It was then shown that the states of Pernambuco, Bahia, Santa Catharina, Rio Grande, and the majority of the population of Minas Geraes, San Paulo and a part of the city of Rio Janeiro favored a return to the monarchy. It was thereupon decided that the efforts of the insurgents should be directed to that end. The fact that Genera Pego, a well known monarchist, was in com mand of a division under President Peixoto, and that Colonel Mendes, a violent opponent of republicanism, commands the national guard, is positive proof that there was no intention, when the revolutionary movement first broke out, of any attempt to re-establish the monarchy.

## FIND OF THE LONDON POLICE.

Twenty-Four Pounds of Dynamite in

Metal Box with Fuses A tached. LONDON, Dec. 5 .-- In connection with the arrest of a man at Hampstead yesterday the sheriff's officer searched a room at 27 Chancery lane belonging to a man of the name of Schneider, who is reported to have just arrived from the United States. When Schneider saw the officer coming he decamped, and the officer searched his room. Among the goods found was a tin can containing dynamite and inclosed in two wooden boxes. They were taken to the Bow Street police station.

There the dynamite was placed in a cis tern of water and it fizzed and foamed over the side of the cistern. The police afterwards dispatched the soaked dynamite to the government explosive laboratory at Pounsiow in a cab where it was examined by experts who declared that the tin can of explosive was filled with fuses and had everything complete for use and would have had terrible destructive effect had it ex-

The police are engaged in an active search for the man in whose lodgings, not far from the Law Courts, the explosives were discovered, and the impression is gaining ground that the police have really discovered, accidentally, a plot to cause a dynamite outrage which may have had for its object an explosion in the Law Courts. It is reported this afternoon that the police contemplate making a large number of arrests today or within the near future.

Inquiries in Irish circles soon after the discovery of the infernal machine became known show that the Irishmen' scoff at the idea that Schneider had any connection with the extremist section of the Irish nationalists, saying that his name was sufficient to class him as a foreign anarchist, and it would probably show that if the explosive found in his lodgings was really an infernal machine it was probably sent to London by

them of a suitable government and the ex ercising of the control over them, "The most the United States could do," continued Mr. Dolph, "if it did not care to annex the islands, was to withdraw its support of the provisional government and allow it to take ts own course." # DEMOCRATS ARE LOYAL.

They Will Sink Minor Differences to Ge the Tariff Question Settled.

WASHINGTON, Dec. 5.-The gathering of members of congress offered an opportunity to arrive at the real sentiment of the demo cratic party on the new tariff bill which has been presented by the majority of the committee on ways and means. There are, of course, democratic members of the bouse who are not satisfied with the bill, and who will no doubt vote for some changes, yet i s apparent from the way they talk that if the bill should come to a vote in its present form it would pass with few dissenting members among the democrats. If the republicans have any hope that there is suf ficient dissatisfaction to defeat the bill they have made a mistake, for the der noerat seem determined to have the bill as soon as

it can possibly be passed. It seems not to be so much the question of the rates as the settlement of the whole question that the democrats are most inter-ested in. A member of the demo-cratic majority of the committee voiced this sentiment of a number of demo-crats when he said the bill would not need much discussion in the house, but what was wanted was to get the bill over to the senate wanted was to get the bill over to the senate at as early a date as possible. He indicated that even if it should be necessary to apply the closure rule that it was very inkely that the democrats would put the bill through without very much debate. It would, of course, be necessary for the democrats to have behind them a good work-ing majority, or at least a quorum of the house in favor of the bill.

# Secure a Quorum Easily,

It now looks as if there would not be much difficulty in securing such a quorum by the talk indulged in by the democrats that have thus far given every indication of support and of those who said nothing. In all the number who have been heard talking on the subject, none so far, even in private conver-sation, have said that unless some modification, have said that unless some morna-cations are made they will oppose the bill. Of course, all is not sentiment among the democrats. There are plenty of them who say they will make an effort to get some say they will make an effort to get some-thing for their own particular district, but they will support the oill as a party measure. The president in his message points out a mothod they might adopt when he says that it is not expected that all can be satisfied, but that in the great issues and upon a great question some satcrifice must be made for the benefit of the great principle in-volved. The president's approval of the Wilson tariff bill will go a long way toward uniting the party if there had been any differences of opinion of any remarkable degree.

degree. What is most often heard in connection with the tariff bill is that the members of the ways and means committee wero charged with the daty of preparing a bill, and that as they made a study of it, they ought to know what was best for the party. Those who do not desired to know so much Those who do not pretend to know so much about it must be content with what the party has done through its committee, for it is probable that the committee has made a most thorough and cavoful investigation, and is batter able to judge what is wanted than those who have not given the matter any consideration.

# Se .ate Committee Will Discuss Tariff.

Senator Voorhees will have charge of the tariff bill in the senate. At a committee meeting he announced his purpose to handle the bill. Another important development of the meeting way the announcement of a determination on part of the democrats of

News of Willis' Waiting Unwelcome at Washington.

WASHINGTON, Dec. 5 .- The State department was evidently already informed of the news received in the Associated press dispatch from Honolulu by way of Port Townsend, so far as it conveyed the intention of Minister Willis to take no further steps toward carrying out his instructions until he should hear further from the department. But so far as it conveyed the public utter ance in Honolulu by the minister of his intentions, it was news to the department, to the president and his cabinet. There were indications to show it was not agreea ble news, and the impression was conveyed that the administration is rather disap pointed at the manner in which Mr. Willis has thus far conducted his mission.

It is evident that the State department received by the last steamer (the Alameda) the news that Mr. Willis had determined to defer the carrying out of his instructions until he had heard further from his govern ment.

It is a fair presumption that the revenue cutter Corwin carries to him the further instructions for which he asks. The paragraph in the president's message referring to Hawaii was written after the additional instructions to Minister Willis had been sent. This paragraph may be taken to reflect the spirit of the instructions. By this it will be seen that whatever doubts or apprehensions Minister Willis may have expressed of the accuracy or good foundation of the Blount report, President Cleveland has not lost any of his absolute faith in the accuracy of the Blount investigation and the justness of his conclusions. It is highly probable, therefore, that the new instructions are a repetition of the old.

#### Only Expected to Mediate.

An Associated press representative received today, from a reliable source, an timation of the intended course in this mat-ter. The extent of the actual force intended employed in behalf of reseating Lilluokalani on the throne has probably been exaggerated. The purpose of the adminis tration is believed to rather act as a mediator between the two parties in dispute and try to prevail upon them to agree between themselves. This was con-tingent upon the confident belief based on the explicit assertion contained in the las letter from Mr. Blount, that the provisiona setter from Mr. Biount, that the provisional government would fall to pieces when noti-fied that annexation was impracticable, leaving an open dispute between the ex-queen and the provisional leaders. In that letter, which has not yet been published, Mr. Blount, under date of Honoiulu, July 21, with a store of the Unuted States is said: "The action of the United States is awaited by all as a measure of necessity, This condition, it can be assumed, will remain until the proposition to annex is ac cepted or rejected. In the latter contin gency no sudden movement is likely t occur. The present government can onl rest on the use of military force, possesses of most of the arms on the islands, with a small white population to draw from to strengthen it. Ultimately it will fail, with-

strengthen it. Ultimately it will fail, with-out fail. It may preserve its existence for a year or two, but not longer." Enough is known of Minister Willis' im-pressions, gained since his arrival in Hono-iulu, to make it certain that he does not agree with Mr. Blount in this, at least. Whether this impression caused his determi-tation to await further instructions from nation to await further instructions from Washington is not a matter of conjecture.

## Hawailans Well Pleased.

EL PASO, Dec. 5 .- The publishers of the Herald and Tribune, whose carriers were arrested last night at the bridge, were notified today that the arrests were an error, as only the Times was to be proscribed, and the government would make money reparation. The Herald has never published paragraph of revolutionary news, but the Tribune published the manifesto of the evolutionists. This afternoon two employe of the Times went over into Mexico with papers to deliver, but they were taken in charge at the bridge and marched up to the office of the commandant at the custom house. The papers were confiscated and th

## \*Paymaster Navoa Suicides. Sr. Louis, Dec. 5 .- A special to the Re

public from the City of Mexico says: One of the sensations of the day is the suicide of Colonel Navoa, paymaster in the War de partment in this city. Navoa wrote a letter to his brother and one each to General self in his office and blew his brains out with a pistol. It was found that he was a defaulter in the sum of about \$25,000. He was a soldier of the old guard, a warm friend of General Juarez, whom he followed in all his checkered career and was always esteemed an incorruptible patriot and gentle-man. Several arrests have been made in connection with this affair, including officer of rank.

## Embezzled County Funds.

TOLEDO, Dec. 5 .- The grand jury of

Putnam county has returned twenty-four indictments against ex-Treasurer O. W Crawfis, ex-Auditor W. W. Place, ex-Senator W. W. Sutton and O. B. Ramey and Henry Gerdman, the latter two merchants of Ottawa, for embezzlement of county funds aggregating \$25,000. Crawfis gave ball, Ramey has fied to West Virginia and the others have not yet been arrested. The indictments proved a sensation, inasmuch as many of the parties implicated were not suspected by the public.

# Had Cut ills Throat.

The men had hardly started in this direction when they heard a sound as if some one was trying to cut a viece of cloth. This was followed by a gasp and a heavy fail. The men rushed toward the place from which the sound came and found Anderson breathing his last, with a terrible looking wound in his throat. At his side lay a long bladed pocket knife which was covered with blood.... The body was lying face downward in the subterranean passage under the sidewalk on Sixteenth street. Turning to the left the men discovered the body of a woman all huddled up in a little coal bin, where it had been dragged by the murderer after he had committeed the awful deed.

Anderson was still writhing in the agony of death and the woman made two or three gasps after being discovered and then both were dead. The coroner soon arrived on the scene.

## No One Knows the Victim,

The bodies were conveyed to the morgue, but at a late hour last night the identity of the woman had not been discovered. It is thought that she is a woman known as 'Swede Annie," who lives cast of Washington hall on Fighteenth street. A reporter called at the place last night, but could get

no response to his knocks on the door. Anderson has been working for Heimrod & Hanson for about nine months and has been regarded as a faithful employe. He has had no trouble with any woman so far as is known, but his brother says that he was in love with a young girl who lives near Twentieth and Ohio streets. He has a brother who is coachman for Mr. William Coburn, but his relative could offer no explanation of the tragedy. His brother lived with him at Twenty-first and Webster streets. He was a single man, about 25 years of age.
