Wheat Trade Given a Stirring Up in Earnest Yesterday.

PLICES ADVANCED VERY SHARPLY

That Cereal Started sabout the Same as Monday's Closing, Declined a Fraction, then Became Firm and Final Figures Were Strong.

CHICAGO, Oct. 24. - A stirring up in earnest was given the wheat trade in the last hour today. The closing cables were much stronger. The wires were kept busy with rumors of a probable end of the silver fight. When the rumors were followed by positive assertions from senators that a vote on the re, eal oill was certain inside of twenty-lour hours, the sentiment became very bullish. The shorts were in a great hurry to cover. New York and the northwest bought in this market in 100,000 bu., lots. Prices advanced very sharply. The decline of two weeks was recovered in two hours. December wheat bounded up 1%c, closing at 1%c above last night's final quotation. Corn followed the fluctuations of wheat and closed with a gain

of 3c. Provisions roled dull and lower.
Wheat started about the same as yester-day's closing to 3c lower, declined from 3c vanced %c, then became firm and prices were advanced %c, held steady within this range until shortly before the close, when prices ndvanced 15g., closing strong at the highest figures of the day. It was claimed by some that the market was heavily 'short,' and a prominent trader, after selling fairly early and not finding it easy to depress values, commenced to cover. This started the ad-vance, and when the news from Washington was received the market responded readily, causing quite a little excitement.

Offerings of corn were not large, while the demand from all sources was comparatively light. The market opened rather firm and prices were about from 1gc to 1gc nigher, but a weaker feeling was developed and prices declined from 36c to 36c, a moderate trading at the receding scale. During the latter part of the session a little more steadiness prevailed and prices railied and closed com-paratively steady.

There was a light trade in oats, but a

stronger feeling, due mainly to sympathy with wheat, which carried prices up from the to 3c in the face of the fair selling and closed the market steady at about the outside figures, with a net gain of from 3c to

The provision market was generally dull and drooping. There was some recovery from the prices prevailing early in the session, due to closing strength in wheat and corn, the to closing strength in wheat amore, but the last trading was at the following reductions in the current prices at the close yesterday. In January pork, 5c; January lard, 10c; January ribs, 5c; in October lard, 5c; October pork, 5c.

Estimated receipts for tomorrow: Wheat,

Minneapolis Wheat Market.

Minneapolis, Oct. 24.—Wheat was higher at the opening, but with considerable for sale fell off \$5c, but later, under the force of a more hopeful Washington report, the market was much better, caused by general covering of shorts. Receipts in the country are falling off, and that had something to do with the local tone, as there is not enough wheat offering on track daily to supply the demand. It follows that the track wheat was \$\frac{1}{2}\text{min}\$ cabove December during all cash sessions. December opened at 50\frac{1}{2}\text{c}\$ and May, 65\frac{1}{2}\text{c}\$. Both sold up and closed at 60\frac{1}{2}\text{c}\$ for December, and 66\frac{1}{2}\text{c}\$ for May. On the London Market. On the London Market.

New Yonk, Oct. 24.—The Post's London special says: One hundred and eighteen thousand sovereigns were sent to Holland and class where today. Silver has risen to 33 15-16d, but is weak on American sales for delivery two weeks ahead. Bar gold is wanted for the continent. There was inquiry also for America. Rupee paper is 55 5c. Stocks were dull, except Americans, which have risen on the acquisition of Lackawanna by the Vanderbits, indicating a spread of conservative management. The Grand Trunk lines were

depressed by fear of the loss of interchange traffic. The repeal of the Sherman act is no regarded as imminent.

New York Dry Goods Market.

New York, Oct. 24.—The inclement weather which served to restrict the volume of business in dry goods yesterday, has been less cause today, though to the still threatenin weather is attributed the continued apath that hangs over the market for dry goods, greater check to business, however, is found in the dearth of tariff discussion, and nobod can be induced to go beyond actual wants is buying goods. Prints and printed fabrics of stylish fancy styles command full prices. Printing cloths are in moderate demand, with more sellers than buyers. Ginghams and woven fabrics are very slow. STOCKS AND BONDS.

Scale of Speculation in Securities Ve Heavy in New York. NEW YORK, Oct. 24.—The speculation the Stock exchange today was on a scale magnitude to which Wall street has long been a stranger. The pent up force held in check by the uncertainty of the financial situation, and which it was expected would not be given rein until the silver question was definitely solved, was unloosened by the Vanderbilt-Maxwell combine in the coal stocks. The acquisition of a Vanderbilt interest by the coal roads was looked upon as going far toward placing the shares of these companies in a position from which they might be taken out of the purely speculative list and given an investment charac-

When the fact became known that William K. Vanderbilt was already a large holder of Lackawanna and was in touch with the Maxwell party in New Jersey Central the street took a great deal more for granted and at once figured out great futures for the stocks of all the coal roads. Reading was made a center of attraction and large blocks of the stock changed hands. The sales of these shares alone aggregated over 118,000 and were taken in heavy blocks. Lackawanna, which opened at a decime or r per cent, fell off 3 per cent more on the early dealings, recovered 11/4 per cent, reacted 414 per cent, rallied 414 per cent and declined I per cent, closing at a decline of 314 per cent from yesterday. New Jersey Central opened at an advance of 1 per cent. but quickly declined 23/ per cent, closing 1/4 per cent above the lowest quotation made and 11/4 per cent below yesterday.

Sugar was the feature of the general list. While fairly active in the fore noon it was not until the afternoon that the great movement therein took place. Opening at last night's closing price, 97%, the stock gradually dropped to 97%, then moved up slowly to 99%, receding to 98% at noon.
Then came a very strong buying movement, professedly based on the certainty of the passage of the silver bill.
As the shares moved toward par a remark of James R. Keene, made some time ago, that he would put the stock up to 100, was recalled, and that was taken as the probable limit of advancement, but the stock did not lag a moment on the century mark, but on brisk buying moved to 104%, an advance of 7 per cent from the low level of the morning. This great movement in Sugar was attended by considerable excitement. Sugar pre-ferred did not follow the variations of the common, but rose 2 per cent on light busi-

The general market was irregular during the morning hours, but became strong in the afternoon. The chief advances were: Lead preferred, 5½ per cent; Evansville & Terre Haute, 4 per cent; Pittsburg & Western preferred, 3½ per cent; St. Paul preferred and Minneapolls & St. Louis common trust

receipts, 2 per cent.

The Post says: The street was kept well advised today of the situation of affairs at Washington by means of frequent bulletins Washington by means of frequent bulletins received by brokers and news agencies, and the reported surrender of the silver democrats gave material assistance to the upward movement in stocks. The prospect of any movement on the repeal bill was halled with general satisfaction, and had it not come at a time when the market was dominated by special controlling influences it would have had a more marked effect on the dullness. But the buil movement in stocks held the attention in a large measure and a somewhat wild attempt to measure and a somewhat wild attempt i run up stocks on the strength of good news proved disastrous to those who engineered it and caused a bad break from the top figures at the close. The general feeling is that the situation at Washington is clearing and the effect on speculative values will be excellent. OMAHA LIVE STOCK MARKETS. Cattle Trade Improves Somewhat-Hogs

Brisk and Higher-Sherp Steady. TUESDAY, Oct. 24. Receipts of all kinds were fair today and for the two days supplies, compared with the first two days of last week, show an increase of about 2,000 cattle, 2,000 hogs and 2,000 sheep.

The fresh supply of cattle was about the same as on last Tuesday, but holdovers ran the figures up to not much short of 6,000 head. There was the usual scarcity of desirable beef cattle. Offerings included very few cornfed steers, either good or bad, and the westerns were largely made up of fair to poor stock. There was a very good demand from the dressed beef men, and with encouraging reports from Chicago the mar-ket was reasonably active and fully steady on all suitable offerings. Fair to very good 1,150 to 1,400-lb. cornfed steers sold readily at from \$4.25 to \$4.70, while western rangers sold largely at from \$3 to \$3.65. The movement was tolerably brisk throughout, and a

good clearance was effected.

There was no particular change in the cow market. Between forty and fifty loads were offered for sale and buyers gathered them in freely at full Monday's prices, common to freely at full Monday's prices, common to very good stock selling at from \$1.40 to \$2.55, largely around \$1.90 to \$2.25. The calf market was indifferently supplied and prices were firmly held at from \$1.75 to \$4 for common large to good veal stock. Rough stock at around \$1.50 to \$2.25 was about steady.

The feeder market was a trifle dull, but good to choice stock sold at strong prices, while easier prices ruled on the ordinary grades. A good volume of business was transacted and largely at from \$2.55 to \$3.15. Good to choice feeders are quoted at \$3 to \$3.50, fair to good at \$2.60 to \$3, with common and inferior stuff at around \$2 to \$2.50. and inferior stuff at around \$2 to \$2.50. Hogs-The fresh supply was the largest in nearly a month, but with a good market in Chicago and a good demand here trade was active and prices averaged all of a nickel higher than Monday. There were lots of good heavy and mixed hogs here, but the lighter weights were generally of rather in

ferior quality.
Packers were good buyers, but the most active demand came from the fresh meat men, while the larger receipts and improved quality of the offerings brought out a good shipping demand and nearly 1,500 hogs were bought for eastern slaughterers. The popular price was \$6.35, and from that up to \$6.45 was paid for the better grades without regard to weight, while from \$6.25 to \$6.35 bought the poor to fair light and mixed packing grades. It did not take long to clear the pens, the market closing strong at the advance. Sales were mostly at from \$6.30 to \$6.40, as against from \$6.25 to \$6.35 Monday and from \$6.25 to \$6.35 on last Tuesday. Representative sales:

Chicago Live Stock Market.

Chicago, Oct. 24.—The cattle markets are pretty generally satisfactory to sellers. For Tuesday there was a good demand, and, with a supply of little more than 8,000 head, the previous day's advance was easily sustained, indeed, there were more desirable offerings and sellers generally got a tritle better prices than were baid for similar grades the day before. The increased strength in fat steers was due in part to the limited offerings of that sort and tartly to the advance of 12c in the London market yesterday. The supply of natives of all grades did not exceed 4,000 head, and the greater part of that number was only suitable for the local trade. Prices below \$5 bought most of the stuff, though extra grades were quoted as high as \$5.50. Cows mostly sold at from \$2.75 to \$2.95, and from \$4 to \$5 were the prices at which the bulk of the steers were bought. The 2,500 westerns offered were taken on a basis of from \$1.75 to \$3.50, and from \$1.50 to \$3.50 was the range for Texas. The general market looked strong at the close.

The hog market was active and yesterday's Chicago Live Stock Market.

advance was firmly held. Prime heavy grades sold at from \$5.65 to \$6.70 and fancy light sorts made from \$5.85 to \$6.90. From these prices sales ran along down to from \$6.25 to \$6.30 for poor light, but there was very little business below \$6.25, the quality of the offerings averaging good. Less than \$3,000 head have arrived since Saturday as against 46,590 for the same time last week. Shippers are taking nearly one-half of the current arrivals, leaving comparatively a steall number to be divided up among local packers. It is to the continued activity in the shipping demand that sollers are indebted to whatever strength the narket has developed of late.

Good to choice sheep fairly active and showed firmness. Poor and common grades were as dull and weak as at any time since the price began to drop. These conditions also prevalled in the lamb market, good to extra grades selling strong and poor stuff being neglected at former low prices. Quotations for sheep range from \$1 to \$3.75 and for lambs at from \$2.50 to \$4.75.

FIRST OF THE FALL. Danotas and Minnesota Get a Nice Snow

Storm St. Paul, Oct. 24.—The first great storm of the fall in the northwestern states began vesterday, and it is snowing all the way from Bismarck to St. Cloud. The storm is moving rapidly eastward and will be full over Wisconsin. Reports to the signal service indicate that there has been a big drop in temperature, amounting in some places to over 40°, sending the mercury far below the freezing point.

The cold wave extended to the Dakota and Montana boundary, where the mercury went down to 149 at Bismarck it was 179, and east of there it ran up to freezing point. A snowfall of one inch in depth is reported from eastern Dakota and western Minne-
