KEM'S CONFESSION OF INCAPACITY.

Mr. Omar Madison Kem occupies nearly a page of the Congressional Record with an attempt to vindicate himself from the charge of neglecting the interests of his constituents and to deny the wicked fate that has befallen him...

SHERIFF BENNETT'S DELINQUENCIES.

The republicans of Douglas county find themselves in a most lamentable dilemma with regard to their candidate for sheriff. The earnest remonstrance made by this paper against Mr. Bennett's renomination was denounced on one hand as personal spleen and on the other hand as an arrogant piece of political dictatorship...

THE NEW MINING LAW.

The bill just passed by congress suspending the law requiring the performance of assessment work for the year 1893 will be hailed as a blessing by the poor prospectors who have felt the hard times in the mining regions this summer. It will enable them to hold the claims they have and spend money for bread that would otherwise have gone for giant powder...

WILD CAT BANK SCHEMES.

A resolution was adopted a few days ago by the house committee on banking and currency fixing November 14 as the date when the committee will take up and proceed with the bill providing for the repeal of the tax on state bank issues, no further discussion except by members of the committee to be had after that date...

NATURALIZATION LAW CHANGES.

The present congress will probably make several important changes in the naturalization laws. A bill is now under consideration by the judiciary committee of the house for this purpose. It proposes to amend the laws so as to prohibit the naturalization of any alien who has ever been convicted of a felony or other infamous crime or misdemeanor involving moral turpitude...

FEMINE PREROGATIVES.

When a man's courage gives out it is usually in the face of danger. The woman doesn't think to get frightened until the peril is all over. Then she exercises the prerogatives of her sex and cries or faints or flies, as the case may be. It's a historic fact that Joan of Arc wanted to run away and hide every time she won a battle. Female nature is changed in this respect in the past 400 years.

THE BOOK OF BOOKS.

Charles A. Dana's Address on Journalism. What books ought you to read? Almost all books have their use, but some are indispensable to this kind of education. But of all these, the most useful, the most indispensable, the one which knowledge is the most effective in the world, I am considering it now not as a religious book, but as a manual of utility, of professional preparation and professional use for a journalist. American citizenship means more today than ever before and its significance and worth will grow with the increasing power and greatness of the republic. Hence, there is greater reason now than ever before for surrounding it with the amplest safeguards...

THE BARGAIN CLOSER.

Kansas City Journal: The confining of Van Alen puts the senate on record as being unwilling to place obstacles in the way of an administration paying its dishonest debt.

THE MODERN BRIGADIER.

Chicago Post: Mr. Morgan may not be ashamed of his connection with the secession movement. No brave man reformed burglars who were not penitent. It is largely a matter of breeding. But Mr. Morgan at least should not be ashamed of his speech. That involves a matter of taste.

A BUNCH OF SMILES.

Lowell Courier: It is said that the bull is very liable to an attack of scurvy fever.

NEBRASKA AND NEBRASKANS.

Nebraska Baptists are in session at Lincoln. A resident of Bloomfield shot and killed a wolf on one of the main streets of that village this afternoon.

NO LIMITATION TO NUISANCE.

In the middle of the first night, while the senate was in continuous session, Senator Charles T. Rossett discovered a quantity of liquor, Rossett is out on bail on the charge of selling whiskey without a license.

THE SITUATION IN NEBRASKA.

The situation down in Nebraska ought to be understood thoroughly, so that if the populists carry the state this fall, as it seems now in every way probable, they may not claim it a victory for their peculiar ideas. The contest is over a justice of the supreme court, and there is great interest in it because important railroad legislation is to be passed upon.

HOW TO END THE DEADLOCK.

Give the republicans a chance. Let Mr. Voorhees, who has expressed a willingness to resign, resign. Let the democrats who are honestly in favor of repeal fall in behind the republican platoon, taking Sherman as their leader, following him as loyally as the republicans have followed Voorhees, and there will be a change in the situation speedily and the senate will come to a vote on the sundry propositions before it.

THE BEAR IN PARIS.

Washington Star: The Toulon demonstration will at least enable the French to make another raid on the Siamese treasury. Philadelphia Times: As part of the game of European politics, the French and Russians at Toulon evidently think the game worth the powder.

is, perhaps, no book whose style is more suggestive and more instructive, from which you learn more directly than from simply reading, than never exaggerates, which recounts the greatest event with solemnity, of course, but without sentimentality or affectation, which you read with such confidence and lay down with such reverence; there is no book like the Bible.

CIVILIZATION IN THE EAST.

Many years ago, when Sepoys were blown from the earth, there was a great outcry all over the civilized world, but a dispatch from Lahore reports that eleven more mutinous Sepoys have been treated in the same way and their companions required to swear on the Koran to strict obedience to their commanders. The Sepoys do not fear death so much as mutilation, and for this reason public men have any terrors for them except some such method of execution as that of being blown to pieces.

SOCIAL CALAMITY IN CHICAGO.

We are pained to learn that while attending the performance at the Trocadero last evening Mr. T. Bertie Pratt, the well known young society leader, had the misfortune to be struck by a falling chandelier. The excitement the sufferer was removed from the theater to his father's residence in Michigan avenue, where a consultation of physicians was at once summoned. It is probable that a delicate operation will have to be resorted to before the lamented young man can be restored to his usual health.
