COMMERCIAL AND FINANCIAL

Predictions of Lighter Receipts at Primary Points Strengthened Wheat.

WAS FEVERISH AND IRREGULAR

Corn Opened Easier Owing to an Excess of Forty-One Cars Over the Estimate of Yesterday-Stocks and Bonds.

CHICAGO, Nov. 3.-Predictions of lighter farmers' delivery in the north and west did. much to sustain wheat today. The market was feverish and irregular within a range of Me and closed without change. Since yesterday the price is but 16c higher for

Corn made a gain of 16c on buying by shippers. Oats only secured about 1-16c improvement, but ruled firm all day.

Provisions experienced an increase in business at a moderate advance in prices. Wheat operators, to a large extent, seemed to feel that with the growing confidence in the financial future and with prices low the weak side of the market offered the best prospect for improvement. Opening weak, spots made quick rallies, sold from ke to to lower than yesterday, declined 14c, then rallied and with some fluctuations prices were advanced from %c to %c for December and ic for May, then eased off and the close was steady from 14c to 3c from the top figures. Advices were more or less contra-dictory from the northwest inte in the day regarding deliveries, but the general senti-ment appeared inclined to give the first reports most credence.

Corn opened easy owing to an excess of 41 cars in today's receipts over yesterday's estimates, and also because of the easier feeling in wheat at the opening. Subsequently it responded to the changes in the wheat market. May dropping 34c below the open-ing with the weak reports in wheat, but ralhed on light estimates of future receipts, and closed firm at top prices. At the opening the evidences were for a lower market in oats, but good buying orders and the firmness in corn helped the

The provision market, on receipts of but The provision market, on receipts of bit 16,000 hogs, opened strong. The Cudahy Packing company was said to have covered some shorts near the opening, and until liberal sellers appeared the price showed no tendency to decline. Compared with last night pork shows a gain of 5c, lard 10c, and ribs 2 4c. Estimated receipts for tomorrow: Wheat,

New York Dry touds Market.

New York, Nov. 3.—Business is by no means justifying the expectations of the trade, which has been looking for a revival of activity following the repeal of the Sherman law, and the uncertainties regarding what congress may do before its final adjournment. The trade, it is now apparent, is much more afraid of tariff tinkering than it ever was of the silver question. The recent builtsh overtures seen in the cotton market and the talk of high prices for

raw material is making the market in cotton goods firmer as a matter of sympathy, but any prospect for higher prices does not influence the buyers to anticipate their wants, so widespread is the fear of unfriendly legislation. Frinting cloths show a firmness at 2.5-16c for 64 squares. Prints and printed fabrics are very firm and a shade higher without activity. Ginghams and woven wash fabrics suitable for the spring trade are attracting more attention; dark colors are avoided. Dress goods of light texture and complexion are commanding better attention, but stocking up for the spring trade demand is not what it ought to be at this time of the year. Foreign dry goods are quiet, except as to holiday novelties and strictly spring goods. The jobbing trade is quiet and featureless.

Omaha Produce Market. BUTTER—Choice butter, that is, butter that is good enough to take the place of creamery sells very readily and is scarce. Fancy creamery, 27428c; good creamery, 25028c; fair creamery, 23024c; fair to good country, 18020c; packing stock, fresh, 15c.

Eggs—Receipts of fresh stock are not large, fair there goes not amount to be any

in fact there does not appear to be any quantity of eggs in the country. The mild weather that has prevailed the greater part of the fall makes the egg market drag. Cold storage eggs are being offered freely on the market at 19c. A few strictly fresh eggs are going at 20c. Poutray The receipts of chickens are large

and the packers are offering only 6c. Sales to the local retail trade, are made at the saine price. The demand, however, is good at 6c Old hens, 6c; chickens, 6c; geese 7@8c; ducks Sc. turkeys, 839c.

STOCKS AND BONDS.

Volume of Business on the Exchange Stead-

New York, Nov. 3.—The volume of business on the Stock exchange has been steadily decreasing during the week, and today transactions were the lightest since Saturday last. The market seems to be lapsing into the hands of the traders, and the dealings are characterized by that irregularity which marks the movement of the purely professional speculative element. upward movements made simply for the purpose of getting fresh starting points for new attacks thon values. At the opening of the day all indications were for a strong market. London buying orders were quite heavy. American securities were higher on the London Stock exchange and there were the London Stock exchange and there were a number of good orders to buy Louisville & Nashville and Chicago, Burlington & Quincy, the latter stock being favorably affected by reports of increased net profits for October, and the road being in better repute by reasons given of the terms of the purchase of the Chesapeake & Southwestern.

During the day the statements of the St.

Baul and Rock Leland relivends for October

Paul and Rock Island railroads for O tober were published, showing net increased earnings for both. A decline in sterling ex-change was another favorable item going to furnish excellent conditions, but the trend of speculation was bearish, and the trend of prices was to a lower level. Operators for a decline were more numerous than the buyers, and they used the few points on their side of the account to the best advantage. It was reported the ways and means committee of the house had decided to reduce the duty on sugar, and this was used as a lever to move the shares of the American Sugar Refining company down 35 per cent, during which prices a large number of shares changed hands. An ineffectual drive was made in Distilling, on the ground that the stock of distilled spirits

had been reduced to a point that would pre-

vent the company from reaping any substantial benefit from an increase of tax. Chicago orders came in to sell the grangers. The market opened strong, an advance of from 3g to 1 per cent, and a further rise was recorded in the general list to from 14 to 135 per cent while Lackawanna made a jump of 3 per cent. But the improvement was of brief duration, and under free selling the gains before noon But the improvement was of brief duration, and under free selling the gains before noon were entirely lost in all cases, while in some instances prices had declined below last night's figures. Shortly after 12 o'clock the pressure to sell was renewed, and a partial recovery took place, the market continuing fairly firm for about an hour, then a new selling movement wasorganized, which, however, was shortly met by some good buying, which checked the reaction and introduced a firm tone into the dealings once more, bringing about a recovery which at the close had reached from ½ to ½ per cent, in which General Electric, Chicago Gas, Burlington, Denver & Rio Grande preferred, Rock Island and St. Paul were most prominent. The market closed firm, but at prices from ½ to 2½ per cent in Chicago Gas; 1½ per cent in Canada Southern; 1¾ per cent in Canada Southern; 1¾ per cent in Manhattan, Tobacco, Cotton Oil and Rubber; 1 per cent in Pittsburg & Western preferred and Lead preferred, and ½ per cent in Western Union.

The cattle market was a very satisfactory one as far as it went. On the few really de sirable cattle here prices ruled pretty close to a dime higher than Thursday, while all grades sold readily at substantially stronger prices. A couple of bunches of commonish cornfed beeves sold for \$4.15 and \$4.35 and some common warmed-up, half-fat stock brought \$3.40 to \$3.60. Very few of the western grass cattle were fit for beef, but prices ruled firm at from \$3 to \$3.50.

recling was firm throughout and a good and early clearance was effected.

There was between 30 and 50 loads of cows on sale and they changed hands briskly at firmer figures all around. Prime fat cows sold up to 83 and an old pelter or two sold as low as \$1.50 Fair to good. two sold as low as \$1.50. Fair to good butchers' cows sold largely at from \$2 to \$2.40. Calves were firm at from \$1.50 to \$4.

No change in rough stock.

Business in feeders was booming. Offerings were restricted, but the demand seemed untimited. Prices ruled 10c and 15c higher than Thursday, particularly on the commoner lighter grades. These latter are in great demand now to rough through the winter. In general the feeder market is 25c to 30c higher than it was a week ago. Good to choice feeders are quoted at \$3.20 to \$3.60, fair to good at \$2.75 to \$3.10, with common and inferior at \$2.25 to \$2.75. Representative sales:

Chicago Live Stock Market.

Chicago, Nov. 3.—The receipts were not above the average for a Friday after all. The unusually large runs at Kansas City and Omaha Wednesday warranted the expectation of very full receipts here for today, but only about 8,000 head showed up. This made a total for the last five days of 66,396 head, which is 7,000 head less than for the same time last week, 9,000 less than in 1892 and 11,000 less than in 1891. As night be supposed, the market made a further gain in strength. There was nothing in the shape of a bullock that could not be sold for as much money as was realized for similar grades on Thursday, while offerings that nossessed any good points at all were picked out at a small advance. There were about 3,000 native cattle of all kinds. They sold principally at from \$1.35 to \$2.85 for cows, helfers and bulls and at from \$3.40 to \$4.35 for steers. The receipts of rangers amounted to 5,000 head, 2,500 each of westerns and Taxans. Both were firm and in good demand.

There was continued firmness in hogs. The existence of a good local and shipping demand enabled salesmen to empty the pens carry and at an average advance on yesterday's prices of 5cp per 100 tbs. Choice heavy and medium weights sold around \$6.40, and equally good Chicago Live Stock Market.

prices were paid for fancy light weights. Ruyers continue to discriminate against lots averaging much over 800 lbs. the preference being for averages from 180 to 300 lbs. The quality of today's offerings was good, and probably three-fourths of the sales were at 16.20. The recelpts were estimated at 16.000 head, making 98.413 head for the week as against 121.518 head for the same time last week.

Although the last week's receipts were about 114.000 head less than the number received during the previous week there has been very little improvement in prices. Good to prime fat wethers have shown considerable strength all week, but poor and common grades were neglected even at former extraordinary low prices. There was less inquiry from freeders, and at times the accumulations amounted to several thousand head. The range of sales was from 31 to 33.90 for inferior to fancy. Comparatively few lots brought as much as \$3.50, the bulk going below \$3.15—a large part at from \$2.50 to \$3. There was a firm market throughout the week for lambs.

Receipts—Cattle, 8,000 head; calves, 1,000 head; hogs, 16,000 head; sheep, 8,000 head.

The Evening Journal reports:

CATTLE—Receipts, 5,000 head; market active and strong; rough, \$5.90g6,00; mixed \$6,10g6,630; heavy and butcher weights, \$6,356,50; light, \$6.40g6,45.

ALBANY, Nov. 3 .- On Tuesday in this city the National Academy of Science will hold its meeting to prepare the annual report for presentation to the government. The occasion will also mark the opening of the new Dudley observatory, which it is expected will be completed at that time.

The Academy of Sciences was incorporated by an act of congress during its administration of Lincoln. It is under the control of the government and is compelled by law to make each year a report to congress in which is embodied papers and treatises upon the latest discoveries and developments in science. The academy will meet in the assembly parlors in the capitol, and will continue for three days.

Little pills for great ills: DeWitt's Little Farly Risers. Asks for a Receiver.

COLUMBUS, O., Nov. 3.-The Farmers Loan and Trust company of New York city has asked that a receiver be appointed for the consolidated Welston Coal & Iron company of Ohio, which it is alleged has defaulted in its interest on \$5,000,000 worth of bonds since April 1, 1888. The property was transferred by the company to Francis Hinckley of Chicago, who promised to pay the interest on the bonds and take care of the principal, but, the petition says, he has not done so. Several well known men and corporations are interested as defendants.

CATARRH ... IN CHILDREN

For over two years my little girl's life was made miserable by a case of Catarrh. The discharge from the nose was large, constant and very offensive. Her eyes became inflamed, the lids swollen and very painful. After trying various remedies, I gave her trying various remedies, I gave her the seemed to seemed to aggravate the disease, but the symptoms soon abated, and in a short time she was cured. DR. L. B.
