The coming of "A Trip to Chinatown" to

ANNOUNCEMENTS.

the Boyd brings with it a knowledge that Mr. Charles Hoyt's farce-comedy has excelled, so far as the annals of theatrical history are concerned, all precedents. For 656 consecutive performances it held sway at Hoyt's Madison Square theater, New York. Previous to that the longest runs ever known to a New York theater have been "Hazel Kirke 486 time. "Humpty-Dumpty" 483 times and "Adonis" 603 times. So far as the realms of farce-comedy are concerned the marvelous success of "A Trip to Chinatown" has never been approached. In the producnew for a farce comedy production the Boyd not only will the complete New York cast be seen, but there will be an entire carload of scenery from the Metropolitan theater, and it may be remarked, incidentally, that it is something new for a farce comedy production to require an entire carload of scenery. The company includes Harry Copor, the original "Welland" includes Harry Conor, the original "Welland Strong;" George A. Beane, jr., Julius Whit-mark, George Sinclair, Harry Gilfoll, Frank Palma, John Marbie, Anna Boyd, Effie Chapmy, Sattle Maddern, Nellie Rosebud, Madge Deane. The company also includes the sensational dancer, Bessie Clayton, a young lady whose reputation is national. young lady whose reputation is national. Everyone will remember the enormous success of "A Trip to Chinatown" at the for the past two seasons. It comes this season with a great deal stronger cast, flushed with the triumph of its extraordinary metropolitan success.

Tonight the inimitable comedian. Peter F Dailey and his company, close the present engagement at the Hogday giving the third performance of "A Country Sport," which is in all respects the best comedy that J. J. McNally has yet written. The business at the boyd has been exceedingly large and in-dications point to another big night.

This was supplemented by a statement from City Treasurer Bolln showing the balances in favor of the board in the funds in his charge. Attorney Baxter Resigns.

The resignation of Irving F. Baxter as attorney for the board was read and accepted. A request from the pupils of the Center school to have the name of the school changed to Lincoln school was granted. The resignation of Eldora Silver as a teacher in the Castellar school was placed on file. That of Ora Brown was accepted.

A number of minor estimates for work done on various school buildings were referred for examination.

Kicked Against the Training School. The special committee on a training school presented a lengthy report, which was said over for one week. The report provided that the training school should consist of two departments, one of theory and the other of practice. It should be under the direction of a principal and teachers, who should be under the approximate the property of the conshould be under the supervision of the com-mittee on teachers and examinations. Two practice schools were provided for, to be located at the Mason and Farnam schools respectively. In this connection a communication was read from patrons of the Farnam school asking that the training school be removed. It was claimed that the result of the system had been to encumber the school with inexperienced teachers, and they contended that it was time for some other school to bear the affliction for a while. The secretary was instructed to notify the

Board of Health to abute a nuisance in the shape of a pool of stagnant water in the neighborhood of the Wainut Hill school. The amendment to the rules which was introduced two weeks ago and which limits the powers of the superintendent of build-

ings was taken up and adopted.

Elected Another Attorney. The board then proceeded to elect an atto be succeed Mr. Baxter. An informal ballot was taken, which resulted as follows:

ballot and was declared elected.

The election of a principal for the Windsorschool resulted in a spirited contest between the friends of Mrs. Mary W. Hay and Miss Jennie Salmon. Miss Salmon won on the third ballot. H. G. Yeuel was elected janitor of the

Dodge street school. Gahien Was Reinstated. On recommendation of the committee Jan-itor Gahlen was reinstated as janitor of the Walnut Hill school. Some time ago Gahlen was accused of grinking while on duty and convicted on the testimony of a single witness. Subsequently it was learned that this witness had made an affidavit directly contradicting his testimony before the committee, and consequently the dismissal of Mr. Gahlen was reconsidered.

Misses Devott, McHugh and McGee were elected teachers, subject to assignment. Macleod Files an Answer. The answer of Superintendent of Buildings Macleod to the charges preferred against him was received by the special investigating committee last night. No ac-tion was taken on the document, and its con-

THEY HANDLED THE MESSAGE land's Annual Even Before Congress. The president's message, which was received in Omaha over the Western Union wires, was handled probably as quickly as at any point in the United States. The nessage was started over the wires from Washington shortly after midnight. Four wires were used, and in two hours and three-quarters from the time the first of the 17,000 words was sent the signature of the president was received here. A remarkable feature of the handling of the message was the fact that in the transmission and receiving only one error of consequence was made. The expert operators who did such excellent receiving work at the Omaha end of the wires were Charles K. Craile, E. C. As fast as the message was received here it was put on three wires and transmitted to the Pacific coast, and in thirty-five minutes after the last page had been rewas in San Francisco.

The handling of the message was under the supervision of Night Chief J. H. Owens and his assistants, C. L. Pond and E. H. Farrar, while the fast senders who hurried it on to the coast were William Henderson, J. B. McGrath and B. G. Stoddard. A complaint was filed in police court yesterday charging John Peterson, a grader, with crucity to animals. It is said by people who live near Peterson's barn. Twentyeight and Dorcas streets, that the grader has packed nine mules away in a casement which is hardly large enough to hold four.

Officer Andy Haze investigated and found this statement to be true and further found

that the mules were allowed to go from two

to three days at a time without food or water. When Haze was there Saturday night he found some of the mules so poor

and weak that they could scarcely stand and ordered one of Peterson's men to procure food and water for the animals at once.

Once last summer Peterson was arrested for abusing his mules and was fined \$20 and Most of the plastering on the celling of the northwest upstairs room in the Castei lay school fell to the floor yesterday morning. ganization of a company to put in operation

Plans for the Organization of a New Electrie Light Company. For some months past there has been a quiet movement on foot to perfect the or-

in this city a first class electric lighting and power plant. The scheme has been to operate under the franchise of the old Northwestern company, which has the remnants of a plant located in the Woodman building at Seventeenth and Nicholas streets. At the present time the rights under the franchise are being exercised by the New Omaha Thomson-Houston Electric Light company, which has leased them from the owners. Backing up this proposed enterprise some of the leading capitalists of Omaha. It is asserted that they mean business and that operations are suspended only until such a time as the financial depression had wern off, and more particularly until the Columbian exposition had come to a close, when it was thought electrical machinery could be purchased at a better figure. It is known to the projectors that the contracts with Mr. Whey's company for lighting the streets of the city with are lights ex-pire during the coming year. The first of these contracts was entered into November 26, 1889, and expires on the same date of next year, running its tenure of five years. This contract is the plum, and proyears. This contract is the plum, and provides for 100 arc lights for which the city pays \$175 per year. The other contract was for two years and expires May 31, 1894. It is for seventy additional lights at \$140 per year. As these contracts alone represent to the company a revenue of over \$30,000 per year, and as they expire shortly, those behind the new enterprise propose to be in the hind the new enterprise propose to be in the field and enter into competition with the present company for the street lighting con-

tracts when they are again awarded.

In addition to these two contracts Mr.
Wiley's company has had a contract to profour arc lights for the High school grounds at \$18 per month. This contract was for two years and expired February 15. 1890. The same company also had a rich plum in its incandescent lamp contract with the city, entered into November 1, 1891, which run for two years and expired November 1 of the present year. This contract, however, was never enforced and was a dead letter. It provided for furnishing not less than 700 incandescent lamps of 20-candle power at \$20 per year for street lighting. Summed up as a whole the contracts which an electric lighting concern would be able to secure with the city would bring in a reve-nue of at least \$48,000 per year, and this at modern pricees and far below those paid to

The projectors of the new enterprise propose to enter into competition with the present company and bring about a reduction in prices that will prove pleasing to the patrons of electric light plants. They assert that a big reduction will surely come and cite that in hundreds of American cities and towns the cost of electric lighting is far below what it is in Omaha. For instance, Fredericton, N. B., has just entered into a contract for arc street lamps for ten years at \$35 per year: Carmi, ill., for thirty lights at \$30 per year; Albany, Ore., at \$10 per month; Richmond, Va., at \$90 per year. David City, in this state, is paying only \$100 for its lights per year. By the first of the year it is expected that the company will be in shape to make known its identity and what it expects to accomplish.

Fillmore County's Sheriff on the Rack-Indun Agent Beck's Case. Sheriff Summers of Fillmore county accompanien by Messrs. Carson and Donisthorp, some attorneys and the coroner will appear in the United States court today and show why they should not be fined for contempt of court. Some time ago United States Marshni White attached a stock of hardware belonging to J. M. Burke. While the property was in the marshal's possession Sheriff Summers, claiming to be the assignee of Burke, levied on the goods, breaking open a building, it is alleged, in order to do so. He was helped by the other parties named, and that is how they happen to be mixed up in the trouble. The sheriff seems to have bad luck in getting into such scrapes, for this is the second time he has been called to answer for the offense of in-

terfering with the United States marshal.

Indian Agent Beck's Case. Attorneys were befone Judge Dandy yes-terday seeking to get a time fixed for the hearing of the injunction case against Wil-liam H. Beck, the Indian agent at the Winnebago reservation. It was announced that jury cases would be disposed of before any equity matters would be taken up. The in-junction is sought by the Flournoy Real Estate and Live Stock company, to prevent the Iddian department, through the agent, from interfering with the lease of about 40,000 acres of land executed by the Winnebagos to the plaintiff about two years ago. The reservation is in Thurston county. In cases where the land was not held in severalty the transaction was by a com-mittee appointed by the tribe. The contention of the complainants is that the Indians are citizens, and therefore they had full right to lease the lands in their own behalf and that the agent has no authority in the premises. It is promised that the argument of the case will bring out some interesting

pints relative to the status of the "wards"

of the government. Paying Kansas Pacific Coupons General Cowin was unable to tell Judge Dundy yesterday just what the govern-ment thought about giving the receivers of the Union Pacific \$1,500 a month each for their services, and asked that the matter be passed for a time. He was accommodated. He did say, however, that there was no objection to the order providing that \$350,000 in the hands of George Gould and Russell Sage be turned over to pay the interest coupous on bonds of the Kansas Pacific road, and the order was accordingly issued.

The Stumpfhmeyer case was about the only thing that attracted interest in the district court yesterday. FEDERATED BOARD FAILS TO MATERIALIZE

Chairman Petrie of the Brotherhood of Locomotive Firemen is in the City to Present Minor trievances to Super-Intendent McConnett.

C. A. M. Petrie, chairman of the Brotherhood of Locomotive Firemen of the Union Pacific system, is in the city on some matters of minor importance concerning the brotherhood. Mr. Petrie is not here in the interest of the federated board, but comes to consult with Mr. McConnell, superintendent of motive power and machinery of the Union Pacific, relative to several minor grievances which were not presented to the officials at the time of the annual meeting of the brotherhood in October last.

Mr. Petric, speaking of the rumor that the federated board would ask the court to restore the old schedules, said: "We are working harmoniously under the present schednies, and as long as this continues it would be useless to worry over matters that belong to the future entirely. We haven't been re-duced in wages, and do not feet that we will be; should, however, Mr. Dickinson go into court with a revised schedule for the differ ent organizations, of course the men would take some action to defend their present

It is believed President Cleveland will appoint Mr. Frederick R. Couders before the end of the week to fill the vacancy in the

government group of directors. Burlington Officials Enroute West Messrs, George B. Harris, vice president f the Chicago, Burlington & Quincy, George W. Holdrege, general manager of the B. & M., Frances Miller, general freight agent of the Chicago, Burington & Quincy, and John Francis, general passenger agent of the Bur-lington, left on No. 5 yesterday for San Francisco in the special cars "Lycoming" and "B 99." The Burlington has a number of important agencies on the Pacific coast, and there the officials try to visit once a year. With the midwinter fair coming on, and business on the increase, the officials above named thought a visit to Frisco at this

time would be about right, so they hastily decided to leave yesterday. They will be Knows Nothing of Dismemberment. Judge Kelly of the Union Pacific, speaking about the rumors of disintegration on the part of the Union Pacific, said that so far as he knew the situation was unchanged. In passing upon the point raised by the attorneys for the priscuer Judge Scott held that there was no bar to the prosecution; that the former prosecution was against that the former prosecution was against Norberg for contempt of court, while the case before the court was only wherein he was charged with a crime against the laws of the state. This point having been disposed of Judge Scott announced that the trial would proceed, but, to his great disgust, he discovered that the county atterney had made no provision for the appearance of the witnesses for the state, though several days ago the case was set for resterday. Upon learning the fact the court informed the public prosecutor that he could have until 2 o'clock in the afternoon to get his witnesses into court and that if they were not there at that time the that if they were not there at that time the case would be dismissed.

Some times it does seem as if we were paid good wages, but when the year is brought into account the average wages is hardly compensation for the work done. Sometimes a fireman makes as high as \$110 per month, but this is at times when harvests are good, when the move ment of stock is excellent, and when all the conditions are perfect.
