RACING RESULTS. Sport at Washington Park Proves Exciting

in Every Aspect. WASHINGTON PARK, CHICAGO, Sept. 8. [Special Telegram to THE BEE.]-The attendance today was close to 12,000, the largest of the meeting. The races were more interesting than any day this week at least to the admirer of sidewheelers, for there were two pacing races on the program. In the first event, the sidewheel stake for foals of 1892, Signi Chi, trained by Charlie Doble, looked like a winner for the first heat, but he was only dangerous for a moment, the good colt Whirligig settling the race each heat after entering the home

The 2:19 trot was a straight heat affair for Miss Lida and an easy victory, too, though Parole, Hilbedburn and Prince Herschel showed lots of speed to the threequarters.
The 2:28 class trot was a race every heat,

and was only won by Jackson I. Case's mare after a hard contest. Brazil, by Journalist, a St. Joseph, Mo., horse, driven by M. E. McHenry, won the first heat, and did it so gracefully that he was a red-hot favorite for the next heat, but Star Princeps beat him in a grand finish. In the next heat Diamond Joe and Jennie K left the rest and raced home, the latter winning by a short neck in 2:1714. Jennie K won the two final heats, but had to fight every foot of the way

The race that created the most enthusiasm so far during the moeting was the 2:15 pacing stake. Coastman and Two-Strike were the favorites in the betting. Atlantic King surprised the talent, however, by winning the first heat and reducing his record to 2:11. Wilkie Knox won the next heat, reducing his record from 2:174 to 2:1014. The next two heats went to Coastman in 2:10% and 2:13%. Two Strike, W. A. Paxton's pacer, was not at his best, and did not

Robbie P Wins at Mason City.

MASON CITY, Is., Sept. 8.—[Special Telegram to THE BEE.]—This was the banner day at the races. Fully 5,000 people gathered at the Turf club's great mile course from all over the west, in anticipation of great racing in the 2:28 class for \$2,000, and in the 2:10 trotting for \$1,000, where Robbie P, Jessie McCorkle, Ira Gaines and Senator A would come together, and the afternoon brought forth no disappointments to the admirers of high class races. Another feature mirers of high class races. Another feature on the card was the 2:45 pace for 3-year-olds, purse \$1,000, in which the great Steinway colt, Free Coinage was entered, and a mighty shout went up when he won the first heat, distancing the whole field in 2:14%, and had it not been for the breaking of a and had it not been for the breaking of a strap and loosing a bolt in the last quarter he would have beaten the 3-year-old world's race record of 2:1234. Forty minutes later the great colt came out accompanied by a runner to go against his record of 2:1344, going to the half in 1:04, to the three-quarters in 1:3614, but unfortunately he made a break in the last quarter, or the world's 3-year-old record would have been world's 3-year-old record would have been set at 2:10 or better. The 2:19 trot was the race of the meeting and the greatest trot-ling race that tas taken place in the west this year. It was marked by two and three abrenst drives, neck and neck finishes and extreme fast average time, but Robbie P. the great Nebraska racing stallion owned b Pyle & Briegs, with Mr. Pyle as driver, was the horse at the finish, winning the three last heats in driving finishes by neck or head each time, in the third heat capturing the Nebraska treating record for stallions. The

2:28 was contested hard every inch of the road between the great race horses Courier and Manawa, and in fact they all finished in a bunch each time. The special pacing was quite an easy thing for the 3-year-old Texas colt, George Campbell, the stable companion of the great 2-year-old Lena Hill, 2:1734. It was a two-in-three event, and he was pushed only part of the route by Flast in 2:1734 and 2:17. Summaries:

After the Big Fight NEW ORLEANS, Sept. 8.—The Olympic club, though its officers have not made any direct move in that direction as yet, intends to make a bid for the Corbett-Mitchell fight. The directory will not go above \$25,000, being guided by the disastrous outcome attendant upon the offe of the Crescent City Athletic club in givin, a \$40,000 purse for the Hall-Fitzsimmons fight. MAWHOR A FREE MAN AGAIN

At Eight O'Clock Yesterday Morning the Jury Declared Him Innocent.

AVOCA CITIZENS DENOUNCE THE VERDICT

He Was Accused of Poisoning His Fifth Wife and Will Be Lynched if He Returns to Riverton-Kansas Charge May Not Be Pressed.

Avoca, Ia., Sept. 8 .- | Special Telegram to THE BEE. |-William Mawhor, sr., of Riverton is again a free man. Not many weeks ago, when it was learned that 1,227 grains of strychnine had been discovered in the stomach of his fifth wife, who had recently died under suspicious circumstances, and to this being added the knowledge that three of his four previous wives had died suddenly and with mysterious circumstances attending their decease, Mawnor was loosed upon by the people of this and neighboring cities as a veritable Bluebeard.

Great interest has been manifested in the trial, which has been in progress here for several weeks, the general opinion being right up to the last that the prisoner was in some way or other responsible for his wife's sudden demise. The defense was able to produce evidence which undoubtedly tended to throw doubts into the case. The produc-tion of a piece of paper declared to be in Mrs. Mawhor's handwriting, expressing the hope that this, her "third attempt at sui-cide would be successful," was taken by some as very much in the prisoner's favor. But, notwithstanding all that the defense had done, it was evident from the demeanor of the crowds in the court house when the jury was charged yesterday evening and again when the jury returned with the verdict at 8 o'clock this morning that the vast majority of those who had followed the trial most closely and had been living within a short distance of where the evidence was taken had not been shaken in their first con viction that Mawhor was guilty, as charged. During the day the members of the jury have been trying to explain their reasons for acquittal, but the citizens, some of whom were backward before about expressing an opinion, are now almost unanimous in denouncing the verdict. It is not known yet whether or not the

Kansas charge against Mawhor will be pressed. Mawhor, in any case, will not return to Riverton, for fear of being lynched. He intends to go to Kansas to reside with his children. Having paid the premiums on a policy of \$3,000 on his wife's life, Mr. Mawhor will bring suit to collect the same. W. E. Mitchell will sue the insurance company for a \$2,000 policy on behalf of the children of

On Trial for the Diamond Robbery. LOGAN, Ia., Sept. 8 .- | Special to THE BEE. | Concerning a dispatch from this city published in this morning's BEE, stating that "the prosecuting attorney had Robert Fleming subpænaed before the grand jurfor the purpose of indicting Frank Bruce for stealing the \$25,000 package of diamonds and assaulting Pollock," H. H. Roadifer, the attorney referred to, declares the statement to be wholly incorrect. He regards it as an effort on the part of Shercliff's friends to turn public sympathy in Shercliff's favor. Shercliff's trial has been set for next Mor

day. Mr. Roadifer further states that a subpoena was issued for Robert Fleming at the same time the other witnesses were summoned to appear before the grand jury, and that Fleming could not be found at that time. He was subsequently called to testify n regard to Shercliff and not concerning Bruce at all.

SHIELDING KID M'COY.

Burglar Frank Bruce Willing to Take His Pal's Blame.

A telegram from Terre Haute, Ind, last night states that Frank Bruce, who is under arrest there for burglary, is also wanted at Indianapolis for grand larceny, at Leavenworth for a silk rob-bery, and at Louisville, Ky., and Springfield, Mo., for burglary. He is also wanted in Omaha for burglary and jail breaking.

Bruce was one of the members of the notorious Siye and Dink Wilson gang and was a cool, dangerous crook who hesitated at nothing. He is the fellow who stole \$5,000 worth of diamonds from Jonasen's jewelry store in this city and who once effected his escape from the city jail by squeezing through the gratings covering an opening in the side-

As was printed in The Bre some time ago, a friend of the prisoner, named Hooker, was in Omaha trying to get witnesses to go to

The Pinkertons and city detectives shadowed Hooker and his little game was ex-Shortly after this Bruce was arrested, and at once a series of misleading press dis-patches were sent out from Logan and Terre Haute attempting to draw the attention of

the public and police to Bruce in order that McCoy might escape or get off easy. The object had not the Jesired effect, and it is not known what the next move will be, but officers are watching all these men and are on to their game.

Bruce is wanted in so many places that he

is sure of a long term in the penitentiary, and it might be that he could be induced by McCoy's friends to swear that he is the man who robbed Pollock. Such a move would not add many more years to his imprisonment and he would be well for it. However, McCoy has for it. However, McCoy has been identified by Pollock, the trainmen, and several passengers who witnessed the robbery, so that his sleek little game to prove an alibi will hardly be successful.

The members of the gang are nearly all in prison, but those who are yet at liberty seem to have considerable money and are untiring in their efforts to secure the releas of their pal and comrade, who is now i

ADDRESSED TO VETERANS.

Comrade O. R. Louch's Words Should Be Read by Every Citizen.

INDIANAPOLIS, Sept. 8.—The annual ] It has cured or checked my rheumatism. encumpment of the Grand Army of the Republic that closes today, has been singularly interesting and instructive. But if one thing more than another has been talked of among the comrades wo have met here after long separations, it is the appearance of health and strength of many of the boys who still carry the marks of wounds received in the service.

CHARLES R. LOUCH.

Among the brave men who served from Minnesota and who still live, none was braver than Comrade Charles R. Louch, recently an inmate of the great national soldier's home at Dayton, Onio. "I served for three years," narrates Mr. Louch, "in Co. B, 8th Regt., Minn. Vols. I participated in the two campaigns against the Sioux Indians, 1863-4; served in Tennessee during Hood's advance on Nashville in the fall of 1864 was wounded near that city, Dec. 3, 1864,

Schofield commanding; was taken prisoner, block house No. 8, C. & M. R. R., on same date. "I contracted a chronic illness from exposure during confinement. My suffering was intense for over twenty years and interfered materially with my worldly advancement. The first real relief that I have experienced in all these years was from Paine's celery com-

pound. The following statement from Comrade Louch tells the story: "Not being a physician, it would be impossible for me to give a correct diagnosis of my condition before taking Paine's celery compound. I can judge only by my feelings of relief, in increase my skin, and from other things plainty

apparent, that the celery compound has

een of the utmost value to me. "It has relieved me almost entirely of painful sensations. In unfavorable weather I occasionally feel a slight twinge, so slight as to be barely perceptible, that is all, merely a reminder My digestion has greatly improved; the painful oppression or choking sensation experienced if I happened to turn on my left side while sleeping, has disappeared.

and I can walk and move about without difficulty. I really enjoy my tood, a condition of affairs unknown to me for years.

"When first admitted to the Leavenworth Branch in 1889 I had no hopes of esing the grass grow or the flowers cloom again, but I used five bottles of Paines celery compound and received more benefit than I had ever expected.

"I know that it is a remedy for chronic rheumatism, lumbago, iudigestion, and especially valuable in nervous diseases, and in that indescrib ble jumping and thumping of the heart, which makes a fellow believe his time has come.

"I would say to my comrades who are suffering from diseases contracted in the line of duty, that Paine's celery compound is the right medicine for it will relieve, perhaps cure them if not too far gone. It is worthy of a fair

"Try it in your families. Your children born since the war have inherited nervous diseases from you which were contracted in the smoking battle and the exhausting marches, which, if forgotten in the lapse of years, leane their traces in the system, and are a plague to the comfort and ease of old age. It is your plain duty to eliminate this taint rom their systems.

"The tremendous strain and waste of nervous force that a soldier experiences in an active campaign tells against him on the approach of old age. It must be guarded against; the system must be fortified and strengthened by some potent remedy. Many of us unhappily resort to stimulants. It is much better and wiser to take Paine's celery compound, which builds up the body, tones the nerves, and purifies the blood.
"If what is written here is tedious and

prosy, it is written for a good purpose, and from the depths of a thankful heart, striving to find adequate expression. Says Comrade J. J. Miller, of the same home: "Paine's celery compound is the only

medicine that ever did me any good. and I can cheerfully recommend it to any one suffering from kidney or bladder trouble." J. A. Crowser, Co. A, 2d Va. Cavalry. also of the home at Dayton, has used six bottles of Paine's celery compound and

highly recommends it for indigestion and heart trouble. Paine's celery compound has made many veterans well at Dayton. Comrade Edward Schott, late first sergeant, Co. C. 32d Indiana, writes

from Dayton: "I have been suffering from chronic in physical strength, improvement in nervous force, healthful appearance of say, since I became a member of the Home. I tried different remedies to get rid of it, but without success. I was recommended by a member of the Home to try Paine's celery compound; I tried a bottle in regular doses before meals, and I found my system was un-dergoing a change for the better. A

omrade has provided me with a second ottle. Paine's celery compound never fails to give relief to the sick. It makes peo-
