The independents of the city and county held their primaries to elect delegates to the

DOUBLE DEALING CHARGED

Capital National Depositors Dissatisfied with the Receiver's Conduct.

Two Hundred Interested Parties Hold Secret Meeting and Determine to Take Vigorous Measures to Investigate the Case.

WILL COMPLAIN TO THE DEPARTMENT

LINCOLN, Oct. 2 .- [Special to THE BEE.]-The depositors of the defunct Capital National bank are again becoming restive over the slowness with which the authorities at Washington are moving in the matter of straightening up the affairs of the institution, and some very decisive action has been decided upon. It is stated that within ten days serious charges will be preferred against Bank Examiner Griffith and laid before the Treasury department at Washington. These charges will accuse the examiner of double dealing, lack of vigilance, carelessness in tooking after the interests of the depositors and general neglect of duty.

A secret meeting of nearly 200 depositors was held in this city Saturday night. The proceedings have been carefully guarded, and but few details have leaked out. Some very energetic remarks were made by some excited people present, and sanguinary threats were indulged in by some of the more violent. The results of the meeting are supposed to be apparent within a few days, when, it is asserted, some new and startling disclosures will be made.

Lost His Left Hand.

Samuel Gove, living near Bennett in this county, was brought to Lincoln this afternoon with a terribly mutilated hand. He was at work feeding a threshing machine, when his left hand was caught in the machinery crushing it to a pulp and lacerating it in a fearful manner. The machine was stopped as quickly as possible and the man released from his terrible position. The doctors who attend him believe that his hand will have to be amputated at the wrist, although they will endeavor to save a thumb and one finger.

Dell Aiken's Predicament.

Matt Daugherty this forenoon received a telegram from Dell Aiken, the Holt county man who is in fall at El Paso on the charge of being a fugitive from justice. Aiken wires the following:
"Am still in fall. No information as to what has been done. Send for me or send

bond. Answer."
Alken's friends in this city are at a loss to

understand the complications which surround the case. The requisition papers have had time to reach the Texas authorities and Aiken has stated all along that he is perfectly willing to accompany the El Paso sheriff back to Nebraska without a requisition. He wants to get out of jail, but for some reason the Texas authorities seem bent upon unwinding the entire ball of red tape before they will consent to make a move.

The case of the State against Albert Johnson, the elderly chap charged with criminal assault and attempted assault upon little Nellie Duncan, the 10-year-old daughter of a widow living in North Lincoln, which offense is alleged to have been committed in the vicinity of the Standard Oil company warehouse, came up today. The court was shy on jurymen this morning and it was necessary to issue a venire for a special paner of twenty others, who are ordered to appear forth with for service.

Judge Strode was engaged today in hearing the case of the First National bank of Ingoin against the First National bank of Lincoln against the State National. The plaintiff had a claim against Frederick E. Miller, against whose property foreclosure proceedings had been begun in court. The First National defaulted in the trial, and of course did not get any share of the proceeds. Before the money received from the sale of the property had passed from the hands of the court, however, the bank secured an in-junction, also asking that its claim be adudicated, and that is the case now being heard. The other bank claims that the First National bank appeared in the case and was

While one man kept him covered with a gun a second robber stepped out of the darkness and dragged the mail pouches into the alley, leaving the sack containing the papers on the sidewalk. He then ordered the operator to walk out into the middle of the street He did so, and when he turned around both of the robbers had disappeared in an adjoining alley, where they had saddle horses tied and mounting rode rapidly away in a north-easterly direction. The operator gave the alarm and at 4 a.m. Sheriff Rosecrans and United States Marshal Liddard of Rush ville were on their trail, following it for about six miles, where it was lost.

The mail sacks were not believed to contain much of value. They have not been found yet, but the general opinion is that the work was done by amateurs and it is only a question of a short time until the robbers will be apprehended.

This proposition of Senator Manderson's meets with much favor.

Omaha's Postoffice.

Senator Manderson and Representative Mercer called today upon Secretary Carlisle and a conference ensued in which a final determination of the Omana federal building question was Omaha federal building question was reached. Both of the Nebraska representatives stated to the secretary that they desired granite used in the superstructure and the contract to be awarded at the earliest possible day. Secretary Carlisle said he had come to the conclusion, after consulting with Supervising Architect O'Rourke, that it would be better, even though the appropriation would not admit of dressing and carving the granite, to do that work after the materite, to do that work after the material was put in the wall and to use it in the rough. This agreed upon, the secretary said he would see Architect O'Rourke, and that the contract would be awarded this week. The contract, he said. would go to Drexel & Son of Omaha, whose bid on granite was the lowest. Colorado pink granite will be used instead of Minne the lighter in color and handsomer. South Dakota's Fish Hatchery.

Senator Pettigrew today made inquiry at the headquarters of the fish commission about the anticipated report which is to be made upon the investigation into the feasi-bility of establishing a fish hatchery in the region of Hot Springs or Spearfish, S. D. The senator secured an appropriation of \$1,000 in the last congress for the purpose of aking an investigation with the hatching fish in southwestern South Dakota and supplying the streams thereabouts and the investigation was completed some time

He was informed today that the attache of the commission who made the investigation was now in Tennessee and would not return to the city under some weeks. also learned that the report upon the South Dakota investigation will be made to con-gress some time this winter, together with the result of other kindred investigations Senator Pettigrew is confident that the commission will recommend the establish ment of a fish batchery either at Hot Springs or Spearfish, where the conditions are faverable, and when the report is made to congress he intends to make an effort to secure an appropriation for the work.

The senator has taken a keen interest in the question of supplying the rivers and lakes of the great northwest with fish, and he sees no reason why South Dakota streams and lakes should not also be supplied by the rovernment, and with this object the estab will be a great convenience and saving of time and expenses. The question is one of great interest to northern Nebraska, as that section would have its water course plied with fish from the South Dakota hatchery.
