Soaring Prices Were the Rule Yesterday on the Board of Trade.

ADVANCES WERE WELL MAINTAINED

Wheat at the Opening Was a Fraction Higher than Saturday's Close and Final Quotations Were at Top Figures.

CHICAGO, Sept. 11.—Soaring prices were the rule today on the Board of Trade. The government crop report did it. The advance was well maintained to the close. The final quotations, compared with Saturday's, show a gain of 1⅛c for wheat, 1⅝c for corn and 1c for oats, while pork is up 55c, lard 17½c and ribs 22½c.

Wheat at the opening was from ⅝c to 1c higher than Saturday's close, and with slight fluctuations advanced 1⅝c more, then eased off ⅜c, held quite steady and the closing was about from 1⅛c to 1⅝c higher than the close, which was firm within from ⅛c to ¼c of the top figures. The government crop report gave the combined condition of winter and spring wheat as harvested as low as 74 per cent. This was quickly figured to mean a loss of 12,000,000 bu from the August estimate. The Liverpool cable was firm and indicated a very light output from all American ports. In addition to all this, it soon developed that the visible supply was going to show another decrease, instead of an increase of 2,450,000 bu, a year ago. There was free realizing on the bulge.

Corn was active, excited and considerably unsettled. The opening was from ⅜c to ⅝c above the final figures of Saturday, the bulge being due to government report, but the price soon eased back from ⅛c to ⅜c, when the market again rallied, selling up a full cent for May and from 1¼c to 1⅜c for the near futures, receded ⅝c, advanced ⅞c and closed with from ¾c to 1⅛c gain. The report made the condition 76.7 per cent, against 84 per cent last month. There were good rains in the lower Ohio and Mississippi valleys and through the south, and lones apparently were rather disposed to realize on the prospect of the drouth in Illinois and Indiana being at last broken. J. C. Schwartz, said to be largest short, was credited with increasing his line some notwithstanding the advance.

Oats advanced from ⅛c to 1¼c and closed about the top. There was liberal realization on the bulge and considerable changing from October to May. The government report indicated a much smaller crop than last year.

Provisions continued dull. The firmness exhibited was in sympathy with the advance in corn.

Freights were steady with a fair demand at ½c on wheat and at from 1⅜ to 1½c on corn to Buffalo.

Estimated receipts for tomorrow: Wheat, 250 cars; corn, 1,100 cars; oats, 480 cars; hogs, 23,000 head.

Spot Rio, firm; No. 7, $17.25. Sales, 1,250 bags of Rio to be shipped at $17.25.

Omaha Produce Market.

BUTTER—The receipts of butter continue very light. The local retail trade is depending very largely upon creamery butter to supply the demand; fancy creamery, 20@22c; choice to fancy country, 16@18c; fair to good country, 12@15c; packing stock, fresh, 12@13c.

LIVE POULTRY—The dropping off in the receipts of chickens and old fowls last week enabled the market to recover some of its strength on Saturday and prices were quotable a little higher. The present week opens with the market very lightly supplied, and there ought to be an improvement in prices; spring chickens, 7½c; old hens, 7@7¼c; ducks, 7@8c.

EGGS—The receipts of eggs have been light for some little time and the market continues about steady. The bulk of the sales are reported at 13@13½c.

GAME—Owing to the extremely hot weather the bulk of the game, in fact almost every shipment, is arriving in deplorable condition, a large proportion going to the dump. Dealers are generally advising their shippers to hold off until the weather becomes more favorable. In view of the condition in which shipments are arriving it is very difficult to give correct quotations but it is safe to say that prairie chickens in first-class condition would bring $2.75 but the most of those coming that are fit for sale go at $2.50@2.60. Only a few ducks are arriving but choice mallards would bring about $2.75 and teal and mixed $1.25@1.50.

HONEY—Honey is commencing to move a little more freely, but the demand is still light for it. It is now claimed that the crop in Iowa, Nebraska and Kansas will be light. The early part of the season was favorable for the work of the bees, but it is said that the fall weather is limiting the output very materially; choice white clover, 16@17c.

PIGEONS—The demand is not quite so active as it was; live pigeons at $1.00@1.10.

VEGETABLES.

ONIONS—Home grown stock is plenty at 75c per bu, on orders from the country.

TOMATOES—Home grown stock, on orders, per basket, 60c.

POTATOES—The supply is light and the market firm. On orders from the country they bring 60@70c at best 75@85c.

CABBAGE—Occasional orders are received and filled at 1½c.

CELERY—Per doz. bunches, 30@35c.

FRUITS.

GRAPES—Home grown Concords, 20@23c per 9-lb. basket; Delawares, $1.00@2.25; black, $1; today, $1.50@2.25.

CANTALOUPES—Per crate, $1.25.

CALIFORNIA—Late Crawford peaches, per box, $1.10@1.25; Bartlett pears, per box, $2.25; plums, per box, $1.25@1.50; nectarines, per box, $1.50.

APPLES—Choice eating, per bbl, $4.50; choice cooking, $4.

TROPICAL FRUITS.

BANANAS—Prices remain about steady; per bunch, large, $2.25@2.50; per bunch, small to medium, $1.75@2.00.

LEMONS—Per box, $4.50@5.00.

ORANGES—There are only a few oranges arriving; Riverside Mediterranean sweets, $4.

HIDES, TALLOW, ETC.

HIDES—No. 1 green hides, 2½c; No. 2 green hides, 2c; No. 1 green salted hides, 2½c; No. 2 green salted hides, 2c; No. 1 green salted hides, 25 lbs. to 40 lbs., 2½c; No. 2 green salted hides, 25 lbs. to 40 lbs., 2c; No. 1 veal calf, 10 lbs. to 15 lbs., 5c; No. 2 veal calf, 8 lbs. to 15 lbs., 3c; No. 1 dry flint hides, 4c; No. 2 dry flint hides, 3c; No. 1 dry salted hides, 4c. Part cured hides ½c per lb. less than fully cured.

New York Dry Goods Market.

NEW YORK, Sept. 11.—The week opens with the dry goods market generally favorable and pointing to continued improvement. There is a very good demand for most kinds of cotton goods, with bleached shirtings promptly absorbed. Wide sheetings sell at full prices. Cotton flannels are giving way to woolen flannels and show less activity. Dress goods and woolens are fairly active and steady. Flannels and blankets are notably more active on hurried orders. Printing cloths rule steady, with fair demand. Foreign dry goods rule steady.

STOCKS AND BONDS.

Conditions of the Day Were Quite Favorable to a Bear Movement.

NEW YORK, Sept. 11.—The conditions which prevailed at the opening of the week's business on the Stock exchange were entirely favorable to a bear movement, and it was natural to anticipate a material decline as a result of the day's dealings. But it was the unexpected which happened, and save in a few instances, the general railway list and the industrials as well, show substantial advances as compared with the closing figures of Saturday. The influence of the bad crop reports had descended upon the street before the trading began and was supplemented by reports of decreased traffic returns of the granger roads, coupled with rumors of a division of sentiment among the directors of the St. Paul road as to the advisability of declaring a dividend.

The weakness of American railway shares on the London Stock exchange was also in the interest of the operators on the short side and to this was added heavy selling orders for London which aided almost all of the foreign specialties. It was unnatural therefore, that the bears should decide to take advantage of the depressing motives and they did start in right at the opening to hammer down the entire active list. Their success was but temporary; very little long stock was brought out as a result of the attack and there was remarkably strong buying at the decline. The shorts were surprised at the reserved strength of the market and possibly a trifle alarmed, and the pressure to sell was removed, whereupon prices quickly took an upward turn and went above the prices at the opening, which were all lower than Saturday's closing. In many instances higher figures were reached than prevailed at the close of the week.

The rise, however, induced realizings, and assisted by the liquidation of some pools in the industrials caused a reaction. A period of speculation followed, during which the market fluctuated within narrow limits, the undertone being inclined to strengthen rather than weaken, which gradually led to lower prices and during the greater part of the afternoon the bulls were in the ascent. The factor in the upward tendency movement undoubtedly was the ease in money and the return to the normal methods of transacting business by the banks in making deposits of currency with the subtreasury against certified checks for customs duties and by the custom house in again accepting certified checks for duties, which go to show that the movement of money toward the metropolis is removing the last vestige of the famine in currency which prevailed for so long a time. Today's market with late dealings was decidedly strong and the general list closed in most instances at or near the best figures of the afternoon and at a material advance on Saturday's closing.

St. Paul was most active, opening at a decline of ½ per cent, making a further decline of 1 per cent, selling up 3¼ per cent and closing at a reaction of ½ per cent, but 1⅜ per cent higher than Saturday's closing. The advances on the day's business are Manhattan Consolidated, 6 per cent; Wheeling & Lake Erie preferred, 3½ per cent; New Jersey Central, 3½ per cent; Lake Erie & Pittsburg, 3 per cent; Lackawanna, 2¾ per cent; Pacific Mail, 2½ per cent; Pullman, 1⅜ per cent; Tobacco & Northwest, 1⅜ per cent, and Cotton, Sugar, Lead, Hocking Valley, Minnesota and St. Louis preferred 1 per cent. Ann Arbor and Northern Pacific and Richmond & Terminal 1 per cent.

Among the stocks which made a decline of from ⅛ to ⅞ per cent are Kansas & Texas common and preferred, Louisville & Nashville, Illinois Central, Baltimore & Ohio, Denver & Rio Grande preferred, Reading, Ontario & Western and Union Pacific. General Electric opened 1 per cent down, rose 3¼ cent, reacted 2 per cent and closed at a recovery of ⅜ and ⅝ per cent above Saturday's closing.

The Post says: By far the most striking phenomenon is the continued scarcity of stocks. At the culmination of each successive upward movement the loan market seems to show an exhaustion of the demand and the consequent fullness of supply for stocks. But no sooner has the downward reaction proceeded for a day or two than loaning rates draw tight again and the short interest is forced into the market as a bidder. For this condition of things there are only two conceivable explanations. Either the short interest of the panic has still failed to complete its coverings or there are buyers who take their buyings continuously out of the markets. Probably both factors have contributed. Yet London is certainly not yet buying to hold and the commission houses which usually buy for scattered home investors will not use the time money offered them without commission. It is still in the main Wall street which is buying, but the Wall street buying of Stock exchange traders alone could never force a movement such as has lately been witnessed. There is but one logical conclusion—that the shrewdest private capitalists on the street who sold their holdings before the real panic are again in a large measure taking back their holdings now.

New York's News from London.

NEW YORK, Sept. 11.—The Post's London cable says: $285,000 in gold came into the Bank of England today, chiefly from Australia. Money rates were easy and the markets quiet, owing to the Jewish New Year holiday. In the beginning Americans were dull because of the Milwaukee directors report of the floating debt, although it is covered by bonds. They recovered later. Rupee paper was dull.

OMAHA LIVE STOCK MARKETS.

Week Opens with Moderate Receipts and Active Trading at Steady Prices.

MONDAY, Sept. 11.

The week opens with a liberal supply of cattle—about 4,400 on sale; but about 1,000 less than were received on last Monday. Liberal supplies at all markets tended to weaken prices on all except well turned steers. Good corned cattle and fat westerns sold steadily, although the market was rather dragging.

Desirable cows and heifers show no quotable change, prices on decent grades holding firm. The supply of ordinary to inferior stock was in excess of the demand and prices on such were extremely weak.

Liberal supplies of stock cattle did not cause any material weakness on anything wanted at all, and the volume of business was about equal to the number on sale. Steers of good weight and style sold fully steady, while common light stock is hard to move at any price, and today such sold lower, if at all. Representative sales:
