Big Increase in the Visible Supply Demoraligad Prices.

WHEAT OPENED ABOVE SATURDAY FIGURES

Later When it Was Discovered that the Indicated Supply Was Nearly One Thousand Bushels Heavier than Anticipated Quotations Declined.

CHICAGO, Nov. 20.-The big increase in the visible supply, fully 1,000,000 bu, more than was expected, was a depressing factor in the wheat market today, but was partially offset by the reasonably large clearances. Increase on ocean passage was light at 688,000 bu. Northwestern cars were light nt 1,475.

When the market had its break Singer became a buyer of May. Severens became a buyer of December. Corn closed firm and without change, after ruling weak for the greater part of the day. Provisions were very weak, but recovered toward the close, in anticipation of an early heavy decline.

Wheat opened about 4c above Saturday's close, became weak and prices declined %c, railled 3gc, receded 3gc, advanced 3gc and closed within 3gc of the top figures. The stronger opening was influenced by better English cables and the market weakened on the prospect of a rather liberal increase in the visible supply, but there was no pressure to seil and a firm feeling developed. Corn at the start was a little firmer, room traders buying, anticipating that wheat would do better, but early strength was of short duration, as the offerings increased and the price gradually sagged down ige, the bearish attitude of shippers and re-revivers, together with the bright, cool weather, being too much for the bulls and the market had little support for a while. Wheat sold off on anticipated large receipts. At the decline there was some buying to

At the decline there was some buying to cover shorts and the price rallied \$\frac{3}{6}c\$ and at the close had gained from \$\frac{1}{6}c\$ to \$\frac{1}{4}c\$.

There was a moderate trading in oats, weak feeling and the market declined \$\frac{3}{6}c\$ early, but later when the other grains railled, oats followed and prices reacted from \$\frac{3}{6}c\$ to \$\frac{1}{6}c\$ and closed steady.

In provisions there was some firmness early on lighter receipts of hogs than expected and better prices at the yards. The offerings began at once and as on previous days there was no support. Pork broke most, with a siump from \$12.85 on the most, with a slump from \$12.85 on the early buige to \$12.22% and a rally of 20c to \$12.42\frac{1}{4}\$ for January at the close. January lard sold at \$7.82\frac{1}{4}\$ down to \$7.70 and rallied to \$7.65. Ribs, January, sold down from \$8.70 to \$6.42\frac{1}{4}\$, closing at \$6.72\frac{1}{4}\$.

Estimated receipts for tomorrow: Wheat, \$270 cars; corn, 600 cars; oats, 285 cars; hogs, \$18.000 bead.

18,000 head.

Duluth Wheat Market. Duluth Wheat Market.

Duluth, Nov. 20.—The market opened firm and unchanged for cash wheat and \$\frac{1}{2}c\$ above Saturday's close for May. There was large and active trading early for cash stuff at the opening figures. Prices sagged off \$\frac{1}{2}c\$ but recovered under good buying to the opening quotations before noon. Trading in fatures was fair for December and active for May at irregular and fluctuating quotations, declining \$\frac{1}{2}c\$ for December and \$\frac{1}{2}c\$ to May, recovering \$\frac{1}{2}c\$ on both up to noon. The market ruled dull during the afternoon hour, but was very

Minneapolis Wheat was steady at the opening, but shortly after began to run down and fell 14c, which group was little regained. The receipts were 618 cars, which exceeded expectations. The demand for spot wheat was active and prices were moderately well sustained; reports from the country showed that there was considerable increase during the week. It was 425,000 bu, approximately, making the country supply above 5,000,000 bu, now.

Farmers will continue to seil moderately while the roads are open, it is said, and stocks may continue to increase for a few yeeks. That is usual each year until December and often later. The early break supplied a basis for fresh buying, which sent the market up fully 1c from the bottom. The market up fully 1c from the bottom. The market for track wheat was active, but millers were indifferent when it came to the outside prices. The tendency was to fall rather farther below than to draw toward May prices. Prices opened at the close of Saturnay. There was no feature to the trading. It was not active, and from the start was inclined to be duil. The visible wheat increase was above the estimate, and the appirent tendency was for a weaker market, when there was a sudden check interposed in the clearances from four ports, which, with flour, showed about 520,000 bu, sent out. In the other news there was instant improvement and the scalping operators bought sufficiently to work out the rally, but little attention was paid to the December. The opening was at 56%c and the close at 56%c. These were the lowest and highest prices. May opened at 52c and closed at 62%c. It sold up to 62%c and down to 61%c. There was no trading that attracted attention. Track closed: No. 1 hard, 60c; No. 1 northern, 58%c; No. 2 northern, 56%c. Shipments, 44 cars.

Flour is very duil. Few only of the lake lines take new business. Buyers decline to pay the increas

STOCKS AND BONDS. Business in Securities Was Light and the

Speculation Uninteresting. NEW YORK, Nov. 20.-The business on the Stock exchange was light and the speculation uninteresting. Contrary to expectation, in view of the Lehigh strike, the market opened strong and advanced slightly in the early dealings. There was some buying for discount in the arbitrage specialties and covering of short contracts made up the bulk of local buying. Before long the purchasing movement lost its force and the dealings be came feverish and irregular. The industrials sagged of and then railled, the railway list being fairly well held except Reading, which was sold down on the possibility of its being affected by the strike.

Before II o'clock the temper of the specuation became firm again and an advar from ½ to 1½ per cent was recorded, the latter in Sugar, but shortly after that hour a drive was made on Distilling. On selling orders which came from the west, accompanied by rumors of tariff changes less favorable than had been anticipated, that stock gave way to the extent of 24 per cent and the rest of the general list fell off 4 to 1% per cent. General Electric and Sugar being most prominent in the decline. A slight most prominent in the decline. A slight rally followed, but during the first par: of the afternoon the market again became heavy and still lower prices were made. The depression continued to the close, being broken semioccasionally by slight railies in the late dealings. American Cotton Oil lost 3 per cent. Lehigh and Wilkesbarre 3 per

cent, Distilling 134 per cent and St. Paul & Duluth 1 per cent, the other losses being fractional.

The Post says: Most people looked today for a break in prices on the news of the Lehigh Valley strike. This expectation was more natural in that present financial relations between the railroads generally and the workers on their pay rolls are at the point of great mutual irritation. Yet the stock market opened calmly and at once proceeded to advance. The price of Lehigh Valley stock, which is not dealt in on the New York exchange, fell several points. Outside of this there was no sign that the fractional Outside of this there was no sign that the

WESTERN FARM PRODUCTS. Senator Peffer's Interesting Report Nearly

Ready for Submission. WASHINGTON, Nov. 20 .- The senate subcommittee on agriculture is at present engaged by different ways in gathering data and preparing reports upon the prices of farm products in accordance with a resolution of the last congress authorizing an investigation of this question, and it is probable a partial report will be submitted early in the approaching session. There are two subcommittees, one of them

composed of Senators George, Bate and Proctor, dealing with cotton and another composed of Senators Peffer, Roach and Washburne, who have charge of the grain and live stock branch of the loquiry. Senator Peffer has been devoting the pres-ent congressional interim to the prepara-tion of his report, the facts for which were gathered during the recess of last spring and summer. He has collected some very interesting information bearing upon the depreciation of prices of farm products of the west and the general condition of the farmers of that section and expects to have his report in shape to submit early in the regu-

The report upon cotton is not far advanced. The scope of the inquiry concerning this industry unbraces both the farmer and the manufacturers and Messrs. George and Bate are at present engaged upon the lar session. branch of the inquiry connected with cotton productions, confining their work, as a matter of course, to the cotton producing states. When they shall have completed this line of investigation they will be joined by Senator Proctor and will proceed to the cotton manu-facturing districts of the New England and other eastern states. The report will probably not be ready to submit to congress for

OMAHA LIVE STOCK MARKETS

Week Opens with a Stiff Run of Cattle of Indifferent Quality.

The following are the closing quotations of the leading stocks on the New York ex-change today: PRICES ON BEEF STEERS ARE STRONG

> Common to Poor Grades Are Selling Weaker-Hog Supplies Light and Prices Advanced in Response to a Strong Demand.

MONDAY, Nov. 20. Receipts were about up to the average for a Monday-heavy of cattle and light of hogs. There were 183 fresh cars of cattle received, the quality as a rule rather inferior. The liberal offerings, the generally inferior quality of the offerings and the bearish tone to eastern advices all had a depressing effect on the trade, and while the few really desirable cattle here commanded about steady prices the general market was slow, weak and lower. Fair to very decent cornfed steers sold at from \$4.15 to \$4.60, and westerns, good enough for beef, brought from \$3 to \$3.75. The market for the common and inferior grades was dull and dragging from the start and the close found quite a few cattle still in first hands.

Cow stuff was in fair supply and demand,

prices ruling about steady with Saturday as to good stuff and a shade easier as to the common and inferior kinds. Sales included poor to choice cows and heifers at from \$1.50 poor to choice cows and helfers at from \$1.50 to \$3.05, with the bulk of the fair to good butchers' stock at from \$2.10 to \$2.75. Calves at from \$1.25 to \$5 were fully steady, and rough stock at from \$1.30 to \$2.25 showed no particular change.

The feeder trade was practically dead, Supplies were unusually heavy, but hardly enough trading was done to establish quotations. There exists a very manage country decrease a very manage country decrease.

thous. There was a very meager country demand, and regular dealers still have their large stocks on hand, which they are unable to work off, even at current low values. Good to choice feeders are quoted at \$2.85@ 3.30; fair to good at \$2.50@2.80, with inferior to fair grades at \$2.00@2.40. Representative

But twenty-three loads were received. There was no shipping or speculative de-mand, but as Chicago was reported higher and the hogs were all needed for the fresh meat trade buyers paid the advance and cleaned up the supply in short order. The

range was narrow. One price, \$5.35, bought all the good hogs without regard to weight. Pigs sold for \$5.15, and a few common mixed packing loads went at \$5.25 and \$5.30. was almost a \$5.35 market, over two-thirds the offerings selling at that figure, as against \$5.20 and \$5.25 on Saturday and \$5.60 to \$5.65 on last Monday. Chicago Live Stock Market.

Chicago, Nov. 20.—Today's receipts of cattle were estimated at 19,000 head, a pretty large supply for the time of year, though not larger than for the corresponding day last year or in 1891. However, there were too many cattle for the demand and the general market was weak. It was ratle lower for native steers of common to good quality, those grades comprising the bulk of the offerings. There were less than 5,000 rangers, and the proportion of native cows and bulls was smaller than usual. The opening was slow and this condition prevailed to the close. Native steers were quoted at from 5c to 10c lower than last week, while for other descriptions prices ranged about as before. Sales of natives were mainly at from \$1.85 to \$2 for cows and bulls, and from \$4.15 to \$5.10 for steers. Extra 1.500 to 1.700-1b steers might have brought from \$5.75 to \$5.95, but there was nothing here good enough to bring those prices.

EXERT 1,000 to 1,700-1b steers might have brought from \$5.75 to \$5.95, but there was nothing here good enough to bring those prices.

Higher prices were paid for hogs. They opened from 5c to 10c above Saturday's quotations. The receipts, early in the day estimated at 28,000, panned out only 24,000. That is about 5,000 head less than for last Monday, 2,500 less than a year ago and 23,000 less than two years ago. There was a lack of briskness in the demand, but there were buyers for a larger number than was offered and the close was steady. The choicest heavy—lots averaging over 300 lbs.—sold around \$5.60, while there were sales of choice needium and light as high as from \$5.65 to \$5.70. The greater part of the stuff brought better than \$5.25, though the quality was scarcely "up to grade." There was a big run of sheep—something like 18,000 head coming over the various roads. That was about twice as many as there were orders for and as a natural consequence the market was weaker. Good to choice wethers sold close to last week's prices and choice lambs were not materially lower, but common to fair sheep and lambs were slow at a decline of from 10c to 15c. The close was bad, as there is a prospect of full receipts for the next few days. Quotations were from \$1 to \$3.25 for inferior to common sheep, from \$2.50 to \$2.90 for fair to medium and from \$3 to \$3.75 for good to choice. Lambs were quoted at from \$2.90 to \$4.90.

Receipts: Cattle, 19,000 head; calves, 800 head; hogs, 24,000 head; sheep, 18,000 head.
