THE OMAHA DAILY BEE: SUNDAY, NOVEMBER 26, 1893-TWENTY PAGES.

Local Conditions Show Little Change During the Past Week.

COLLECTIONS ARE STILL FAIRLY GOOD dobbers in Certain Lines Report a Satisfac-

tory Trade, While in Other Lines it is Admitted that Trade is Not What it Ought to Be.

As was noted a week ago the volume of business in a jobbing way appears to have settled down to a steady thing, and such

changes as occur from day to day are not of a very marked character. More than that, the general opinion appears to be that there is not likely to be any very great change in the condition of the jobblag trade for some little time to come. It is anticipated of course that there will be a decided gain in the retail trade as the holiday season approaches. This improvement is already seen in the retail trade of the city, while the jobbing business in all seasonable lines is better than it was at the commencement of the month.

Jobbers, as a rule, report goods of a seasonable character in very fair demand, and some even go so far as to claim that their business is very satisfactory since the weather turned colder. In certain other lines, which are not so much affected by cold weather, the reports are not so favorable, trade not being up to what it was a year ago at this time. Taking the condition of the whole country into consideration, business is perhaps as good as could well be expected. One thing appears to be pretty well established by the reports received, and that is that the jobbing business of Omaha is in better condition than that of most other western cities.

most other vestorn cities. While the clearings of the past week were not quite up to the point reached the pre-vious week, they show a decrease of only 4.3 per cent, as compared with the corre-sponding week of last year. The cities to the south of Omaha, that is, Kansas City, St. Joseph and St. Louis, are making leven a better advantage in the matter of dearings St. Joseph and St. Louis, are making leven a better showing in the matter of clearings than Omaha. As compared with the north-ern citles Omaha is still way in the lead. Minneapolis shows a falling off in the clear-ings, as compared with last year, of 18 per cent; St. Paul, 18 per cent; Milwaukee, 30 per cent; Sioux City, 27 per cent. The de-crease for the whole country is 13 per cent, showing that Omaha is can ideality bettop showing that Omaha is considerably better off than the general average of cities, in this respect at least.

This respect at least. Business men who are prone to study figures and speculate as to their meaning and general bearing on trade are trying to determine just now what inferences can be drawn from the completed statement of the comptroller of the United States as to the condition of the national banks, which has come to hand during the past few days. The come to hand during the past few days. The most striking feature of this report and the one that may cause some surprise is the fact that the banks instead of gaining in deposits after August, when the bank failures ceased, continued to show a decrease, as was brought

out by the reports of October 3. In the following abbreviated statement the last three returns of the comptroller, showing the condition of the banks in the more important items on the 4th of May, the Toth of July and the 3d of October, are com-pared, the figures given representing mil-lions. There is added a statement of the decremes or increase for the different periods intervening between the statements. and as the withdrawals from banks of the reserve cities were in character quite different from those which occurred at other points, a separate statement is added show-ing the amounts reported by all banks out-side the reserve cities at the different periods and also their aggregate of changes:

CONDITION OF OMAHA'S TRADE Local Conditions Show Little Change During solicited in the following seductive terms: "Bo you find your bank makes a number of little charges against you-for check book, for collection of out-of-town, western and southern notes, checks and drafts; premum for currency or pay roll, etc? They are small items, but they count up. In these matters the facilities of the national bank are unexcelled and a sav-ing is made to its depositors of these ing is made to its depositors of these amounts. Boston ought to do conservative banking and this bank is more than half a century old. "I seem to have fallen in with bank critic

this week for still another pusiness man said he found Omaha drafts the exception now where they used to be the rule. Remittances

where they used to be the rule. Remittances to his house come in New York, Chi-cago, St. Louis and even Sioux City exchange rather than Omaha. He thinks the Omaha bankers have been shortsighted in establishing stringent and picayunish regulations and shutting off legitimate solicitation in the interest of rival lowns interest of rival towns.

interest of rival towns. "Some way the trade will not quit talk-ing about the clearing house rules and the fact is the bankers themselves keep up the discussion. The older members of the asso-clation say they have always done too much for nothing and a change can just as well be made now as any time. They vigorously defend their course, both at present and during the panic. They point to Omaha's bank record for thirty years as the best evi-dence that her bankers understand their dence that her bankers understand their business."

NEBRASKA'S CASH.

Complaint About Withdrawals from Omaha Banks Without Reason.

Omaha bankers have been commenting considerably of late upon the recent withdrawal from the national banks of the city of state funds. It is claimed by them that Omaha has not had a fair proportion of the state's money, and now the amount of state funds on

has not had a fair proportion of the state's money, and now the amount of state funds on deposit here is less than at any time previous. One banker says it does probably not exceed so. This sudden taking of the funds in question from Omaha and South Omaha has, it is said, worked ruinous inconvenience to one of the bankers and was done at a time, too, when there was no good cause for it, because for the bankers and year of the funds in our provide the state treasury had just been replenished by the state treasury had just been replenished by the state treasury had just been replenished by the state treasury had just been they are of the discrimination which, some of the bankers say, has been habitually practiced by the authorities against the banking institutions of Douglas county and in favor of the discrimination which, some of the bankers way has been habitually practiced by the authorities against the banking more credit of the discrimination which, being more bank the funds the order recently issued of the state treasurer and other officials have the state treasury department providing that further the bank of the state treasurer and other officials have the state treasury department providing that further hovember 27 the charges for the traasurer of the United States for redemption for the United States for redemption to be paid by the party making the asting of some magnitude to the governer of the United States for redemption of the state, are been all by the party making the asting of some magnitude to the governer of the United States for redemption of the state state states are done to the transformer of the United States for redemption to be asting of some magnitude to the governer of the United States for redemption of the state are one with the state state treasury department providing that the soft and the state of the united states for redemption of a the state state state state states are done of the state sta

COMMERCIAL AND FINANCIAL Wheat Closed a Fraction Higher Yesterday on Good Buying.

CORN WAS DULL WITH LITTLE DOING ----Both Offerings and Demand Light and

Fluctuations for May Were Confined to a One-Fourth Cent Limit.

CHICAGO, Nov. 25 .- Wheat closed from %c to %c higher today on good buying, strong cables, light northwestern receipts and better export clearances. Corn and oats and provisions were dull and without any noticeable change in prices.

Wheat opened at yesterday's closing figures. Northwestern was again lighter, convincing the buils that they were right in their surmise that receipts would continue to decrease until they reach a very small daily total, and prices from the start were firm. Charley Smith and Pardridge made liberal offerings, and at one time May went's below the open-ing, but the tendency was upward throughout the day. Cables came in strong and export clearances from both coasts were about 120,-000 bu. larger than the preceding week. The New York contingent bought freely, using most of the private wire houses of Brosseau. Ryan and Rumsey-Chandler also had liberal buying orders. The price continued to advance until May reached 60% c and December 62% c, and the reach a very small daily total, and prices

The price continued to advance until May reached 604c and December 62%c, and the close of both was but %c from the top. May opened at 68%c, went up 1%c, lost 1%c ad-vanced 1%c, lost %c and gained 1%c to the close at 60%c. Corn was dull with both offerings and de-mand light. The fluctuations for May were confined to a limit of 1%c and both opening and closing figures were the same as yester-day's close. May opened 39%c, sold up 3%c, advanced 1%c, and reacted 1%c to the close, where it opened. In the oats market buyers were few, offer-ings scarce, and values confined to, a range

In the oats market buyers were lew, offer-ings scarce, and values confined to, a range of 3c. May began 3c below yesterday's close, 30%c, sold up 3c, lost 1c, reacted 3c to the close, where it did yesterday at 30%c. Provisions were quiet, but firm. The market was sustained by the strength in wheat and corn. Compared with last night wheat and corn. Compared with last night January pork is 2% higher, January lard, 2% higher and January ribs 2% higher. Estimated receipts for Monday: Wheat, 105 cars: corn, 425 cars; oats, 100 cars; hogs,

STOCKS AND BONDS.

Speculation Less Active in Securities for a While Yesterday.

eleven months' increase will not fall far short of 100,600 head. NEW YORK, Nov. 25 .- There was quite active speculation on the Stock exchange during the two hours of business today. In the early dealings a very firm tone prevailed. Sugar was about the only week share on the list. The buying was mainly local, for London was out of the market, prices being about on a parity in the arbitrage specialties, but the purchasing movement was quite steady and under its influence the active list moved up 1/4 to 31/4 per cent. About 11 o'clock the market became heavy, largely on realizing sales and from then until the close the speculation was feverish and the tendency of prices was reactionary, and the final dealings were made at a decline of 11/2 percent in General Electric, 1 per cent New Jersey Central and 1@ ín % per cent in the rest of the general

list. Sugar was weak and was pressed for sale on the uncertainty regarding the proposed tariff. Opening at a decline of 1/2 per cent, the shares fell off 3 per cent additional, closing at a recovery of 5% per cent. In-siders are reported to have bought the stock on the decline. The general market at the close was weak, but a majority of the grades went at from \$1.10 up to \$1.85. Good veal calves have ruled firm all week, and sold today at from \$4 to \$5. Common large stock and yearlings have been in indifferent demand and lower at from \$1.75 to \$3. The market for rough stock was not very brisk and prices were not more than steady at the recent decline, poor to choice bulls, oxen and stags selling at from \$1.40 to \$3.

The changes in the list on the transactions of the week so far as concerns the railway stocks are generally toward higher prices, the principal advances being: Delaware & Hudson, 5% per cent; Delaware, Lacka-wanna & Western, 2% per cent; New Jer-sey Central, 3% per cent; Reading, 1% per cent; St. Paul & Omaha preferred, 5 per cent; St. Paul & Omaha common, 2% per cent; St. Paul & Omaha common, 2% per cent; St. Paul, 2% per cent; St. Paul pre-ferred, 1% per cent; Northwest, 5% per cent; Nortwest preferred, 1 per cent; Burlington & Quincy, 2% per cent; Rock Island, 3% per cent; Lake Shore, 2% per cent; Michigan Central, 3% per of the week so far as concerns the railway

values continued to go down, there was a sharp rally during the latter half of the week, and closing prices average fully 15c per cwt. better than last Saturday. The fact is the bears started their campaign too soon. No one looked for big receipts before the mildle of December at the closest, but hors were too high the way provisions were selling, and a slight builge in receipts led packers to think that the big run had com-menced and they began hammering menced and they began nammering prices. They pounded out a 50c decline last week, but with present light supplies the tables were turned and prices went back a few notches, and unless recelpts increase sharply they are liable to advance a few notches further before Jan-uary 1, although in the very nature of the unty i, although in the very nature of the case lower prices soon are inevitable. The shipping demand has been very light, as is usually the case at this season of the year, when eastern packers can get what hogs they want cheaper nearer home. The fresh meat demand, however, is improving and light and butcher weight hogs have good back to a premium over the heavy weights. Went Up a Nickel.

15

of game, poultry and oysters in the mar-kets at present, the demand for dressed beef has been somewhat diminished, and as a result beef on the noof has had to sell lower. The first to feel the effect of the decreased demand were the half-fat of the hogs. Representative sales: and short-fed native cattle, and these in

PIGS AND ROUGH. 135...148 200 5 00 4....110 --- 5 00 Sheep Trade Brisk.

SHEEP-Receipts of sheep have increased overywhere and there has been a corre-The trade today was peculiar. In the first place the fresh supply was the lightest in sponding decline in values. There has been a good demand from all local houses, but with over three months or since August 18, when a moderate demand and while the fair to more than ample supplies buyers have been able to get all the sheep they wanted at prices averaging 15c to 25c lower than last week. There was a fair run today and a moderate demand. Buyers claimed to be bidding strady when but welaw best grades and dull and slow on the common a bidding steady prices, but sellers could not see it that way and rade was slow. Fair to good natives, \$2.50@ stuff. Fair to pretty good natives sold any-where from \$3.25 to \$4.35, with one very good bunch of steers at \$4.75, and inferior stuff down to \$2.50. A few small bunches of 3.30; fair to good westerns, \$2,25(3,15; com-mon and stock sheep, \$1,50(c2,25; good to choice 40 to 100-lb, lambs, \$2,50(a4.00, Repwestern rangers went at from \$3.10 to \$3,40. There seemed to be a very fair undertone to the trade but under the present conditions it resentative sales: will take continued limited supplies to sus-

Chicago Live Stock Market. Chicago, Nov. 25.—The estimated receipts for today were 25,500 head of cattle, mak-ing 73,555 for the week, against 59,658 for las week and 63,030 for the corresponding week last year. Receipts for the first 25 days of this month show a loss as compared with the same time last year of 32,000 head, and a loss as compared with 1891 of 21,000 head. There was little or no demand today and the few sales reported were at lower prices. More than half of the offerings were Texans, the bulk of which belonged to the syndicate. Common to good steers show a decline for the week of 30@40e, and butchers' and canners' stock has declined 15@20e. Cholce and extra steers have changed but little.

Chicago Live Stock Market.

Went Up a Nickel. The market today was active and on an average a nickel higher all around. Some of the good light and butcher grades showed more advance than this on account of the demand from fresh meat men and shippers, while some of the heavy hogs sold little, if any, higher than Friday. The range of prices was wider than it has been lately, running from \$5.25 for rough packers up to \$5.475 for choice light stuff. The big bulk of the hogs, however, sold at \$5.35 and \$5.40, and the meager offerings soon changed nands, although the close was weak. Friday the hogs sold mostly at \$5.30 and \$5.35 and on last Saturday \$5.20 to \$5.25 bought the bulk of the hogs. Representative sales:

"Increase. From this statement it will appear, first, that the decrease in loans during the first period was smaller by about \$53,000,000 than the decrease in deposits, but during the second period the decrease in loans was larger by about \$71,000,000 than the decrease in deposits. This naturally reflects the ability of the banks, after the worst of the panic had subsided, to cause liquidation of a pantc had subsided, to cause liquidation of a part of their loans, and thus to recuperate their reserves, and accordingly it appears that during the latter period the banks were able to add \$31,000,000 gold and \$19,000,000 legal tenders to their cash re-serves, in all \$50,000,000, in place of the \$176,000,000 loans retired. But it will also be seen that the banks outside the re-serve these retired much more than half serve cities retired much more than half the loans thus liquidated, namely \$105,000, 000, while they added only \$4,000,000 to their stock of gold as legal tenders. It also appears that it was from these banks that by far the greater part of the withdrawal of de-posits occurred during the second period, namely \$85,000,000 out of \$105,000,000 from all the banks. In consequence the banks outside the reserve cities must be considered to have effected the liquidation in large measure for the satisfaction of depositors, without adding materially to their available reserves. The same feature appears in both cases, however, that the decrease in loans was smaller during the first period than in deposits, but larger in the second period.

AS DUN SEES IT.

Suburban Prosperity Urban Strength-Criticism for the Banks.

"Omaha people do not fully appreciate the importance of South Omaha to the business interests and prosperity of their city," said Mr. W. H. Roberson, R. G. Dun & Co.'s local manager, when asked for his usual weekly review of trade.

"The great stock yards and packing industries of Omaha's principal suburb have been the very backbone of the city's development during the seven years last past. Indeed, without the employment and traffic of South Omaha, I do not see how Omaha proper could have maintained herself during these trying years. It would be a good idea for old and new citizens to drop down to the packing city about once every three months just to receive the inspiration of hope and the nerve stonic incident to actual contact with genuine business energy. "And this reminds one that ever since I have been in Omaha the forward movement, the steady growth and the stolding more

the steady growth and the abiding pros the steady growth and the abiding pros-perity of this metropolis have come very largely from the energy developed in her two principals suburbs-South Omaha and East Omaha. While there has been a degree of somnolence in the mother city, these two lusty children of her much traduced boom have been therearchip awake accessibility have been thoroughly awake, agressively active and have done a great deal toward keeping the cld lady in health and comfort. If Dundee Place, on the west, had kept up its original pace and Florence, on the north, had been acoust to the been a set of the had been equal to the hopes of its owners, there is no forecasting what growth the city proper might have enjoyed even in dull times.

proper might have enjoyed even in dull times. "Times are not improving much and trade is not as good as it should be. Deposits in the banks are not growing. Banks are not disposed to invite borrowers and the fact is we are still in what a society editor might call the 'doldrums of business,' with only hope bracing us up for the winter. "A very bright business man discussing the situation criticises the banks for part of the trouble. He calls attention to the more stringent rules adopted driving away busi-

the trouble. He calls attention to the more stringent rules adopted driving away busi-ness in towns when city banks should have been soliciting deposits and courting friendly relations with country bankers. He also thicks the embargo should be raised on country checks and especially on those drawn on banks in nearby towns. He has recently opened an account in a New York bank in which he carries a compara-tively small balance. It almost took his breath away to receive notice from this old established banking house that 2 per cent would be paid him on his average daily bal-ances.

"Another business man, speaking on the same general topic, cites the fact that

At the close on last Saturday are: Edison Electric, 2% per cent; Rio Grande Western, 5 per cent; Lehigh & Wilkesbarre, 2% per cent; Cordage, 2 per cent; Sugar and Cotton Oli preferred, 1 per cent; Evansville & Terre Haute, 1 per cent. Distilling closed at the Hatte, I per cent. Distining closed at the same price as on the week before. The Post says: There was considerable selling to take profits on the market today and without noteworthy exceptions. The marked feature of the market was the continuous selling, in the face, moreover, of another heavy break in Sugar. Generally the day's heavy break in Sugar. Generally the day's market indicated that prices had reached the normal high level. The bears are pretty sure at all events to show activity next week. Such news as there was today helped along the upward move-ment. The report of the week's gain in ex-ports showed a larger outward wheat movement than at any time within fourteen weaks and it is four weeks size occur axweeks, and it is four weeks since corn exports have reached their present volume. This may explain the movement. As to the bank statement, that showed again a vast increase in the heaping of idle cash. The surplus now exceeds \$70,000,000. But loans expanded largely, which, under present circumstances, is clearly a favorable sign. The following are the closing quotations of the leading stocks on the New York ex-change today: No. Av. Pr. No. Av. Pr. 11 cows... 890 \$1 50 8 calvos. 122 5 00

large stocks in traders' hands. Prices have improved 15c to 25c on the otter grades, but common light stock cattle are selling in-differently and at unsatisfactory prices. Good to choice feeders are quoted at from \$2.80 to \$3.50; fair to good at from \$2.50 to \$2.80, with inferior to fair grades at from \$2 to \$2.40.

week of 30%40c, and butchers' and canners' stock has declined 15%20c. Choice and extra steers have changed but little. Today's receipts of hogs were estimated at 13,000 head, making 122,000 for the week. This is a decrease from last week's total of 19,500 head, a decrease from the correspond-ing week last year of 42,000 and a decrease as compared with 1891 of 103,500 head. Re-ceipts for the expired part of this month are 60,000 head less than a year ago and 584,000 less than for the same time in 1891. Trade opened active with prices strong, a few choice hogs selling at a slight advance, but the close was po better than for Friday. The receipts, which at first were estimated at 10,000 head, turned out to be some 3,000 head in excess of that number, but they all changed hands at least once. Sales were largely at from \$5.55 to \$5.55, with from \$5.15 to \$5.70 the range of values for merchantable lots. once. Sales were largely at from \$5.35 to \$5.55, with from \$5.15 to \$5.70 the range of values for merchantable lots. The sheep market was lifeless. There was a little trading on a basis of Friday's prices, which were as low as any that have prevailed this year. The range of quotations was from \$1 to \$2.50 for poor to medium and from \$2.75 to \$3.50 for good to choice. Sales of lambs were on a basis of from \$2.75 to \$4.75 for poor to extra, with most of the business below \$4.50, Receipts-Cattle, 25.000 head; calves, 150 head; hogs, 13.000 head; sheep, 1,000 head.
