

COMMERCIAL AND FINANCIAL.

Wheat was leader yesterday in activity and strength.

WHEAT HAD MUCH TO CONTENT WITH

Increasing Primary Market Receipts and Visible Grain Supply Caused a Considerable Decline in that Cereal - Stocks and Bonds.

Chicago, Sept. 18.-Wheat was leader today in activity and strength. The market for that cereal advanced in spite of enormous receipts. Wheat had a good deal to contend with in the shape of increasing primary market receipts and visible supply, and it succumbed to the time of a decline. Corn had also much to bear up against, but the bulls on that article, instead of forgetting all the strong features of the situation, appeared to have concluded that their buying could be more advantageously done now than if they waited until the receipts dried up. The market closed with a gain of 1/2c. Provisions were stiff on the yellow fever news.

At the opening of the market wheat was lower and quickly settled off 1/2c more for December, then advanced 1/2c again weakened and prices declined from 1/2c to 1/4c, fluctuating somewhat and the close was at 1/2c lower for December and 1/4c lower for May than closing figures Saturday. Grain and stock market. The market for wheat was active, instead of forgetting all the strong features of the situation, appeared to have concluded that their buying could be more advantageously done now than if they waited until the receipts dried up. The market closed with a gain of 1/2c. Provisions were stiff on the yellow fever news.

There was a weak and lower opening in corn. Sales were in the neighborhood of 2,650,000 bu. a year ago. The firmness in corn was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in oats. Sales were in the neighborhood of 1,000,000 bu. a year ago. The firmness in oats was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in soybeans. Sales were in the neighborhood of 500,000 bu. a year ago. The firmness in soybeans was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in hogs. Sales were in the neighborhood of 100,000 head a year ago. The firmness in hogs was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in sheep. Sales were in the neighborhood of 50,000 head a year ago. The firmness in sheep was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in cattle. Sales were in the neighborhood of 20,000 head a year ago. The firmness in cattle was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in bonds. Sales were in the neighborhood of 10,000,000 a year ago. The firmness in bonds was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.

There was a weak and lower opening in stocks. Sales were in the neighborhood of 5,000,000 a year ago. The firmness in stocks was due to a measure to the quite liberal shipments reported from that market. The increase in the visible supply was smaller than generally anticipated and this had a stimulative effect temporarily. Shorts purchased rather freely and the long interests enlarged their lines. Opening prices were 1/2c lower, but soon a gradual improvement from 1/2c to 1/4c was gained. During the middle of the session the feeling was quiet and prices rather steady, fluctuating from 1/2c to 1/4c. At the decline the demand improved considerably, especially for May and July. The market closed strong.
