Coming Contest of the Election Results by Candidate Scanlan Under Discussion.

NO DATE FOR THE HEARING IS SET YET

Chairman fletzel Says He Will Fix the Time Soon-Talk of Starting Suit Against the Delinquent Judges and Clerks.

The Board of Supervisors is still in session, but little business of any public importance was transacted at yesterday's session. Nothing has been said about the time for making the recount of votes for sheriff, but Chairman F. G. Hetzel, in conversation, stated that he would announce the time be fore the close of the present meeting. The chairman is by law made judge of the contest, and the title of "judge" is applied to Mr. Hetzel by his friends with a good deal of gusto, but Mr. Hetzel, with characteristic modesty, demurs to the unwonted honor, although he would willingly sccept an addition to the \$4 per diem which the law allows for the services of the judge, were such a thing possible. Each of the candidates will select a man who will occupy

the bench with him during the recount. One of the best attorneys in Council Bluffs, and one who is not in the slightest degree interested in the outcome of the sheriff's fight saye as a private citizen, stated to a reporterdast evening that in his opinion a suit for damages against the judges and clerks of election whose incompetency or worse resulted in all this difficulty would ite and that the plaintiff would stand a good show for a judgment. It is not likely that any such action will be brought, from the fact that neither candidate could bring a suit for damages against any of the judges or clerks without implicating men of his own party and thus make political enemies who might be unbandy at some future time. It might be well, however, to waive party feelings and show men who are selected for these responsible positions in the future that they must be more careful in the performance of the daties which are imposed upon them by law when they accept the appointment. degree interested in the outcome of the the appointment.

THAT KANGAROD COURT.

Sheriff Hazen Gives a Description of the Mysteries of the Urliter.

The fact that Judge Woolson had comnenced an investigation of the workings of the "kangaroo court" as it exists in the jail of Pottawattamie county made interesting reading about Sheriff Hazen's office yesterday, and THE BEE was in considerable demand. The sheriff and his deputies are very naturally anxious not to have it appear that the prisoners have been in the habit of indulging in any rough business that was likely to result in the injury of any one of them, and they lay considerable stress upon the fact that an institution of this kind is to be found in nearly every jail in the coun-

to be found in nearly every jail in the country.

"The kangaroo court is a decided advantage," said Sheriff Hazen yesterday afternoon in a conversation on the subject, "as a means of preserving discipline. The prisoners adopt their own rules, most of which have for their object the keeping of the jail in as clean a condition as possible. They have a regular system of fines, which are levied upon any one who willfully fractures the rules, and when a prisoner breaks the rules and cannot or will not pay his fine they give him so many 'cobs,' as the blows the rules and cannot or will not pay his fine they give him so many 'cobs,' as the blows with the strap you referred to are called. There have been fights among the prisoners in the two years of my term of office, but I can say positively that they have never been the outgrowth of the 'court.' Nor has any one been hurt. I have been very careful to see that no hard blows were given, and if there had been any undue force used I should have heard of it, for the injured man would certainly have complained to me. There has never been a complaint."

There has never been a complaint."

Jenkins, the ex-convict who made the complaint which was carried to Judge Woolson's ears, is at present serving out a fiteen-day sentence on the chain gang for pounding up a friend of his immediately after being re-leased from the county jail, to which he had been sentenced in United States court.

been sentenced in United States court.

The sheriff's men intimate that this whole agitation has been started by some of the United States officials, who have been deprived of a portion of their fees by the new plan which was adopted some months ago of the state of plan which was adopted some months ago of having men who were sentenced to jail or who were being kept in custody while await-their hearing kept in the Pottawattamie county jail instead of some jail half or all the way across the state. The officers referred to formally had to trot the prisoners back and forth anywhere from one to half a dozen times, and for every trip they received 12 cents mileage, which altogether made a neat sum. The local officers think the United States officials would like to see the old scheme reinstated and have begun these proceedings in order to cast the Pottawattamie jail into disrepute. Whether their claims are correct or not, the whole matter will undoubtedly be sifted to the bottom before Judge Woolson gets through with it, and if they have been wrongfully charged they will be experented.

It has a million of ten acre farms for you.

Its capital is developing them for your boys. 10 acres is enough,

We don't have to irrigate.

We don't have to fertilize.

Trees grow on the land ten feet through and 300 feet high.

We clear it off for you and plant, grow and insure your fruit trees,

An acre of this land will produce per annum; 50 bushels of wheat.

300 bushels of potatoes

800 bushels of onions.

1000 bushels of apples.

40,000 lbs. of prunes. 1000 boxes peaches.

6000 lbs. of hops, A ten acre farm will surely give an income

of \$3,000 a year and a gentleman's life. The farming of the future is to be like trade,

each man to his specialty. The rickety wagon and rope tied harness with its mixed load of truck must go the way of

all useless things. We make a speciaty farm ready for you at a price which one full crop will pay.

We know no failures.

There is no chance for failure in our plan.

There is a manly independence on every one of these farms. No country on earth recovers so quickly from disaster as France, and its power is in its small farmers who keep out of debt. Once paid for a small fruit farm has no need for debt.

Installment payments and no forfeitures. Our excursion goes Nov. 20th on the Oregon train leaving U. P. Depot at 2:15 p. m.

Parties making up clubs in Columbus, Grand Island, Kearney and North Platte, please telegraph D. H. Stearns, Omaha, Saturday noon, how many go so that we can provide sleeping car accomodations.

Each subscriber for twenty acres is entitled to go.

Any combination of subscribers for smaller farms amounting to twenty acres, entitled to send one representative.

Each subscriber may take as many acres as is desired, from one to twenty.

Payments for this excursion are fixed as follows: \$10 per acre with subscription, \$20 per acre January 1st, and \$20 per acre April 1st withot interest. Trees planted in January and February and contract issues April 1st, annual payments from that date annually.

See circulars and application blanks, obtainable at the Bee office, the Union Pacific city ticket office, 13th and Farnam, D.V. Sholes Co., 1st National Bank building and of D. H. Stearns, Paxton Hotel, or of Schriver & O'Donohue, Paxton Hotel block.

This is a chance of a lifetime. Our present offer can never be duplicated. The party that went out two weeks ago were delighted. See their report in the folder.
