W. H. Ware and William Groneweg went to Booner township last night to address a political meeting.

Mr. and Mrs. S. Alexander will celebrate the twenty-fifth auniversary of their mar-riage on Tuesday, November 7.

Miss Neole Ogden and Mr. I. M. Treynor will assist in the musical part of the program at the Congregational church service

A small shed at the corner of Avenue E and Ninoteenth street caught fire yesterday afternoon. Damage was slight. How it caught is not known. Ethel, the 14-year-old daughter of Mr. and

Mrs. Charles Greene, died of malarial fever Friday after a two weeks lilness at her nome near the poor farm. There will be preaching at the Union rristian mission tonight by Rev. Henry

Do Lang. Also meetings every night this week. Everybody is contially invited. Miss Delia Meyers entertained eighteen of her friends at her residence on Park avenuelast Friday ovening. The evening was spent enjoyably in music, dancing and refreshments.

The Choral union held its first meeting for the year in the Young Men's Christian asso-ciation rooms last Friday evening under the direction of Prof. L. A. Torrens. The next meeting will be next Friday night, and it is hoped that all who are interested in vocal

music will be present. The funeral of Albert 1. Fullmer, who died Inst Wednesday at his home in Omaha, took place yesterday at the home of his father on Sixth avenue, Rev. J. Indus Farley offici-ating. A large number of friends followed the remains to their resting place in the cemetery. He was born in La Salle county, Illinois, July 14, 1862.

John Sheffler and Price Gibson, who were arrested last week on the charge of keeping gambling houses, have been discharged, the men who started the crusade against them having lost their desire for a purification of the city. Neither of the prosecuting witnesses showed up when the time for trial came and the defendants were discharged upon their paying the costs. The pictures of the Ganymede Wheel club,

which were recently taken, have just been completed by the photographer and a sample is in the hands of the treasurer, O. G. Drew, undergoing the inspection of the members. It is a fine, large-picture, about 14x20 in size, and contains the likenesses of about forty young men. The photographs of the individuals and the club house are good almost without exception.

Irvin Birch was on trial in the district court yesterday on the charge of stealing a team from M. Weatherbee of this city. He paid a visit to the stable last spring and en-gaged a rig to go, as he said, to the Deaf and Dumb institute to take a lady friend out riding. He failed to return, and when he was fast located it was at Dow City. He was brought back, and yesterday afternoon the jury that tried him found him guilty as

A gentleman arrived in the city last evening looking for his daughter, who left home about two weeks ago and came here to enter a notorious house on Lower Broadway. He claimed there was a woman in Sioux City where he lived, who acted as a procuress and induced his daughter, who is a rather pretty girl, 17 years of age, to enter upon a life of shame. He got track of her and put life of shame. He got track of her and put his case in the hands of the police, who helped him find his daughter las; night.

BEE NEWS FROM COUNCIL BLUFFS

Chief Nicholson's Case Causes Much Comment Among the Citizens.

THOROUGH ACTION MUST NOW BE TAKEN

Public Indignation Growing and a Demand for an Impartial Investigation of the Charges-Waiting for Juoge Magce's Decision.

Judge McGee has not decided the cases of Charles Nicholson and Miles Schoffeld, charged with conspiracy, but expects to do so Monday. Ben Webber, the third member of the alleged conspiracy, has been released on a ball bond of \$500, which was furnished by his relatives. It is reported that the council refused to suspend Chief Nicholon, in order that it might have Judge McGee's decision to guide it in regard to the charges which are now pending investigation at its bands. If this be true, it would seem to indicate that the aldermen care nothing for the charges of drunkenness which they have voted to investigate, and that if Judge McGee decides not to bind him over to the grand jury from the other trouble. The two charges are, entirely distinct, and public opinion seems to be in favor of a thorough investigation of the charge of drunkenness, what-ever may become of the other case. In to every one concerned the council should leave no stone unturned. The gen-eral public care nothing for politics when property is endangered and if the conneil men decide to whitewash the chief, such a storm of disapproval will fall upon the hends of those who favor such a course as will convince them that there are some things which the citizens will not endure from its paid servants.

Dodging the Question. The howl of "polities" still goes up from the democratic party organ, and its endea-vors to shirk the blame upon republican shoulders would be laughable were they not so thoroughly in conflict with the principles of good government. This organ makes its living off the city government and consequently whatever turns up has a political tinge in its eyes. No one who is free from taint of demagoguery thinks that a com-plaint because a city official takes so much liquor on board as to incapacitate him from performing the duties of his office has its source in the depths of a political scheme. No matter how much the evening sheet may stand up for official misconduct, the people who pay these officers their salaries, are thoroughly aroused and will demand that none but good, trustworthy mea be employed to look after their affairs

Important Appaintment. The many friends of ex-Mayor M. F. Rohrer of this city will be interested to learn that he has just received the appointment of general agent for Nebraska of The Provident Savings Lafe Assurance Society of New York, and also that of district agent for Counell Bluffs and vicinity.

"The Provident Savings Life" is one of the best known of the "old line" companies doing business in this country and its policies attract universal attention because of their simplicity, equity and practical application to the wants of the insuring public;, while the national reputation of Sheppard Homans, who from the inception of the company has filled the office of president and actuary, is an accepted guarantee of the actuarial correctness and commercial value of

its plans. The energy and tact which so largely contributed to the success of Mr. Rohrer while serving this city as its mayor, together with the insurance experience acquired during the twelve years that he has represented the "Mutual Life" in this state, will lead his friends to anticipate for him a pronounced success in his new field, and these expectations

will doubtless be realized. Mr. Rohrer will conduct his Nebraska ousiness from the headquarters of the company in the Bee bailding in Omaha, and his Council Bluffs business at his office, Nos. 102 and 103 Pearl street, in this

WARNED AN ATTORNEY.

How One Man Failed to Work a Scheme

for a Continuance. Judge Macy did the sitting down act in district court, and it was Emil Schurz, a young attorney, who was the squelched. The affair came up in connection with the trial of James Howard, who is accused of having broken into the house of Mr. Petrie on South Sixth street several weeks ago. All Sixth street and vicinity was aroused by the noise occasioned by the capture, which was effected only after a lively chase participated in by a dozen or more of Petrie's

Schurz was appointed to defend Howard by Judge Macy some time ago, and until yesterday it was supposed that he would act in that capacity. A few days ago Schurz asked that the case be postponed a while, as he was called away on business. His request was complied with. Yesterday morning was the time set for the trial but Schurz came into court with his client and Schurz came into court with his client and said the latter had become very anxious to swap him off for Emmet Tinley as his attor-ncy. Judge Macy looked solemn as the possibility of a scheme dawned upon him and seemed very reluctant to allow the change to be made. Tintey was sent for, however, but when he arrived he stated that he was unable to take charge of the case. Then Judge Ayles-worth was called by telephone and he agreed to defend Howard. The case will come up for trial next Monday. Just before dispoing of the matter the court turned to Schu and said: "I'll excuse you this time, Mr. Schurz, but I don't want you ever to repeat

this kind of an operation. That Judge Macy had sized up the affair about right is evidenced by the fact that Schorz stated to a Bee reporter just after he had asked to be excused that he was very anxious to have the case continued and could think think of no other way excepting to have a change in lawyers, which would perhaps re-sult in giving additional time for consul-

J. H. Vernon's property, four miles east of the city, near M. Toft's place, was visited by fire yesterday and considerable damage was done. Directly in the rear of his resi dence stood a tool house, and this, in some way not known, caught fire. Buckets were used, and after a great deal of hard work the flames were gotten under control, but not until they had been communicated to the rear end of the house. The combined efforts of Mr. Vernon and all his neighbors were needed to prevent the residence and all from going up in smoke, and even then the from going up in smoke, and even then the

house was considerably damaged. Mr. Vernon's daughter was in the house at the time, sick abed with a bad case of scarlet fever. The tool house was burned to the ground with all its contents. The total damage is estimated at about \$500. There was no insurance on the tool house, but the residence

Mrs. Reiter's Wondertul Relief. Mrs. A. Reiter, wife of the well known merchant tailor, and who is so well and favorably known in Council Bluffs, is just now enthusiastically praising the Sweetland Remedies for the wonderful relief that has followed a brief course of treatment. A little over a week ago she was very nearly a helpless cripple from a complication of diseases followfemale weakness and kidney troubles, complaints that similated a number of serious maladies, including acute neuralgia, rheumatism and dropsy. She has been doctoring with the best physicians of Council Bluffs for more than a year, using all kinds of approved appliances, but steadily growing worse. One week's treatment has made a new woman of her, and as she enthusiastic-ally remarked to one of her friends yesterday afternoon, "it has made a 16-year-old girl of me again." Continuing, Mrs. Reiter said: "I cannot speak highly enough of the Sweetland Remedies, nor of the doctor's wonderful ability to read aright the symptoms and locate the disease. He placed his finger on the exact spot on my back where I had been suffering for years from a paralyzing pain, which the doctors had sought in vain to relieve by the usual liver treatment and the application of plasters and blisters. Every woman who has suffered the agonizing torture of falling of the womb can realize what my condition was when I tell them that I had used every kind of womb supporter that surgery has invented, and was compelled to depend constantly upon such appliances. I could not believe that the doctor could help me. I could not be-lieve him when he said he would take away my supporter with the first treatment, but I threw away the plasters and supports, and made the trial. had not taken a step for years that was not in pain, and words cannot express the relief I obtained within even a few hours after the first treatment. Now the world seems brighter and better, and I feel like singing from morning till night. I wish every woman in Council Bluffs who is suffering like I was could be induced to make just one trial of those wonderful remedies. I do hope that Conrad Geise can hear of this. know he would give a thousand dollars to get as much relief from rheumatism as I have. A week ago it was almost impossible for me to get up or down stairs, and now I can RUN up to the third story as quick as any healthy school girl can. Oh, I just think those remedies are grand."

Mrs. Reiter now occupies the Sanborn block, on the corner of Broadway and Bryant street, renting out furnished rooms in the second and third stories. They are thirteen in number and she does all the work, climbing forty feet of stairway many times a day. She has been a very large, fleshy woman, but the treatment has reduced her flesh very much and made such a marked improvement in her appearance that her

friends scarcely recognize her.
Drs. Depew and Sweetland have an office on Broadway, upstairs, opposite the postoffice. They guarantee a cure in every case treated.

Talking of a Rock Pile. A meeting of the city council is to be held omorrow evening, at which, it is said, the project of having a rock pile for city prisoners to work on will be brought up. The chain gaug furnishes employment for the prisoners during the summer months, but now that cold weather is setting in it will have to be abandoned. The vars and tramps in this part of the country have a way of dropping in on Marshal Templeton about the time cold weather begins, and, by committing some petty crime, manage to be kept anywhere from ten days to a month in idieness at the expense of the city. With a rock pile in view a good many of this class of creatures will be kept out of the way of temptation, while those who insist on breaking into jali will find an opportunity of spending the time profitably, if not pleasantly, and pay for a part of the expense of their keeping. their keeping

Tie Game. The Hercules and Centaurs, two High school foot ball elevens, had a match game yesterday at their grounds in the western part of the city. It was a hotly contested game, each side playing with all the despera-tion at its command. The Hercules were unfortunate. In the early part of the game no less than five of them were laid out on the ground by accidents of the kind that foot ball players delight in. The two Saw-yers, Dyar, Baldwin and Hoagland were all hart, and substitutes had to be brought in to take the places of three of them, but they stood up to the rack in good shape notwith-standing. The score was a tie, each side making eight points.

It is rumored that a new manufacturing enterprise is looking toward Council Bluffs with a strong probability of locating here within a very short time. It now carries on the manufacture of wire fences in an east-eru city, but the men composing the com-pany want to move west and have been making an investigation with the view of ascer-taining what sort of shipping facilities the city affords. If they decide to come here the location will probably be in the vicinity of the Union Pacific freight depot.

Advantages Offered to Cattlemen Who Favor the Magic City.

KANSAS CITY'S MARKET KNOCKED OUT

Experience of a Prominent Shipper Who Tried Both Markets-Tom Geary's Row with the Poundmaster-Police

William Boot, a well known cattle dealer in the west, is another gentleman who has been taught "by experience" that South Omaha furnishes the best market in the west. He has sold here off and on for years, but a short time ago was persuaded to take his stuff to Kansas City. Last Wednesday he sent a split of his string of cattle to the village on the Kaw to make a test case of the two markets. The cattle were westerns and had run of the were westerns and had run on the same range. The receipts of both markets were big on that day and everything was about on an equal footing. The cattle he sold here an equal footing. The cattle he sold here brought \$3.07½ and \$3.50, while the cattle he sent to Kansas City only brought \$2.50 and \$3. Mr. Boot was on the ground in Kan-sas City and wired the following to als commission firm in this city:

that time he has had no end of trouble in fulfilling the duties of his office. The general expression is that the mayor and counci should either endorse or dismiss the gentle man, as the position as it now stands is unsatisfactory all around.

Drs. Copeland and Shepard are specialists, but the genuine specialist is first an experienced, skillful and accomplished physician and surgeon, and the broader and more extended his field as a specialist the wider is his experience in general medifine and surgery.

An architect who can design a mansion can design a railrud depot or a county bull. A tailor who can make pints can make coats. Those who sing comic operations in general dirges. That is, we can't learn an art, a science, a trade, by a lamp that sheds only one ray, and light only one point. There is no law candle that elucidates only one ray principl, and no medical candle that elucidates but one principle in medicine.

All lamps and luminaries, from those that light solar systems to those that light solar systems of the son and continuous principle. So under the lamp of medical science. The anatomist, to whom the lungs and liver are transparent, sees through the brain and kidneys. So in all the domains of science, moste, beauty—from thinkers and poets, from those who write the ep'c poems and the authors of mankind to those who heave coal or carry the hou. A prominent citizen of Ord, Neb., is W. F. Kinmont, whose standing as a min and citizen is beyord reproach. Conrade Kinmont served from 51 to 65 in the Union army, ensisting in Company F. 125th Indiana Volunteer Infantry. His graphic account of a personal experience with a chronic malady brings out foreibly two points:

1. The powerful effects of caturrh on the system; attacking the digestion, bowels and general health.

2. The placetive requires The Control of the c

gener I health.

2. The effective results of Drs Copeland and gener I health.

2. The effective results of Drs Copeland and Shepard's home or mail treatment, as the case of Mr. Kinmont was conducted entirely by mail. This veteran soldier speaks as follows:

"I have been afflicted with that fell disease, catarrh, for nearly half a lifetime. By this I do not mean merely a nose and throat trouble, but the mail dy had got hold of my whole body to such an extent that it nearly ended my life. I know this to be a fact that my friends and neighbors in Ord fully realizit I found the catarrhal disease for more dangerous and treacherous than all the mighty zerous and treacherous than all the mighty hosts that I fought during the rebeillon. "I have had catarrh for 27 years, and con-tracted it in military service.
