Delong's mission celebrated the second anniversary of its birthday last evening at the rooms on Bryant street. Mr. Delong gave an interesting account of the work since it was begun, and also told of the work of the Girls' Industrial school, which has done a great deal toward educating young girls of poor families in the domestic arts. A great work has been done by Mr. Delong in his mission, and he deserves the hearty co-operation of the citizens in his efforts. Pleasant Indications

Doctors Are Negligent. Deputy County Clerk Fenion has just compicted his list of marriages, births and neaths for the year ending November I, which will be sent in to the State Board of Health as provided by-law. The totals for the year are as follows: Marriages, 583; births, 320; deaths, twelve. The above figures on deaths do not represent the actual number of deaths that have occurred during the year by any means, but the number of docyear by any means, but the number of doctors who have animation enough to walk to the court house or to the mail box and let the clerk know of deaths at which they have officiated. There is no penalty for violating this duty, or if there is there never has been an attempt made to visit it upon any one who tailed to comply with the law, so that the vast number of deaths are never reported. Thus the desire of the State Board of Health to collect statistics to be recorded for future generations to sook at is rendered of no effect.

DAILY BEE NEWS FROM COUNCIL BLUFFS

Board of Supervisors Completes the Official Canvass of the Election Returns.

HAZEN AHEAD ON THE SHOWING SO FAR

Throwing Out Two Precincts Lands Him

safe with a Plurality of Fifty-

Scanlan Serves Notice of a

Contest at Once. The Board of Supervisors took another turn at the official count of election returns vesterday morning, and succeeded in completing its operations at noon. At that time Hazen had an advantageover Scanlan of fifty

votes, secured by the throwing out of two

precincts in the city, the First of the Third ward and the First of the Sixth. About an hour of the early part of the morning was taken up with the discussion of the question of expunging that part of the minutes relating to the request of Scanlan's attorneys that the judges and clerks in the First precluct of the Third ward might be allowed to come in and complete the work they had left undone by signing their names to the returns. It was finally decided not to allow that part of the proceedings to appear in the records, and with that exception the

minutes were approved. On motion of S. B. Wadsworth the returns from that precinct were thereupon ordered thrown out and disregarded in making up the results, and right there Scanlan lost a majority of forty-seven votes. J. J. Shea then called the attention of the board to the fact that in the Waveland township returns Scanlan had been credited with seventy-four votes, while the count of the tally sheet showed that only seventy-three had been marked down.

Evidence of Unprecedented Incompetence Another chunk of grief, though not quite so large a one, struck the Scanlan forces when the returns of the First precinct of the Sixth ward were opened and it was found that C. R. Nicholson was the only judge whose name appeared anywhere on record. None of the others

had been sworn, and not one of the judges or cleras had attested the re-turns in any way, shape or manner. They had even shown their utter incapacity for membership of any election board by forget-ting to make out the bill for their services, a thing which, so far as known, has nover been done by any election board that ever sat. In this precinct Scanlan had a majority of two votes and the democratic board ac-

of the one preceding.

After the count had been completed Hazen was found to have a majority for sheriff of fifty and Dentler for supervisor of twenty-nine, thus giving both democratic candidates

a safe majority.

At this juncture Scanlan's attorneys filed a request signed by Freeman and Wood, judges, and Metcalf and Dohan, clerks, in the First precinct of the Third ward, asking that they be allowed to come in and sign the reurns. Graham was the only member of the election board whose signature was not affixed, and he, they said, could not be found. County Attorney Organ was called upon for his opinion as to what was the duty of the board and upon his recommendation the request was refused. a safe majority.

the request was refused.

Among the other queer things that have come to light as the result of this election was one in James township. According to th clerk's books there were but 176 rosidents of the township whe voted, but the count dis-closed the fact that 179 votes were cast for the three candidates for sheriff. Where those other three ballots came from is the question that is in vain hunting for an

Scanlan Will Contest. During the afternoon the members of the Board of Supervisors were served with notices of a contest that was started by J. M. Scanlan, the defeated candidate for sheriff. The count was objected to in every township and preciact in the county, and the usual allegations were made with reference to the incorrectness of the work of the judges and clerks of election. This contest will be before the Board of Supervisors, as provided by the Australian ballot law-Every ballot box will be opened and every vote for sheriff will be counted all over again, and the results of the recount will de-termine who shall be the next sheriff.

William Wallace Pounds the Cocoanut of a Haled Rival Who Bad His Girl.

A young man name Limerick has had a ireadful headache for the last twenty-four hours, all because he tried to win the affections of a couple of sidewalk nymphs on whom William Wallace, who drives a back for William Welch, has claimed to have a first mortgage. The two girls went to the meeting of the

Salvation Army Monday night, as usual, Salvation Army Monday night, as usual, and while there picked up Limerick, who started to accompany them home. Things wentswimmingly until they reached Seventh street near the railroad tracks. There an apparition suddenly appeared, consisting principally of William Waliace and a large ax handle. It was evident that something was about to drop and it did not take more than an hour to discover what it was. First the ax handle dropped, and then dropped Limerica. handle dropped, and then dropped Limerica. The blow struck him on the left side of the head, just above the ear, and almost knocked him senseless. The last sound that greeted his ears was a feminine cackle as the two fatthless ones walked off coolly with Wal-lace. When Limerick had meditated long enough he picked himself up and went home. He filed an information charging Wallace with assault and battery, and Wallace was arrested yesterday morning. When corted to the police station he remarked: "If dere's any geeser wot tinks he kir skate off wid me mash I'll show him differ

Mrs. Kessler, who has been working at the home of F. E. English, at 1103 Fourth avenue, went to the doctor's office yesterday afternoon to consult him with reference to a sore throat. He told her that instead of having an ordinary case of sore throat she had an acute of diphtheria. He told her not to go back home, as there were four little children at the house and there was danger of their catching the disease. St. Bernard's hospital was telephoned to, nut the sisters refused to take her in, she being a county patient. She had no other place to go, so for nearly an hour she walked the streets waiting for something to turn up. City Physician Macrae got on her track after she had been walking the street awhite and put an end to her wanderings by putting her in the patrol wagon and sending her to the hospital, where she is her not to go back home, as there were four

now receiving treatment. Those who knew of her being at large so long were consider-ably excited at the danger of her starting an epidemic. An officer was sent to the house where the woman had been living with instructions to placard it and quarantine the inmates.

DOESN'T LIKE THE KANGAROO.

Convict Jenkins' Complaint is Brought to the Ears of Judge Woolson. A man named Jenkins was released from the county jail a few days ago, after serving a short sentence for stopping a fast mail train in Wapello county. He was tried at the last session of federal court and was sentenced to spend thirty days in jail. When he got out he went to the office of Clerk Steadman of the federal court and registered a complaint as to the carryings on that are allowed within the jail walls.

The main cause of his dissatisfaction was the "kangaroo court," which is held upon every new arrival at the jail. One of the prisoners is chosen judge, and the sancti-monious air with which he presides would do credit to judges of much higher jurisdic-tion. The new arrival is brought in to his august presence, put on trial, invariably found guilty, and given his choice of two punishments—first, to furnish 5 cents worth of tobacco to every prisoner, or, second, to submit to being larruped with a stout leather strap, applied where it will most surely recall beyhood's days. The temptation is very strong for a man, when convicted in the "kangaroo," to "dig up." in case he has anything to dig, but where he is out of money the other alternative has to be

Jenkins did not claim to have been hurt excepting in his feelings. On the contrary, he is of a build that would strike terror to the average kangaroo justice, and he gave the officer of the law who sought to larrup him such a dressing down that the court was moved to waive all its rights in the proceed ings. One of his tormentors was pasted up against the cell wall, another got two black

against the cell wall, another got two black eyes and a third saved his bacon by fleeing indiscriminately.

But Jenkins' plaint was caused by the treatment one of his fellow prisoners received, a man named Charles Dixon. He claimed he was covered all over with black and blue spots as relies of his collision with the outraged justice of the kangaroo court. Jenkins succeeded in making such a strong plea that the matter was laid before Justice Woolson, who, on receipt of the information, sent back instructions to Deputy Marshal sent back instructions to Deputy Marshal Richards and M. M. Parkinson, collector of revenue, to investigate the charges. If the treatment accorded the government prisoners is as bad as Jenkins claims, it is thought in federal circles that Judge Wool-son will order all of them taken away from the county jail, where they have been kept for the past year, and sent to the county jail at Keokuk or Des Moines.

Frank Wilbert of South Omaha Puts the Officers on Track of His Swag. Frank Wilbert, who was arrested in this city Monday night for stealing \$220 from the safe in Hans Lindberg's saloon in South Omaha, made a full confession yesterday morning. He made a stubbora resistance but after ne had found there was no safety in flight he made the best of the situation, and when the officer who came over after him had put him under the pump he made a clean breast of the affair.

He not only admitted taking the money

and skipping to this side of the river, but he even told the officer that he threw it away while running from Officer Weir. Provided no one else had found it he said the roll could be found where he dropped it, in the rear of Bosen's carpenter shop on North Main street.

Officer Austin of South Omaha brought his prisoner to this side of the river early yesterday morning and together they made the search, resulting in the discovery of the roll of \$220 in bills tied up with a string. The officer and the prisoner left for home at 5 o'clock yesterday morning.

"Shadow" Maber, the Australian, made a
fine showing against Needbam in eight rounds and easily had the best of it.

Tommy Ryan expressed his willingness to meet Danny Needham, of whom he was reputed to be afraid, in a twelve round tussle by the middle of December. Needham was in the ring when the announcement wa nade and promptly accepted the challenge.

CRIME IN HIGHPLACES! It is

not strange that some people do wrong through ignerance, others from a faiture to investigate as to the right or wrong of a matter But it is strange that individuals and firms, who are fully aware of the rights of others, will persist in perpetrating frauds upon them. High-toned, wealthy manufreturing firms will offer and sell to retail merchants, articles which they know to be infringements on the rights of proprie tors, and imitations of well known goods We want to sound a note of warning to the retailers to beware of such imita-tions and simulations of "CARTER'S LIT-TLE LIVER PILLS." When they are offered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. \$250 up to \$500. Exhibition at the Academy.

The inaugural exhibition under the auspices of the Omaha Athletic academy was given last evening in the presence of s fair sized crowd of spectators. The evening's card began with a boxing bout be tween, Prof. Guiwits of the academy and one of his pupils, James Holmes. It was quite spirited, and the eleverness of Mr. Holmes was greeted with much applause. Following this event was a bout at French boxing, or savatte, between Prof. Denis of the academy and M. Deubier, a pupil. This is unique athletic exercise, being boxing if the term is permissible, with feet. The contestants were gloved, but never strike a blow with the hands, all execution being done with the feet. Some of the professor's gyrations were laughable in-deed, and a good many vigorous kicks on various parts of the anatomy were given and taken with a skill that was really marvel. taken with a skill that was really marvelous. The next number was an exhibition
with the foils by Prof. Denis and Sig. Edwardo Mullen, and was really an artistic
treat. The professor is a finished fencer,
while Mr. Mullen evinced sufficient dexterity
to show that he has in him the making of a
master-at-arms. The evening's show wound
up with a bout between Prof. Denis and Dr.
Debspher with the single-stick. Both gentlemen are adopts at this style of self-detlemen are adopts at this style of self-de fense, and their miraculous maneuvers, agil ity and endurance were fully appreciated by frequent bursts of "bravos" from the delighted spectators.

## Native Born Americans

THIS IS FOR YOU.

Foreign immigration has crowded you off the farms and is now crowding you out of the industrial occupations.

Your boys can't get a chance to learn trades or secure situations without competing with the drift of all nations.

Washington is the New England of the

It has a million of ten acre farms for you.

Its capital is developing them for your boys. 10 acres is enough,

We don't have to irrigate.

We don't have to fertilize.

Trees grow on the land ten feet through and 300 feet high.

We clear it off for you and plant, grow and insure your fruit trees,

An acre of this land will produce per annum; 50 bushels of wheat.

300 bushels of potatoes

800 bushels of onions.

1000 bushels of apples. 40,000 lbs. of prunes.

1000 boxes peaches. 6000 lbs. of hops.

A ten acre farm will surely give an income of \$3,000 a year and a gentleman's life.

The farming of the future is to be like trade, each man to his specialty. The rickety wagon and rope tied harness

with its mixed load of truck must go the way of all useless things. We make a speciaty farm ready for you at a

price which one full crop will pay. We know no failures.

There is no chance for failure in our plan.

There is a manly independence on every one of these farms. No country on earth recovers so quickly from disaster as France, and its power is in its small farmers who keep out of debt. Once paid for a small fruit farm has no need for debt.

Installment payments and no forfeitures.

Our excursion goes Nov. 20th on the Oregon train leaving U. P. Depot at 2:15 p. m.

Parties making up clubs in Columbus, Grand Island, Kearney and North Platte, please telegraph D. H. Stearns, Omaha, Saturday noon, how many go so that we can provide sleeping car accomodations.

Each subscriber for twenty acres is entitled to go.

Any combination of subscribers for smaller farms amounting to twenty acres, entitled to send one representative.

Each subscriber may take as many acres as is desired, from one to twenty.

Payments for this excursion are fixed as follows: \$10 per acre with subscription, \$20 per acre January 1st, and \$20 per acre April 1st withot interest. Trees planted in January and February and contract issues April 1st, annual payments from that date annually.

See circulars and application blanks, obtainable at the Bee office, the Union Pacific city ticket office, 13th and Farnam, D.V. Sholes .Co., 1st National Bank building and of D. H. Stearns, Paxton Hotel, or of Schriver & O'Donohue, Paxton Hotel block.

This is a chance of a lifetime. Our present offer can never be duplicated. The party that went out two weeks ago were delighted. See their report in the folder.
