activity Among the Chicago Reds is Nonsense.

SPRINGFIELD, Ill., Aug. 31.—Governor Altgeld was interviewed concerning the alleged revival of anarchy in Chicago.

"Some of the newspapers have been talking about renewed activity among alleged anarchists in Chicago and the public would probably like to hear what you have to say on the subject," he was asked.

"All talk of that kind is a malicious libel upon Chicago and the fair fame of our state, and it is that kind of irresponsible talk in the past that has done incalculable injury to our good name, and it should be stopped, not only by individuals, but by the newspapers that have been indulging in it."

"Why do you say that?" "Because the man who was chief of police at the time the so-called anarchist agitation was at its height some years ago, the man who was one of the most honest and able chiefs of police the city ever had, has not only stated that he investigated the whole matter carefully and watched the so-called anarchists, and that he came to the conclusion that there was not much in the whole anarchist talk, but he further stated that there were prominent police officials who wanted to have brains anaesthetized in order to get the credit of discovering them, and then wanted to keep the conservative public in a state of alarm in order that they might devote personal advantage out of it in the way of achieving glory and promotion."

"Since that time," continued the governor, "the same tactics have been repeated by so-called detected police officials who wanted to have brains anaesthetized in order to get the credit of discovering them, and then wanted to keep the conservative public in a state of alarm in order that they might devote personal advantage out of it in the way of achieving glory and promotion."
