Special Money Losing Linen Sale.

The linen stock is too large-over \$40,000.00 cold cash tied up in linens, which don't pay these hard times. Our last fall importations just arrived. We have also heard about these special linen sales around town, and have heard of the low prices that have been made, and we fully realize that in order to reduce this immense stock of linens, we will be compelled to make prices away down, lower than ever quoted in order to get a big rush after our lipens.

There are two important facts we wish you to take notice of: First, we buy our linens direct from the maunfacturers and in larger quantities than any house in this city. Second, we don't sell goods on credit or long easy payments, but for cash only, our prices will confirm this, while our stock in sight will settle the first fact.

It is utterly impossible to do justice to our stock in this advertisement as we will not be allowed the space, but will give a few facts.
