

LANCASTER'S POLITICAL POT

Numerous Candidates Anxious to Serve the People of that County. VERY LIVELY REPUBLICAN PRIMARIES

Lincoln, Sept. 18.—[Special to The Bee.]—The republican primary elections in Lincoln are in progress today and the names on the several delegations are to be given any significance the county convention which meets in this city this week will send a delegation to the state convention which will open the renomination of Judge Maxwell first, last and all the time. The issues in the county convention are purely local and the delegations which are being chosen today are selected without any particular reference to state matters. But it is apparent that the county convention is in the hands of delegates who will oppose any proposition to instruct its delegates to the state convention to vote for Maxwell. The probability is that the delegates to the state convention will go entirely unimpaired, but it is certain that none of them will be for the Fremont ticket.

At the coming county convention a full county ticket is to be placed in nomination, and there are from one to a dozen candidates for each office. One of the significant features in progress is being made on Judge Lansing, who desires to succeed as county judge. The contest for this office will be one of the warmest in the convention which there will be a struggle for the sheriff, for which there are a number of candidates. As usual, there is a bitter struggle over the finer offices, and the men who desire to be made county clerk and justice of the peace are making more noise than the candidates for judge of the supreme court. This is probably explained by the fact that these offices pay better salaries than a place on the supreme bench and that the men who are anxious to secure the republican nomination in Lincoln are certain of being elected.

There is considerable talk in Lincoln this afternoon of instructing the delegates to the state convention for Judge Jesse B. Strode as a candidate for the supreme bench, but up to the present writing the talk has but little concrete basis. The county convention will meet in this city Wednesday afternoon at 2 o'clock.

Richard Tierman, proprietor of a saloon at the corner of Seventh and Q streets in this city, is in a predicament from which he will hardly emerge without goodly fine. He was arrested on the 17th of August for selling liquor to minors and secured a continuance of his case for thirty days. He was called up for trial before Judge Waters this morning. The boys who purchased and drank the liquor were placed on the stand and both admitted the charges. They claimed that they had been in the habit of going to Tierman's place and presenting an order signed by one name or another, sometimes another. These orders were in every instance forgeries. After they had established this reputation they were easily able to get the beer they wanted without any orders. They were finally arrested in a drunken condition and at the instigation of their parents Tierman was arrested. He claims in defense that he had no intention of violating the law. After the evidence had been taken the hearing was continued until tomorrow morning for argument.

State Banking Board's New Rules. The state banking board has promulgated a new set of rules with which all parties organizing private or state banks in Nebraska must comply before they can receive the permission of the board to commence business. Heretofore in the history of banking in Nebraska a great deal of trouble has been experienced with the character of the commercial paper held as part of the capital stock. The same has been true with real estate, furniture and fixtures. The new rules prescribe that not less than 25 per cent of the capital stock shall consist of cash. The banks will not be permitted to hold more than 10 per cent of the capital stock in commercial paper and such paper must be approved by the board. In real estate, not more than 25 per cent shall be in real estate, and this must be limited to the building occupied by the bank and the ground upon which it stands. The banking conditions of Nebraska seem to have returned to their normal state and all the institutions that are under the special charter board are being rapidly closed up. The banking board anticipates no further trouble from the panicky conditions which prevailed during the summer months.

Will Dispose of the Impeachment Cases. The supreme court meets for the first time after its long summer vacation tomorrow. The cases from the first judicial district will be tried tomorrow. Ruling on the motion to reopen the impeachment cases against Attorney General Hastings, Humphrey of State Allen and Commissioner of State is expected early in the term.

Governor McKinley Responds. At a meeting of the Young Men's Republican club some ten days since resolutions were adopted inviting Governor McKinley upon his renomination to the chief executive office of the state of Ohio and endorsing his candidacy for president in 1908. Secretary Love has received a courteous response from the distinguished protectionist: "I am in receipt of your favor of the 12th inst. enclosing resolutions adopted by the Young Men's Republican club of Lincoln. I beg you will convey to the club my sincere thanks for its interest in republicanism in Ohio and give it the assurance that Ohio republicans are preparing to win a substantial victory in November. The tone of cheer and encouragement are highly appreciated. Believe me, sincerely yours, WILLIAM MCKINLEY, JR."

Joseph Raleigh and Joseph Murdock are neighbors at the corner of Eighth and I streets. They engaged in an unseemly neighborhood row yesterday afternoon. This morning they were fined \$7.50 each for their Sunday diversion. The eight colored gamblers who were arrested Wednesday night for playing the game of roulette in the rooms over Iverson's saloon, were up for trial this morning, but were able to secure another continuance until Saturday. Little Knowlery is in the town for selling beer without a government license. Sheriff Hard had to prove an alibi, but failed to succeed. She is held to appear before the federal court. Another woman whose name happens to be Hato was accused of the same offense, but she was able to prove her innocence. Both are keepers of low dives in this city.

Cassart returned from Chicago Wednesday. Miss Libbie Clark of Montana, a former resident of this place, is visiting relatives and friends in this locality. At the county convention held in Hebron Saturday, Dr. F. Wilcox was elected delegate to the state convention at Lincoln, October 5. Mrs. L. R. Miss Florence Wilcox, who has long been a teacher in the institution for the deaf and dumb at Council Bluffs, returned to her duties at that place Wednesday after a visit of several weeks with her parents here. Mrs. Eliza Shoup, one of the oldest and earliest settlers of this community, died at the residence of her daughter, Mrs. George Cottam, aged 84 years. The Hubbell Driving Park association of this place has decided to hold its semi-annual meeting October 4 and 5. The premiums offered are \$1,000 and no labor will be spared to make this the most successful meeting since the organization of the society. The society has one of the best tracks in the

BOARD OF EDUCATION.

Security of Debates, but a Surplus of Business, Last Evening. Last night's meeting of the Board of Education was a quiet one, unmarked by any extended debates. Within two hours the board managed to dispose of a large amount of business. The secretary read the report of the superintendent of schools, showing increase and decrease in enrollment at the various schools. The report shows a net increase of 200 pupils. There are 811 teachers, as compared with 200 for last year.

The work on the carpenter specifications for the Central school by Contractor T. J. Lund was accepted. The official bond of Samuel Macleod as superintendent of buildings, signed by C. E. Bates and William A. Higgins as sureties, was filed.

A protest against the removal of James H. Farris as principal of the Saratoga school, was filed. A number of estimates were allowed on plumbing and other work on the various new buildings. Citizens residing near the Dupont school filed a petition asking the reinstatement of Mary W. Hay as principal of that school. The committee on examinations reported that primary certificates be recommended to the persons proposed by numbers 4, 5, 6, 14, 15, 21, 22, 23, 24, 25, 26, 30, 40, 41, 44 and 48.

But to save the time that it would take to learn it by experimenting, the Bremont Canal Co., in the North Platte valley, employs a superintendent who is an experienced irrigator as well as a practical farmer, and his business is to move among the farmers and tell them when and how to apply the water to each parcel of land. The farmer thus begins at once to reap the benefit of irrigation in the absolute certainty of raising a crop, the greatly increased yield and the equally improved quality of the product. 40 acres makes a farm, and the farmer can do it himself, for each acre, 500 lbs. of alfalfa will yield you \$1.00 every year. Go look it over. G. J. Hunt, 203 First Nat'l bank, will furnish half your fare. Rich soil, mild climate, short winters, and, better than all, fully paid for, with no water a failure. Land and a perpetual water right at \$20 an acre.

Alcoholic Prostration. A man who dropped to the sidewalk, as if in a faint, caused a crowd of people to gather on Farnam street near Sixteenth about 5 o'clock yesterday afternoon. After being taken to the station the man was found to be simply suffering from an overindulgence in strong drink. Treatment was therefore administered accordingly. The man gave his name as Crowell and said he resided at Eighteenth and Corry streets.

READY FOR A WARM DEBATE

Efforts to Repeal the Federal Election Laws Will Provoke Trouble. DETERMINED OPPOSITION IN THE HOUSE. Republicans Prepared to Exhaust All Their Resources in Order to Defeat the Measure.

WASHINGTON BUREAU OF THE BEE, 315 FIFTEENTH STREET, WASHINGTON, D. C., Sept. 18.—"I expect the debate in the house over the bill repealing the federal election laws to be as acrimonious and long in duration as the debate in the senate when the democrats filibustered against the force bill," said Representative Burrows of Michigan today. "The republicans in the house are determined that the bill shall never pass until the democrats bring in and force the adoption of cloture. Our blood is up and we intend to make the floor fly when the measure comes before the house. I presume no effort will be made to limit the debate until it has progressed several days. There will be some of the hottest speeches ever heard in the house. Then the committee on rules will try to reach an agreement to limit the debate."

"We will decline all negotiations, after which I have no doubt the committee will force cloture. We want to tell them what we think of them and then compel them to resort to the thing they have always resorted to. Even after cloture is reported the majority will filibuster. We intend to die in the last hour. I have no sort of notion that the bill can pass the senate. The democrats set the example in dilatory tactics in a filibuster against the force bill and now the hen will come home to roost and their plan will see to defeat their own house, but I don't expect it to pass until the senate disposes of the silver reform bill, as it might go to the senate and displace the force bill. It is not until the senate disposes of the silver reform bill, as it might go to the senate and displace the force bill. It is not until the senate disposes of the silver reform bill, as it might go to the senate and displace the force bill."

But two more days will be given by the house committee on ways and means to tariff hearings. Tomorrow will be devoted to sugar, and it is likely the proceedings will be the most interesting of any which will be taken place. Claus Spreckles, the great sugar producer and refiner of California and Hawaii, is in the city and will likely have something to say to the committee. Mr. Spreckles will probably say that he does not care personally whether there is a duty on sugar, or whether both are abolished, as to admit sugar free and discourage the home industry would hold him in his immense sugar producing business in Hawaii, especially since the arrangements by which products from certain countries come free of duty under commercial reciprocity are to be abolished.

Mr. Spreckles, however, prefers to have the sugar bounty retained and no duty on sugar, and he has reported by the way, that he has a bill introduced in the house here under the pretense of looking after Hawaiian annexation. It is probable that the bill will be reported by the ways and means committee will abolish the sugar bounty and place the duty at 1 cent a pound on the most interesting of any which while the senate may, but it is believed that the raising revenue, adopt the duty feature, it will insist upon continuing the bounty for at least a few years. The million dollars have been invested in beet sugar factories and thousands of farmers and others have under the inducement of bounty by the bounty law. To repeal it now would be gross deception and rank injustice, which it is thought the senate will not endorse.
