Rather a Quick Upturn Given Wheat Yesterday on the Strength in Stocks.

PRICE AT THE CLOSE WAS QUITE FIRM

Corn Was Strong on a Very Light Business Early and Dull and Heavy Toward the Close-Stocks and Bonds.

CHICAGO, Oct. 26 .- A quick upturn was given wheat today by the strength in stocks and some good buying, supposed to be for export, at New York. The price at the close was firm at a recovery from yesterday's closing prices of about 1/c. Corn was strong on a very light business early, and both dull and rather heavy toward the close, which was, however, at from 1ge to 1ge improvement over yesterday's closing prices. Provisions were firm toward the end, following early weakness, with packers marking up October prices. Closing quotations are 121ge higher for January pork, 71ge bigher for January lard and the same advance in January ribs.

Wheat at the opening was about the same as yesterday's close, and then eased off about %c, became firm, and prices were advanced from %c to 1c, held steady and rather firm, and the closing was at the top figures. The tame feeling at the start was influenced by fair offerings, with no special demand. At the higher prices there was bome little realizing by the early buyers and continental cables came in lower, excepting Antwerp, which was steady. The Cincin-

Antwerp, which was steady. The Cincin-nati Price Current crop summary reported a favorable week for the advancement of the wheat crop, and added that the position ap-peared to be better than a year ago. The wet weather, tending to curtail re-ceipts, made the shorts in corn anxious. Offerings were not very free and the com-petition temporarily advanced prices from the the improvement there was a We to ic. At the improvement there was a little realizing from miscellaneous sources and prices soon receded again from Mc to %c, closing quiet. In oats the light arrivals helped values

easily, but the increase for tomorrow caused weakness later. May advanced 3/c on the bulge. The offerings soon increased slightly and as the demand fell off prices receded be

of 1%c. Provision prices were weak at first on reported lower prices for hogs and became

Estimated receipts for tomorrow: Wheat, 130 cars; corn, 445 cars; oats, 216 cars; hogs, 21,000 head.

The ninoteen will sin operation ground 225,340 bbis, against 226,730 bbis, the week before. It is reasona-ble to expect that the present week's make of flour will show a small increase. There was considerably freer buying of flour last week, but it applied mainity to domestic trade. Ex-port trade is light. The advance in wheat of yesterday livened up the demand for flour orders tiled at old prices. The direct export bilgments by the mills hast week were 65,635 bils. against 58,900 bbis, the preceding week

STOCKS AND BONDS.

Rumors of Washington Legislation Guite a

Factor in Speculation. 'NEW YORK, Oct. 26 .- The Washington advices were not entirely favorable this morning to an immediate vote on the silver bill, nor was the London market for American securities encouraging, and yet the early dealings on the Stock exchange were in the main characterized by strength. There were occasional reactions, but up to noon the general tendency of prices was upward. Shortly after this hour, however, the speculative temper began to experience a change and there were evidences that a realizing

and there were evidences that a realizing movement was in progress. The commission houses which yesterday had practically all buying orders were on both sides of the market today, and selling orders were perhaps more numerous. A good deal of outside buying has been done during the past two days, and in which many of the purchasers appear to be satisfied with the profits already shown. Realizing sales be-came quite heavy during the afternoon. The volume of this business was larger than it volume of this business was larger than it would otherwise have been by reason of the reports that Senators Allen and Peffer had concluded to continue the fight in the senate on the old tactics. It was this unexpected on the old factics. It was this unexpected element of danger that entered into the question that swelled the sell-ing movement of the afternoon and unsettled the speculation. In many in-stances the entire early improvement was lost and the figures reached a figure below yesterday's prices, but the greater part of the list relatined part of the morning's ad-vance at the close the close being fairly the list retained part of the morning's ad-vance at the close, the close being fairly steady at a fair recovery from the lowest point, but at a decline of from $\frac{1}{4}$ @2 per cent from the best figures of the day. The prin-cipal changes compared with the final sales of yesterday are: Lake Shore, $\frac{13}{4}$ per cent; Delaware & Hudson and Erie, preferred, $\frac{13}{4}$ per cent; Sugar and Northern Pacific, pre-ferred, 1% per cent; Union Pacific, Louisville and Nashville, 1 per cent; Reading and Bur-

and Nashville, 1 per cent; Reading and Bur-lington, ½ per cent. Advances: Michigan Central, 3½ per cent; Chicago Gas, 2% per cent; St. Paul, preferred, and Pittsburg & Western, pre-ferred, 2 per cent; Colorado Fuel and Iron, New York, Chicago & St. Louis, 1% per cent; Illinois Central, 1% per cent; Lead, preferred, 1½ per cent, and New Jersey Central and Oregon Improvement, 1 per cent.

The Post says: Several more than usual The Post says: Several more than usual divergent factors combined to make up the day's market. First in point of time was the renewal of enthusiastic buying based on the certainty of the silver law's repeal. Purchases were mainly for professional account, and a large proportion of them rep-

ereigns went to First, and £102,000 in bar pold was sold, the latter for New York by the Lazards. The bank's supply of eagles is be-leved to be small, hence the firm price. The price of bar gold in the open market is a frac-tion above 78s. Silver is 33 7-16d and weak. Rupee paper is down to 65% on the trilling decline of indian exchange. Issue is announced of £2,000,000 six minths India treasury bills. This will absorb that floating money in the market. Discount rates, however, have risen very sharp y. The best opinions agree that America will take fittle more gold. Americans localing. The feeling is hopeful. The foreign market was flat, bus recovered.

Attacks on Washing-Powders

don't affect Pearline. Pearline is a washing-compound, in powder form, to be sure, but quite a different thing. It's made so

that it acts upon dirt as nothing else will, but can't possibly WASHING do any harm to substance, hands or fabric.* POWDER Soap-makers are advertis-

ing against washing-powders, claiming that they ruin the clothes. They're more than

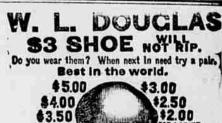

half right. But chemical analysis and the experience of millions of women prove that Pearline hasn't the power to harm clothes that soap has. • And it saves all that ruinous

rubbing that you have to use with soap, besides. Beware you an imitation, be honest-ierd it back. Peddlers and some unscrupulous grocers will tell you. "this is as good as" or "the same as Pearline." IT'S FALSE-Pearline is never peddled, if your grocer sends JAMES PYLE, New York.

All the electric lines are completely idle, with the exception of the interurban, and the cable trains are moving in a desultory way, many of the men there having refused to go out while their comrades are on striko and some of the new men imported from. Chicago and elsewhere being scared. Superintendent Goodrich says the com-pany today discharged sixty men in Mfa-neapolis and 110 in St. Paul, all in good cause. He adds that no one was discharged because of unionism.

Receipts of Grain at Buffalo.

BUFFALO, Oct. 26.—Enormous receipts of grain at this port for the past ten days have resulted in congestion. The grain could not be sent out as fast as it came, partly because of the scarcity of canal boats and because the railroads allowed their cars to become scat-tered when comparatively few of them were needed during the summer.

NEW YORE, Oct. 26. Although the develop-ment of the dry goods market is alow, the changes are for the better and a more cheer-ful view of the general situation is steadily

resented the buying in of shorts. On the other hand there was pretty heavy selling from the same general quarter, originating partly with the room operators taking their profits on the past few days advance, and partly with room traders selling short on the usual theory of a reaction. This movement governed the market of the afternoon. All of these elements enter in a greater or All of these elements enter in a greater of less degree into every upward movement, but each was in turn remarkably intensified today. Speaking, however, from a dis-tinctively Stock exchange standpoint it may safely be affirmed that the largest Wall street interests have not encouraged the encouraged the movement. present upward movement. This is not prohably the reason why many

of the most influential commission houses have advised against large purchases. Probably the repeal vote will be followed by a more rapid downward movement, yet the year's experience certainly suggests an equally quick upward reaction later on. The factors previously ignored in the silver bullion trade have been developed since the col-lapse of June. One is the greatly increased Asiatic demand for silver at the lower price; the other the speed with which the Ameri-can production can be normally adjusted to the demand. Both must be reckoned in with the forecasts for the future. The governing committee of the Stock ex-

change at its meeting last evening added securities to the par value of \$8,335,100 to the list of dealings, including \$277,100 additional to Louisiana new 4 per cents of 1894, making the total amount of this issue listed \$1,833,-700. The following are the closing quotations of

Cattle Supply Light-Trade Steady-1 Active but Unsettled.

THURSDAY, Oct. There was a fair average run of all k of stock today. During the past four there have been received 19,404 cattle, 2 hogs and 5,019 sheep, as against 21,760 cattle, 16,712 hogs and 1,331 sheep for the corresponding four days of last week.

Receipts of cattle were very little over half as heavy as on last Thursday and there was no change in the general quality of the offerings, common range cattle largely pre-dominating. The demand was fair from local slaughterers and for anything at all useful the market was quotably steady. Owing to the inferior quality of the offer ings and the indifferent tone to eastern ad vices trading was slow and draggin throughout, but there was little of any con acquence unsold at the close. The cow market was tolerably active with

prices steady to a shade stronger. Offering did not include over thirty cars and the qual ity, as a rule, was nothing extra. Fair to good butchers' cows and heifers sold readily at from \$2 to \$2.35, while \$1.50 to \$1.9 bought most of the common and canning grades. Veal calves were in good demand and firm at from \$3.50 to \$4.25, with common large stock unchanged at from \$2 to \$3. Common to choice bulls, oxen and stags sold

at fully steady prices from \$1.50 to \$3.50. Stockers and feeders as usual made up the pulk of the fresh supply, while the pens were full of stale stock. The trade was moder-ately active and prices practically unchanged. Fair to very good stock met with a good de-mand and prisk sale at from \$2.75 to \$3.25, while the fair to poor stock, which made up the bulk of the offerings, went at from \$2.65 down.
